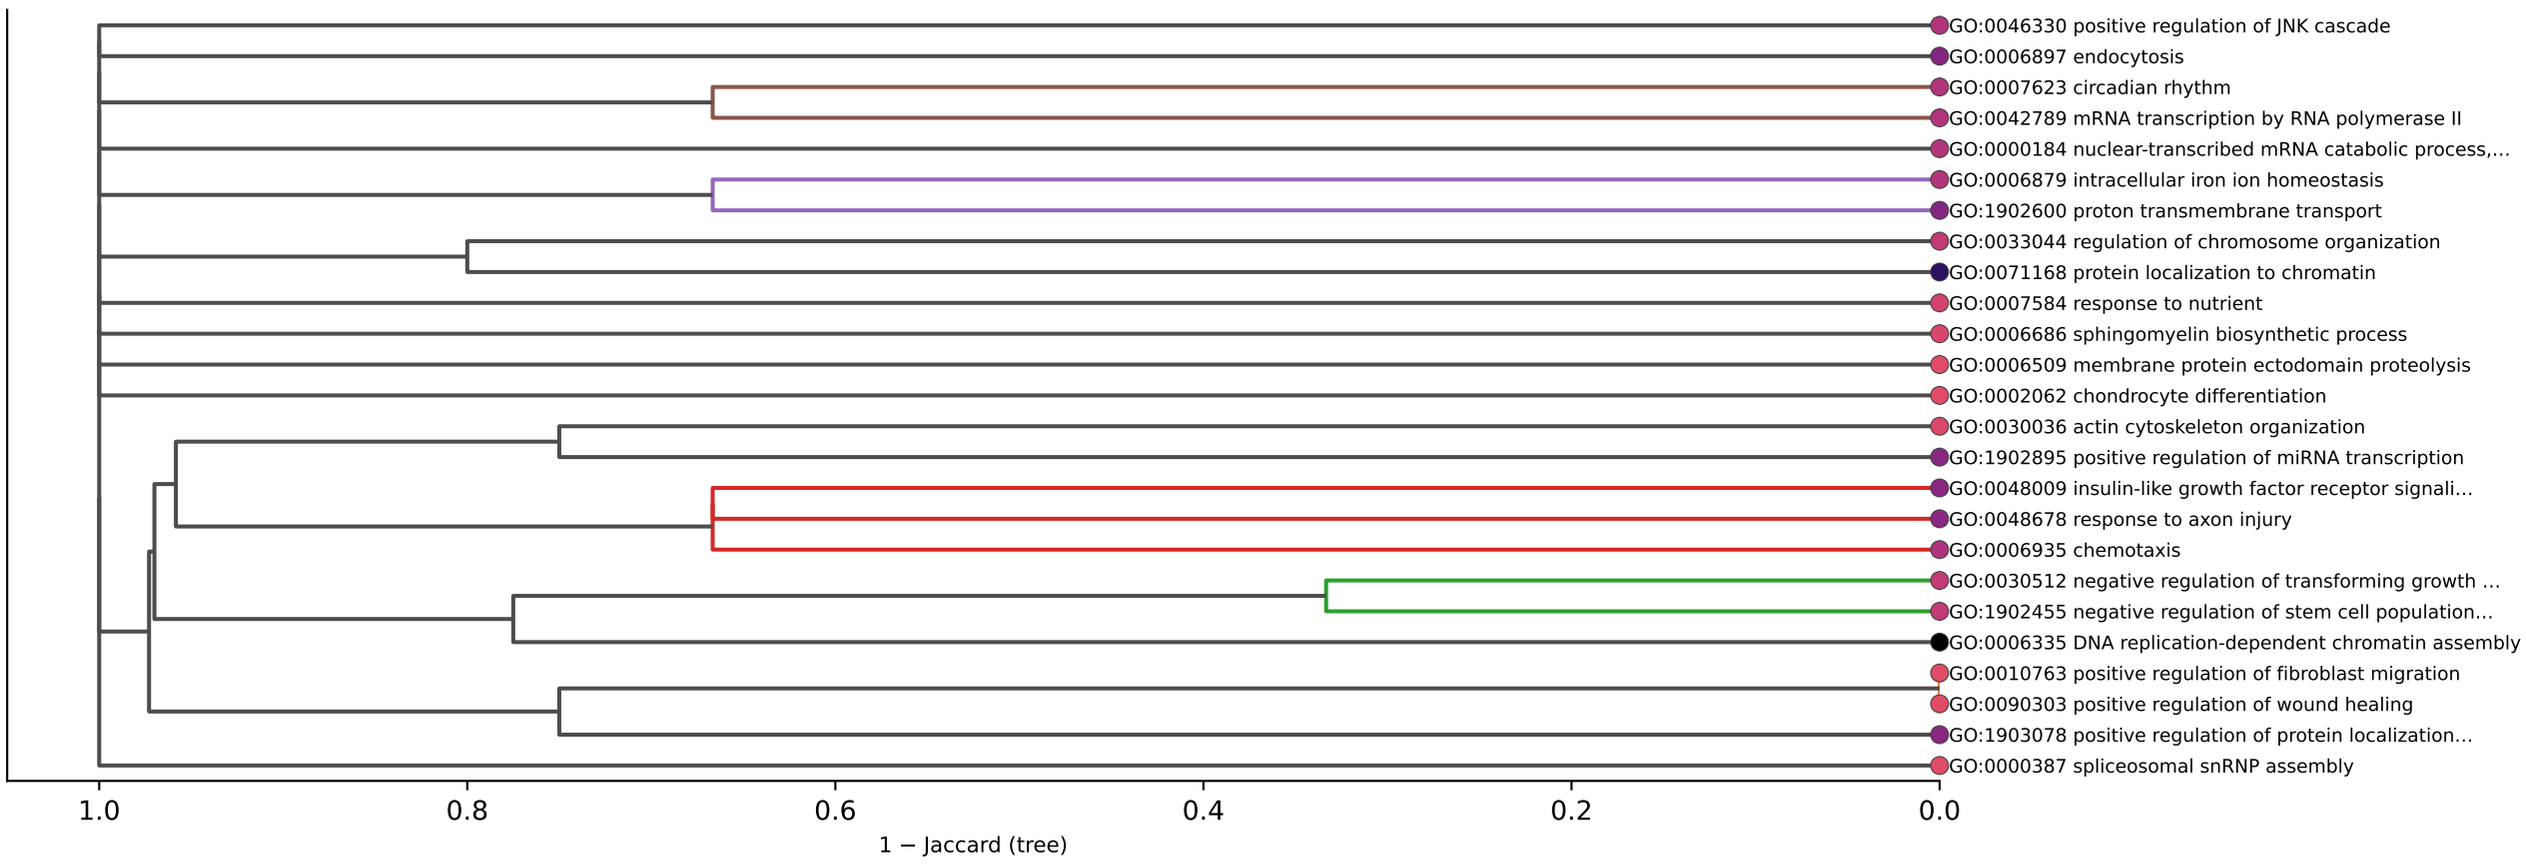
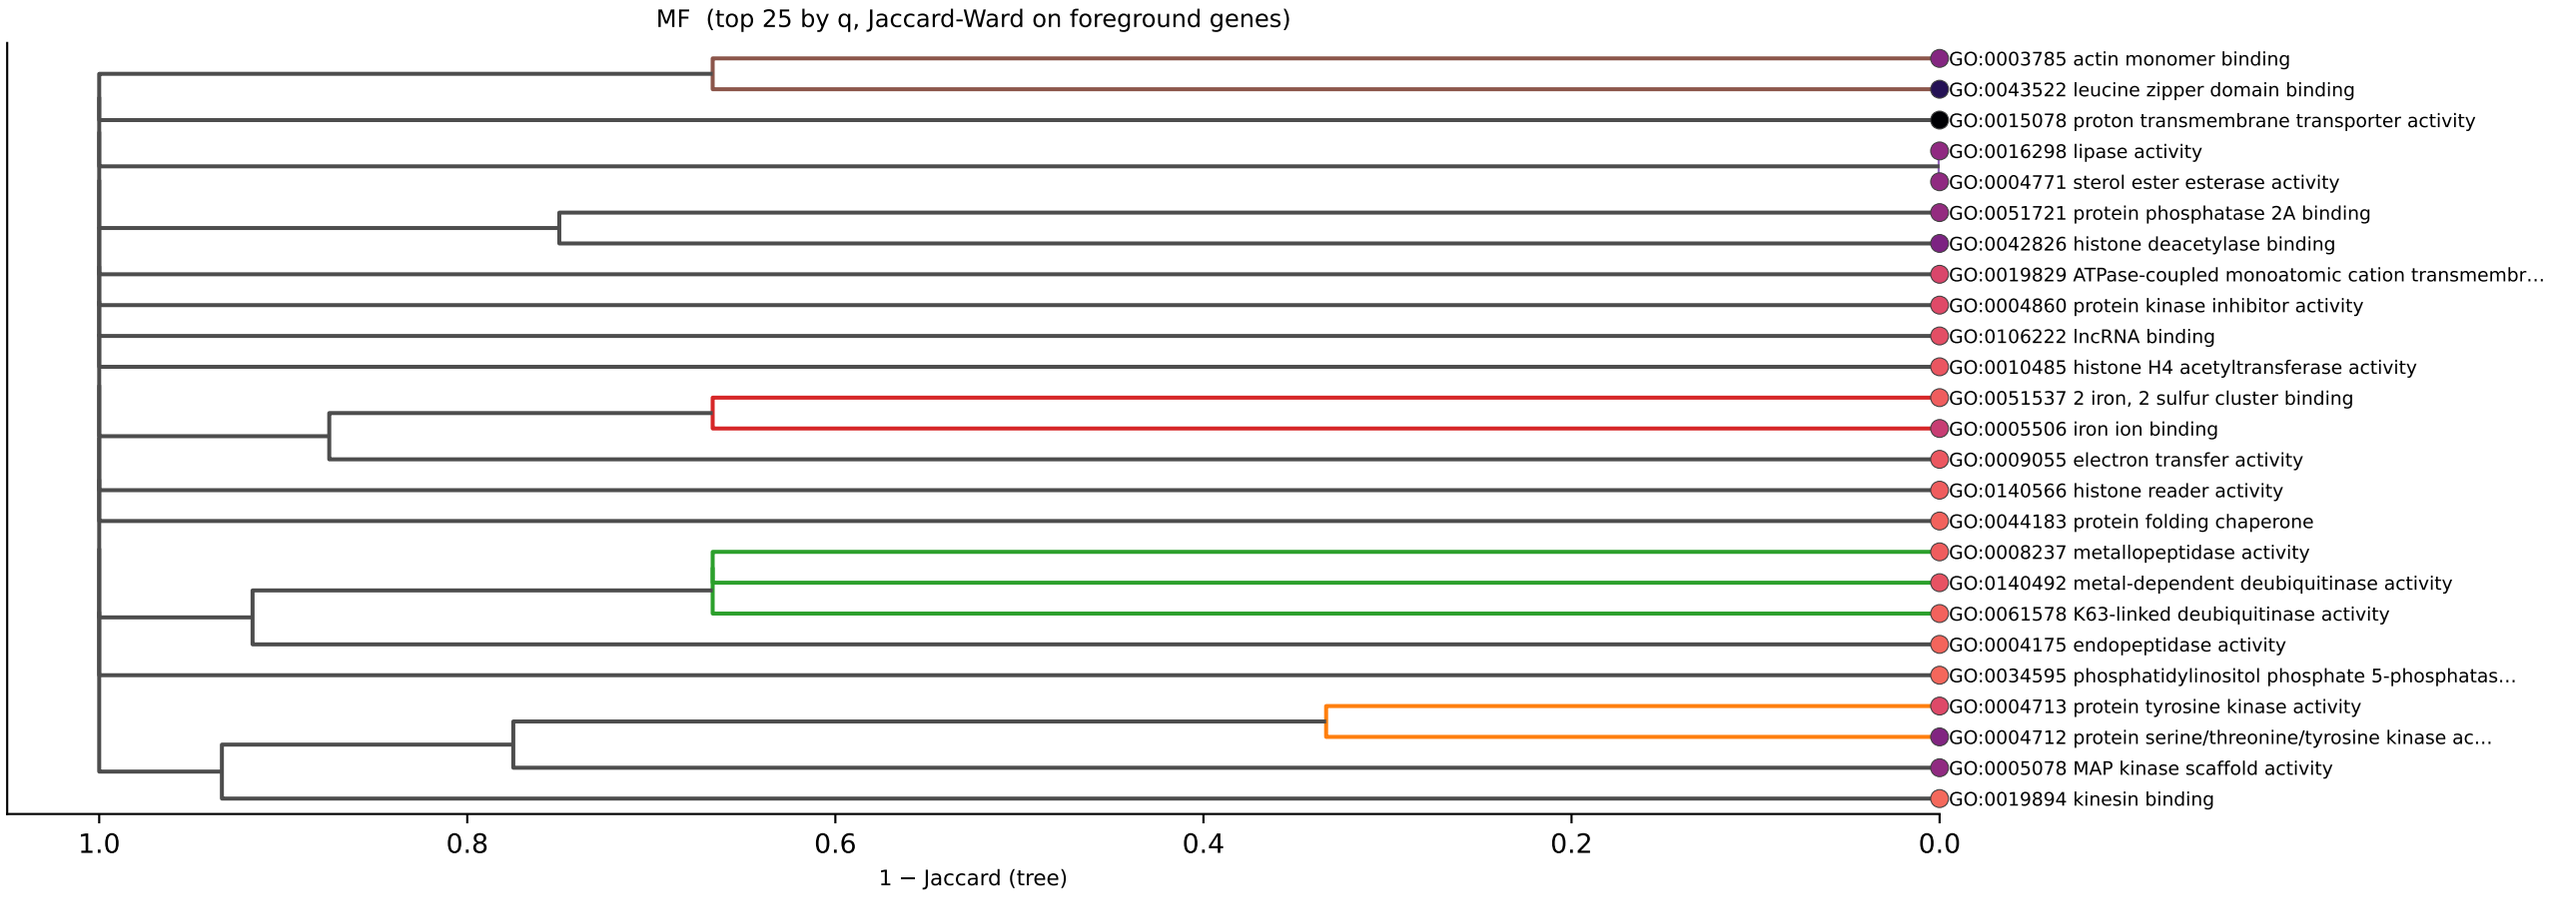
Annelida — GO term clustering by shared foreground genes

BP (top 25 by q, Jaccard-Ward on foreground genes)

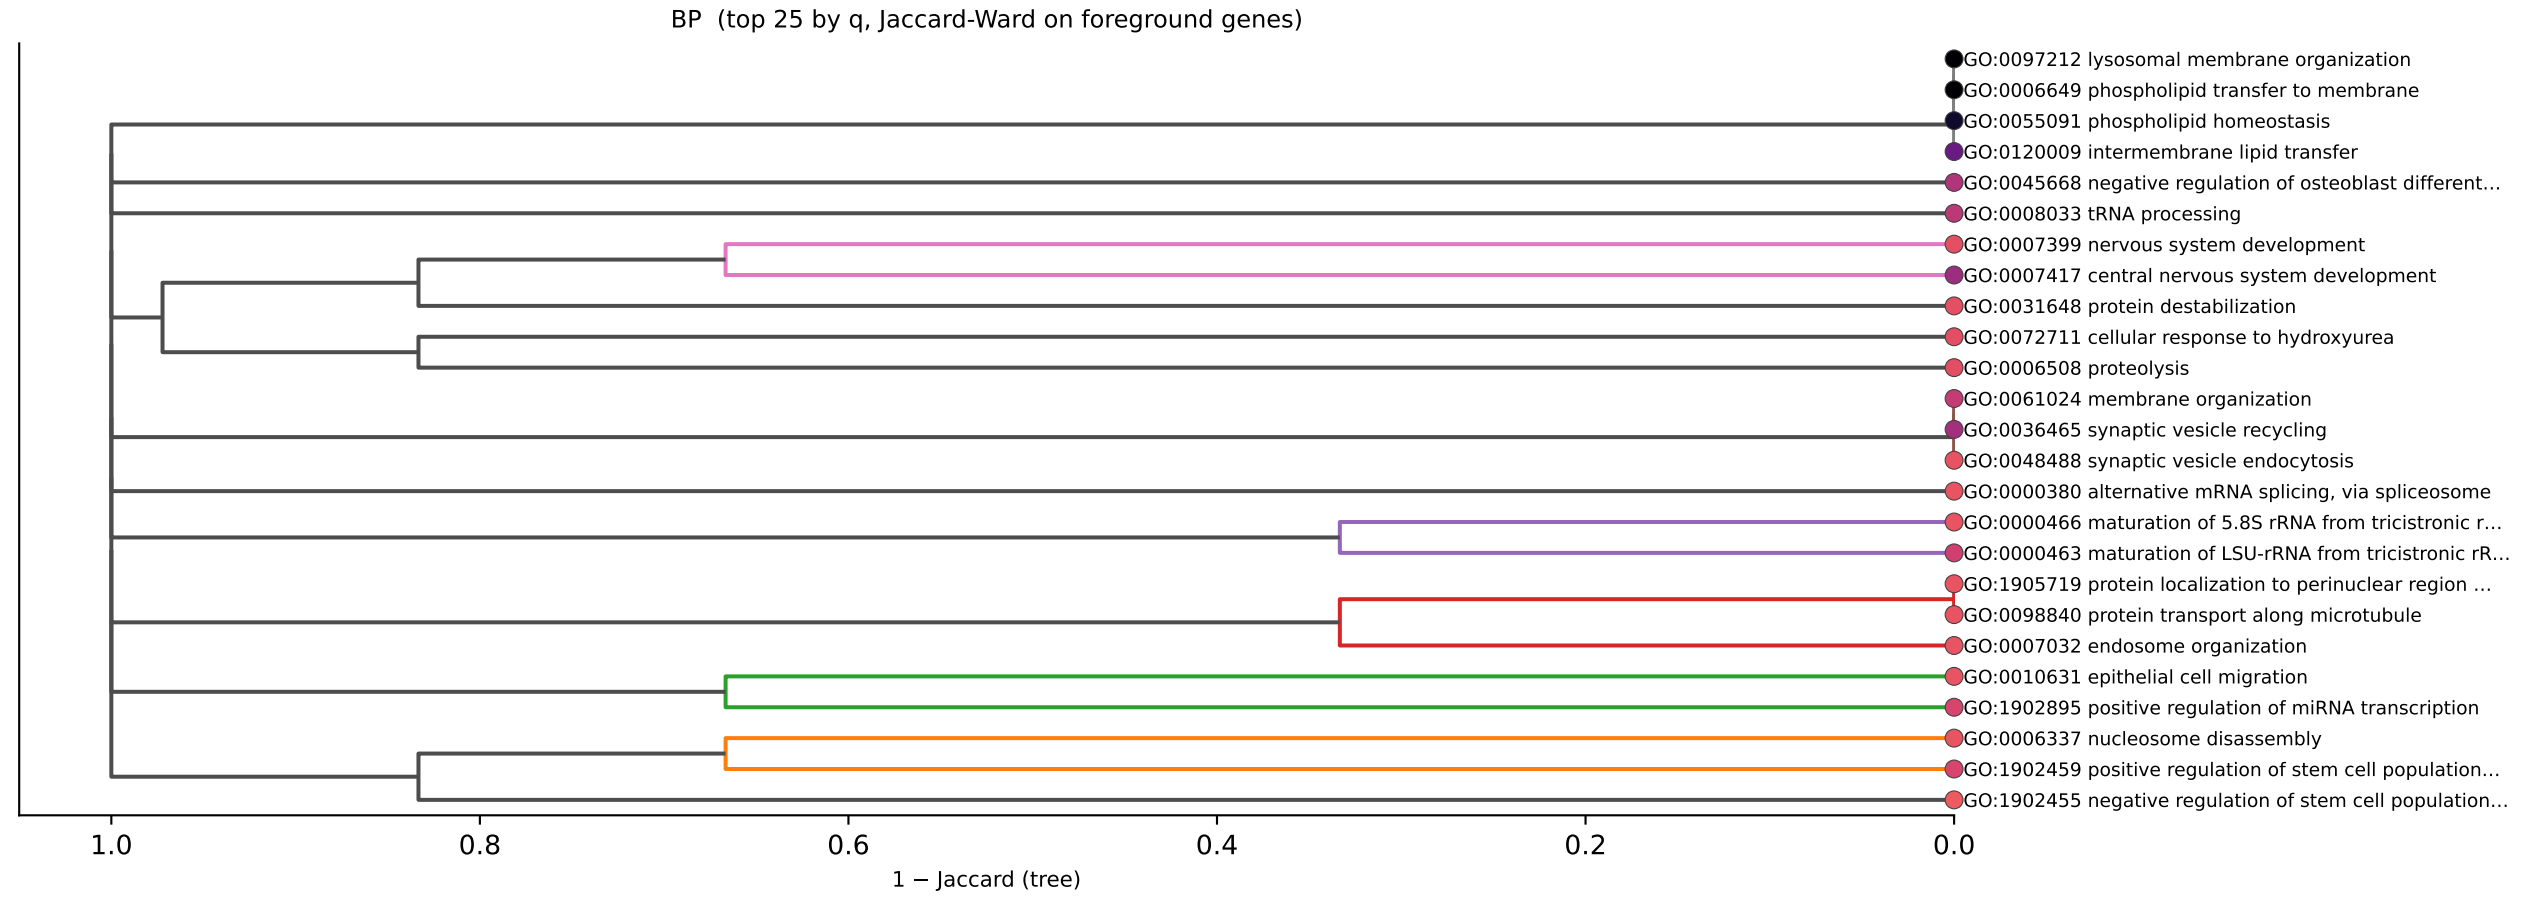


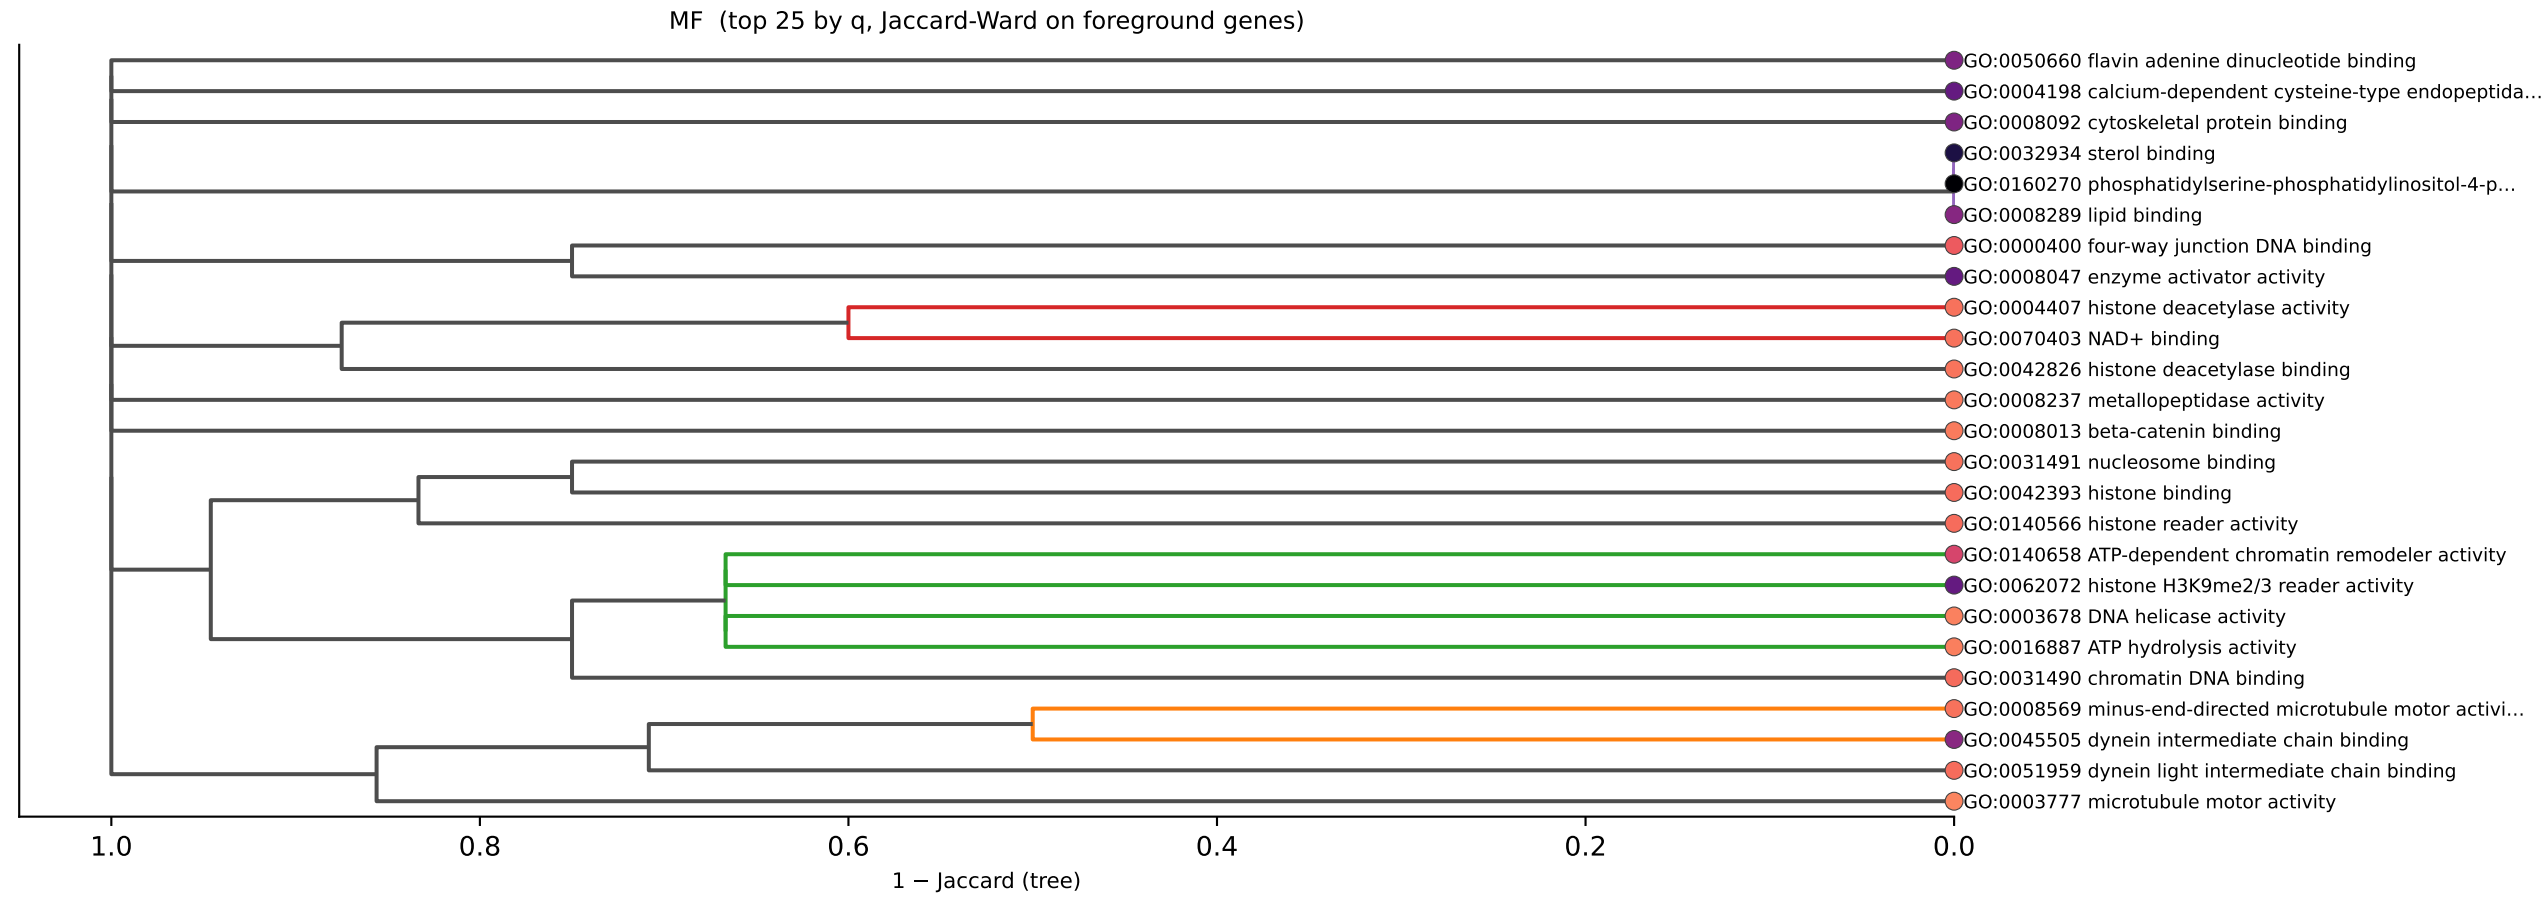
MF (top 25 by q, Jaccard-Ward on foreground genes)

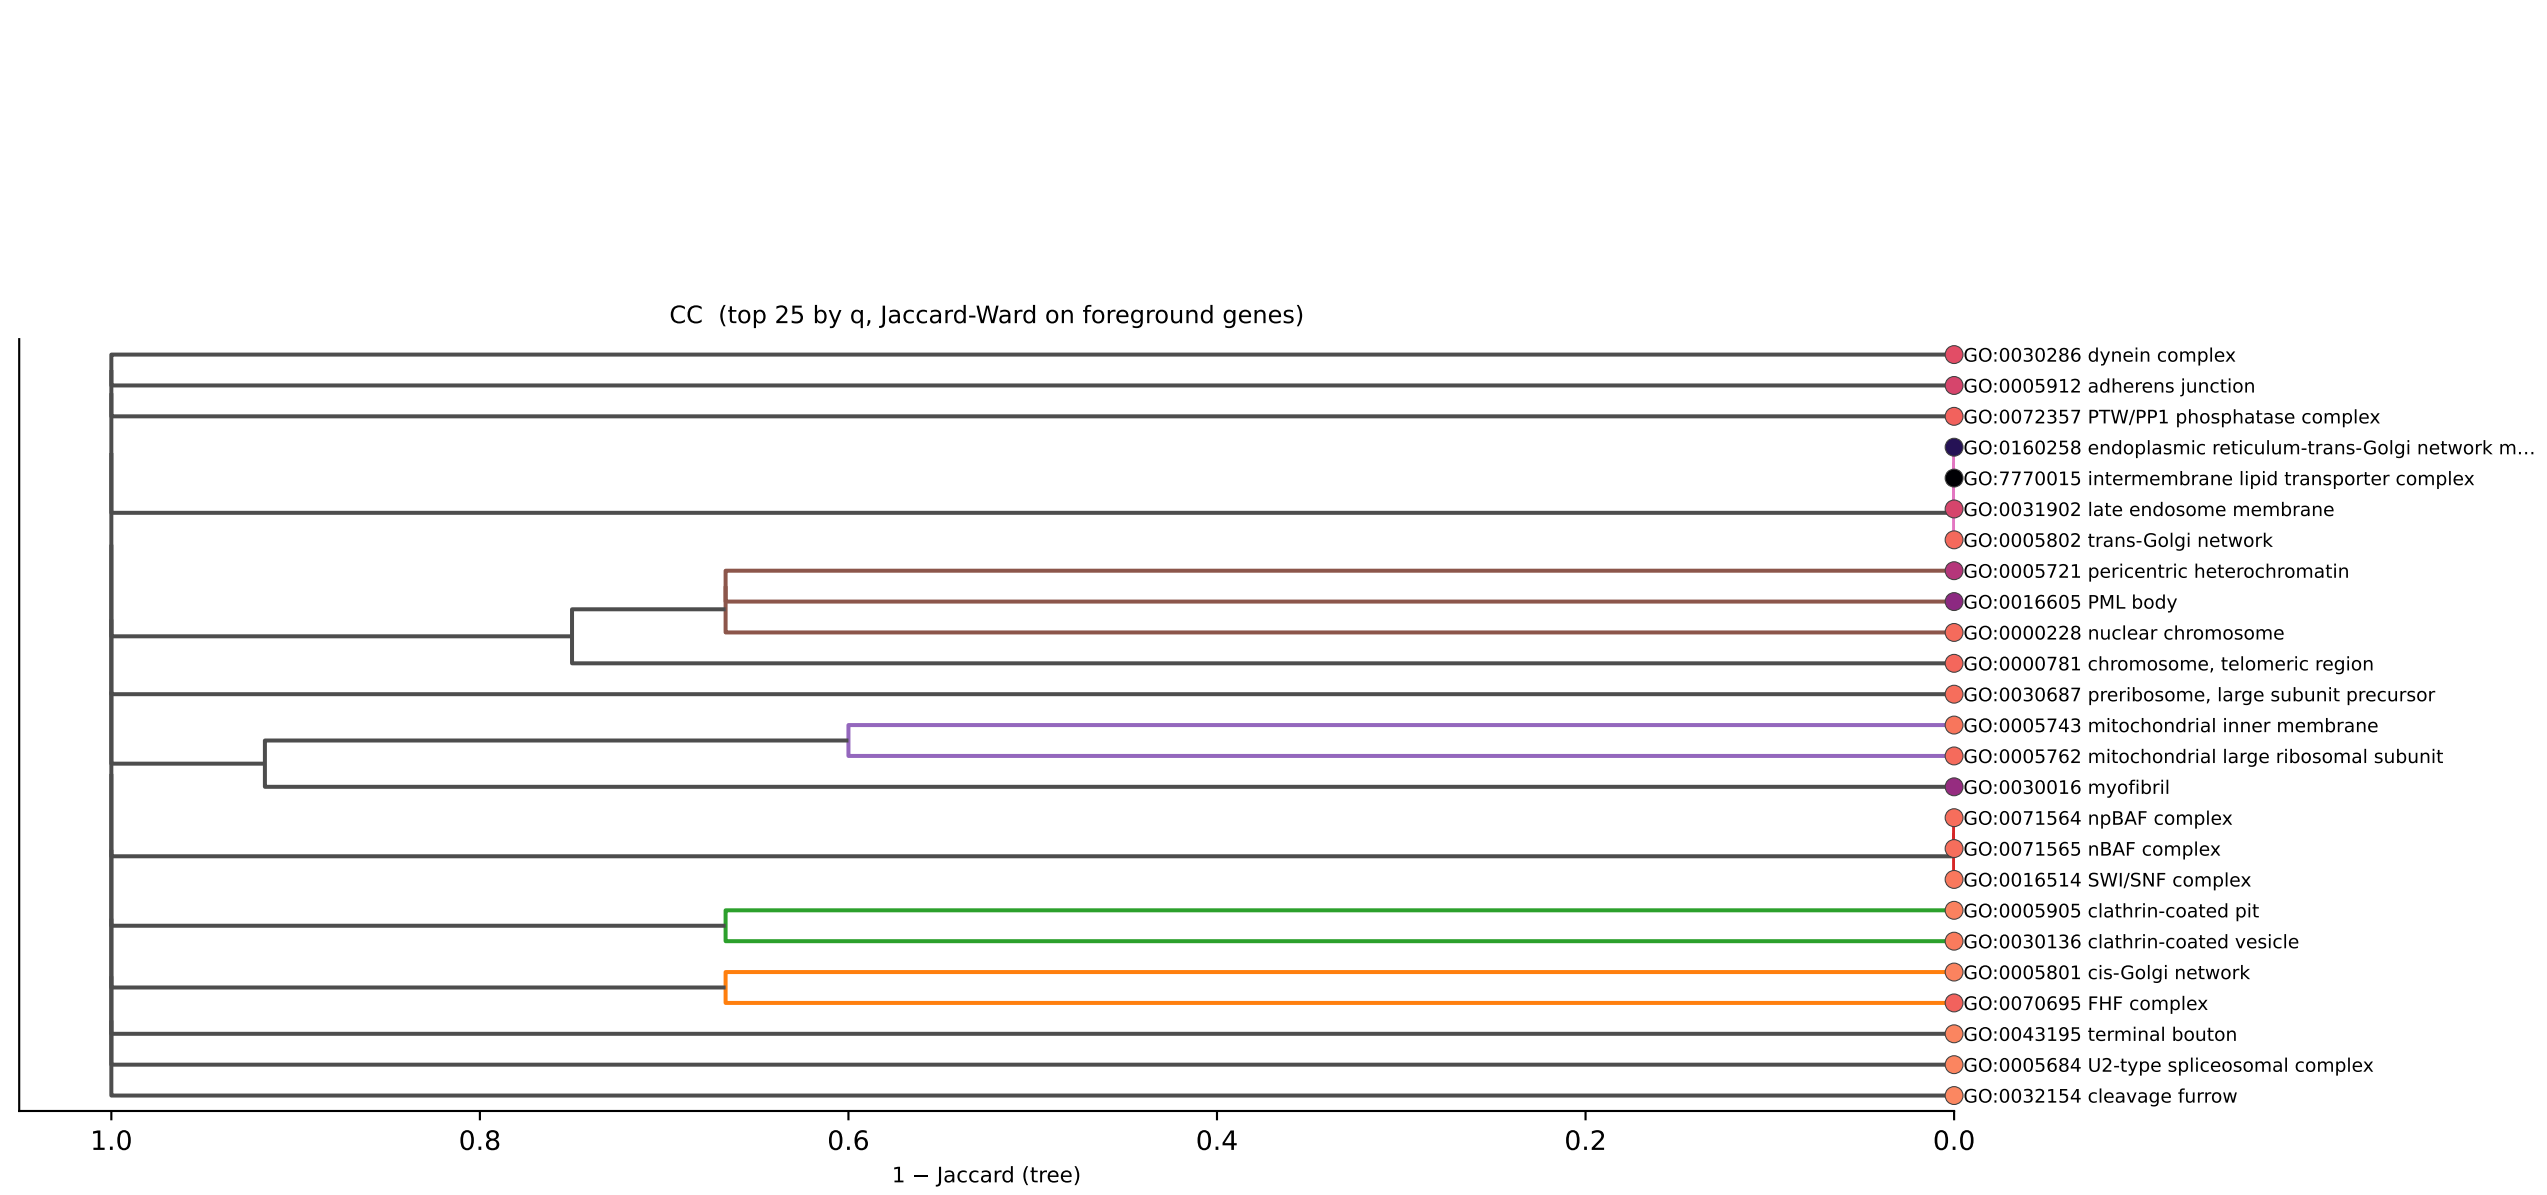


CC (top 25 by q, Jaccard-Ward on foreground genes)

Arthropoda — GO term clustering by shared foreground genes

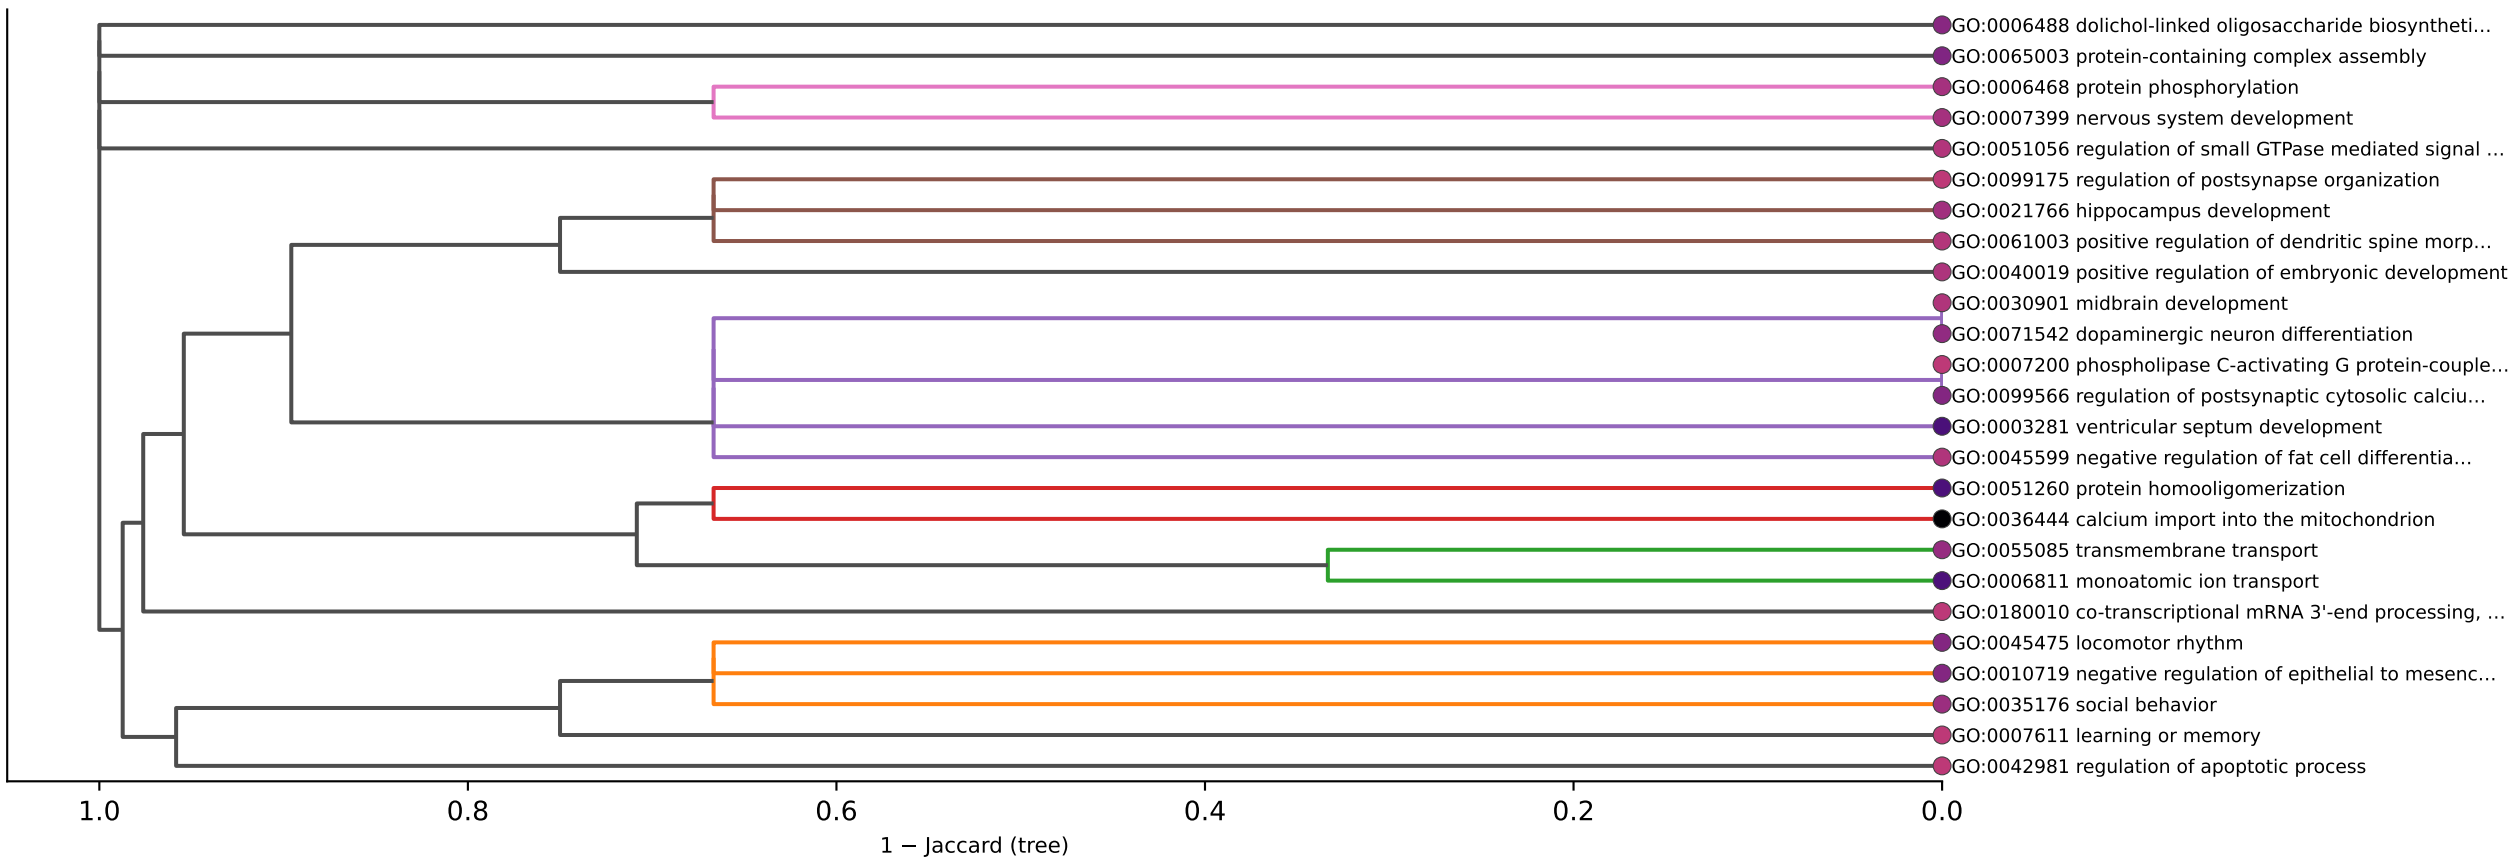




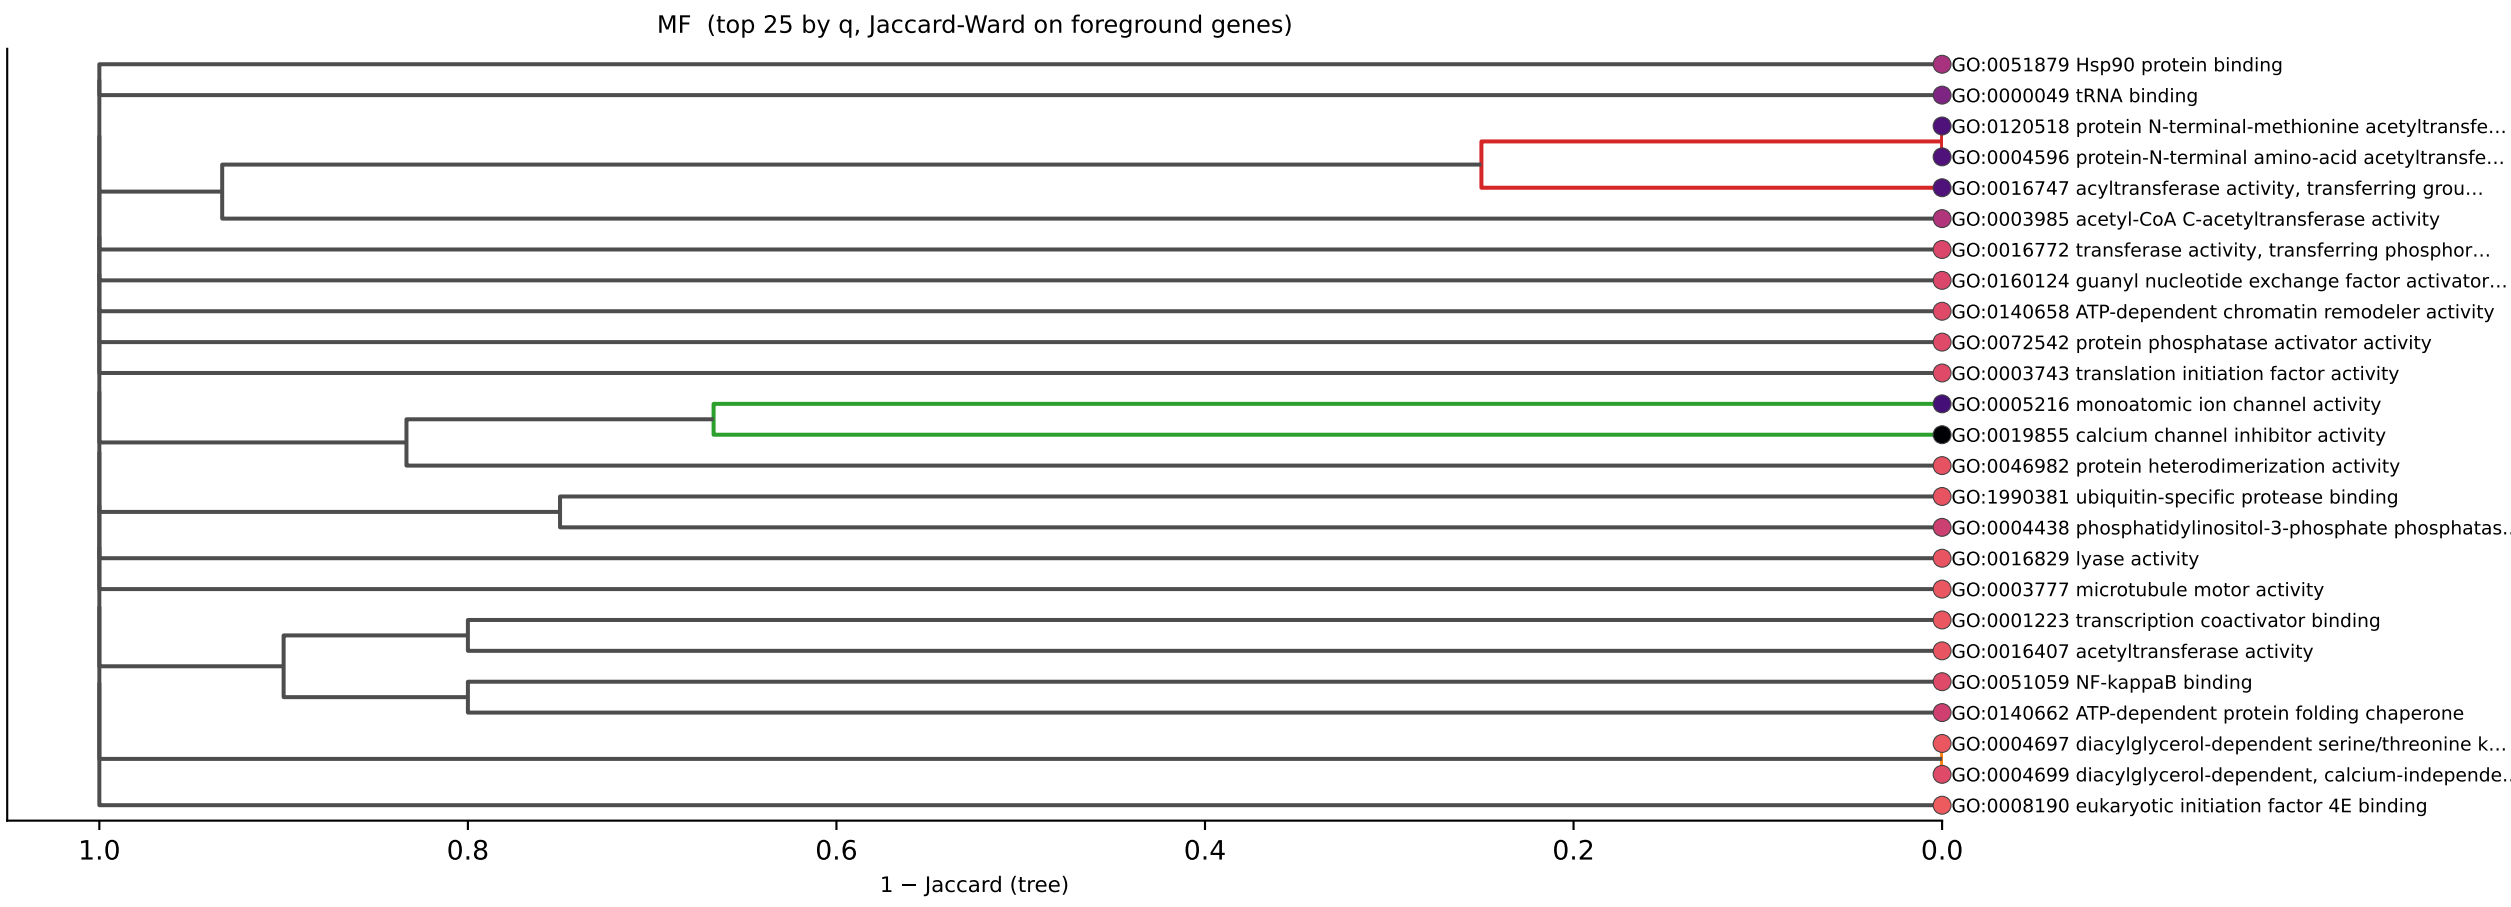


Bilateria — GO term clustering by shared foreground genes

BP (top 25 by q, Jaccard-Ward on foreground genes)

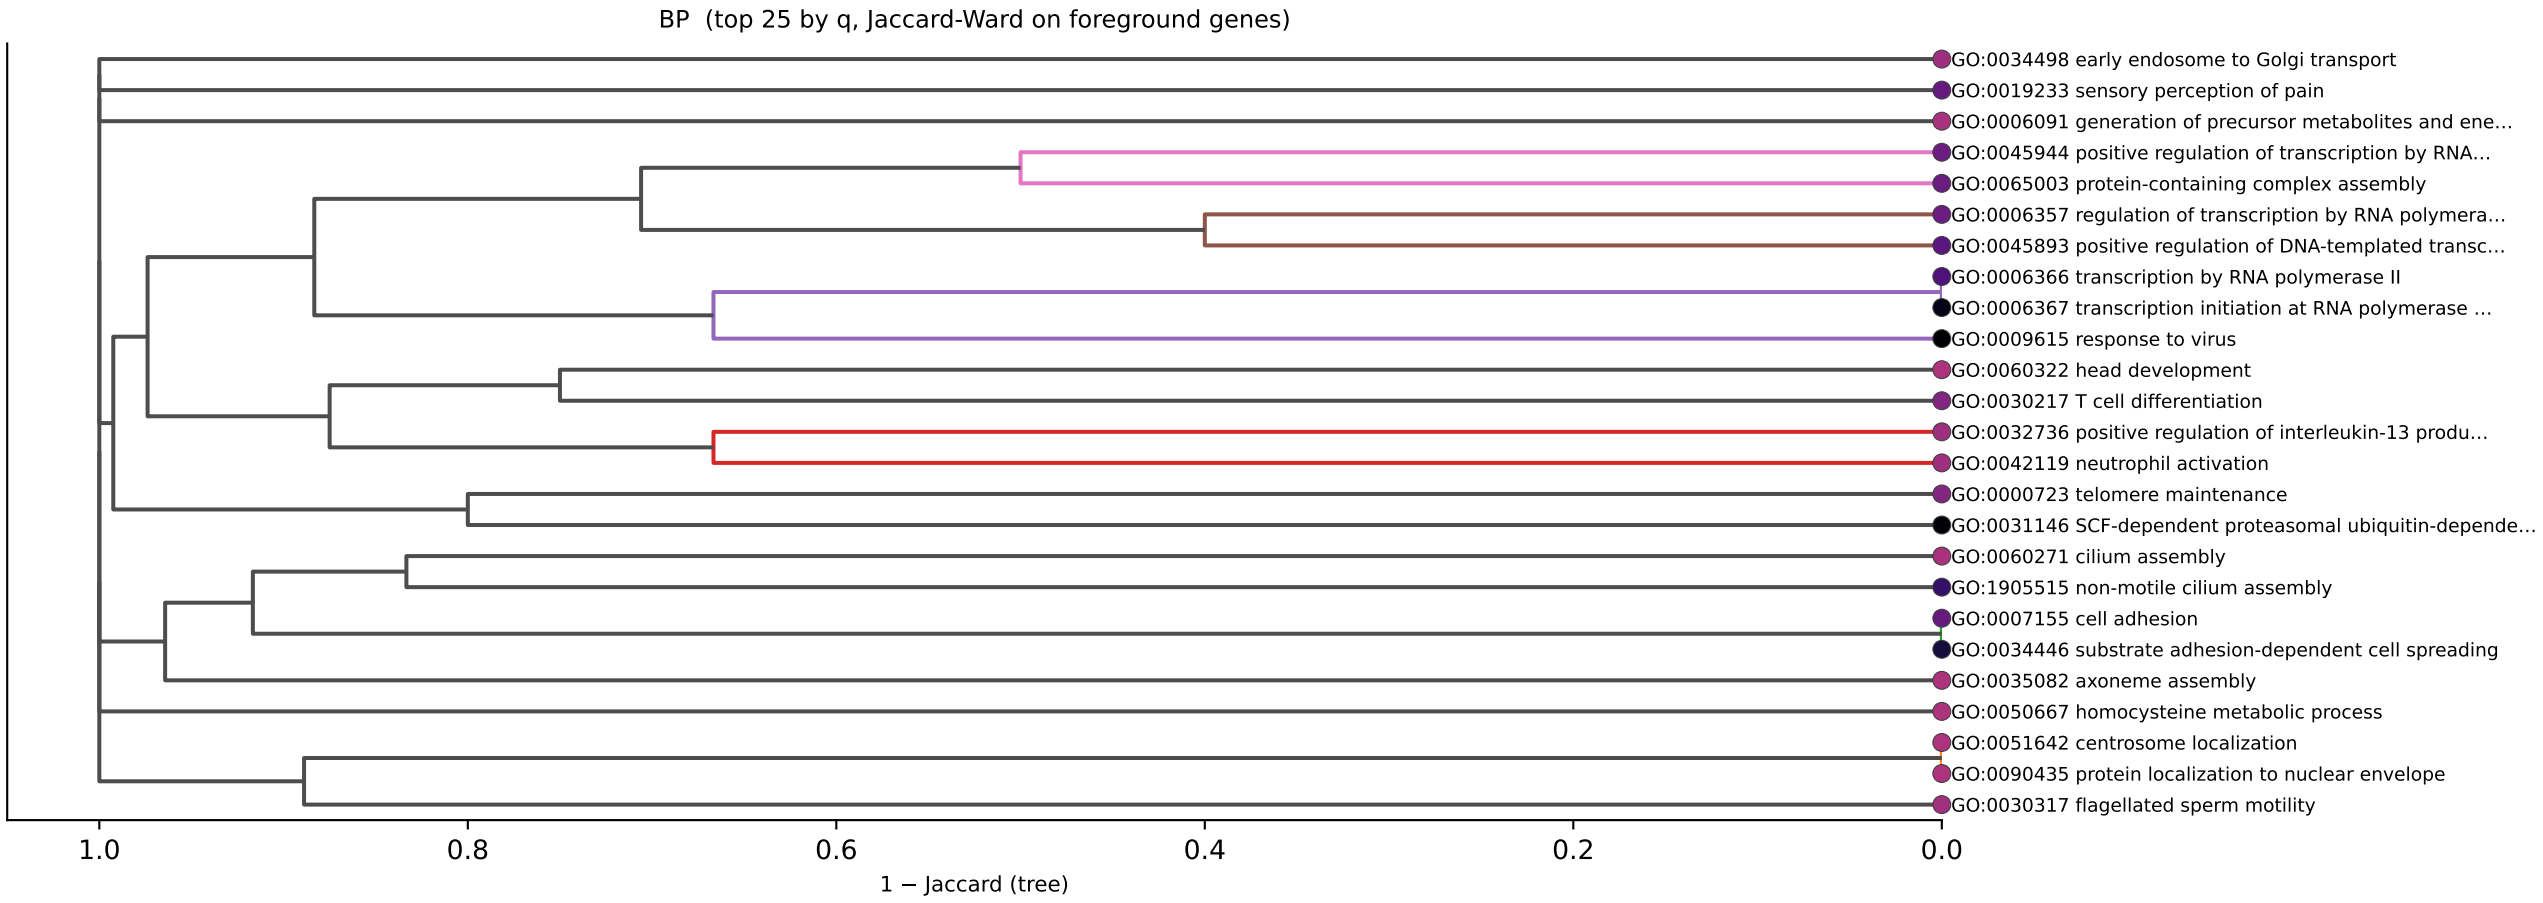


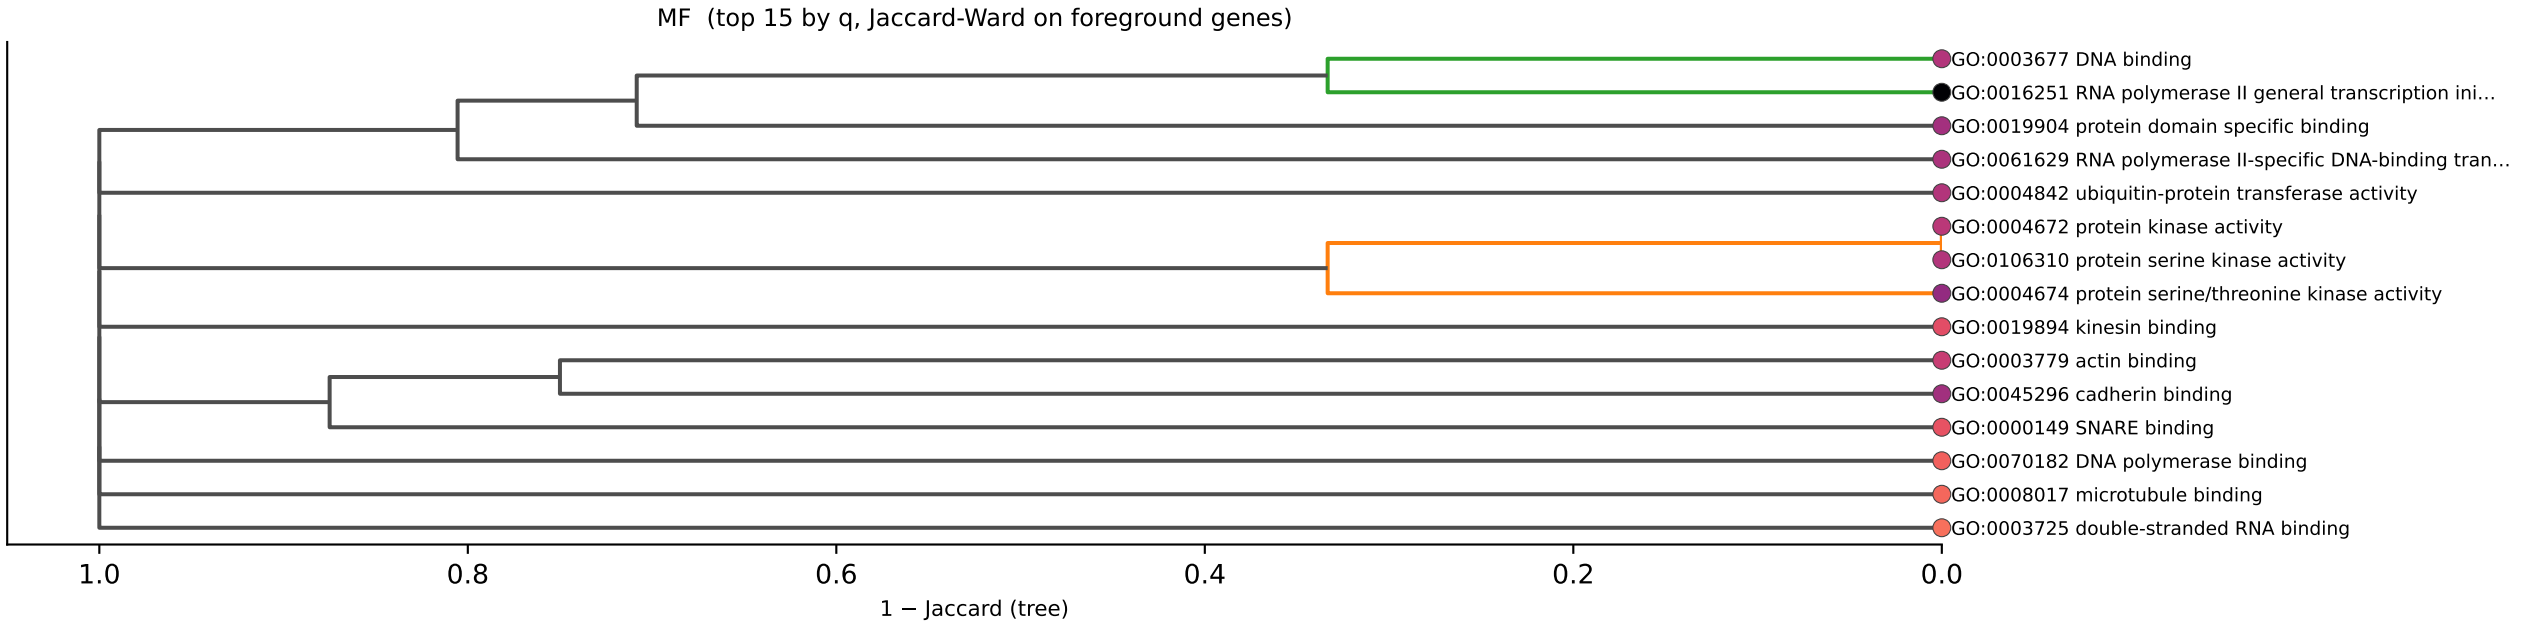
MF (top 25 by q, Jaccard-Ward on foreground genes)

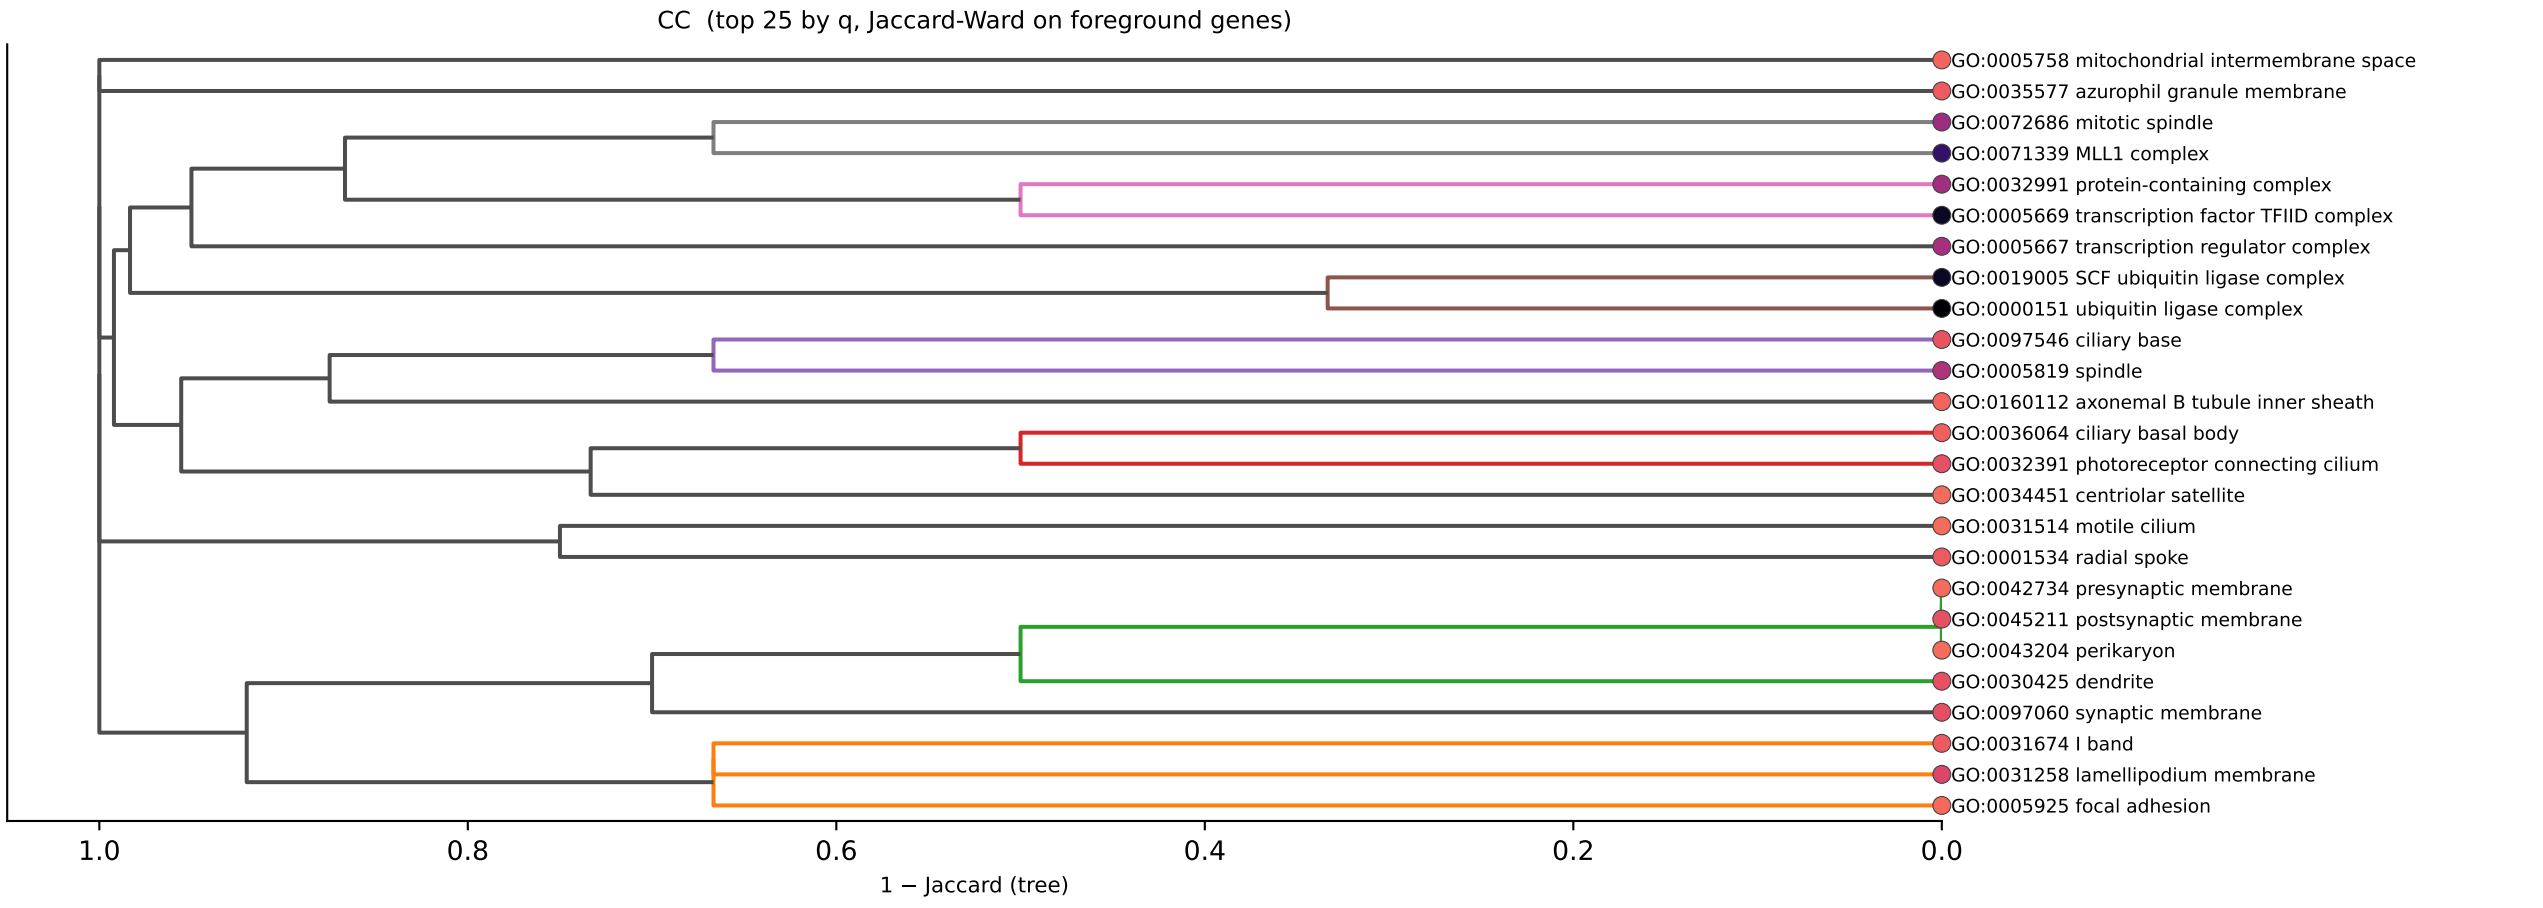


CC (top 25 by q, Jaccard-Ward on foreground genes)

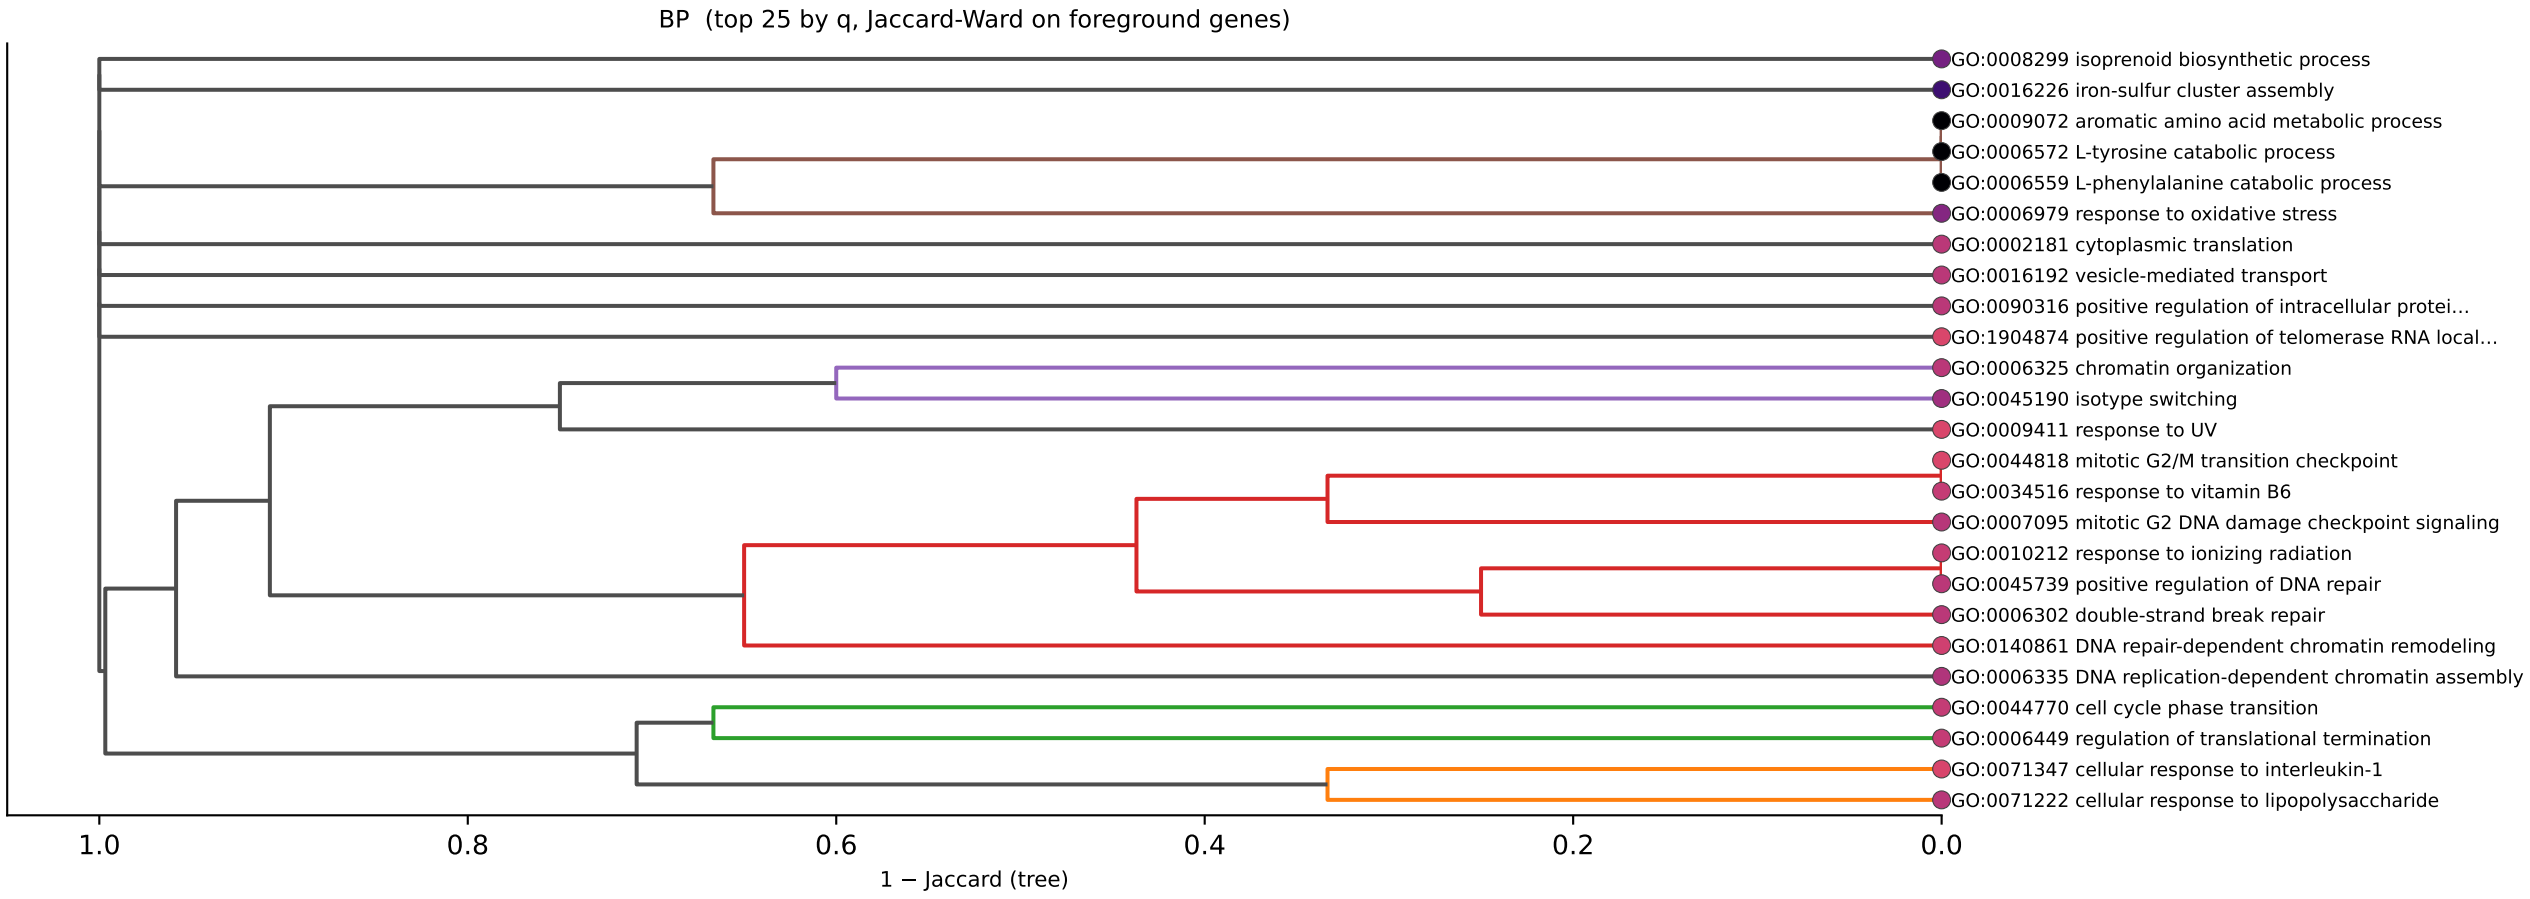
Bivalvia — GO term clustering by shared foreground genes

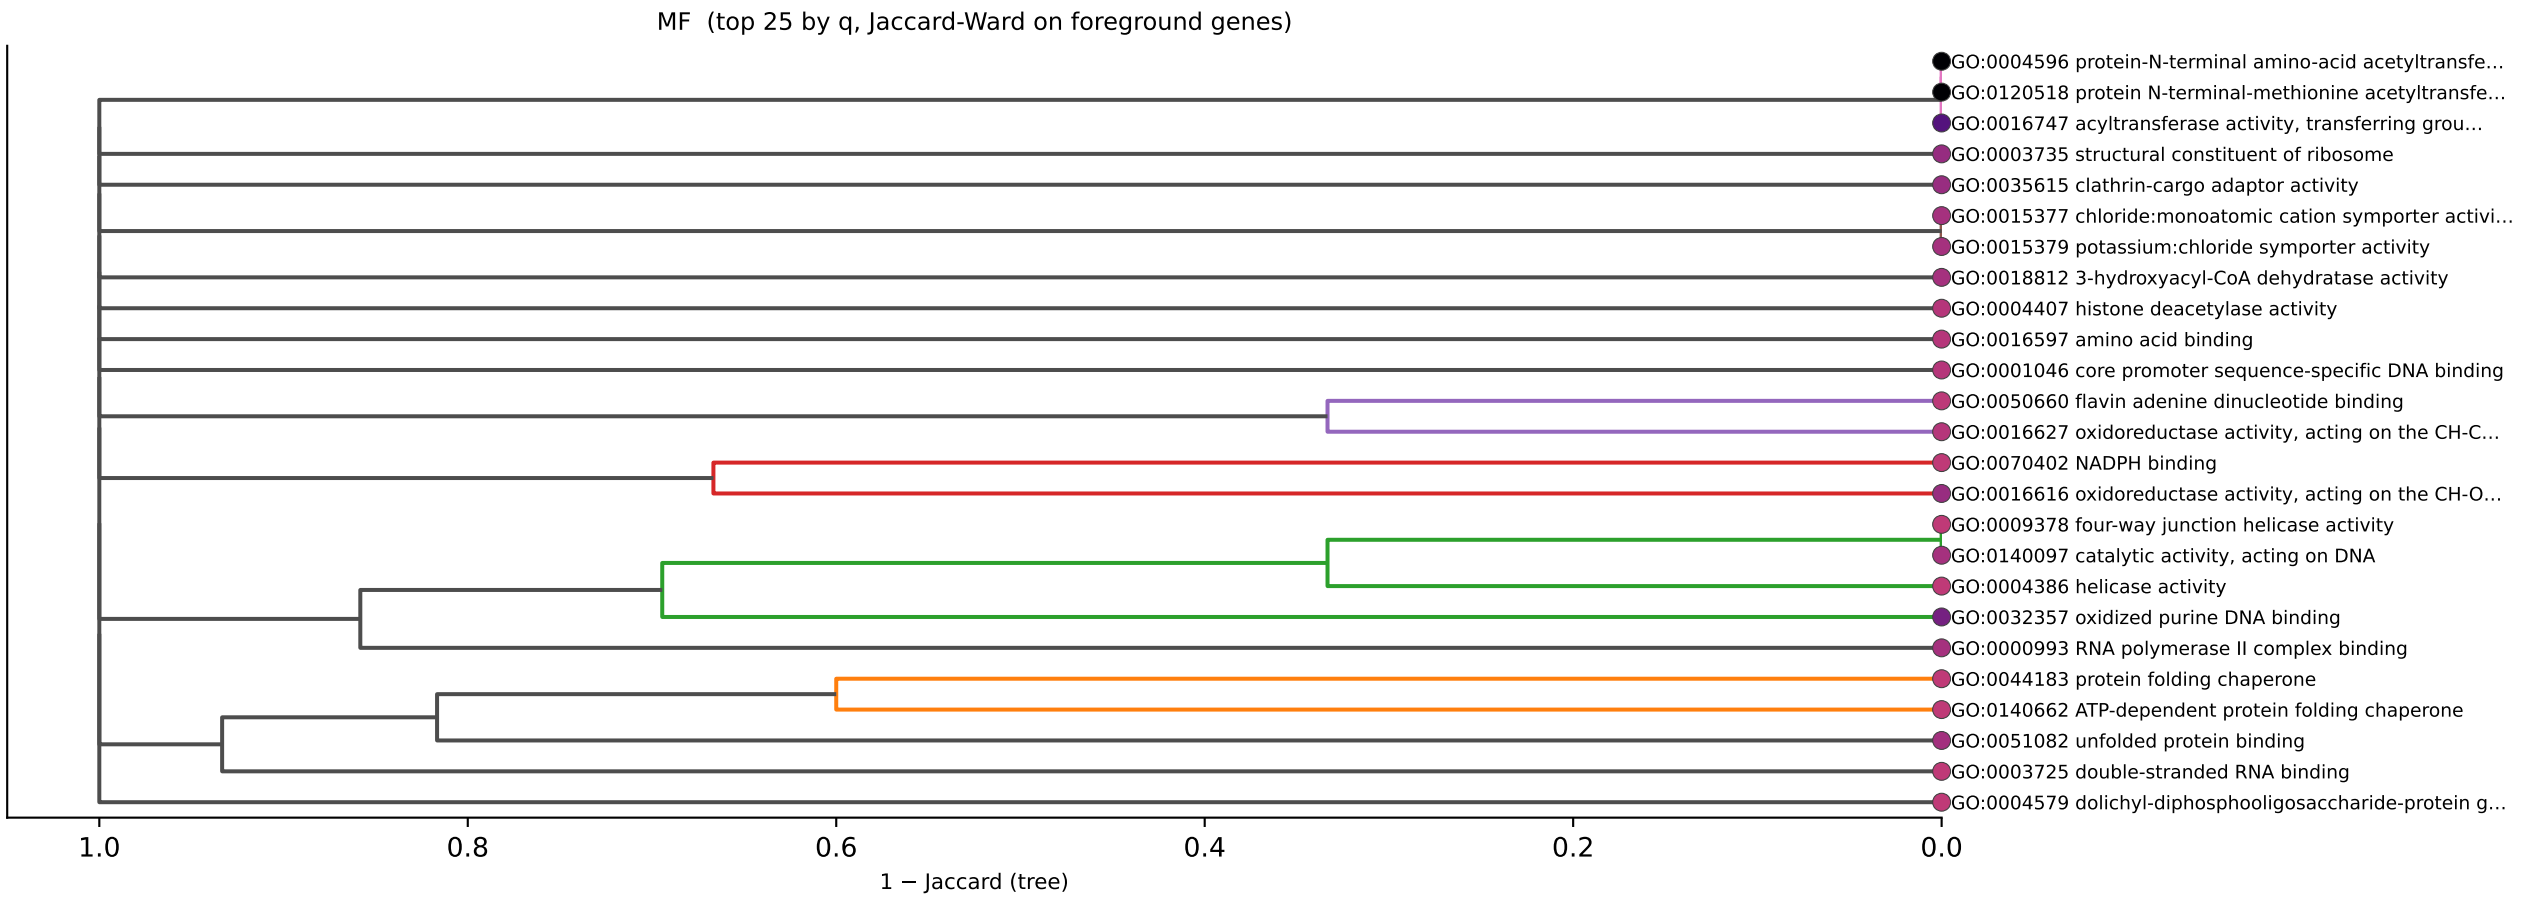






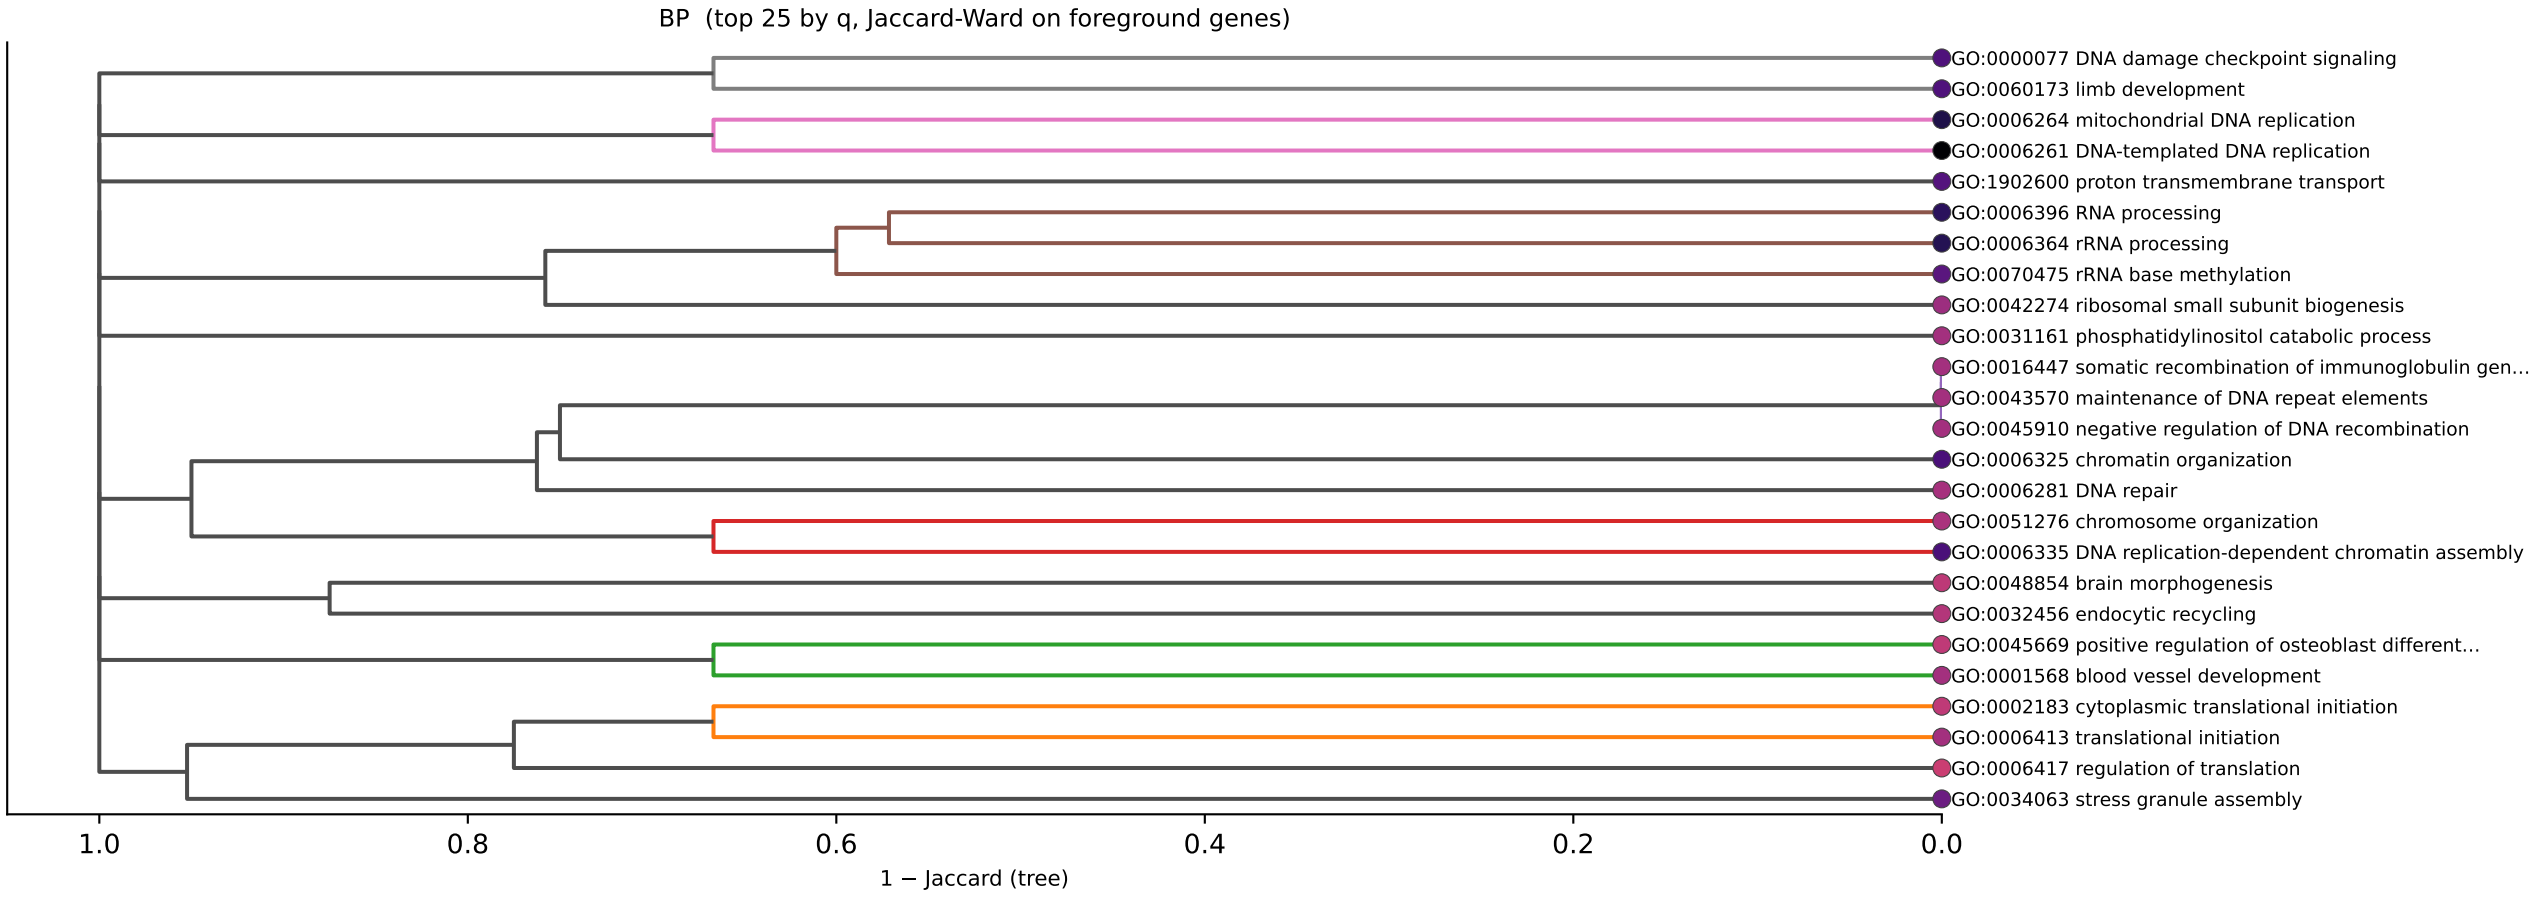
Cephalopoda — GO term clustering by shared foreground genes



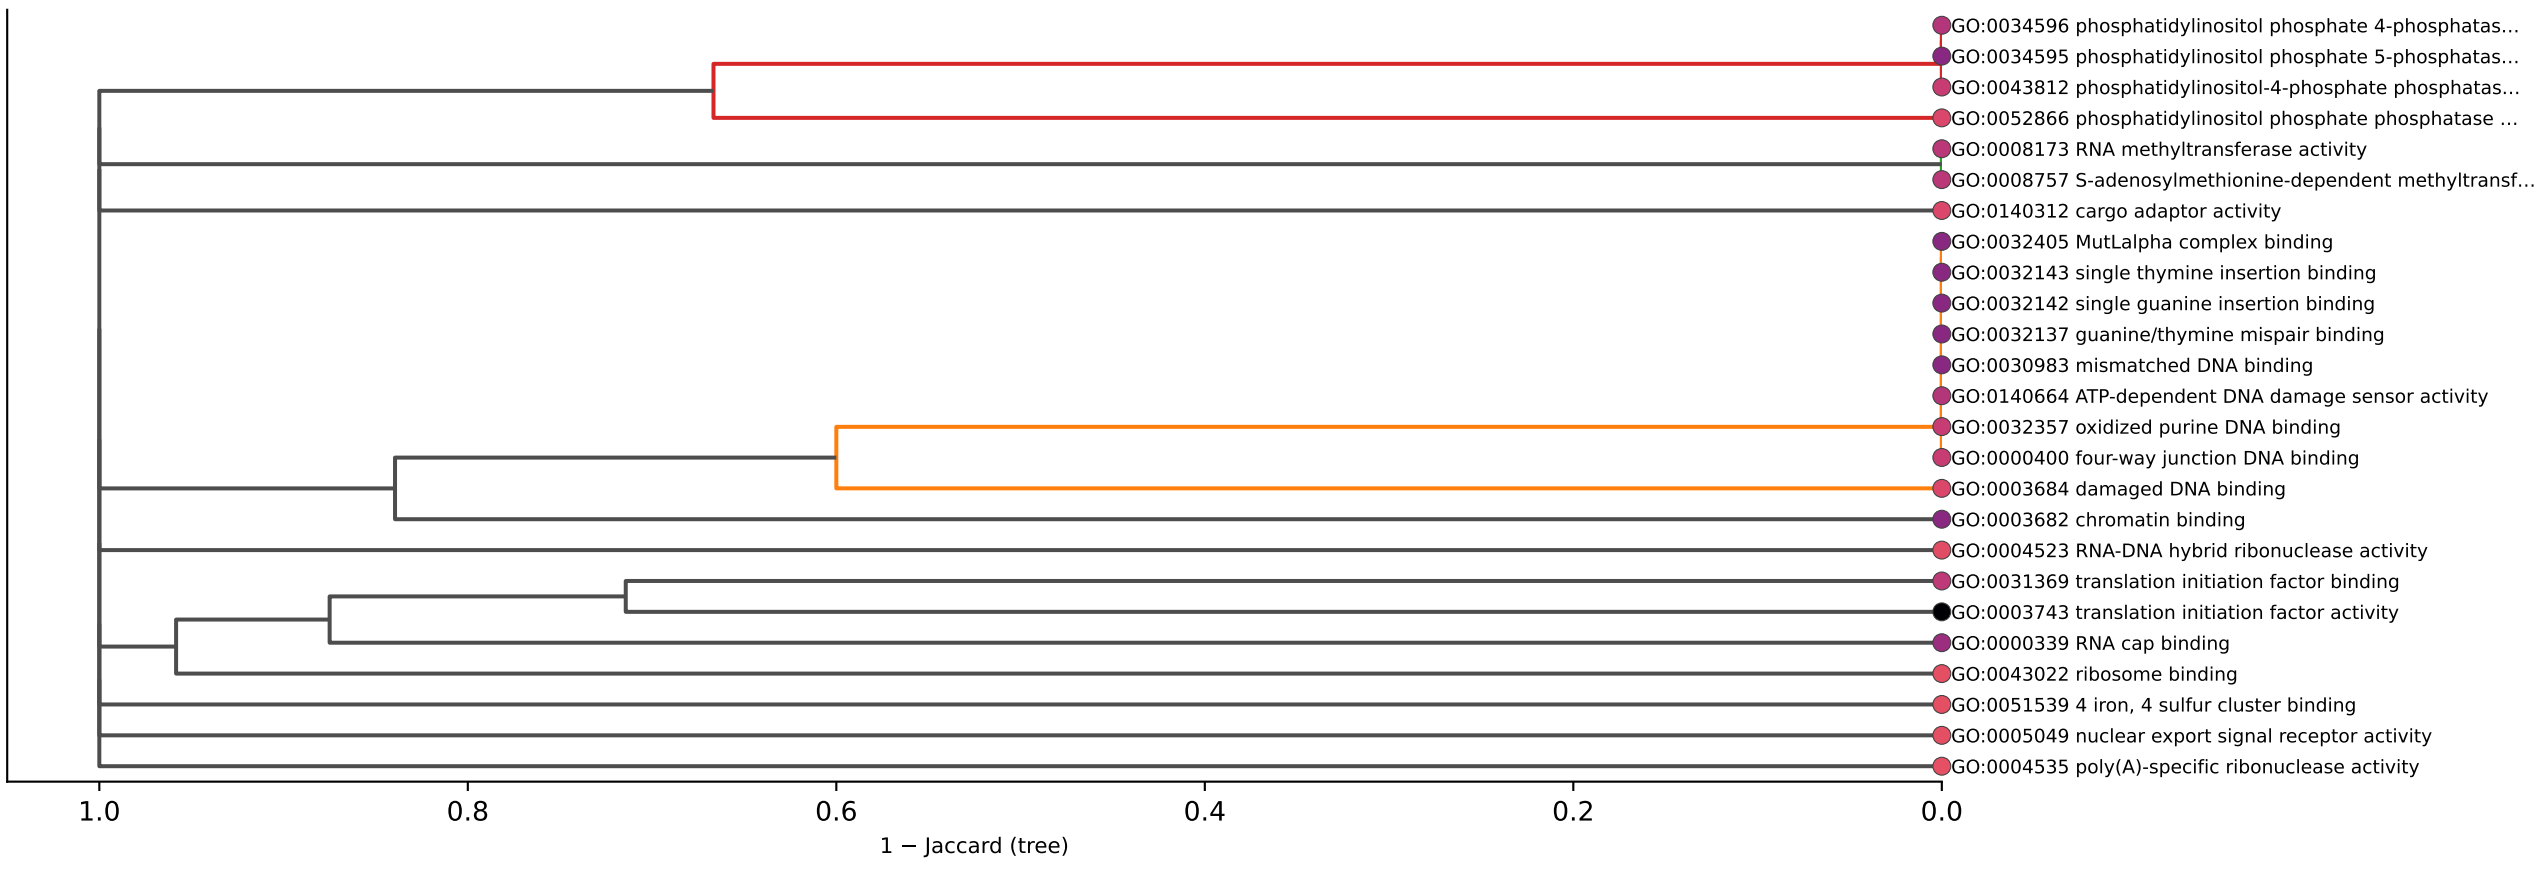


Chordata — GO term clustering by shared foreground genes

BP (top 25 by q, Jaccard-Ward on foreground genes)

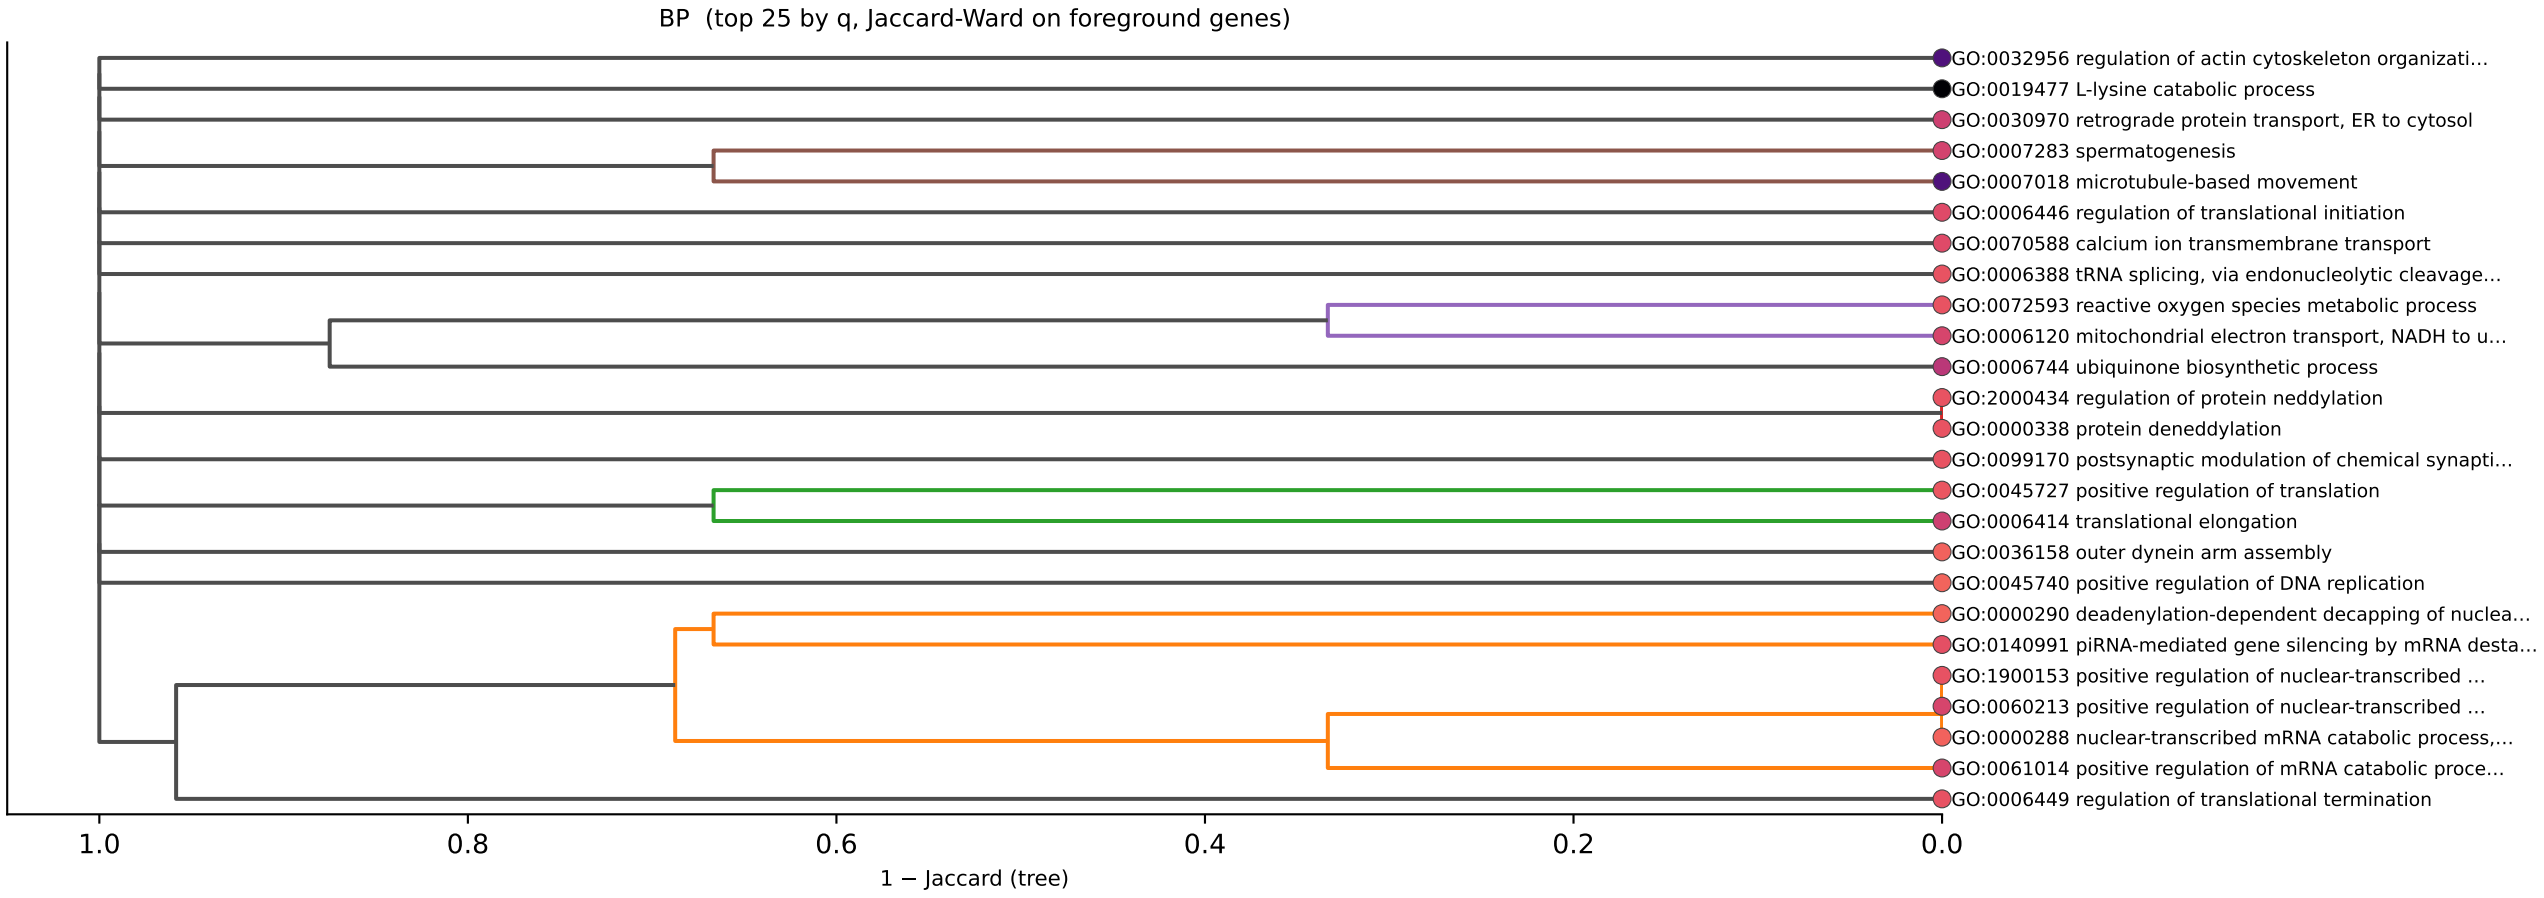


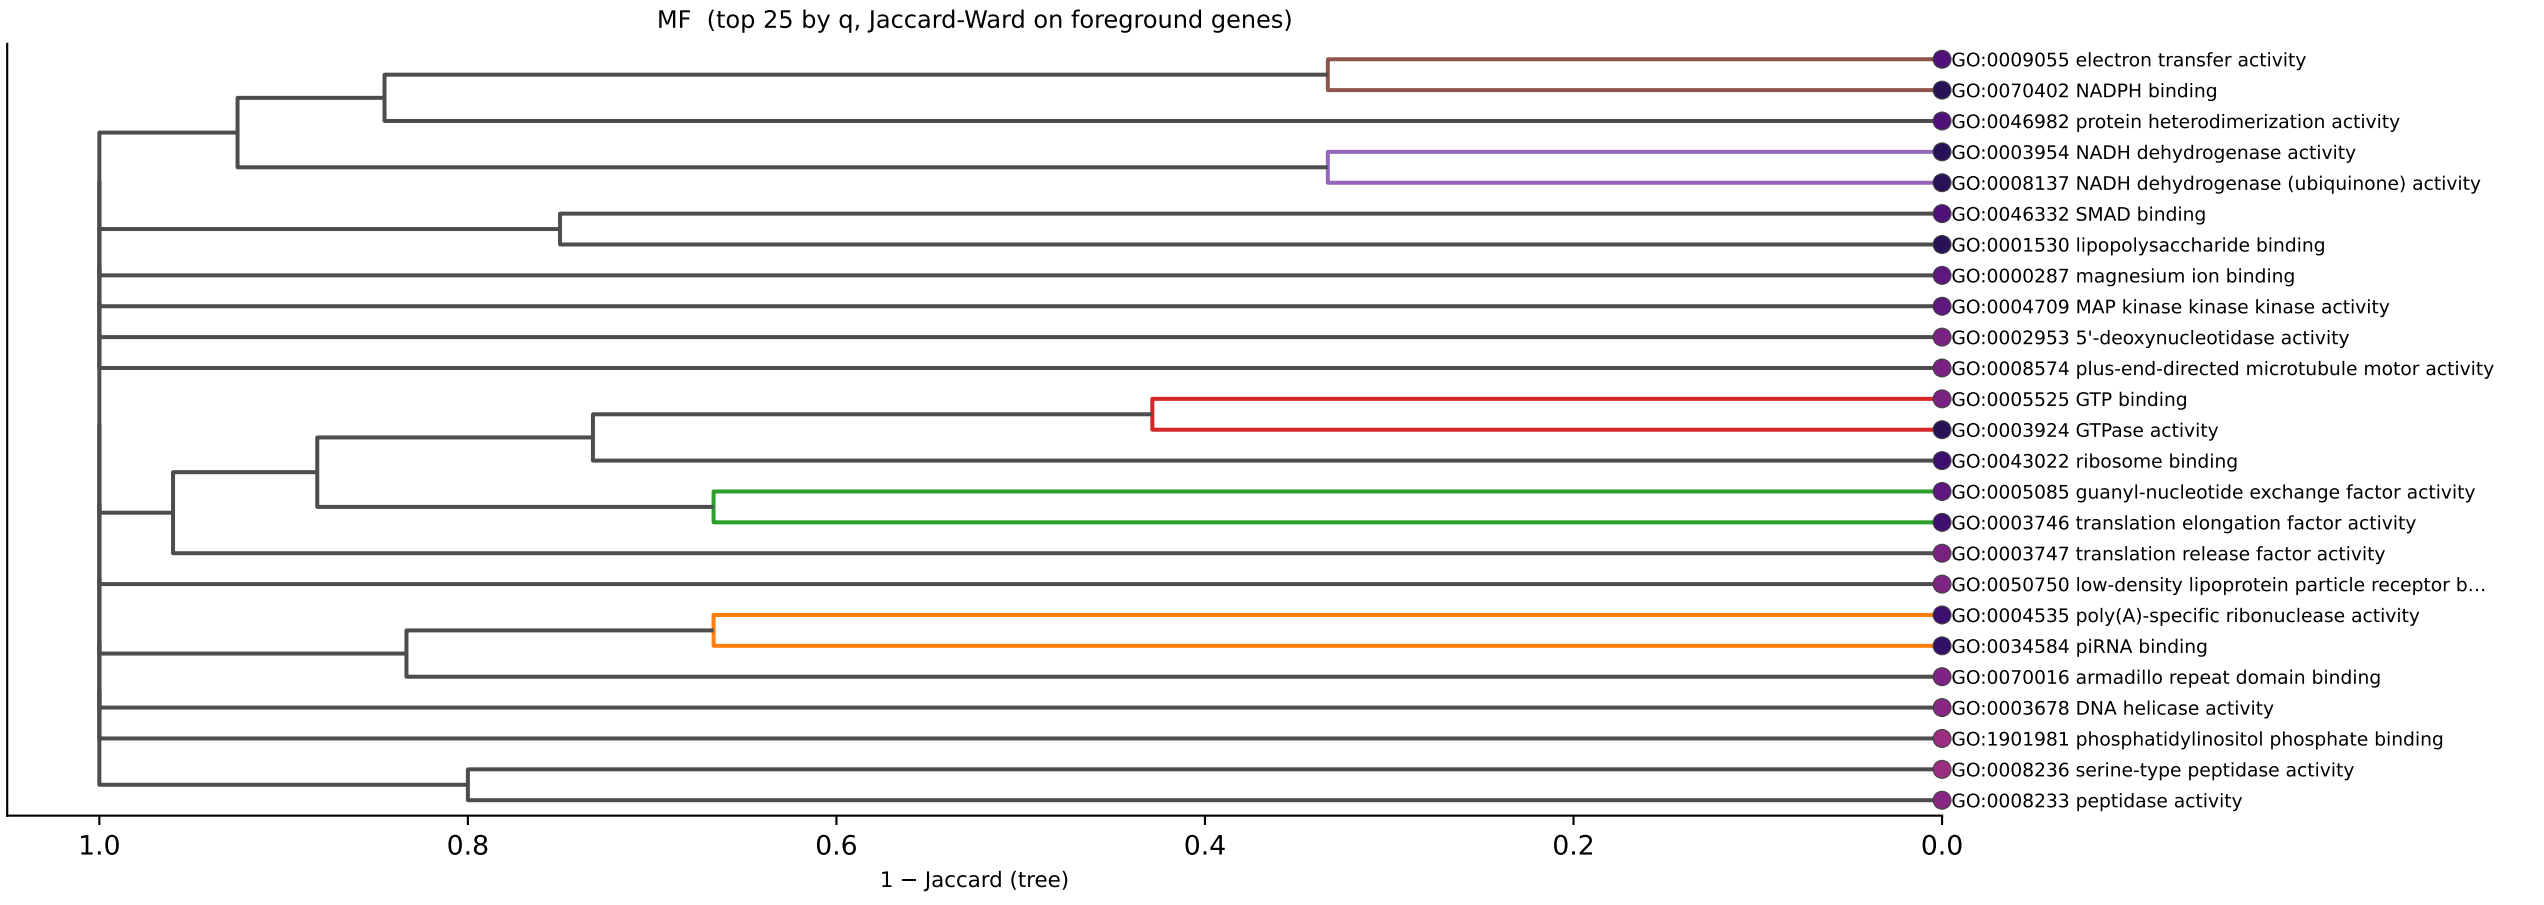
MF (top 25 by q, Jaccard-Ward on foreground genes)

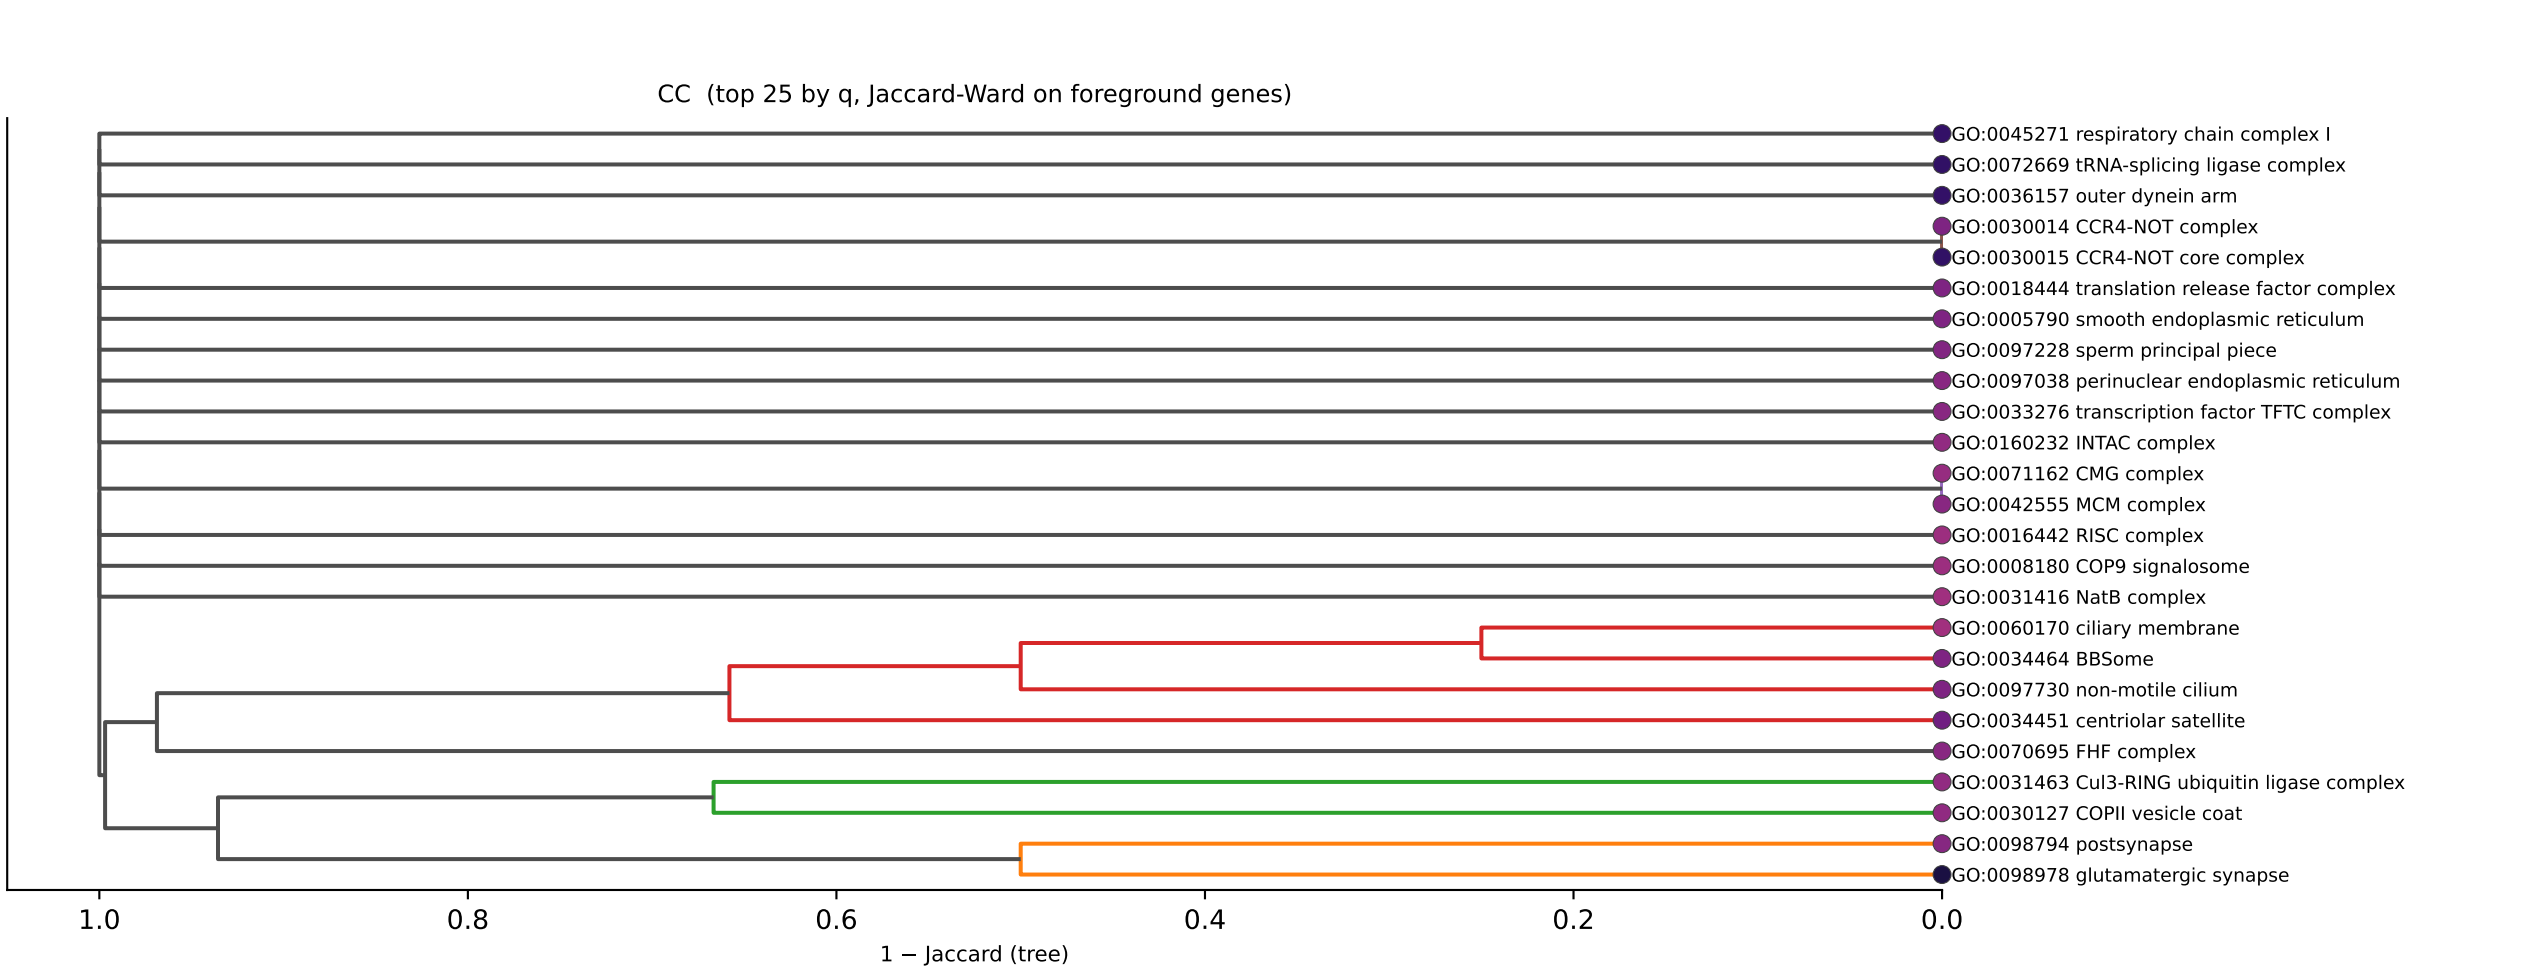


CC (top 25 by q, Jaccard-Ward on foreground genes)

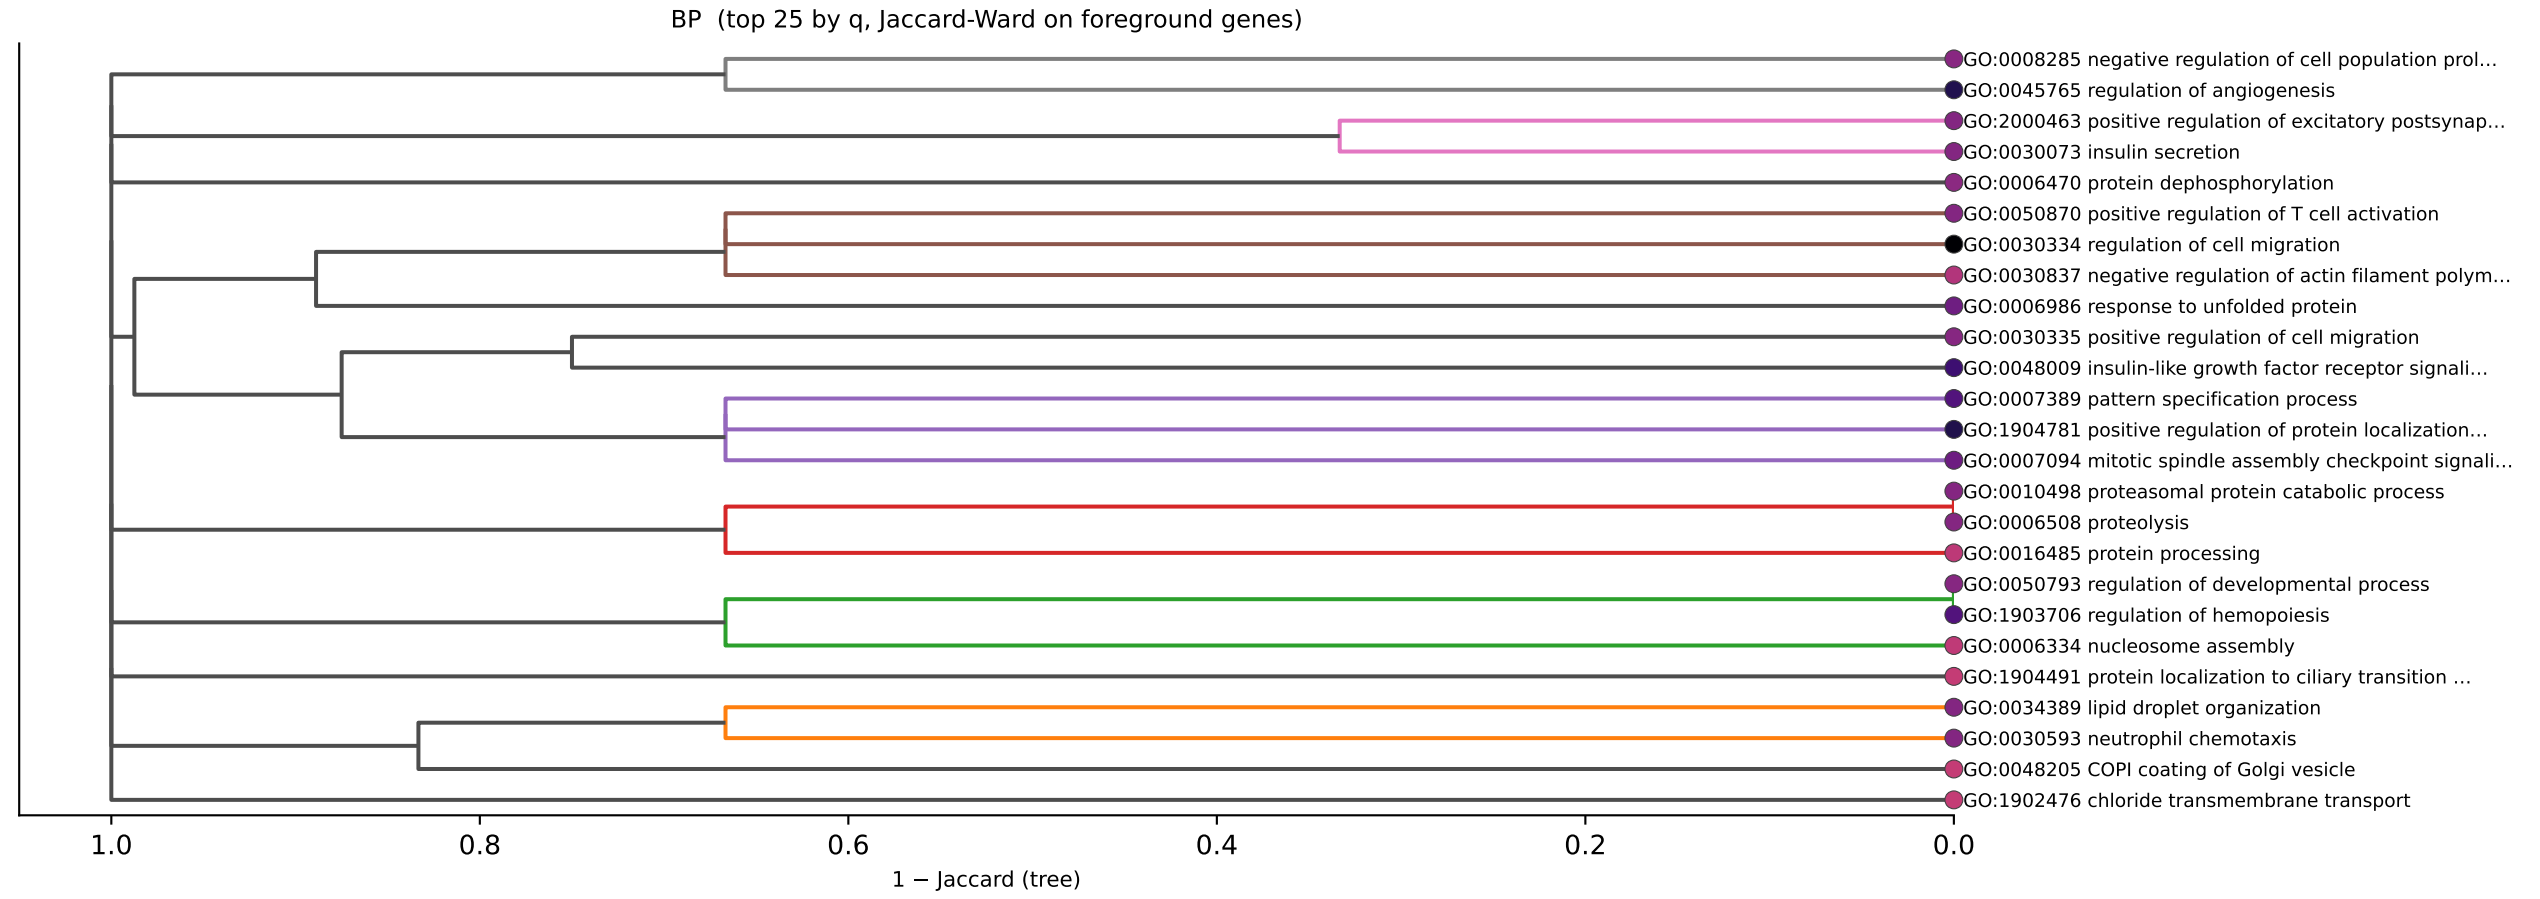
Clitellata — GO term clustering by shared foreground genes

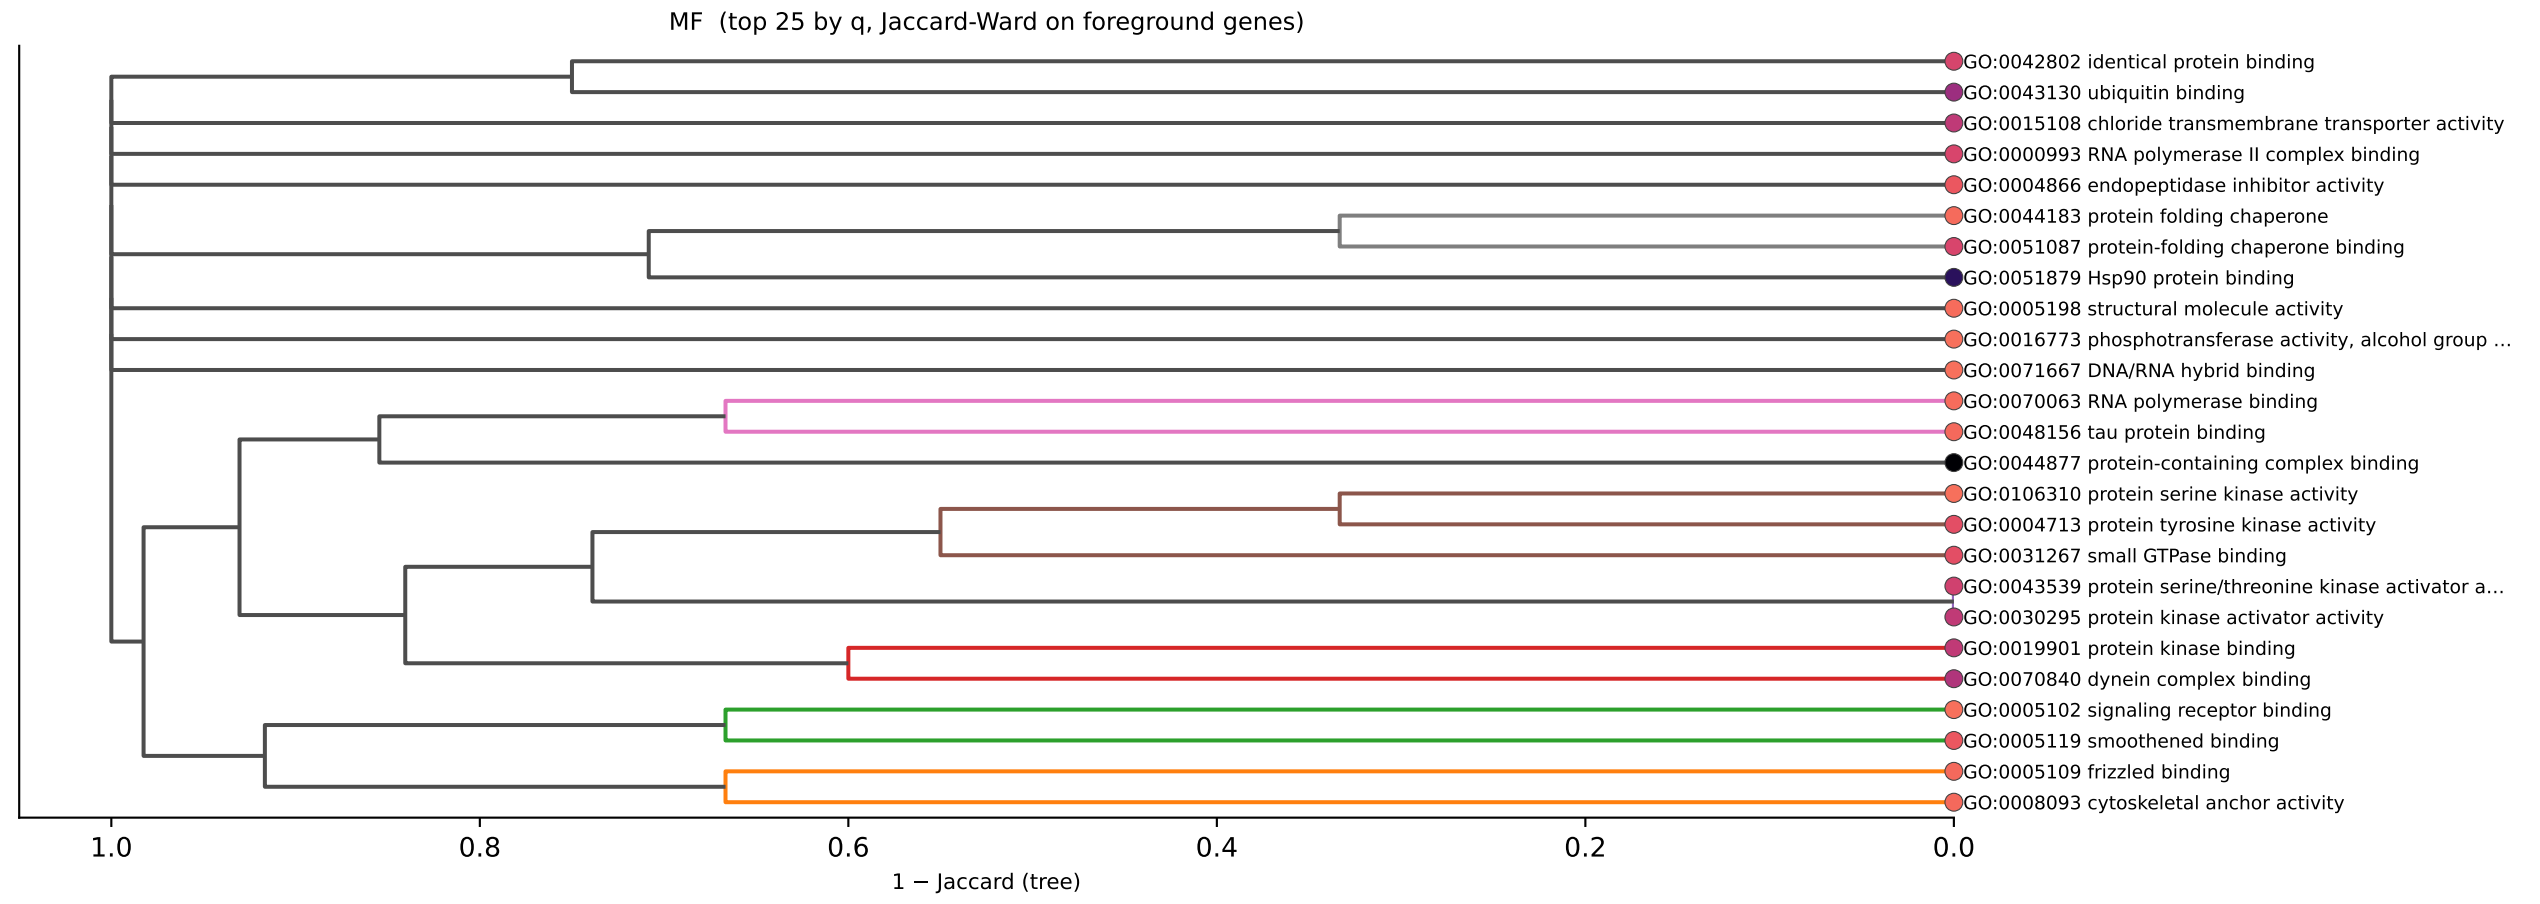






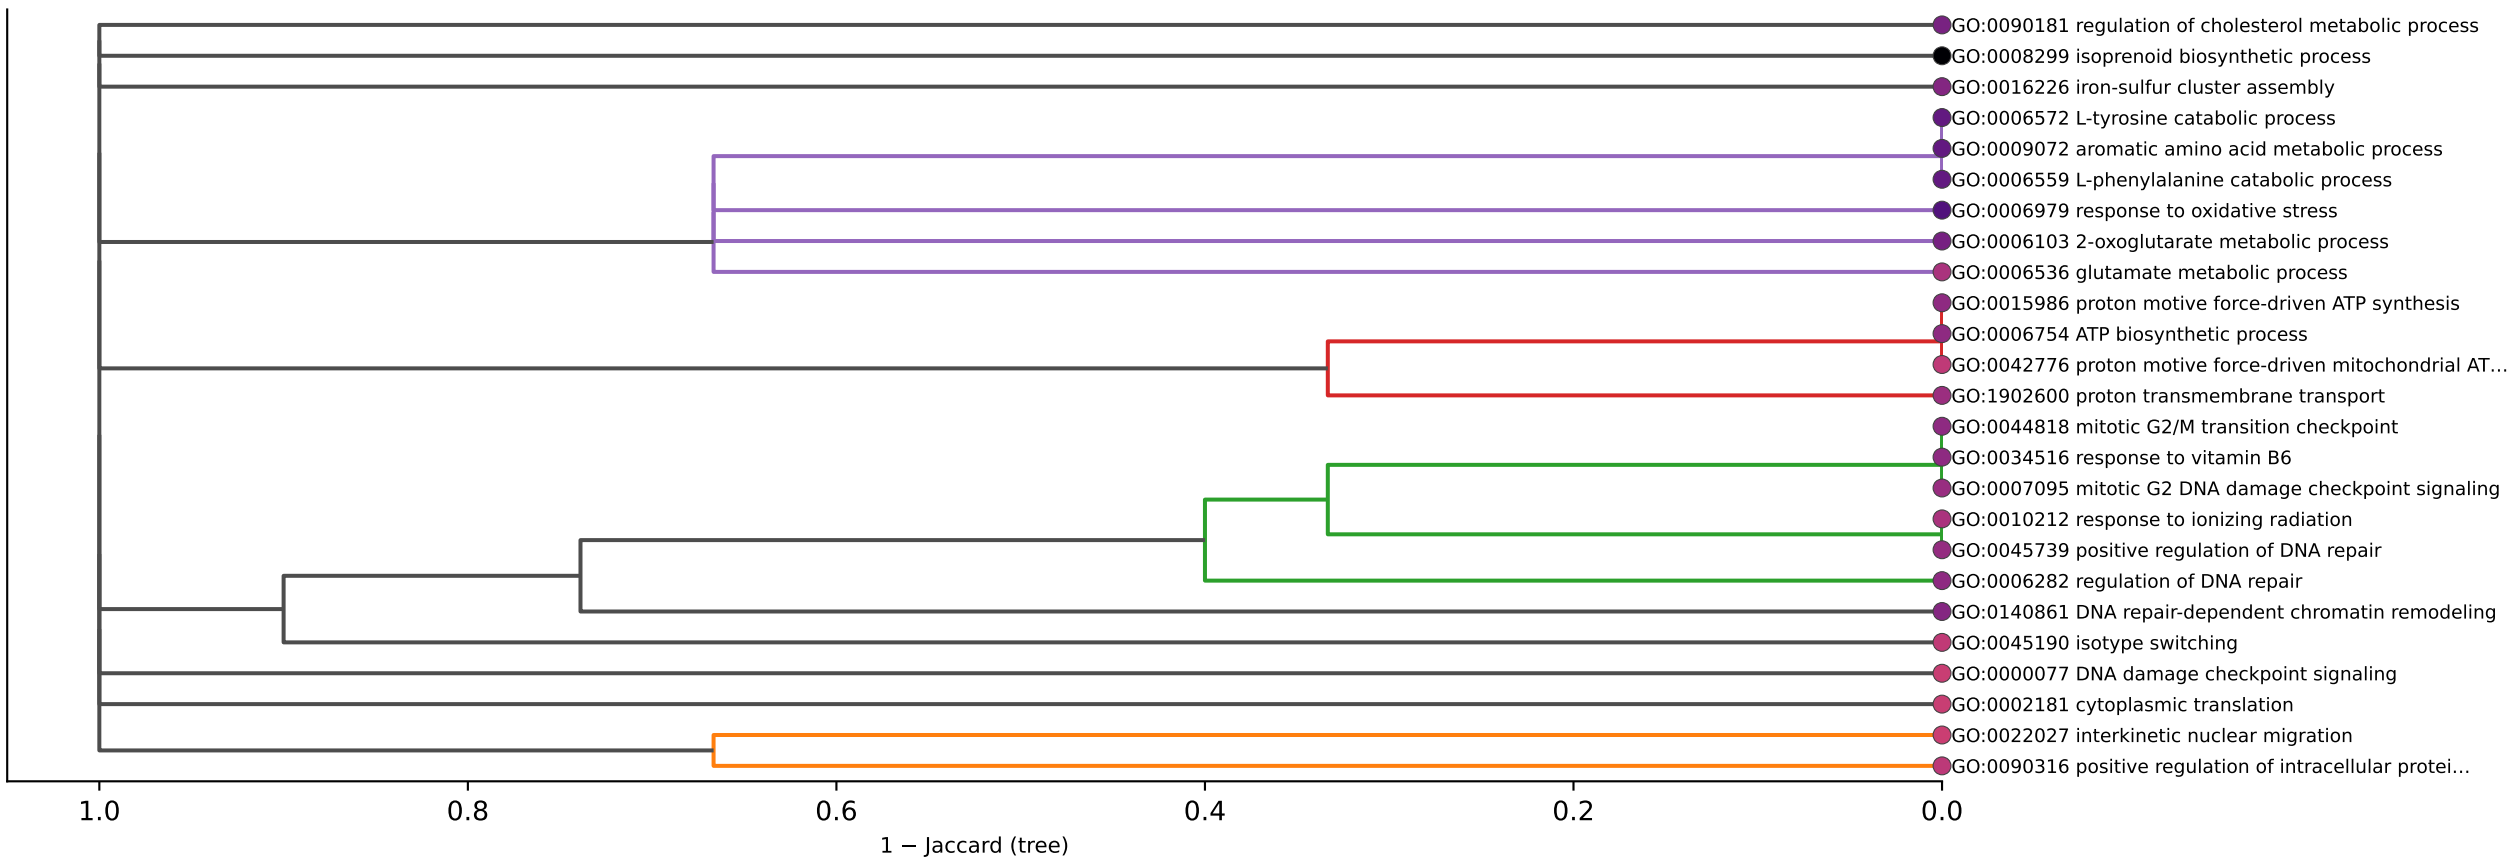
Cnidaria — GO term clustering by shared foreground genes



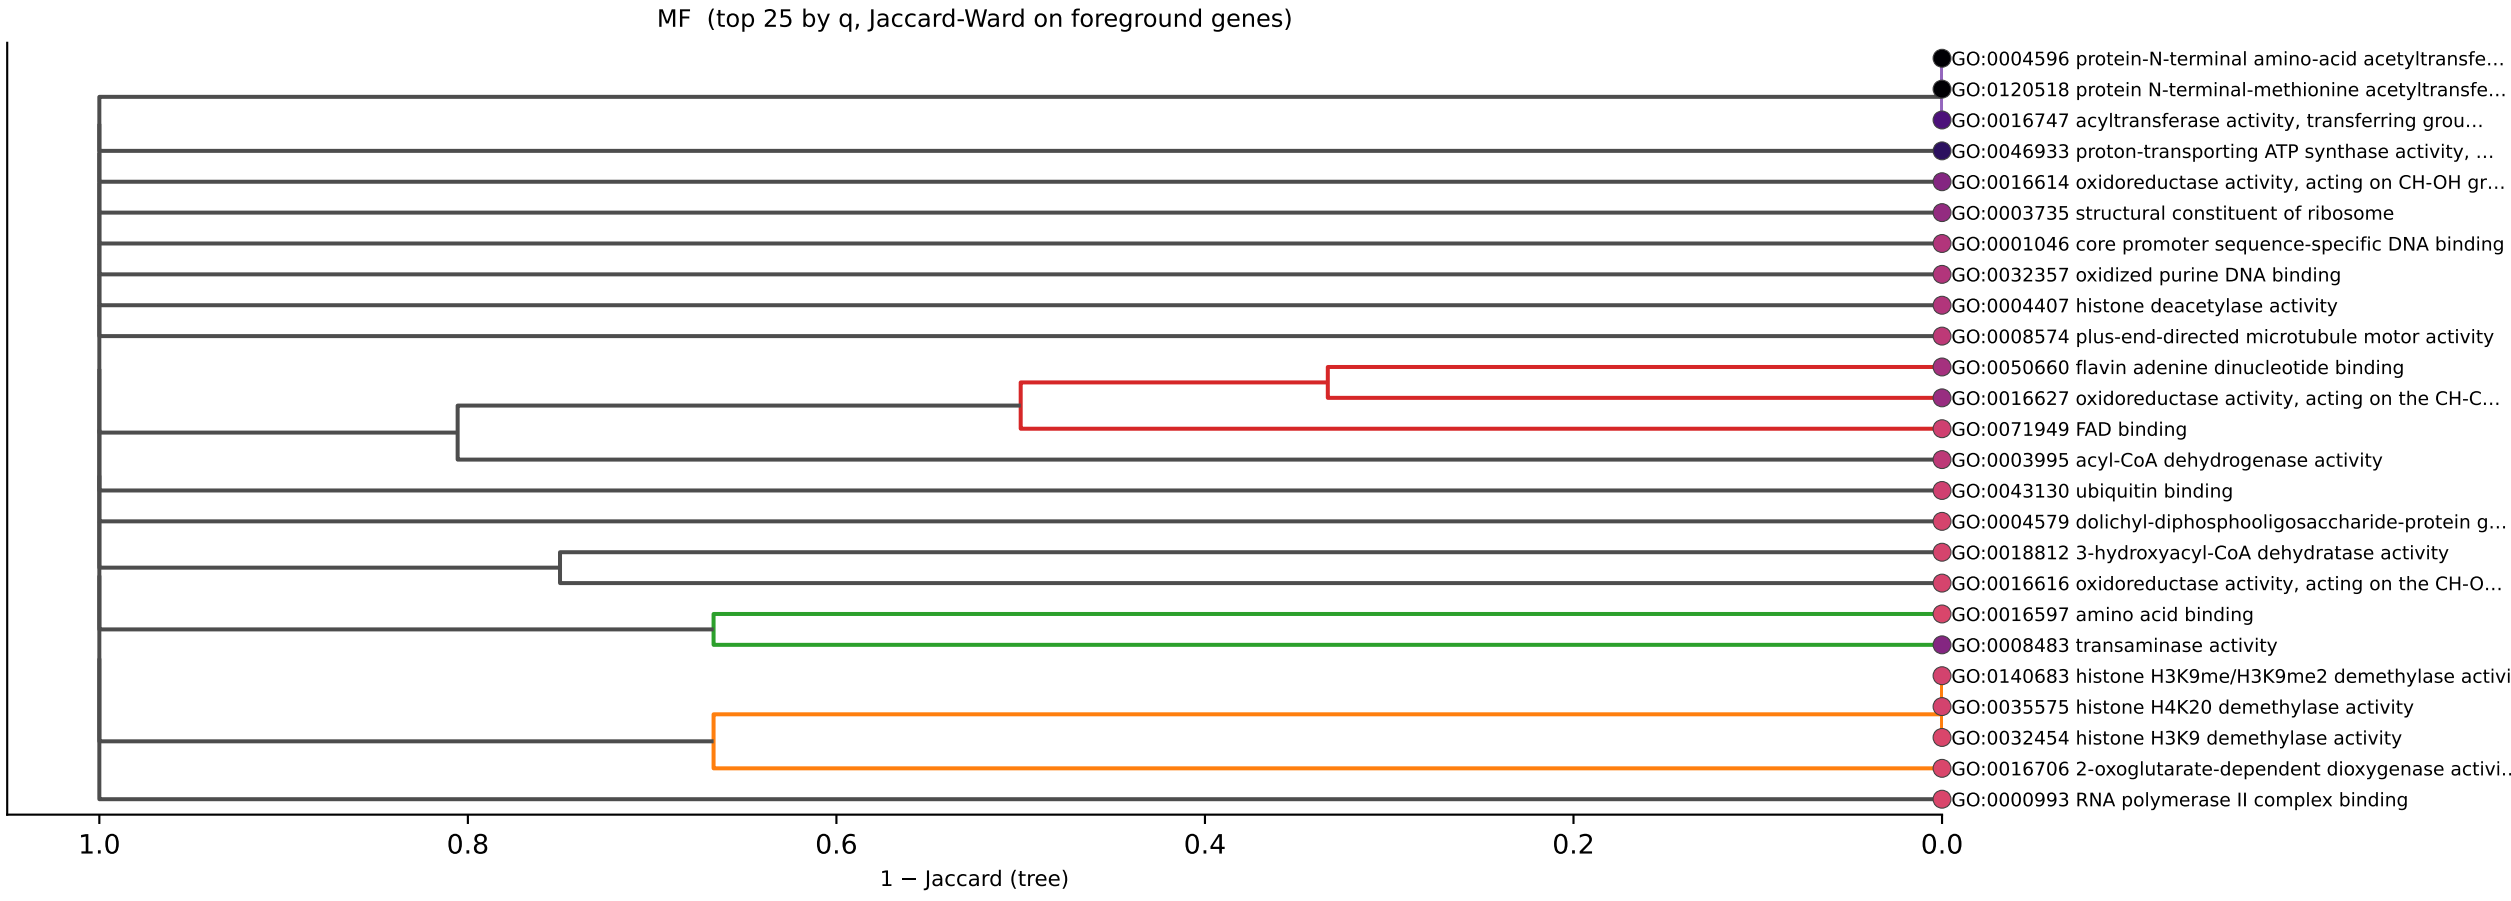


Coleoidea — GO term clustering by shared foreground genes

BP (top 25 by q, Jaccard-Ward on foreground genes)

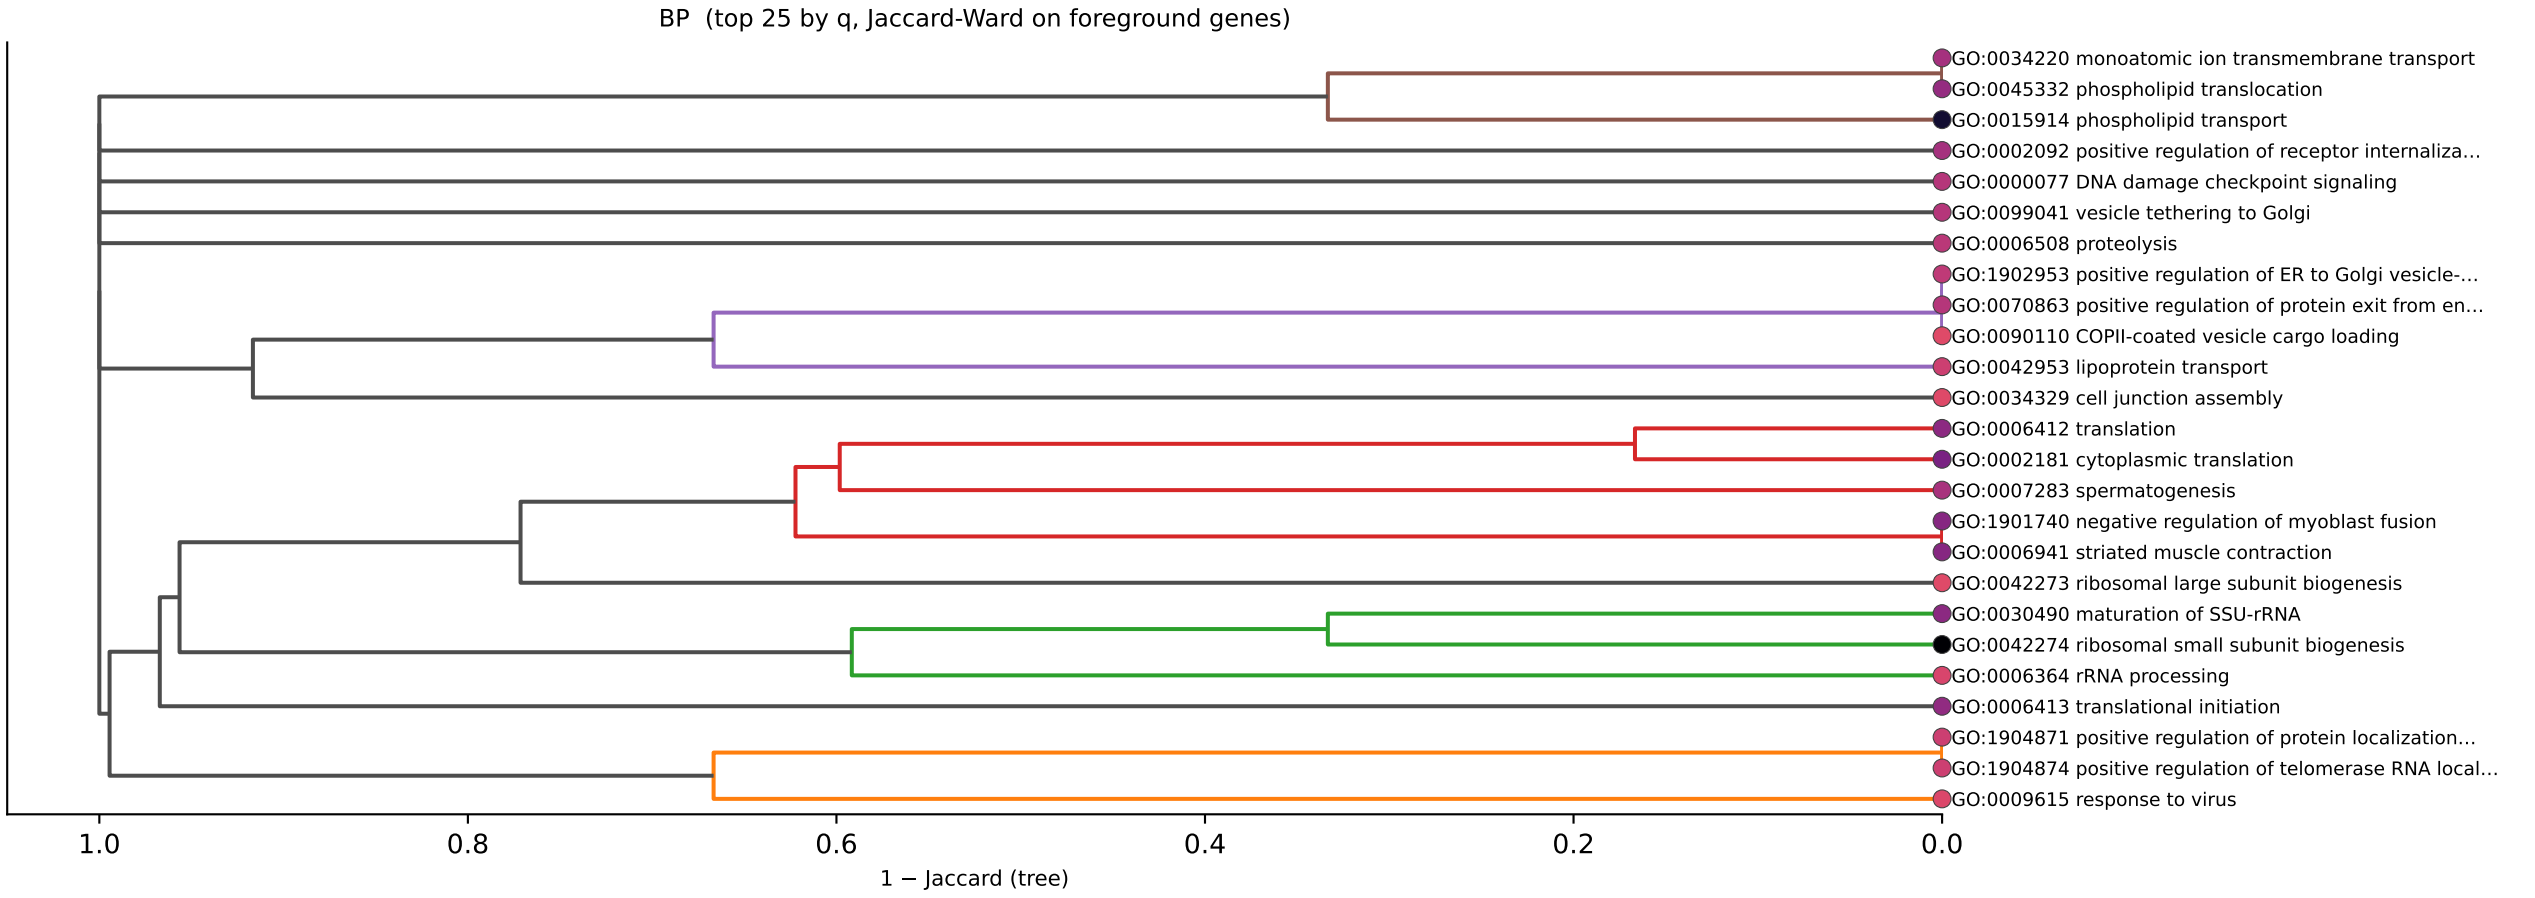


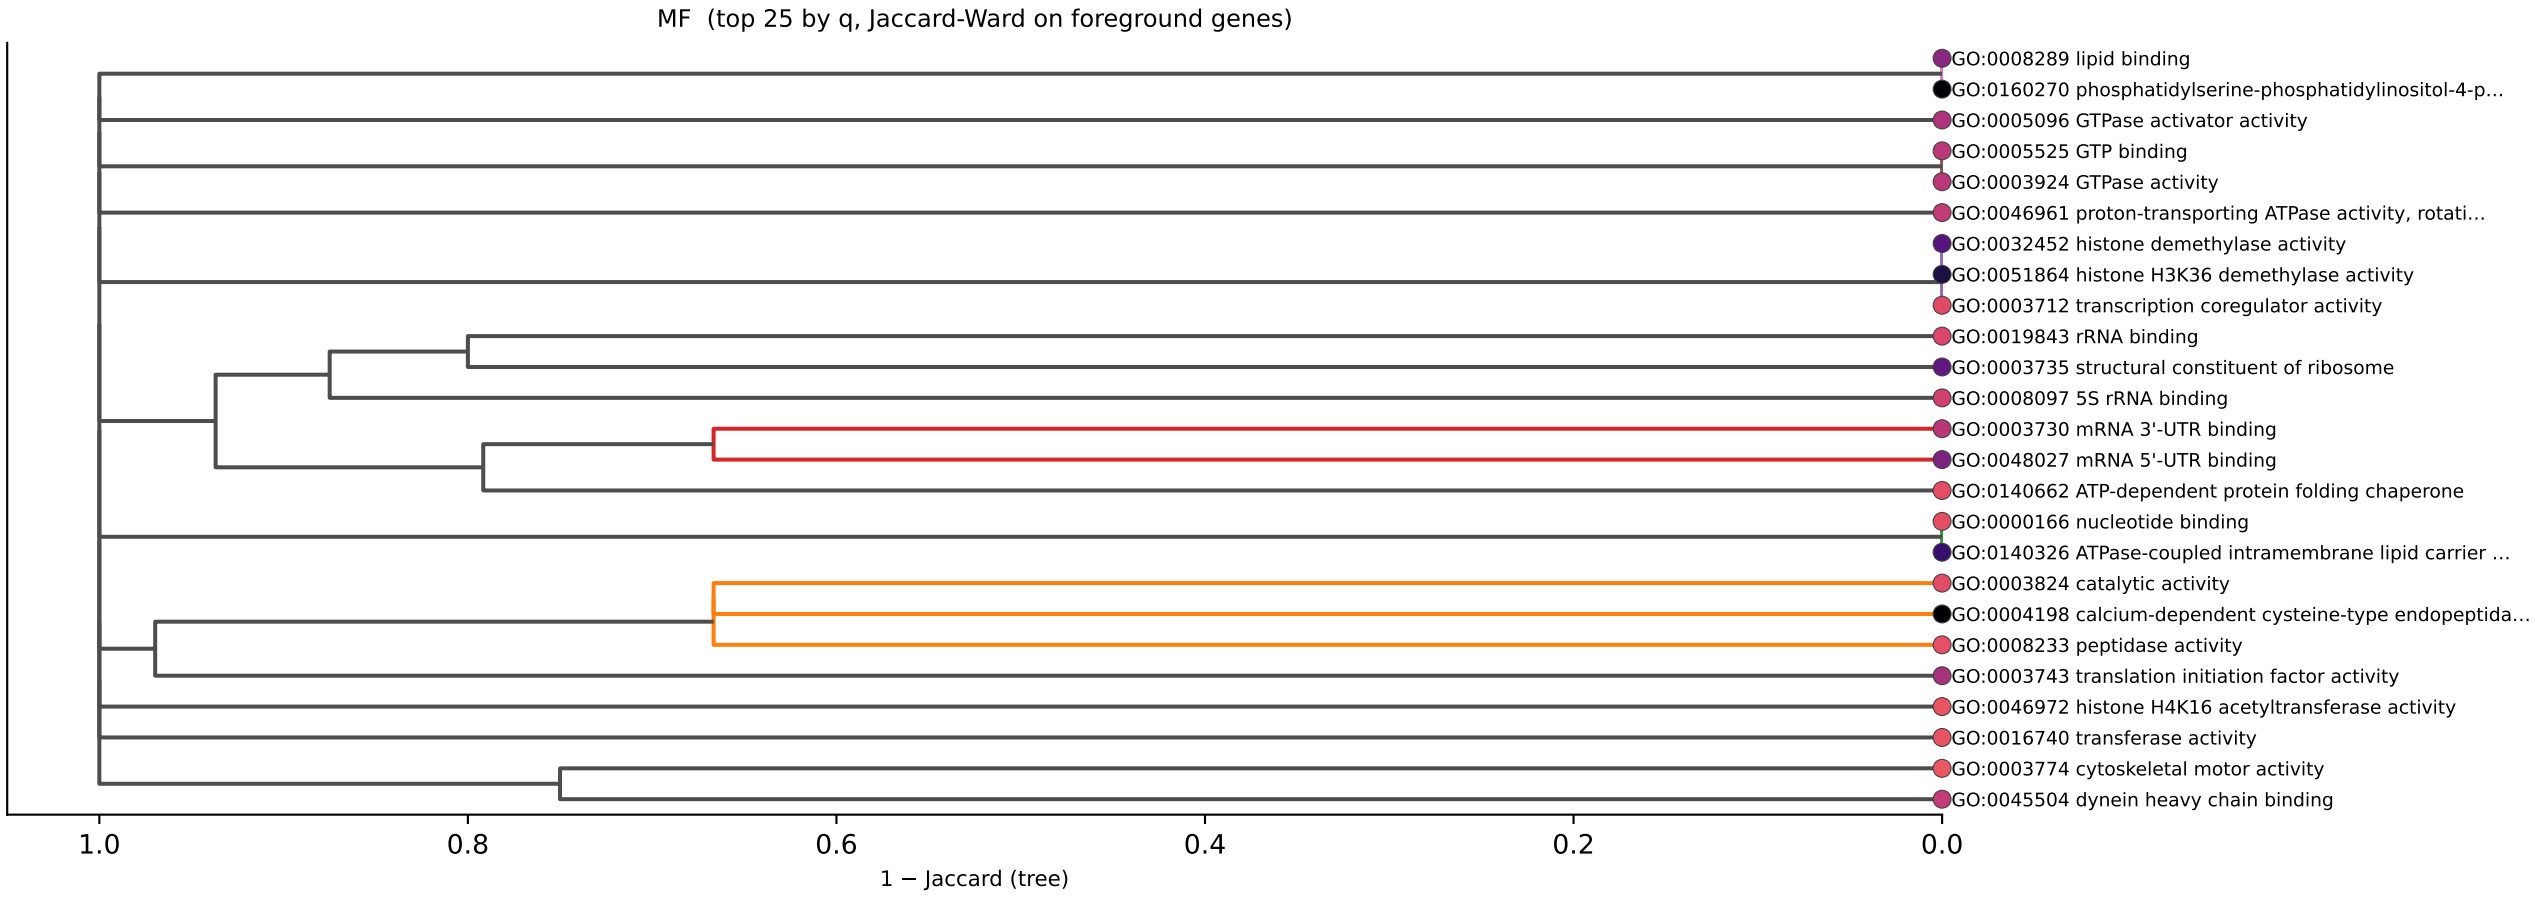
MF (top 25 by q, Jaccard-Ward on foreground genes)

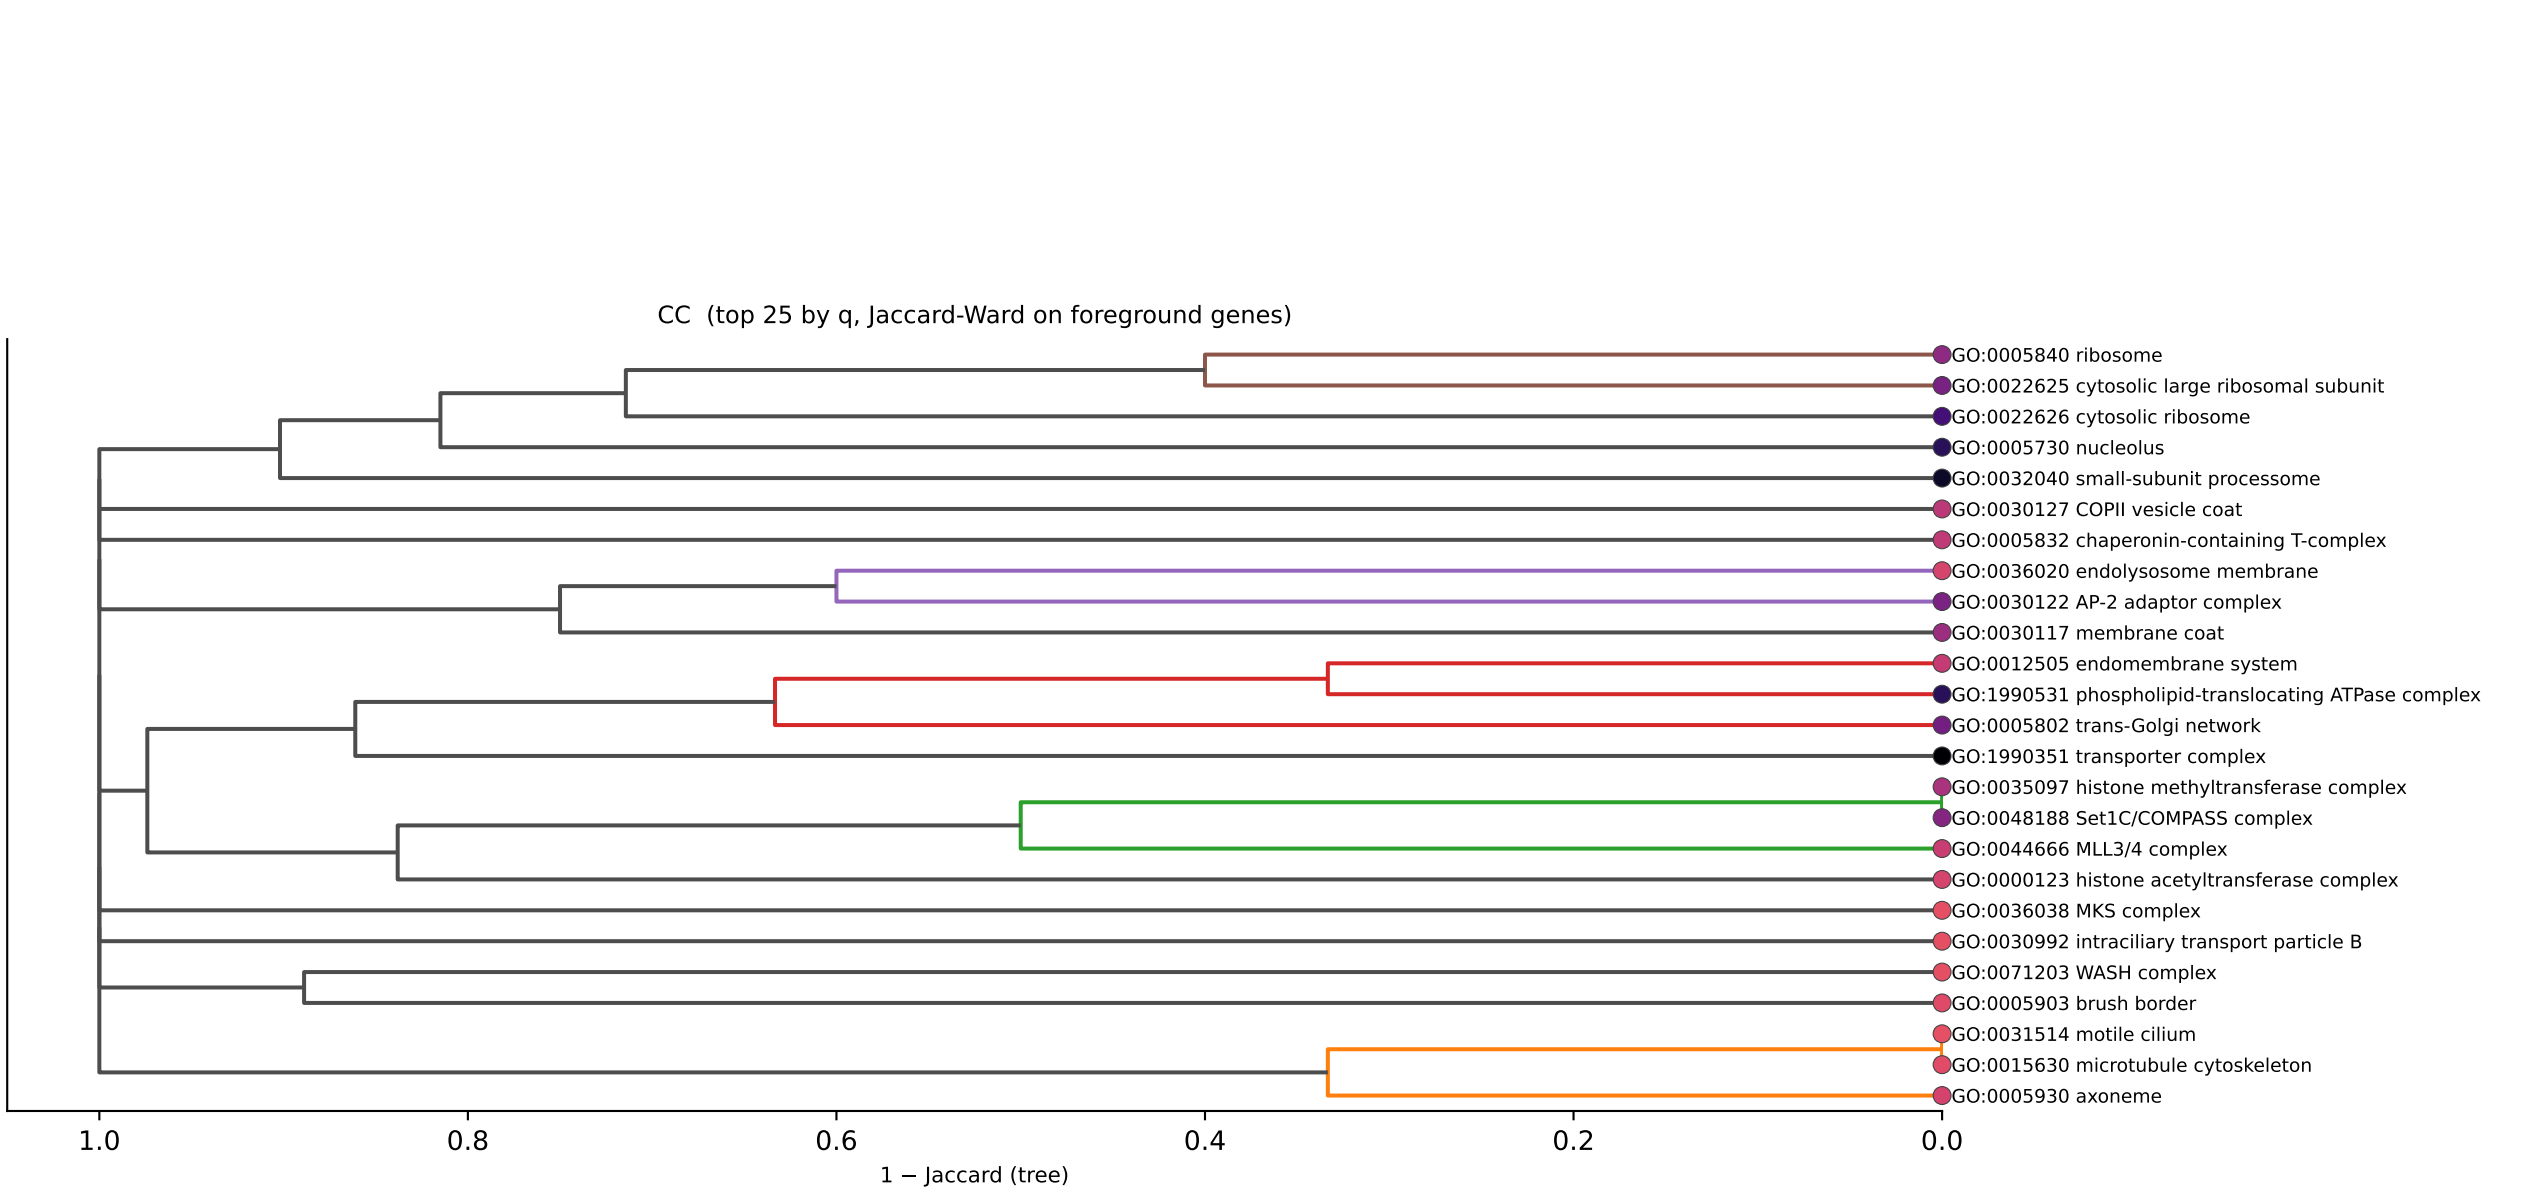


CC (top 25 by q, Jaccard-Ward on foreground genes)

Ctenophora — GO term clustering by shared foreground genes

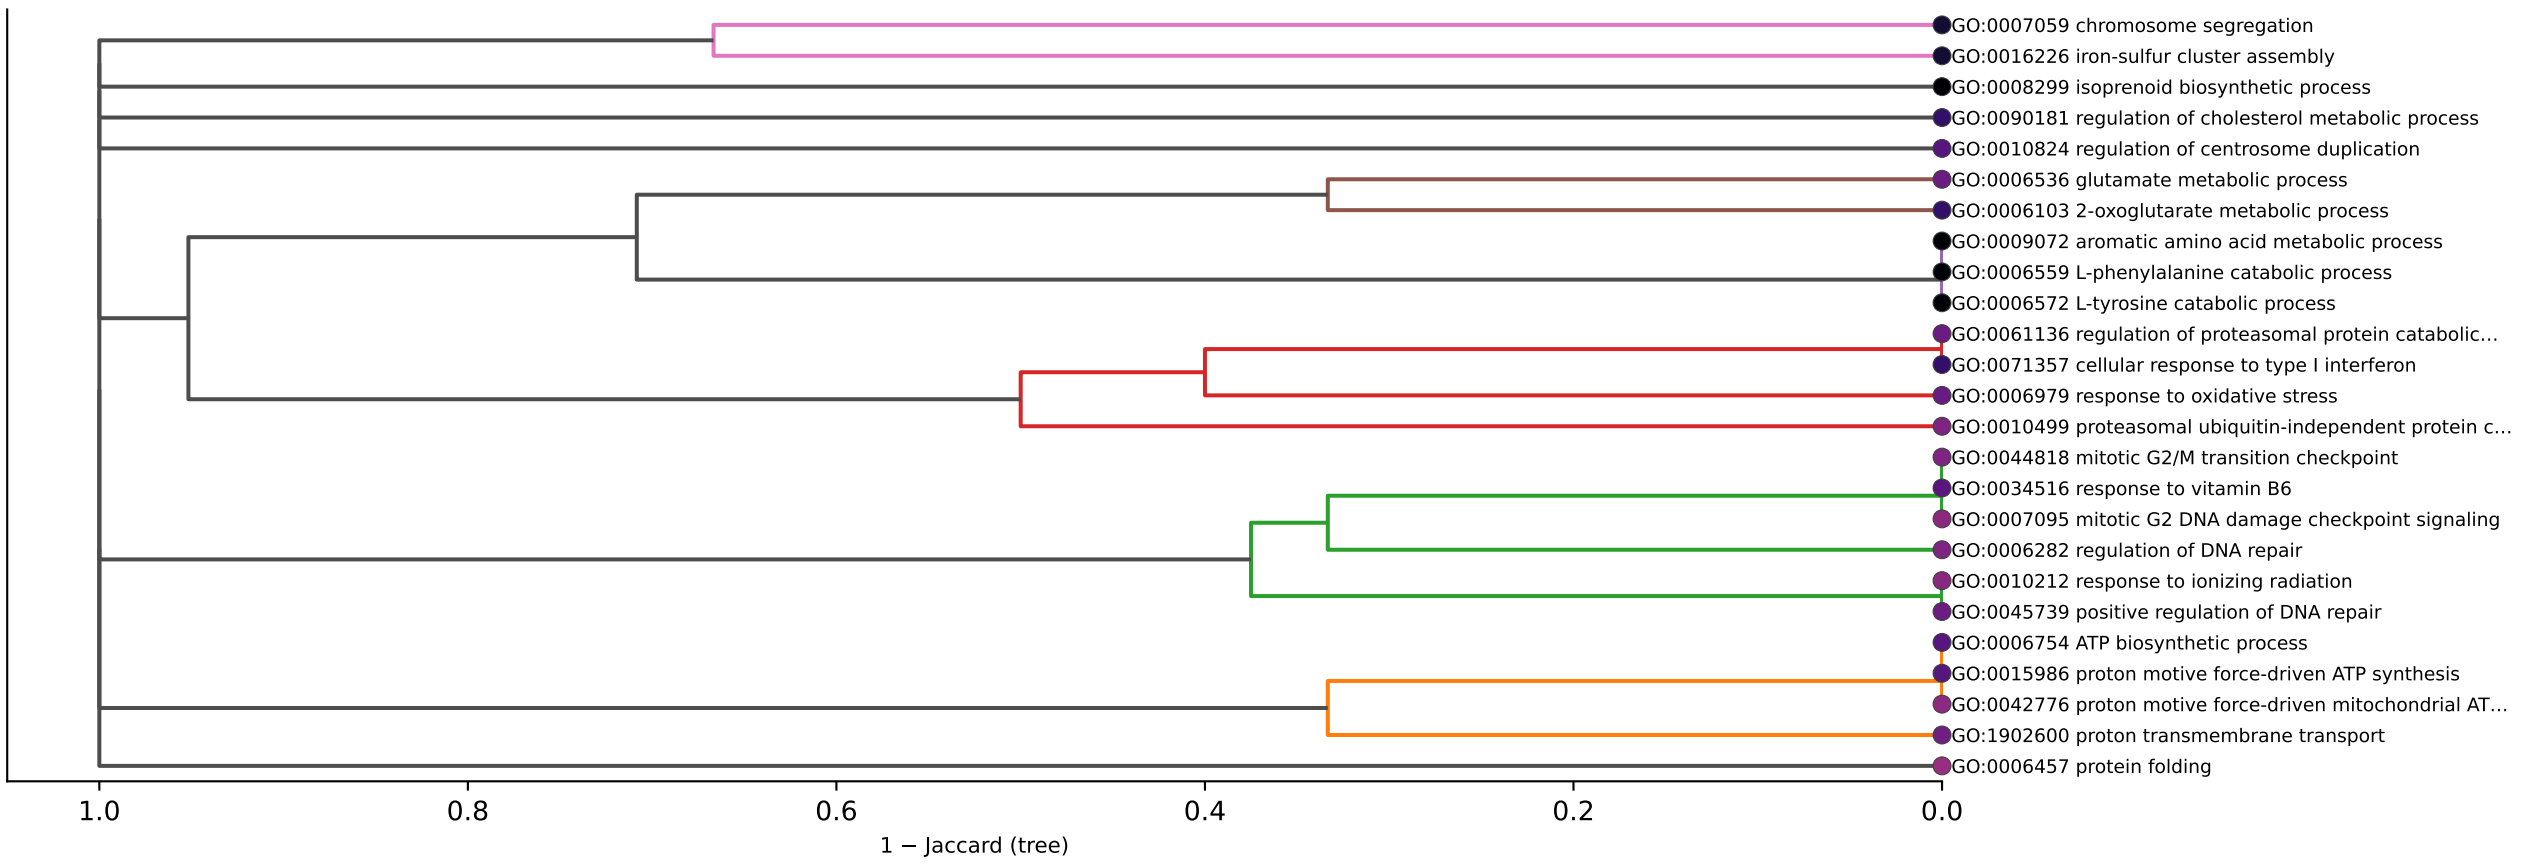




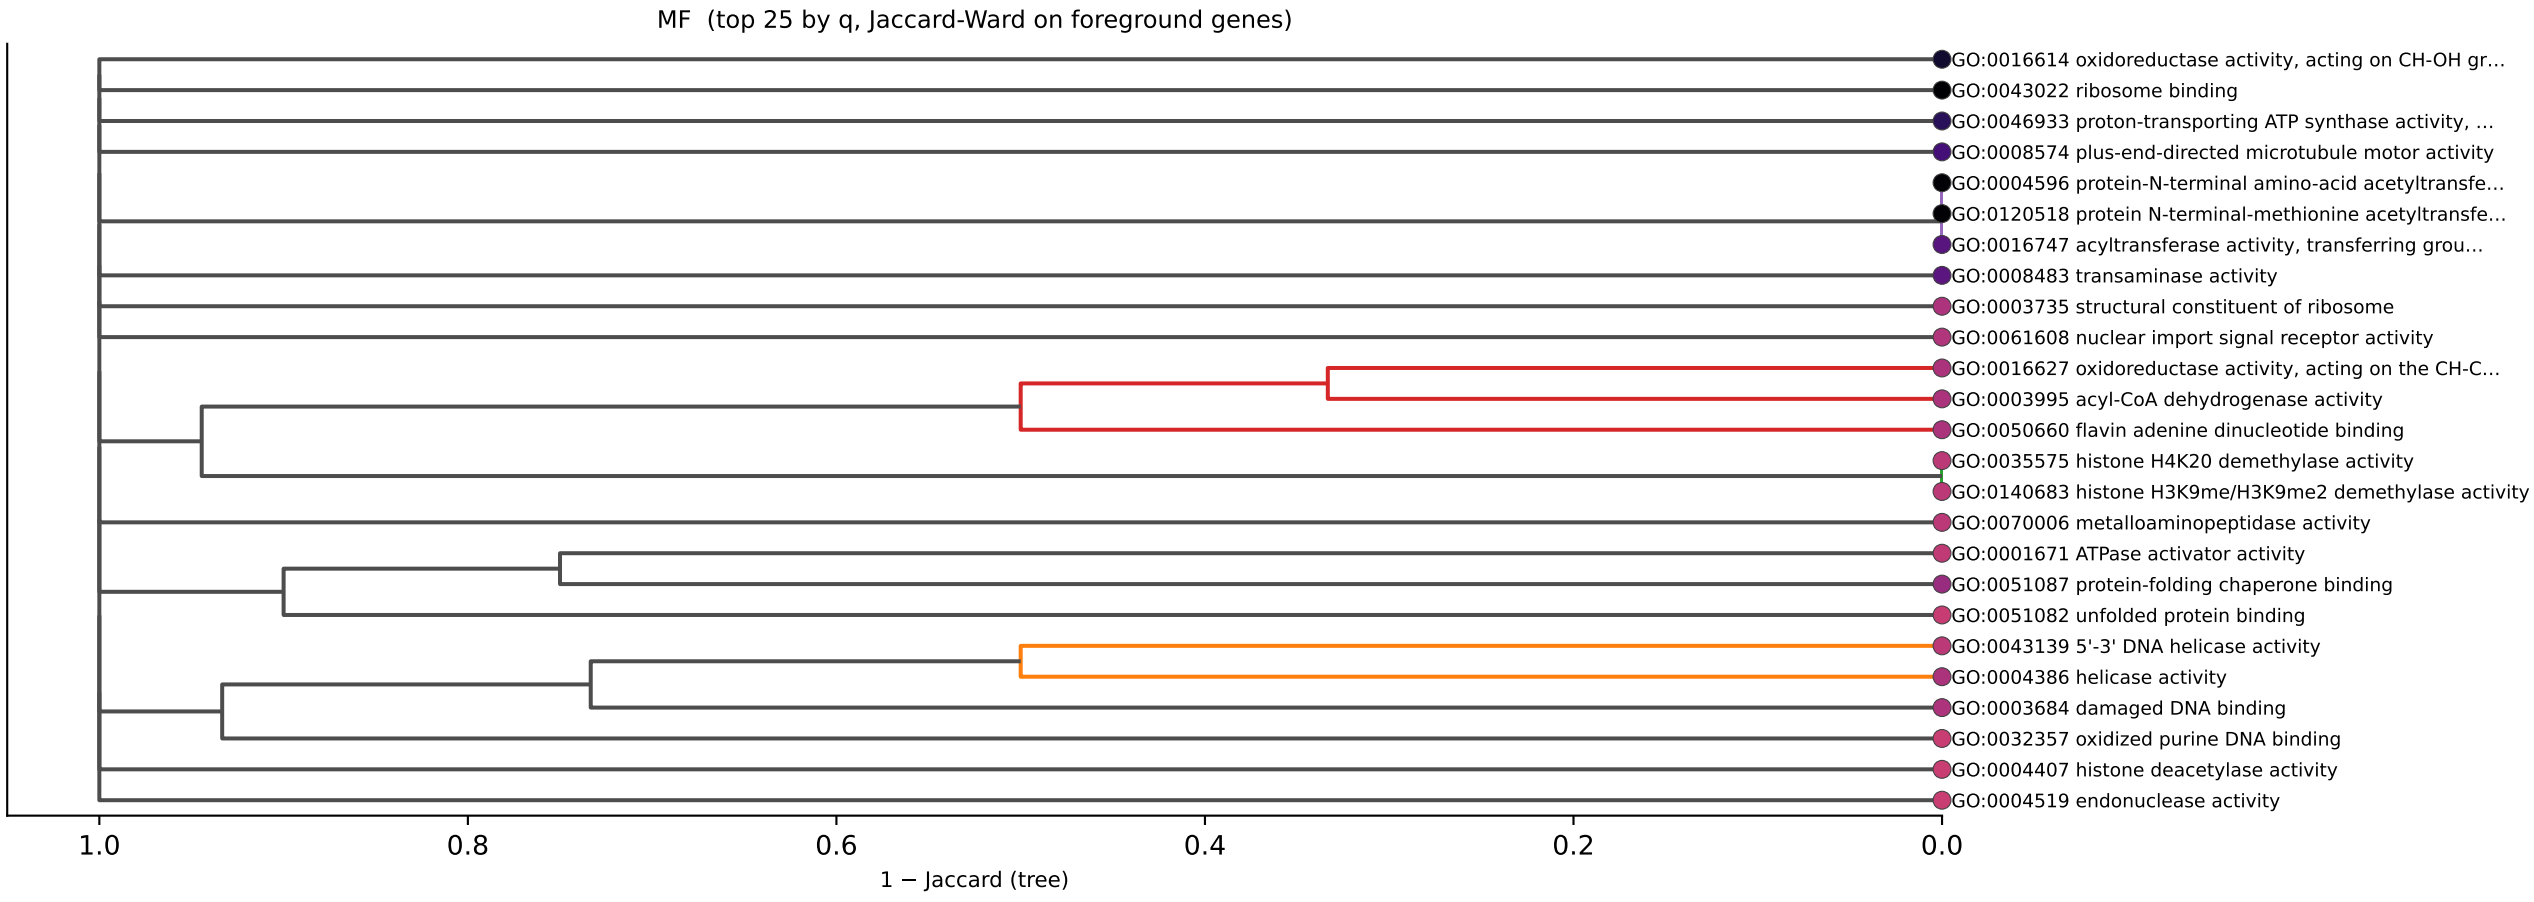


Decapodiformes — GO term clustering by shared foreground genes

BP (top 25 by q, Jaccard-Ward on foreground genes)

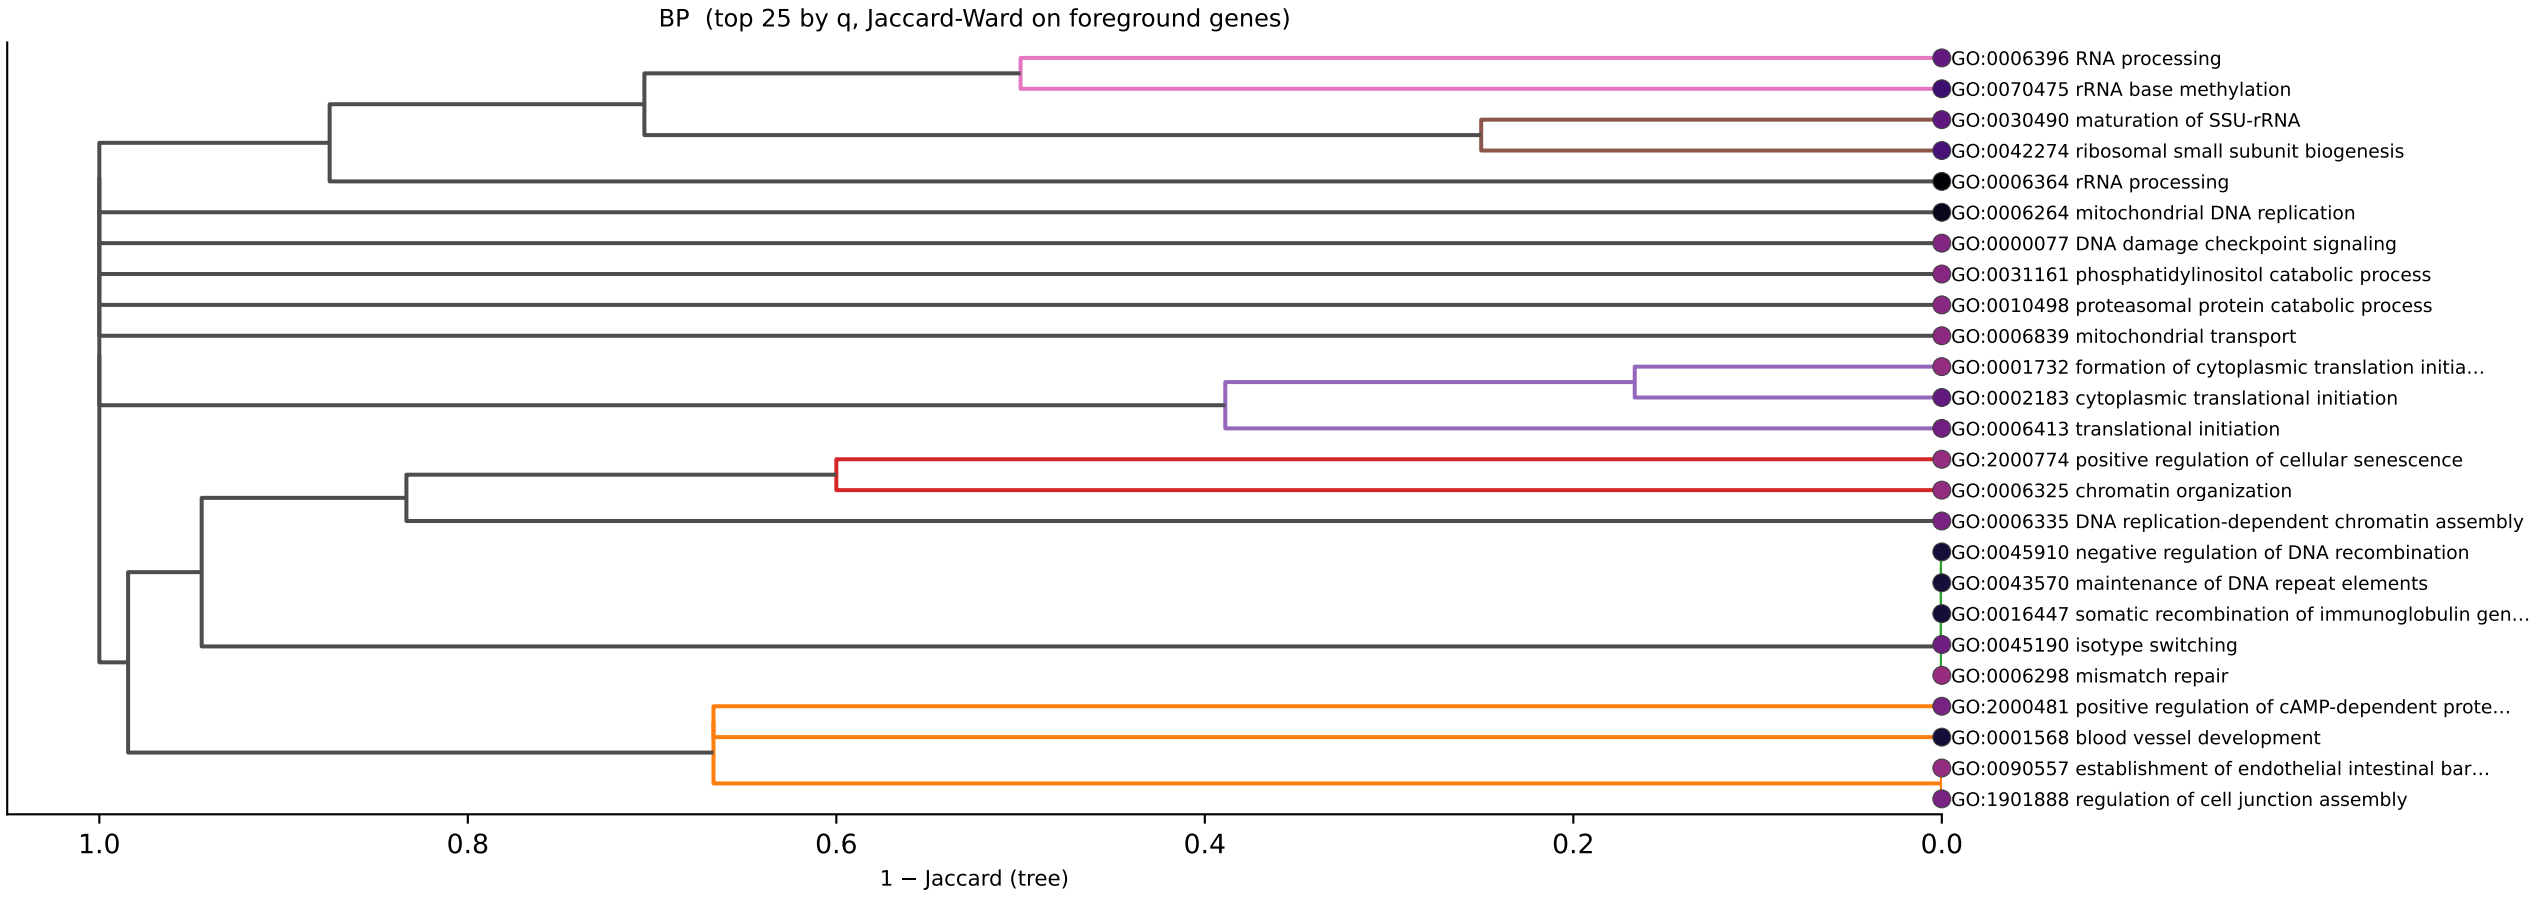


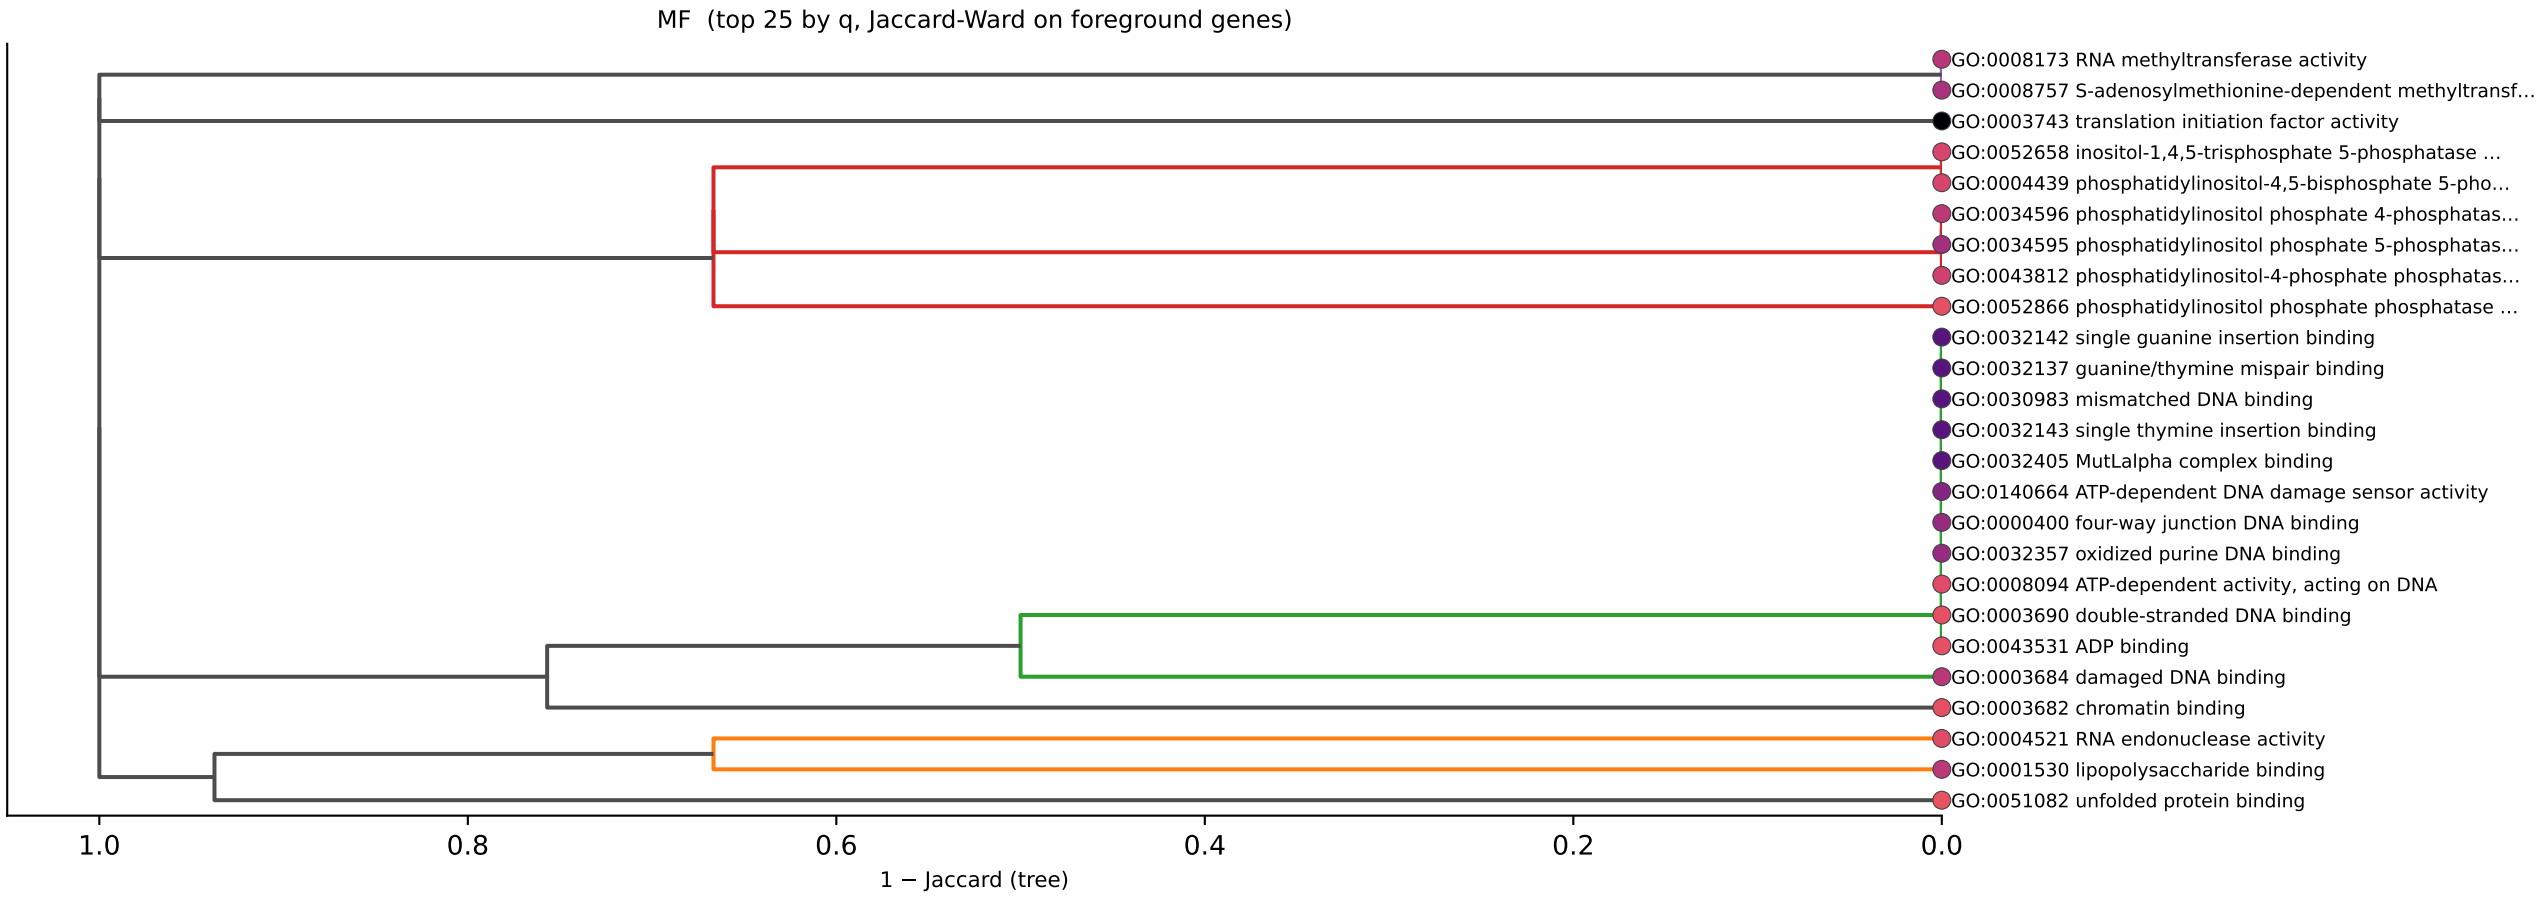
MF (top 25 by q, Jaccard-Ward on foreground genes)

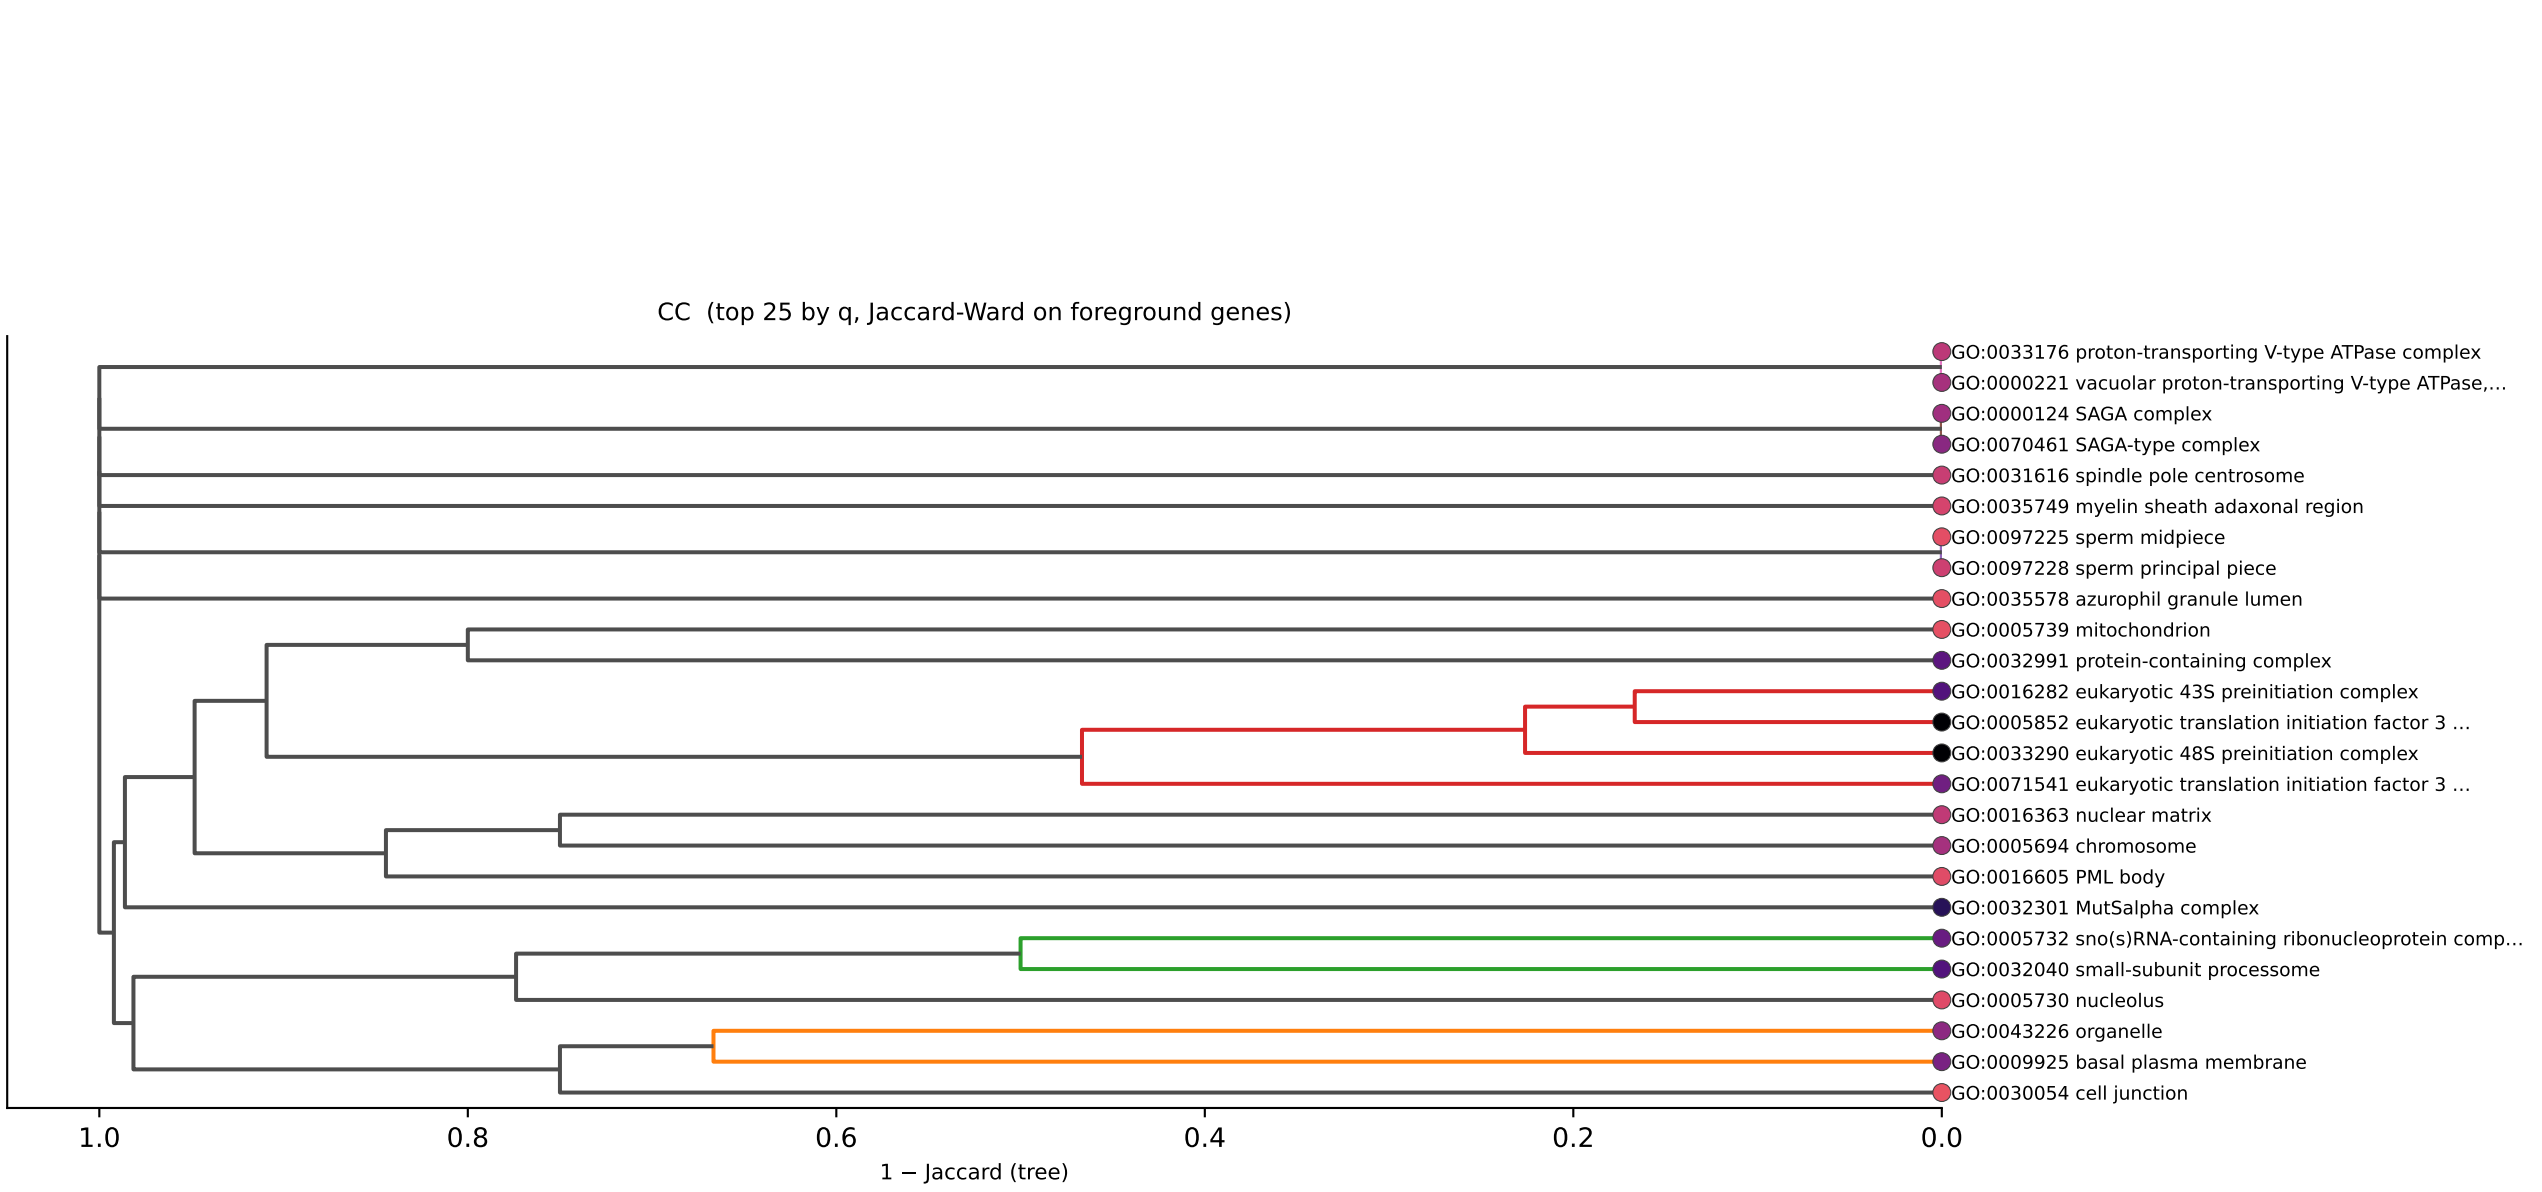


CC (top 25 by q, Jaccard-Ward on foreground genes)

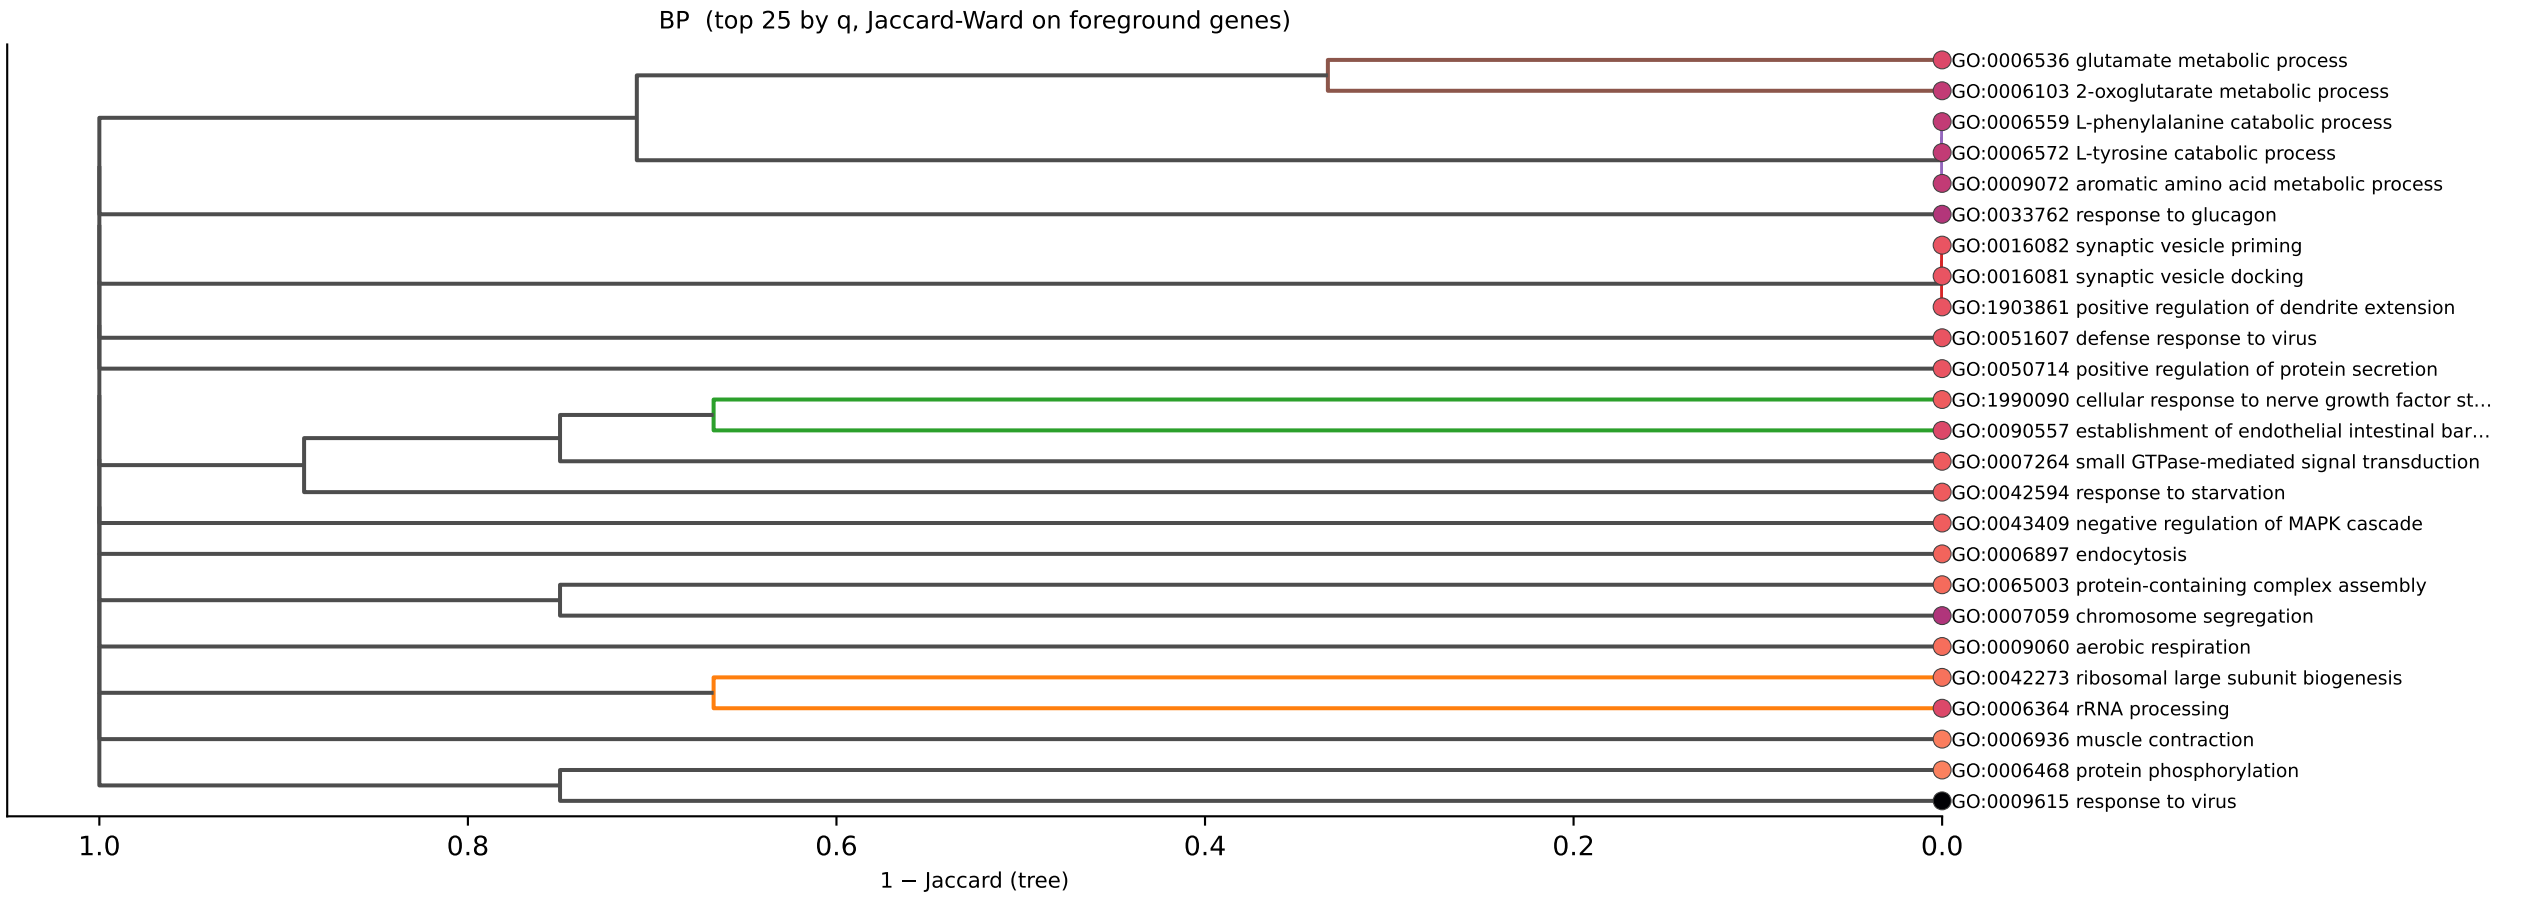
Deuterostomia — GO term clustering by shared foreground genes

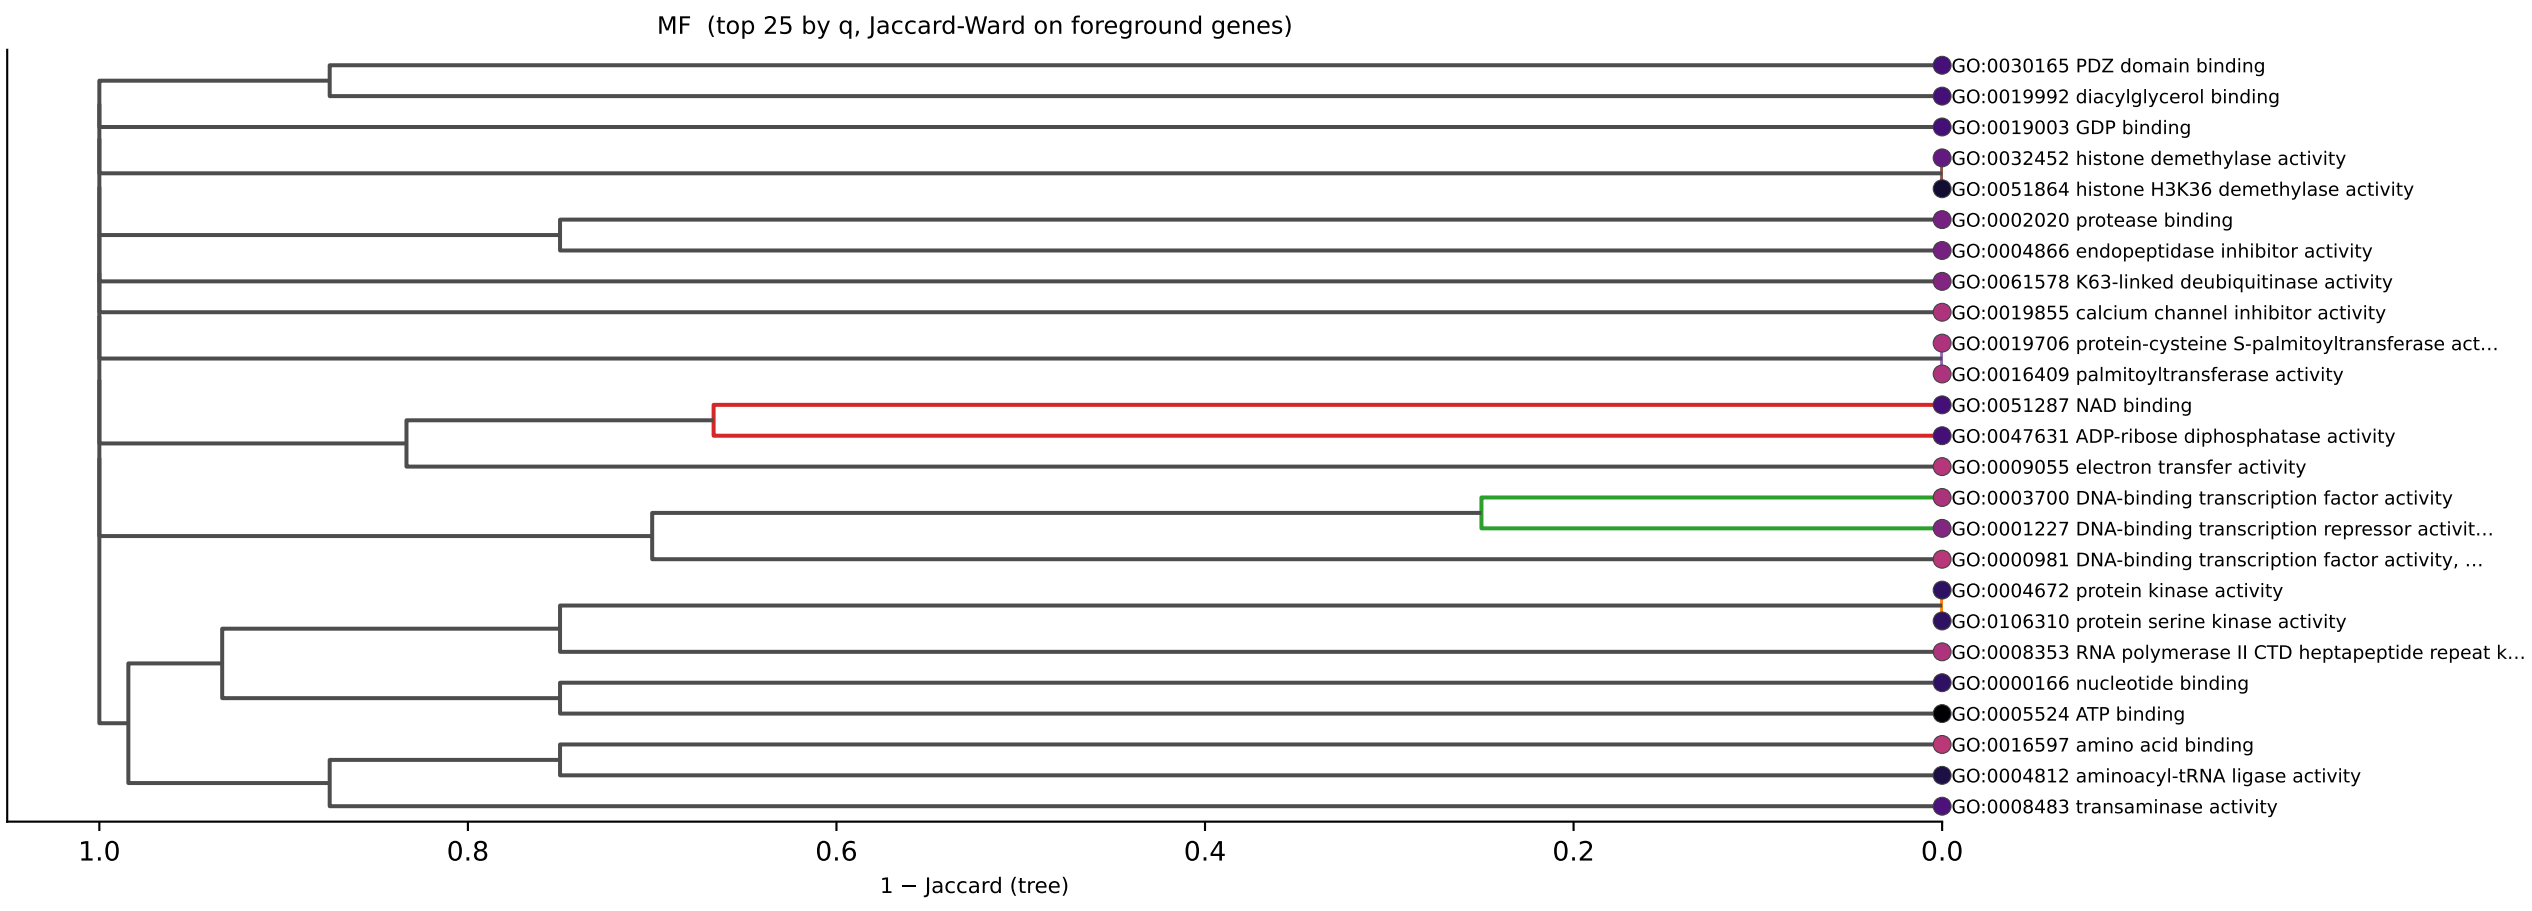


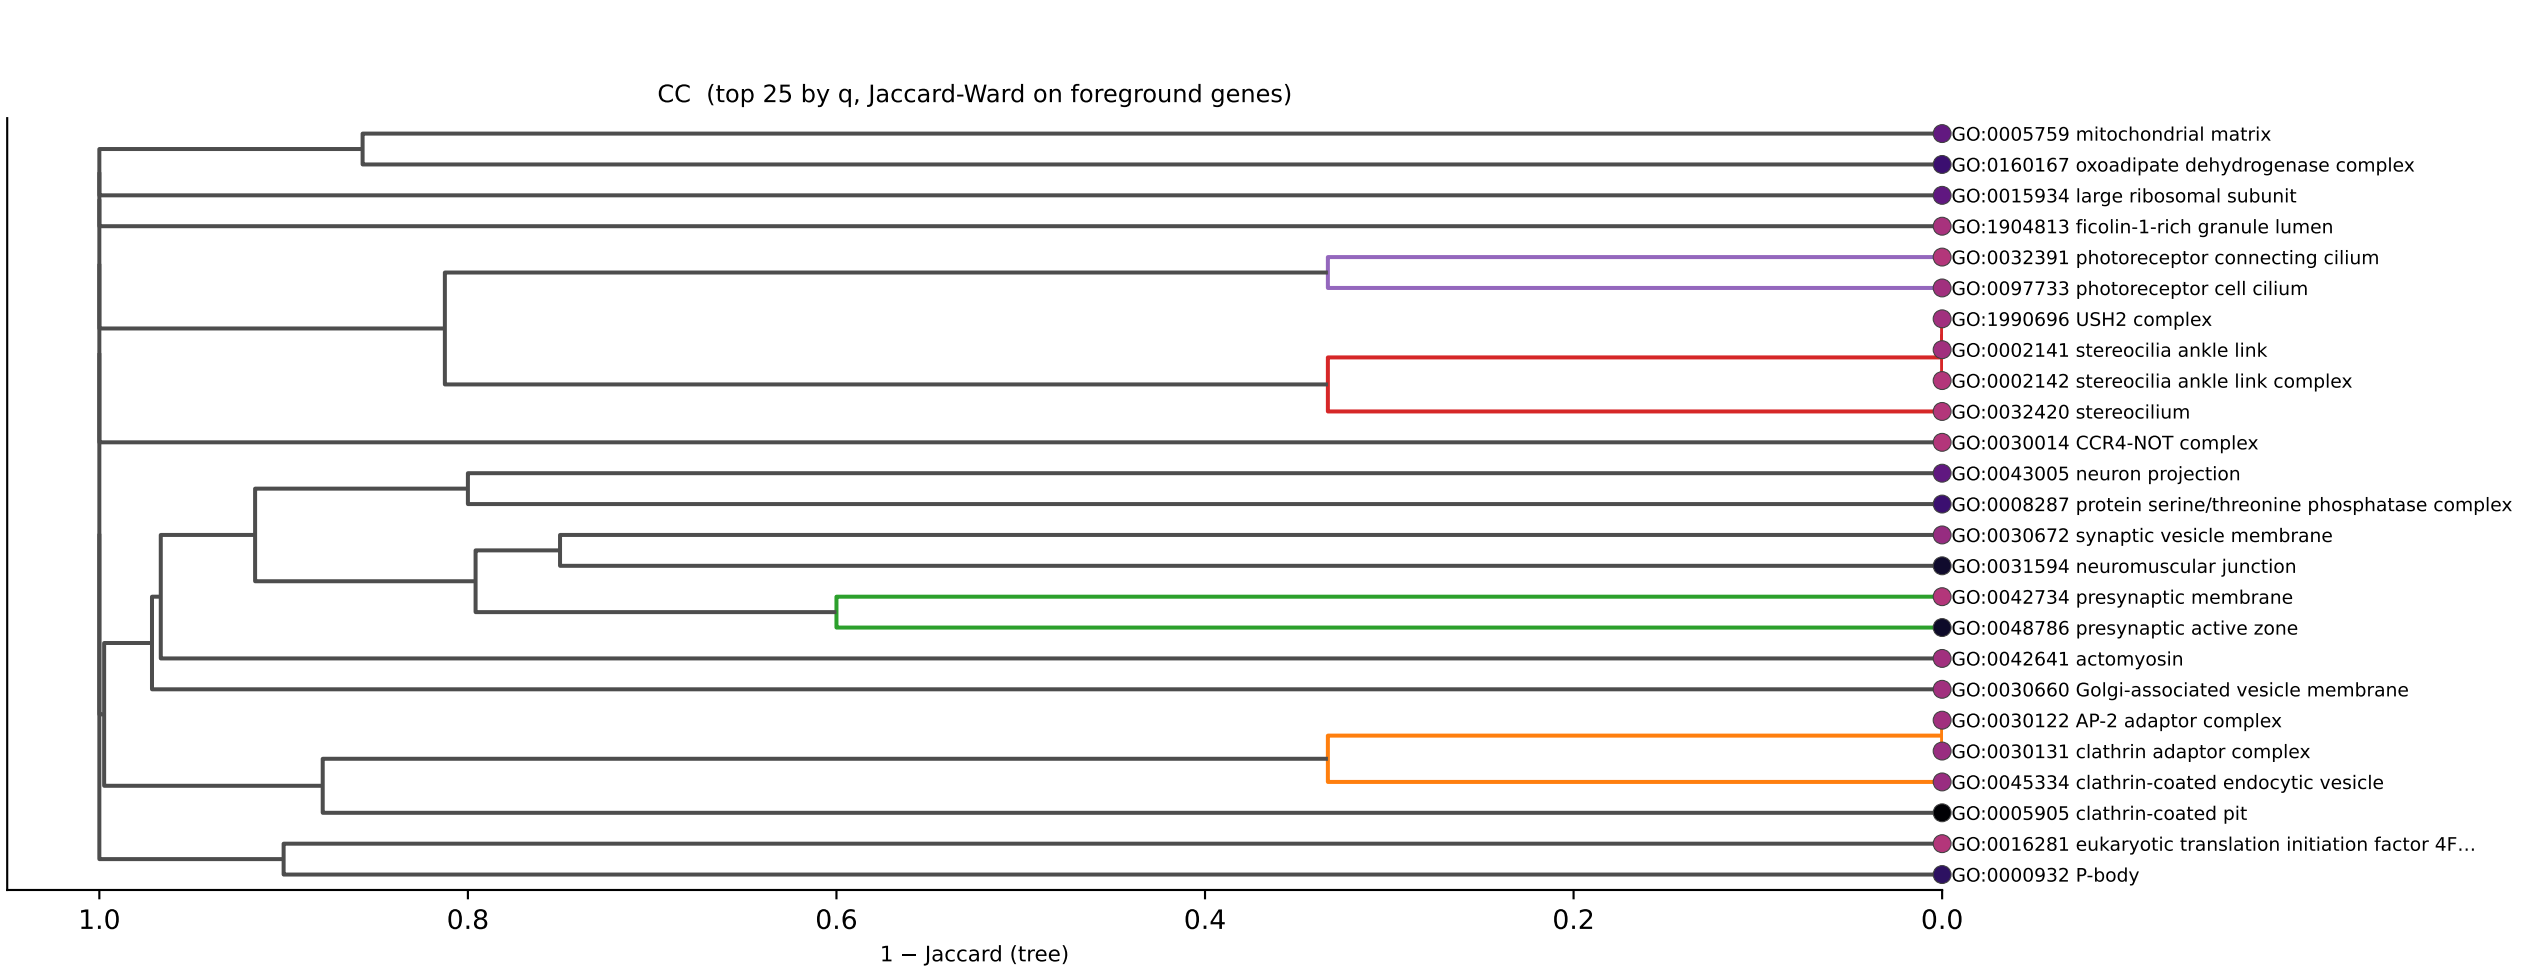




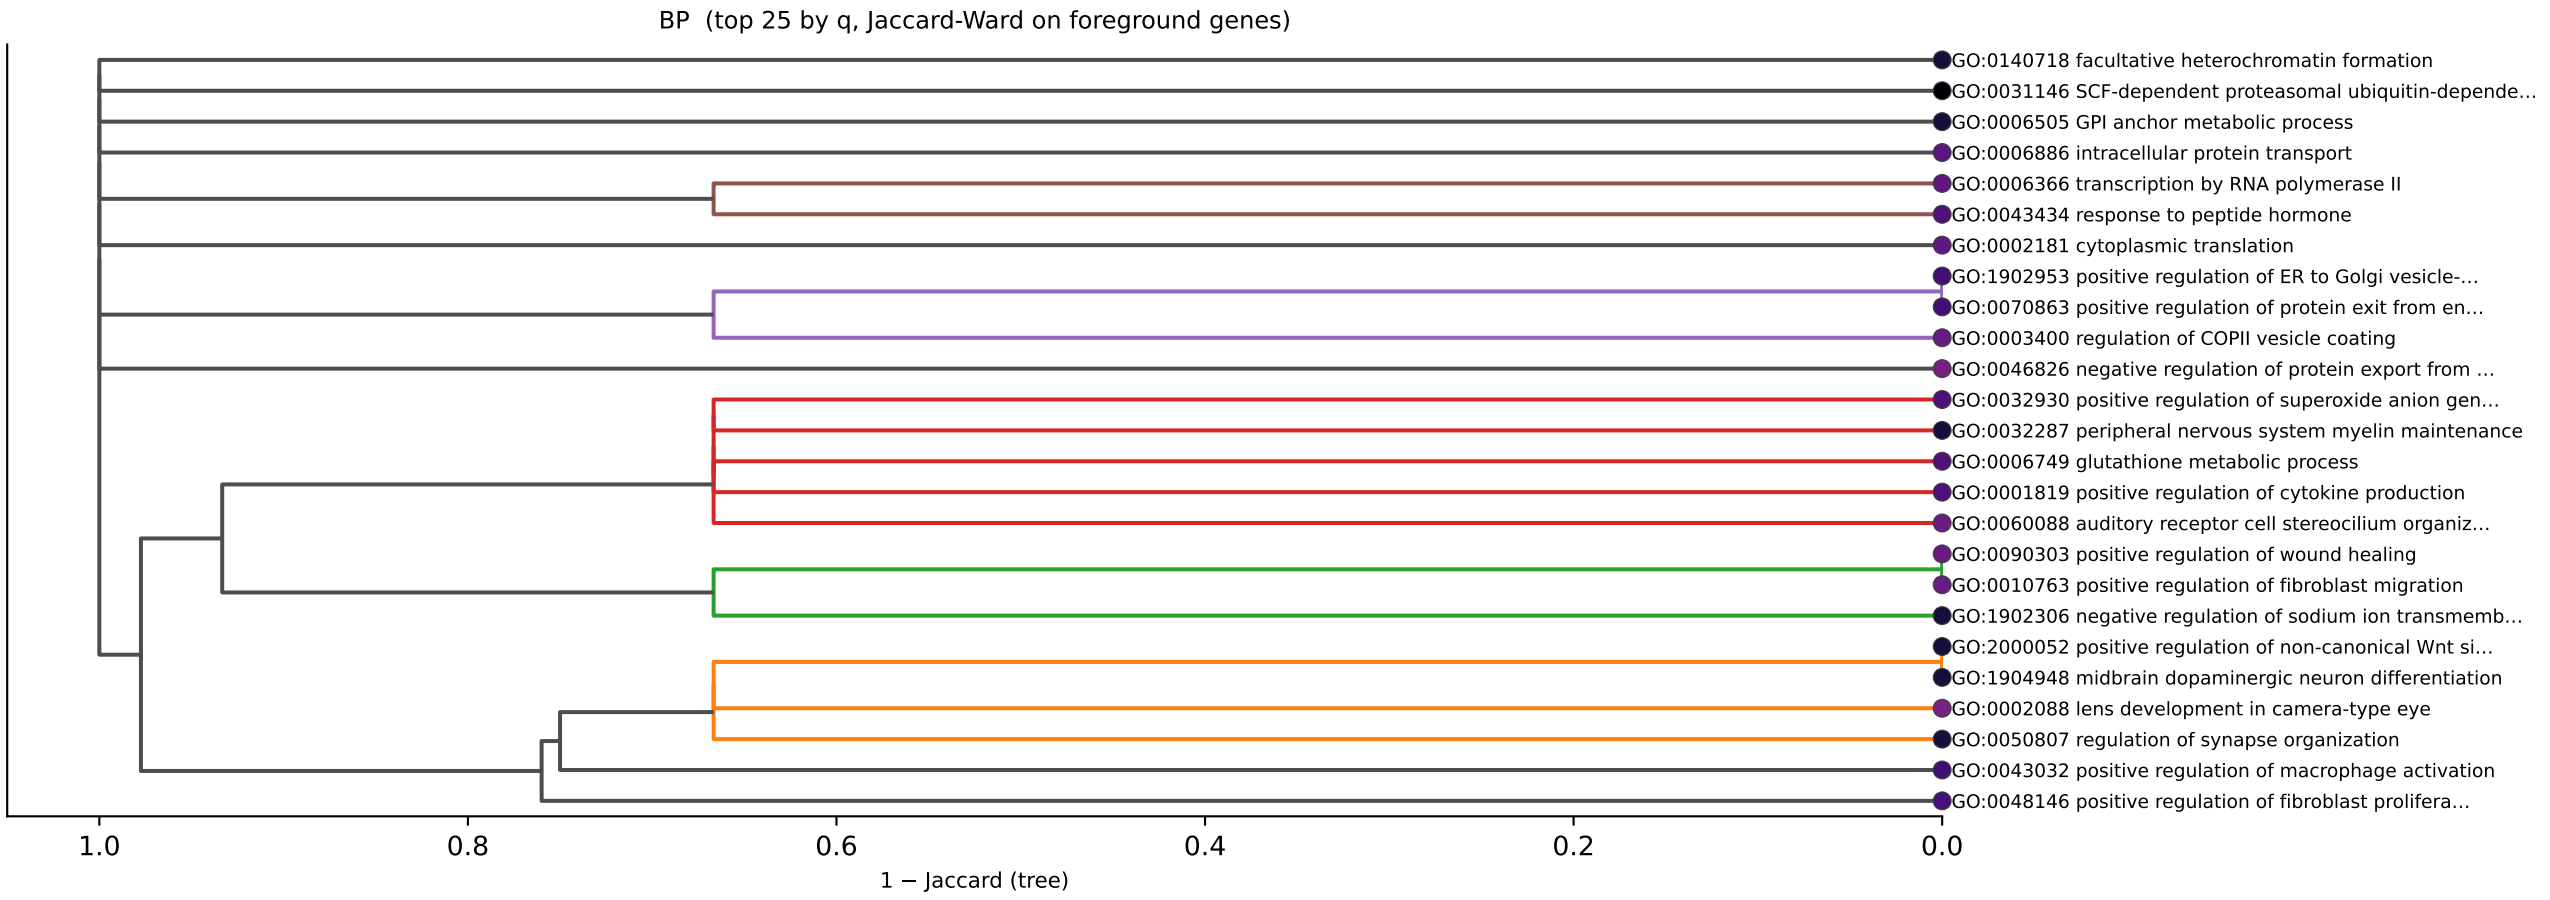
Diptera — GO term clustering by shared foreground genes

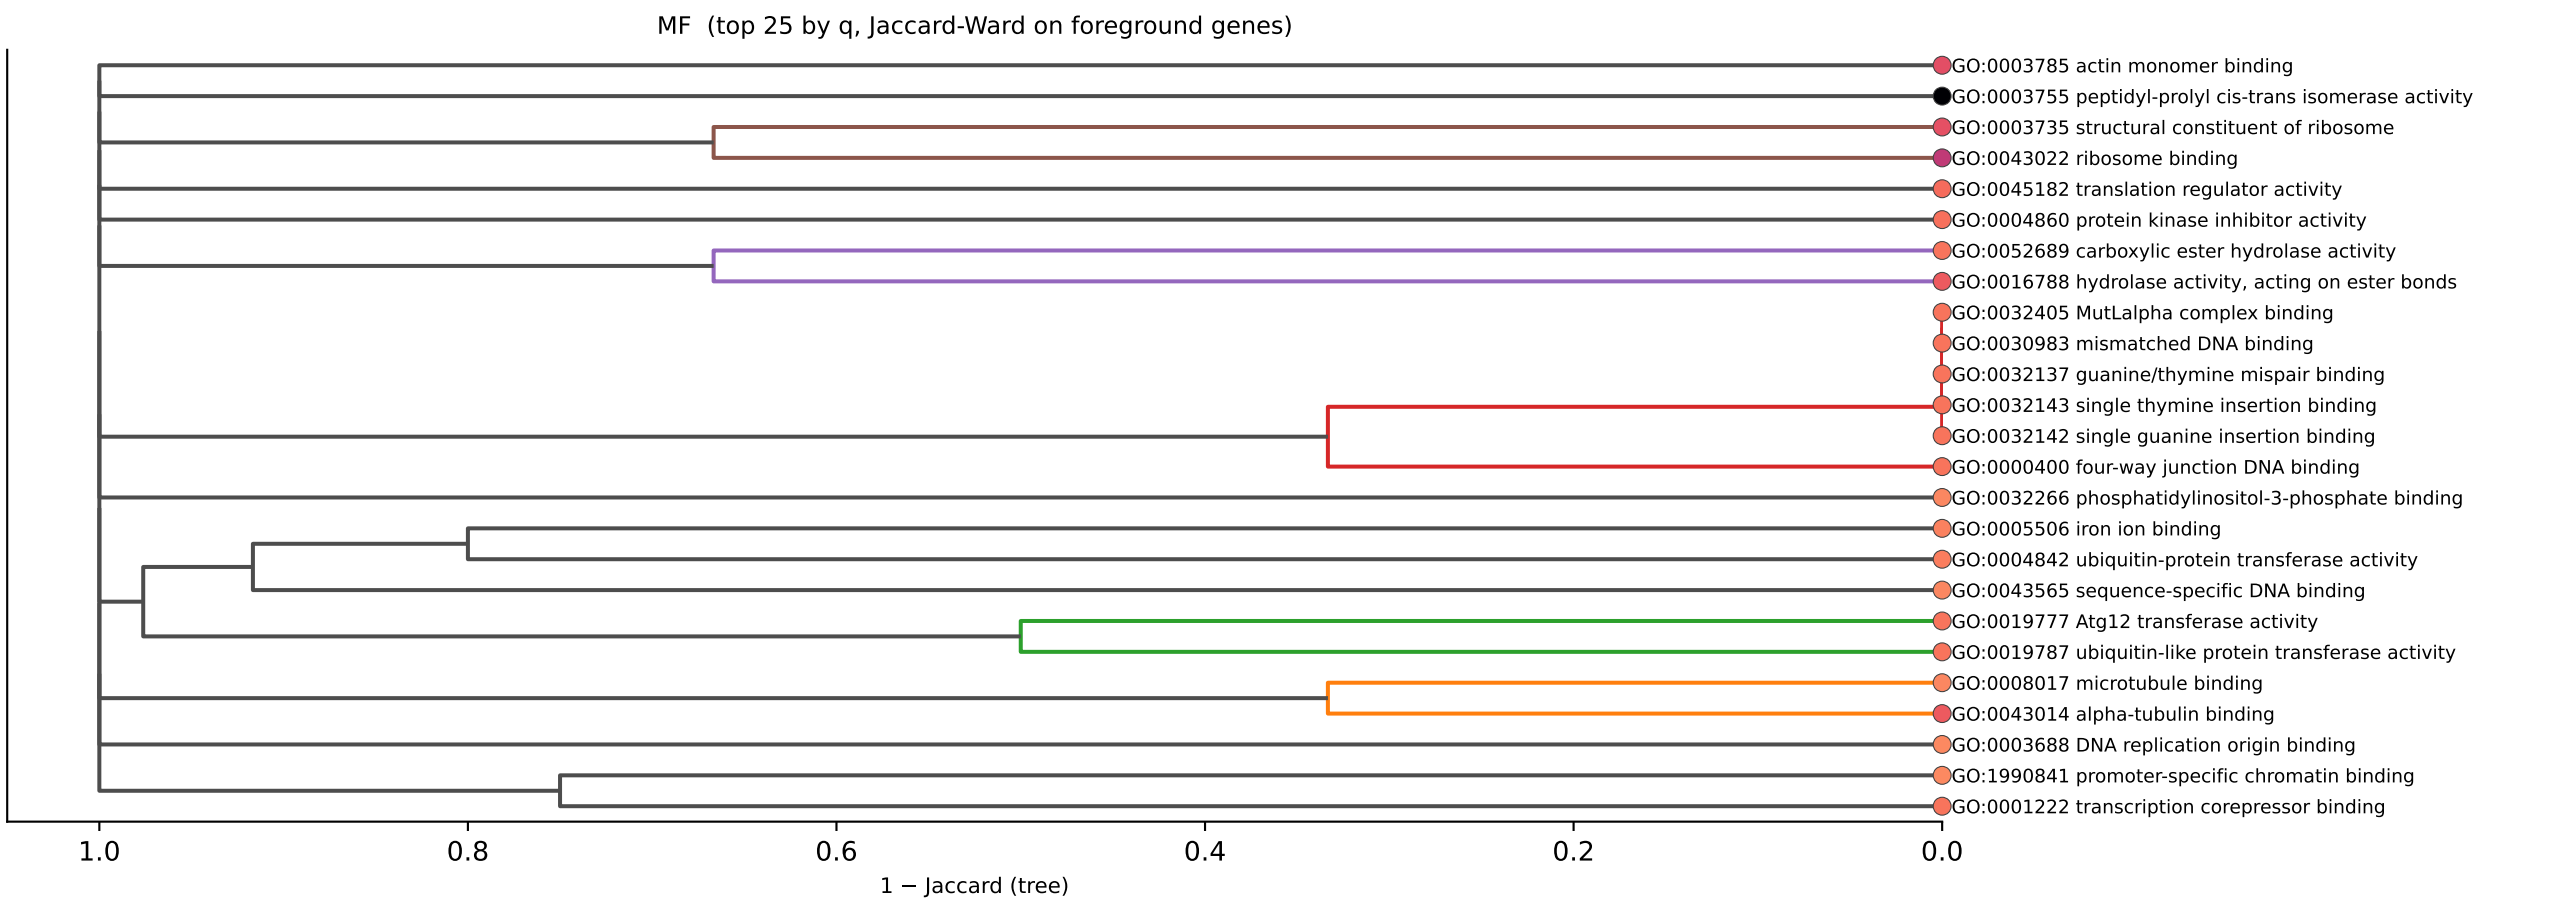


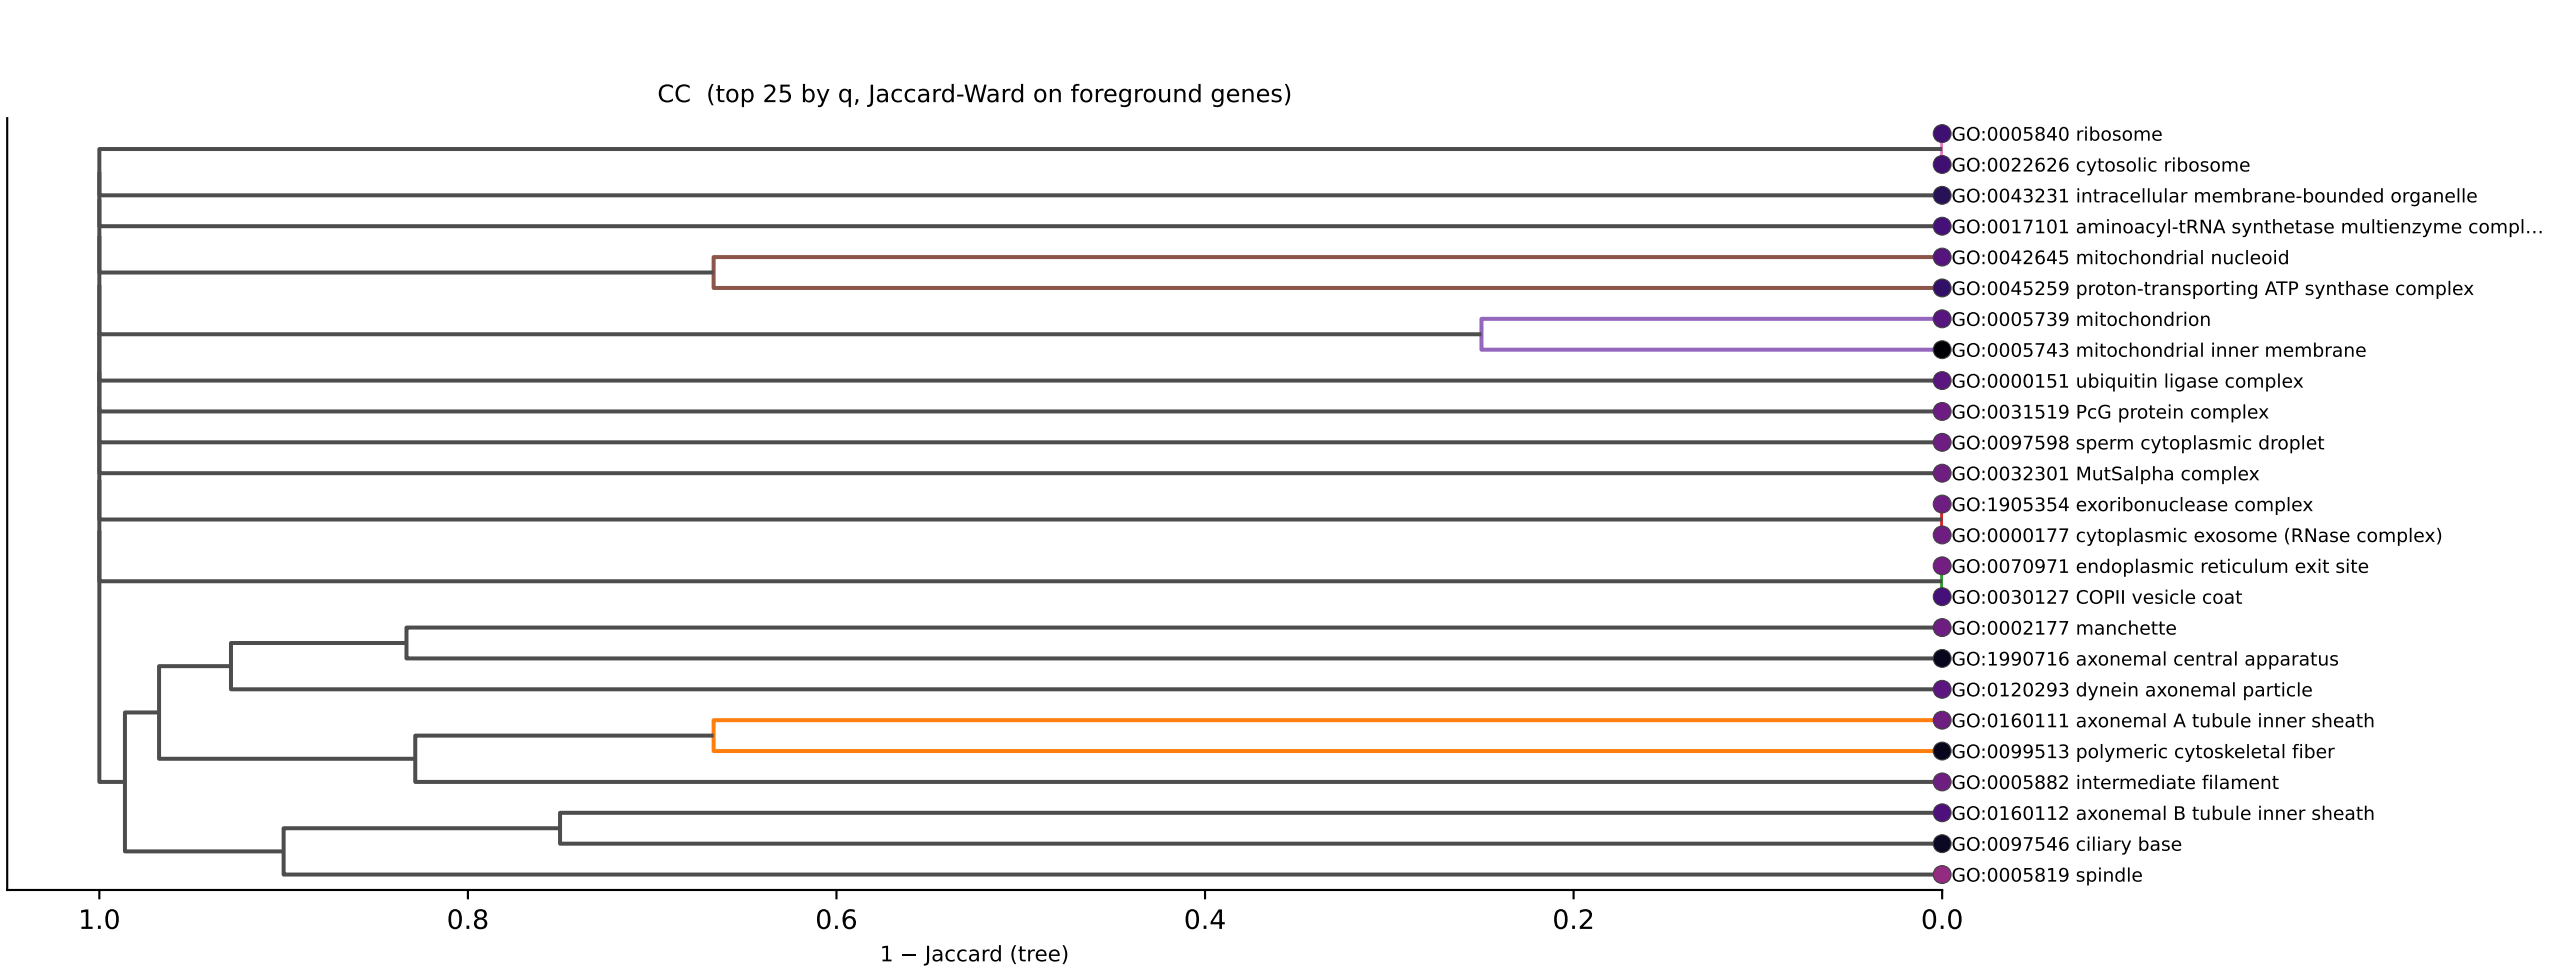




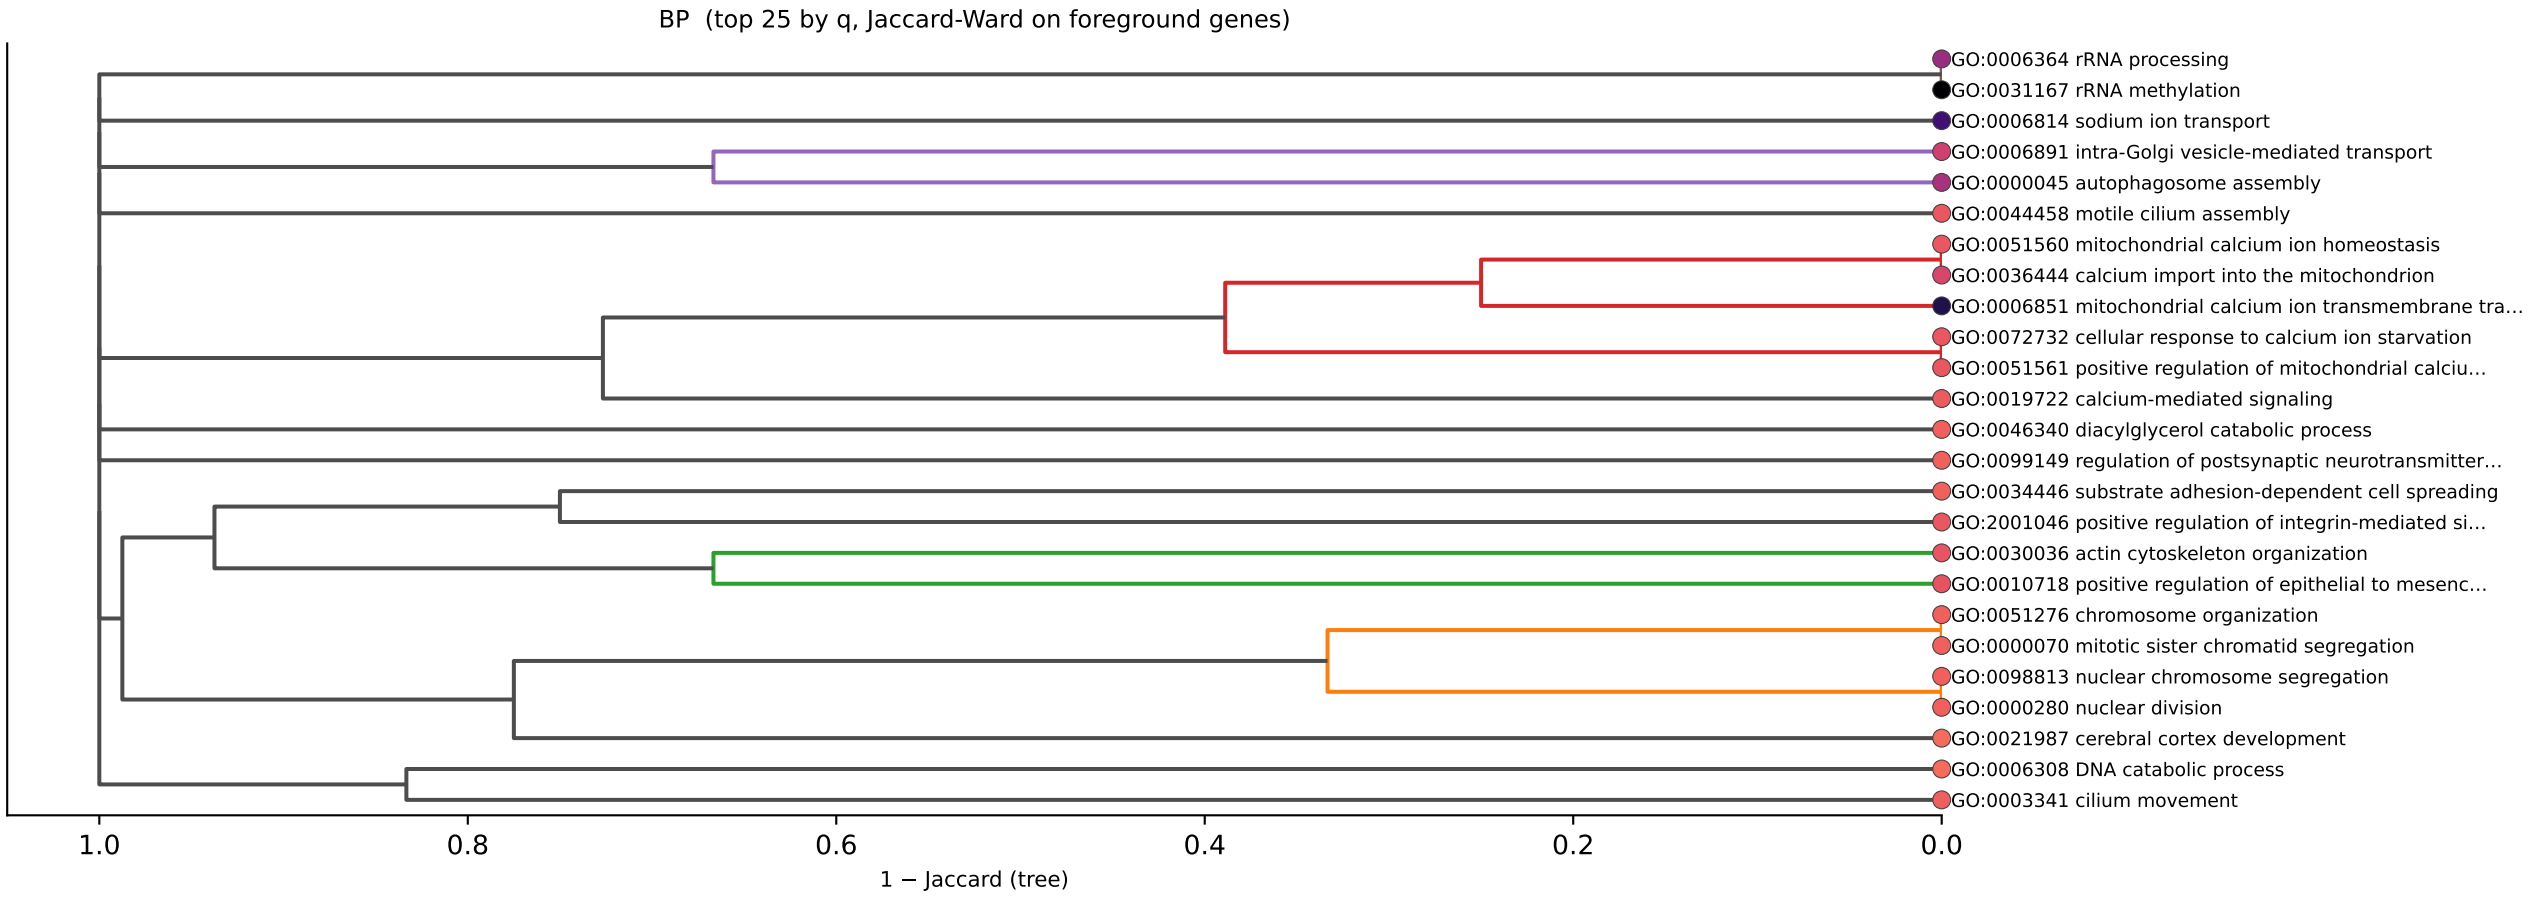
Echinodermata — GO term clustering by shared foreground genes

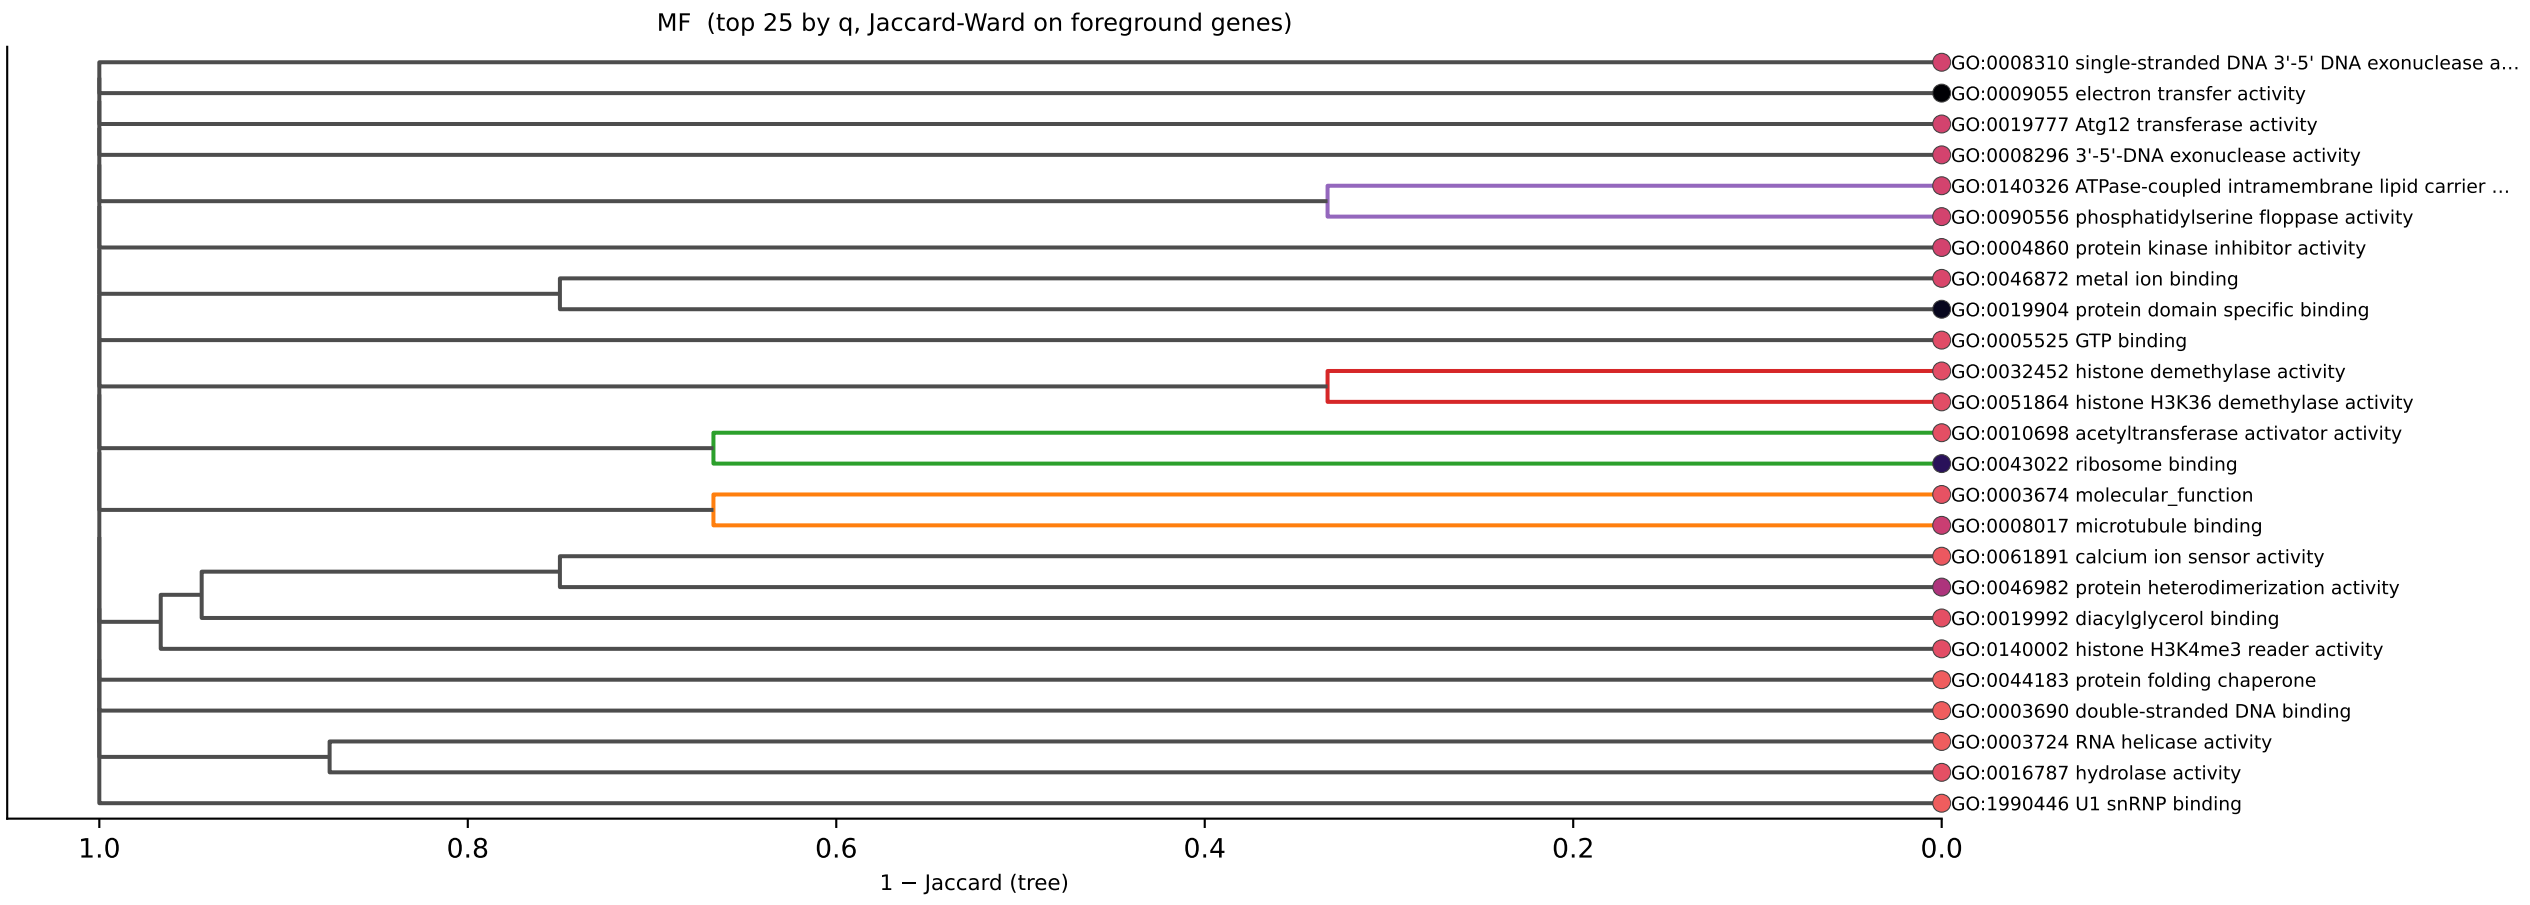






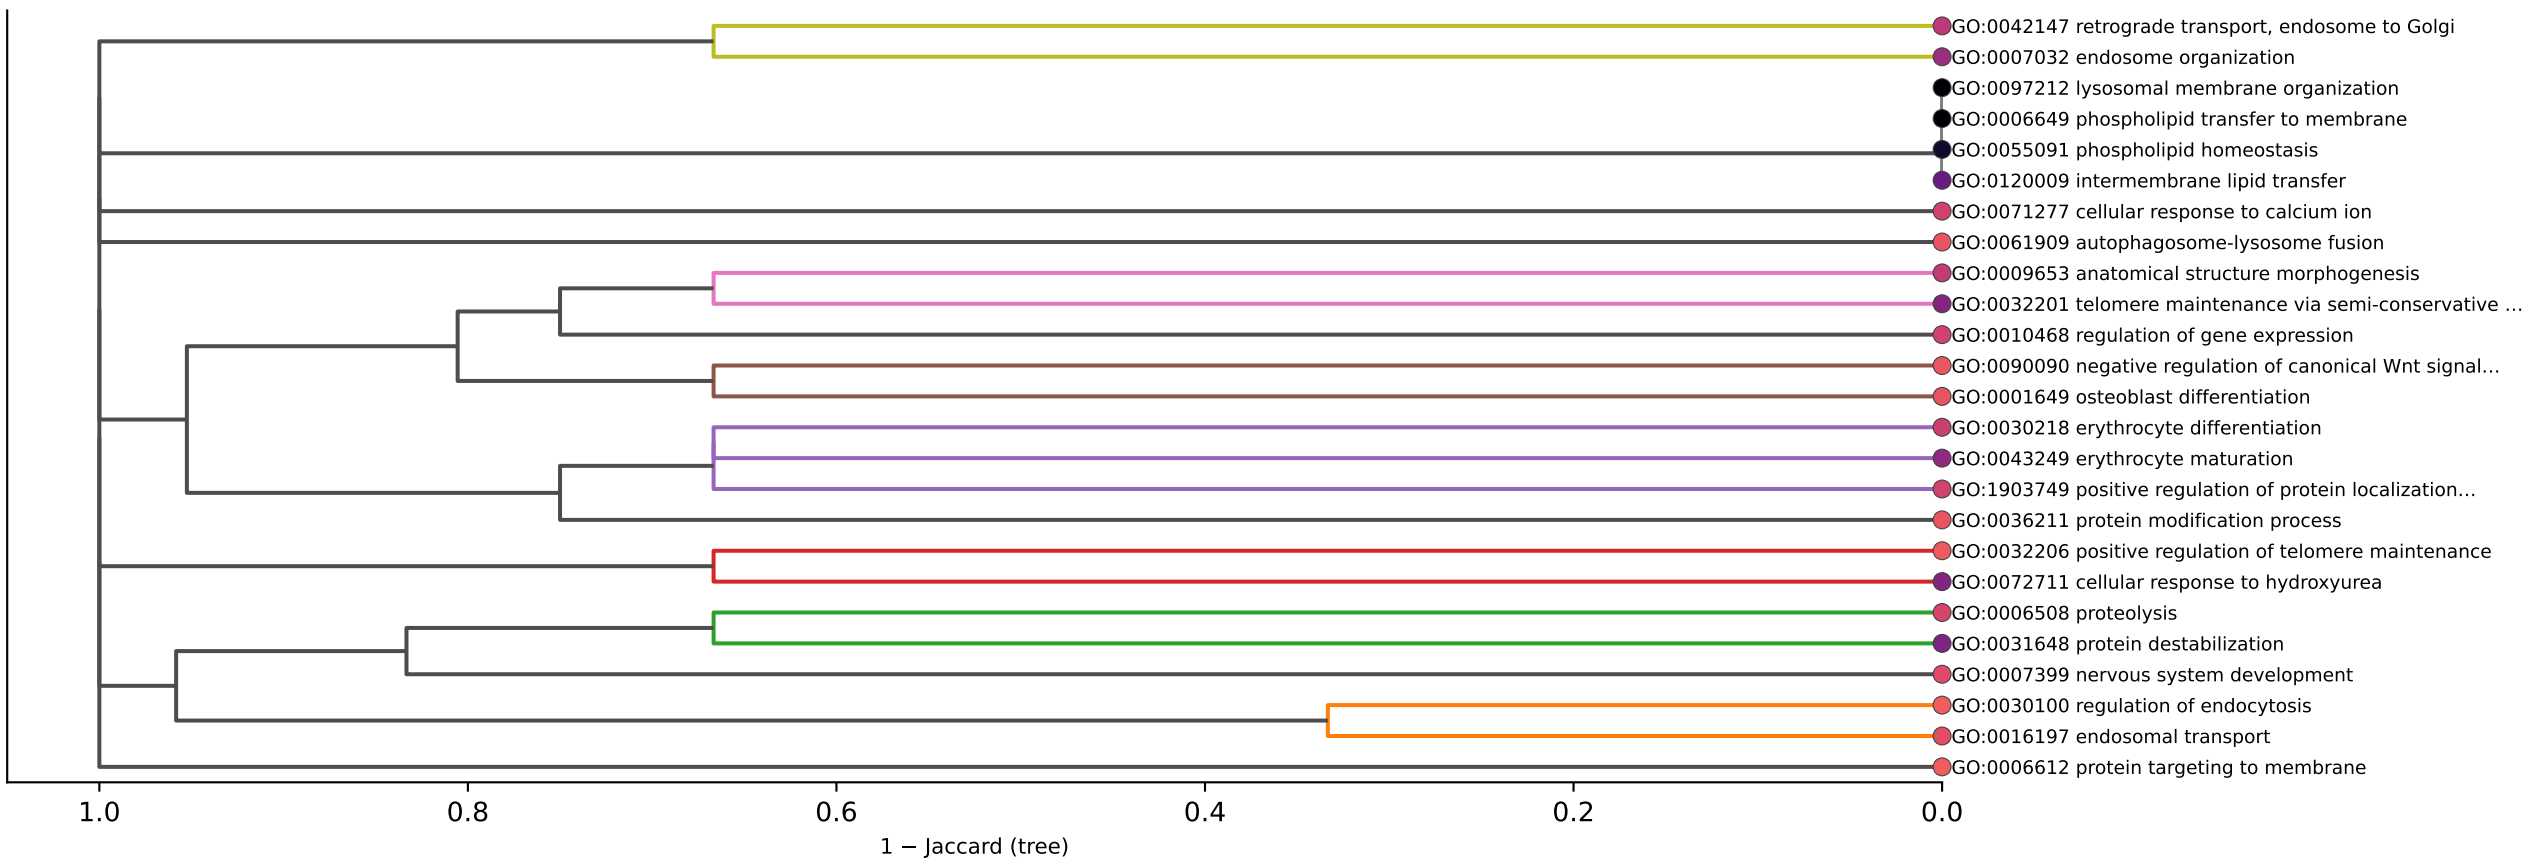
Gastropoda — GO term clustering by shared foreground genes



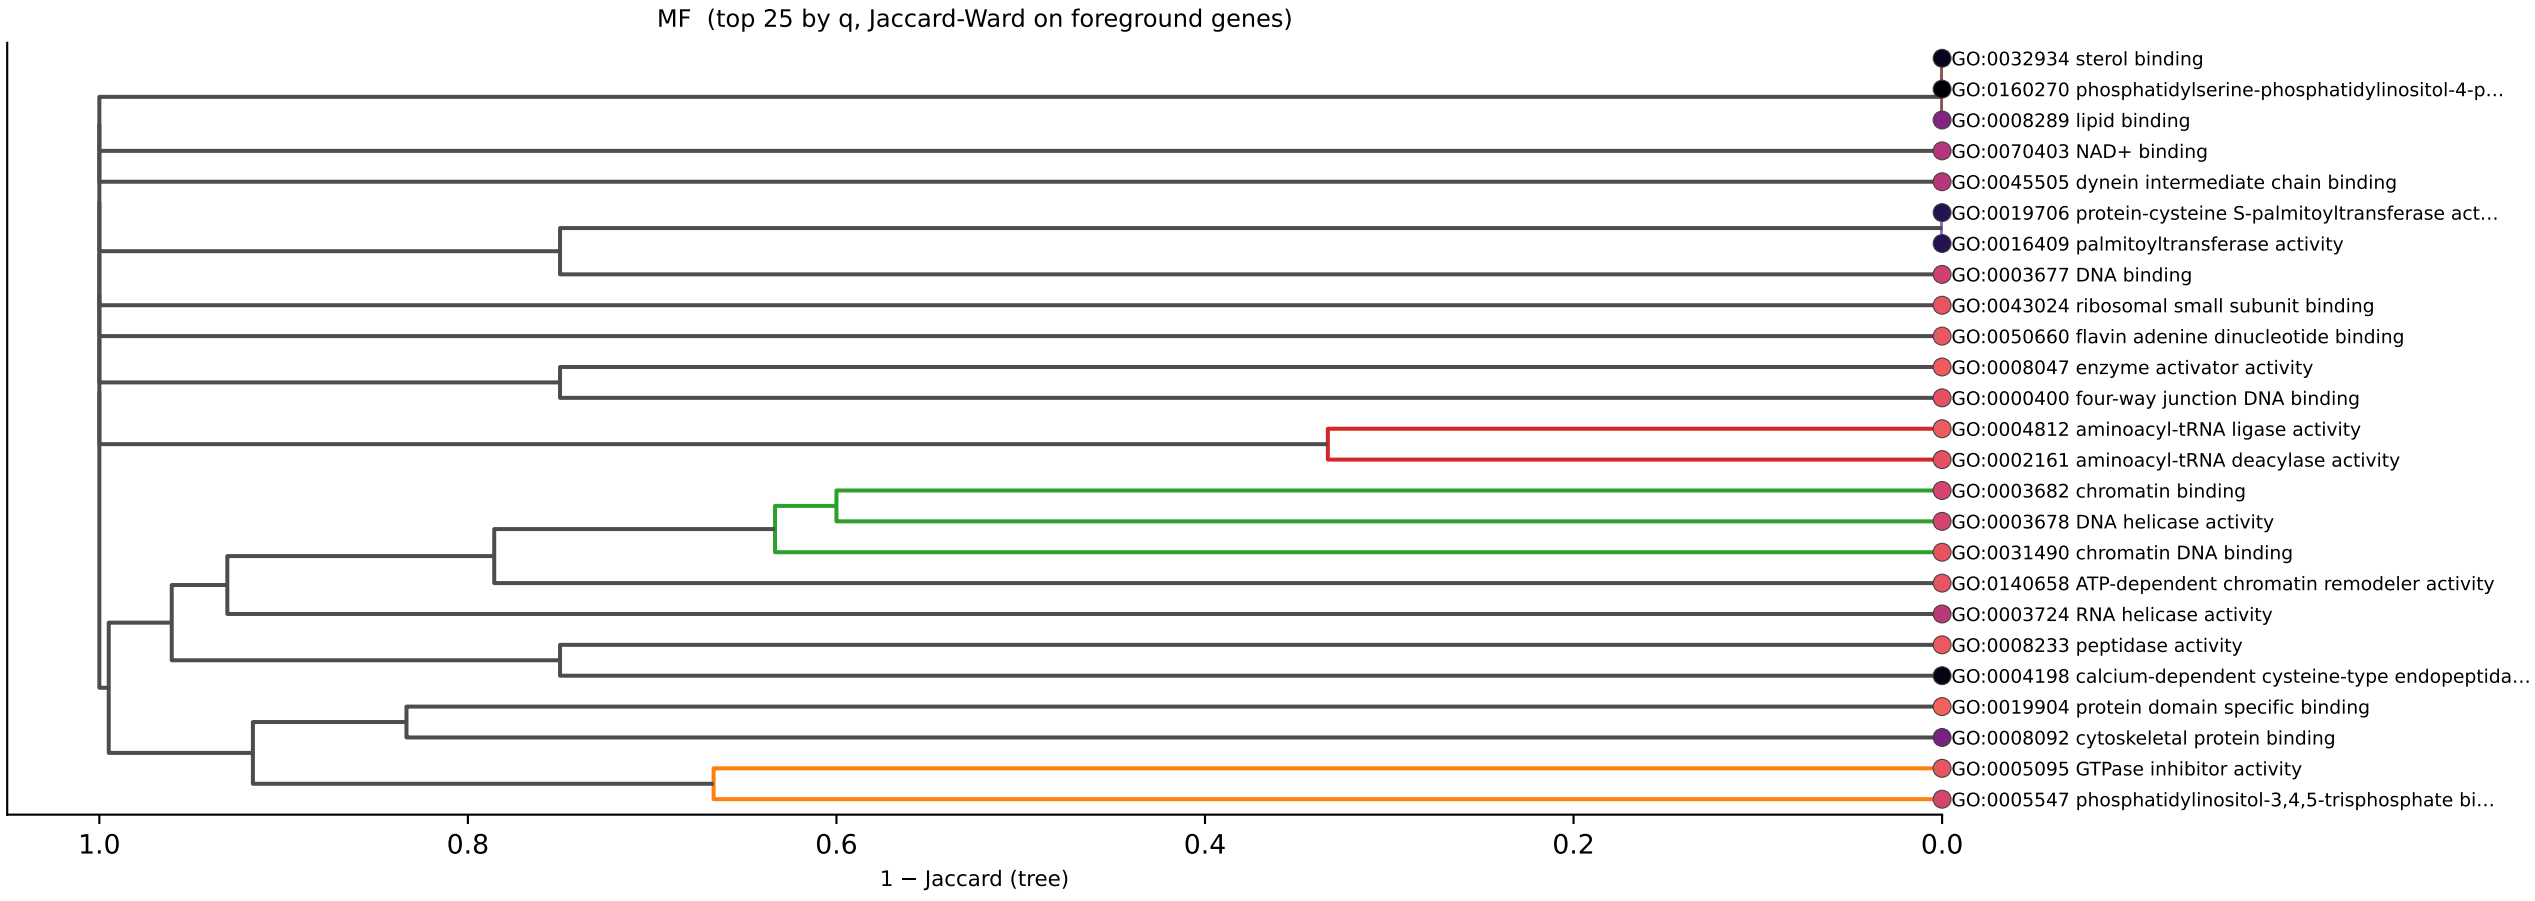


Hexapoda — GO term clustering by shared foreground genes

BP (top 25 by q, Jaccard-Ward on foreground genes)

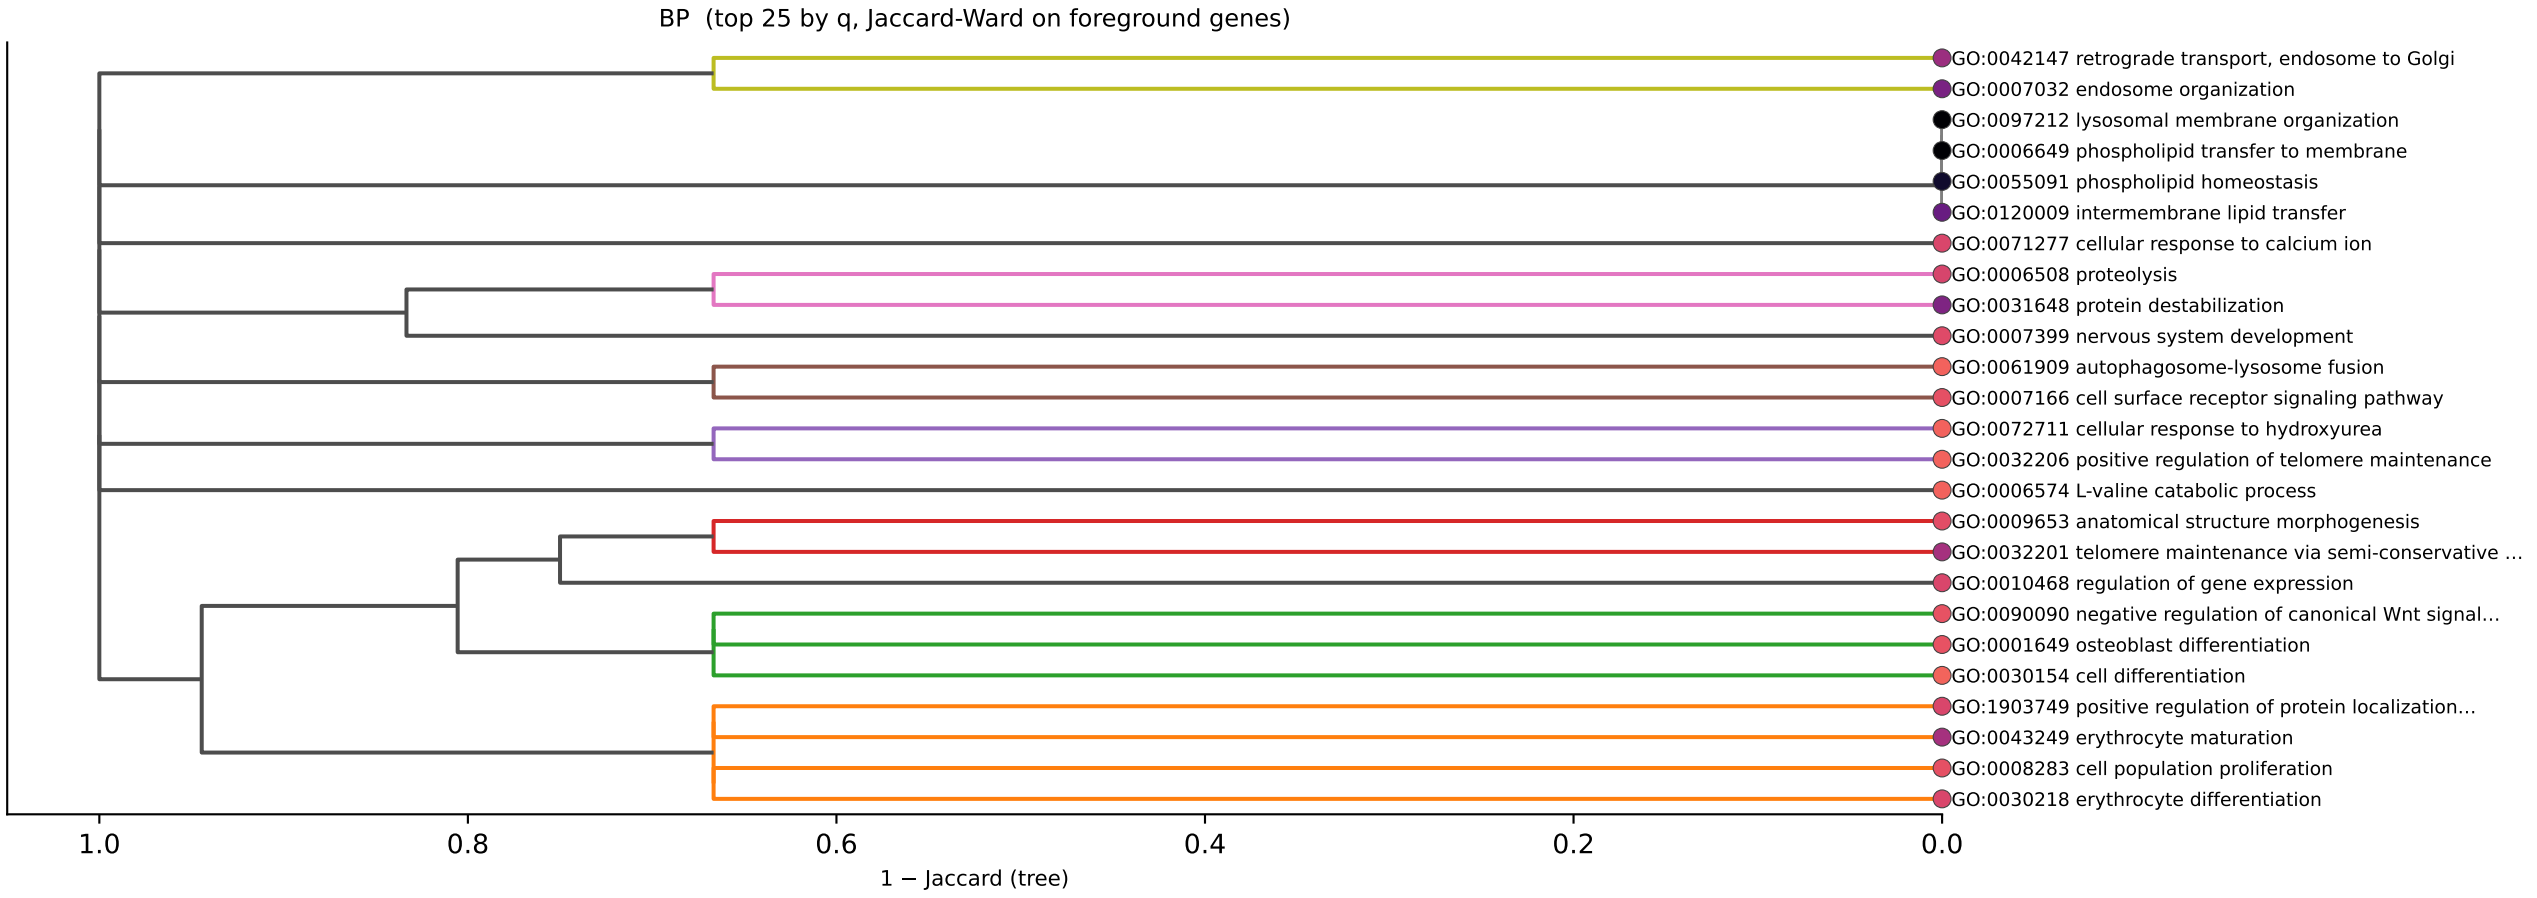


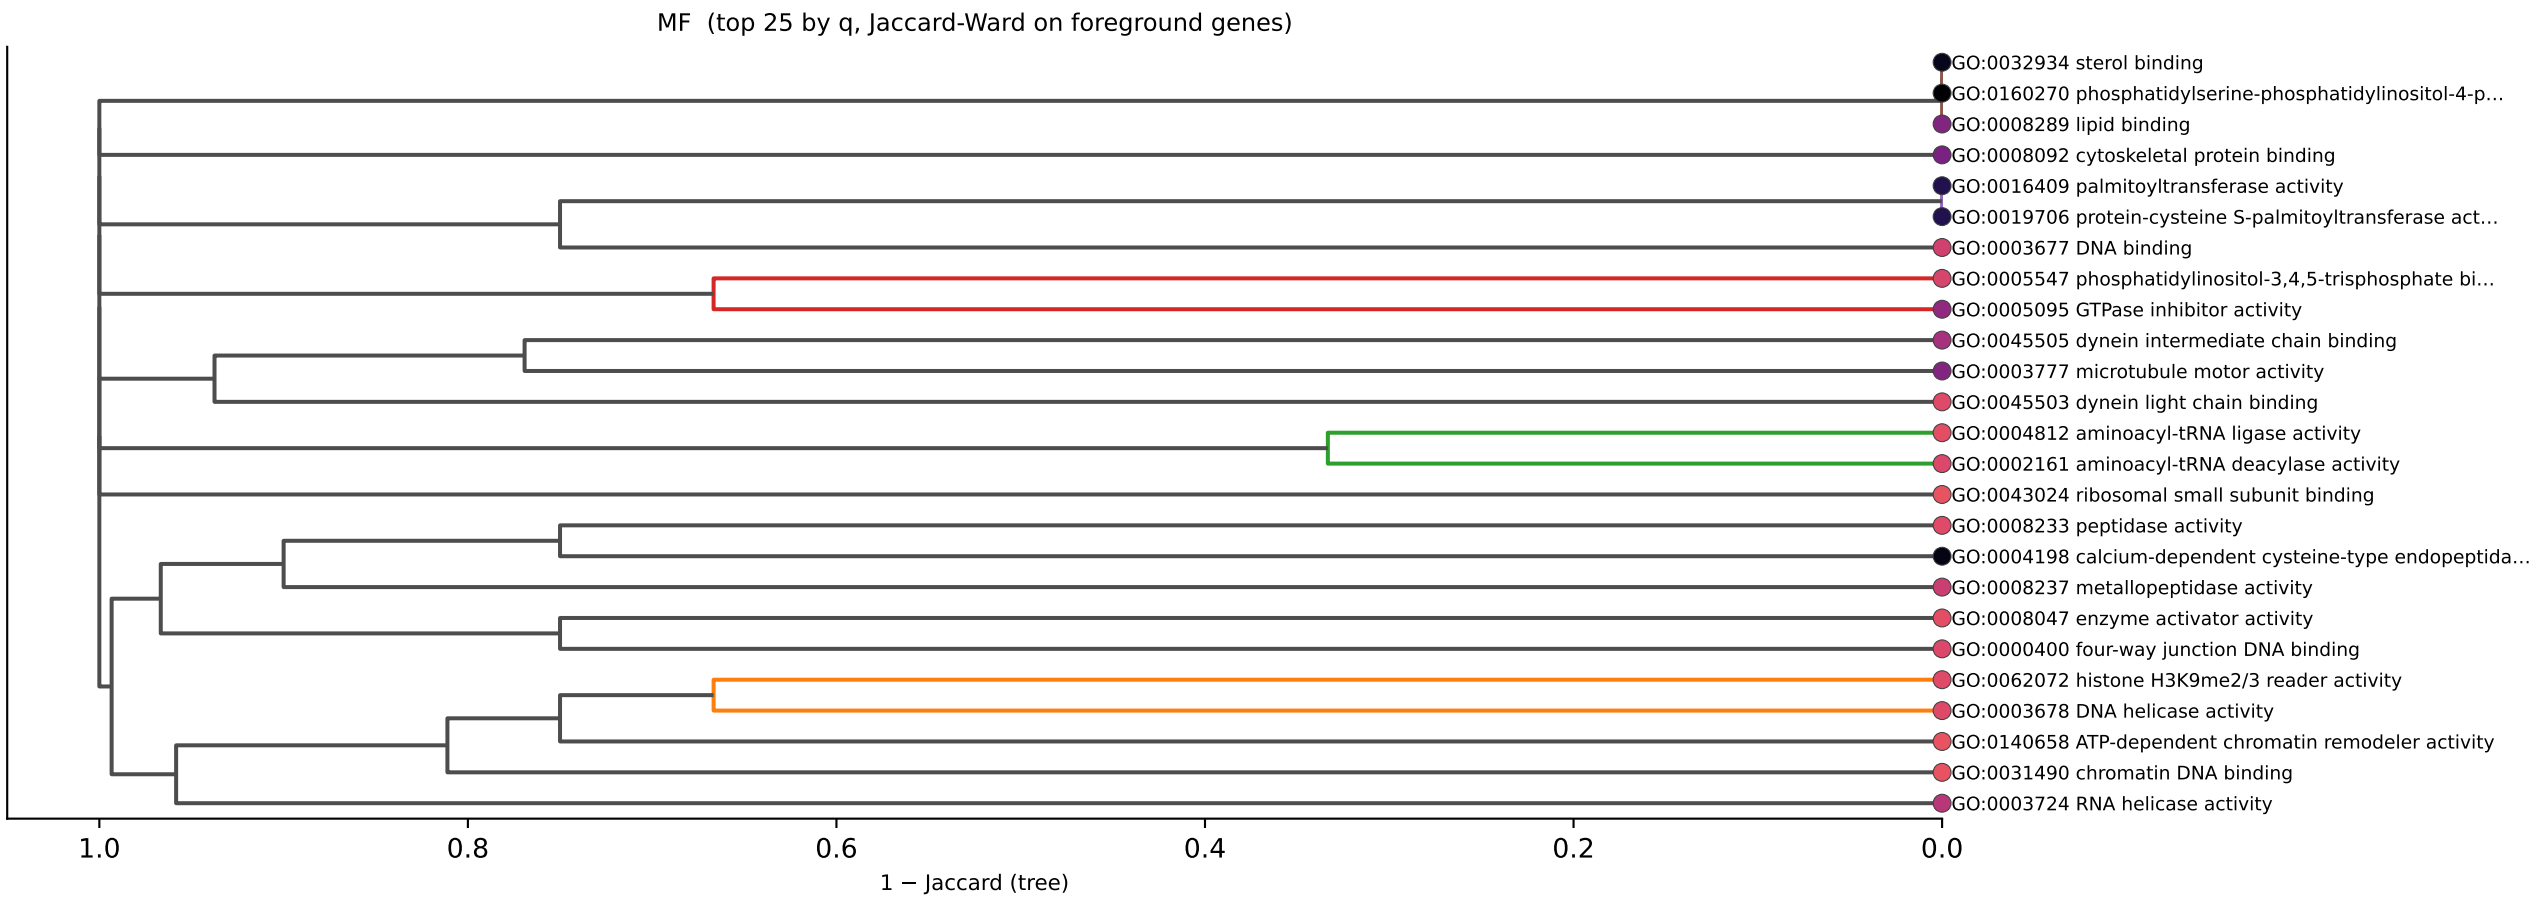
MF (top 25 by q, Jaccard-Ward on foreground genes)



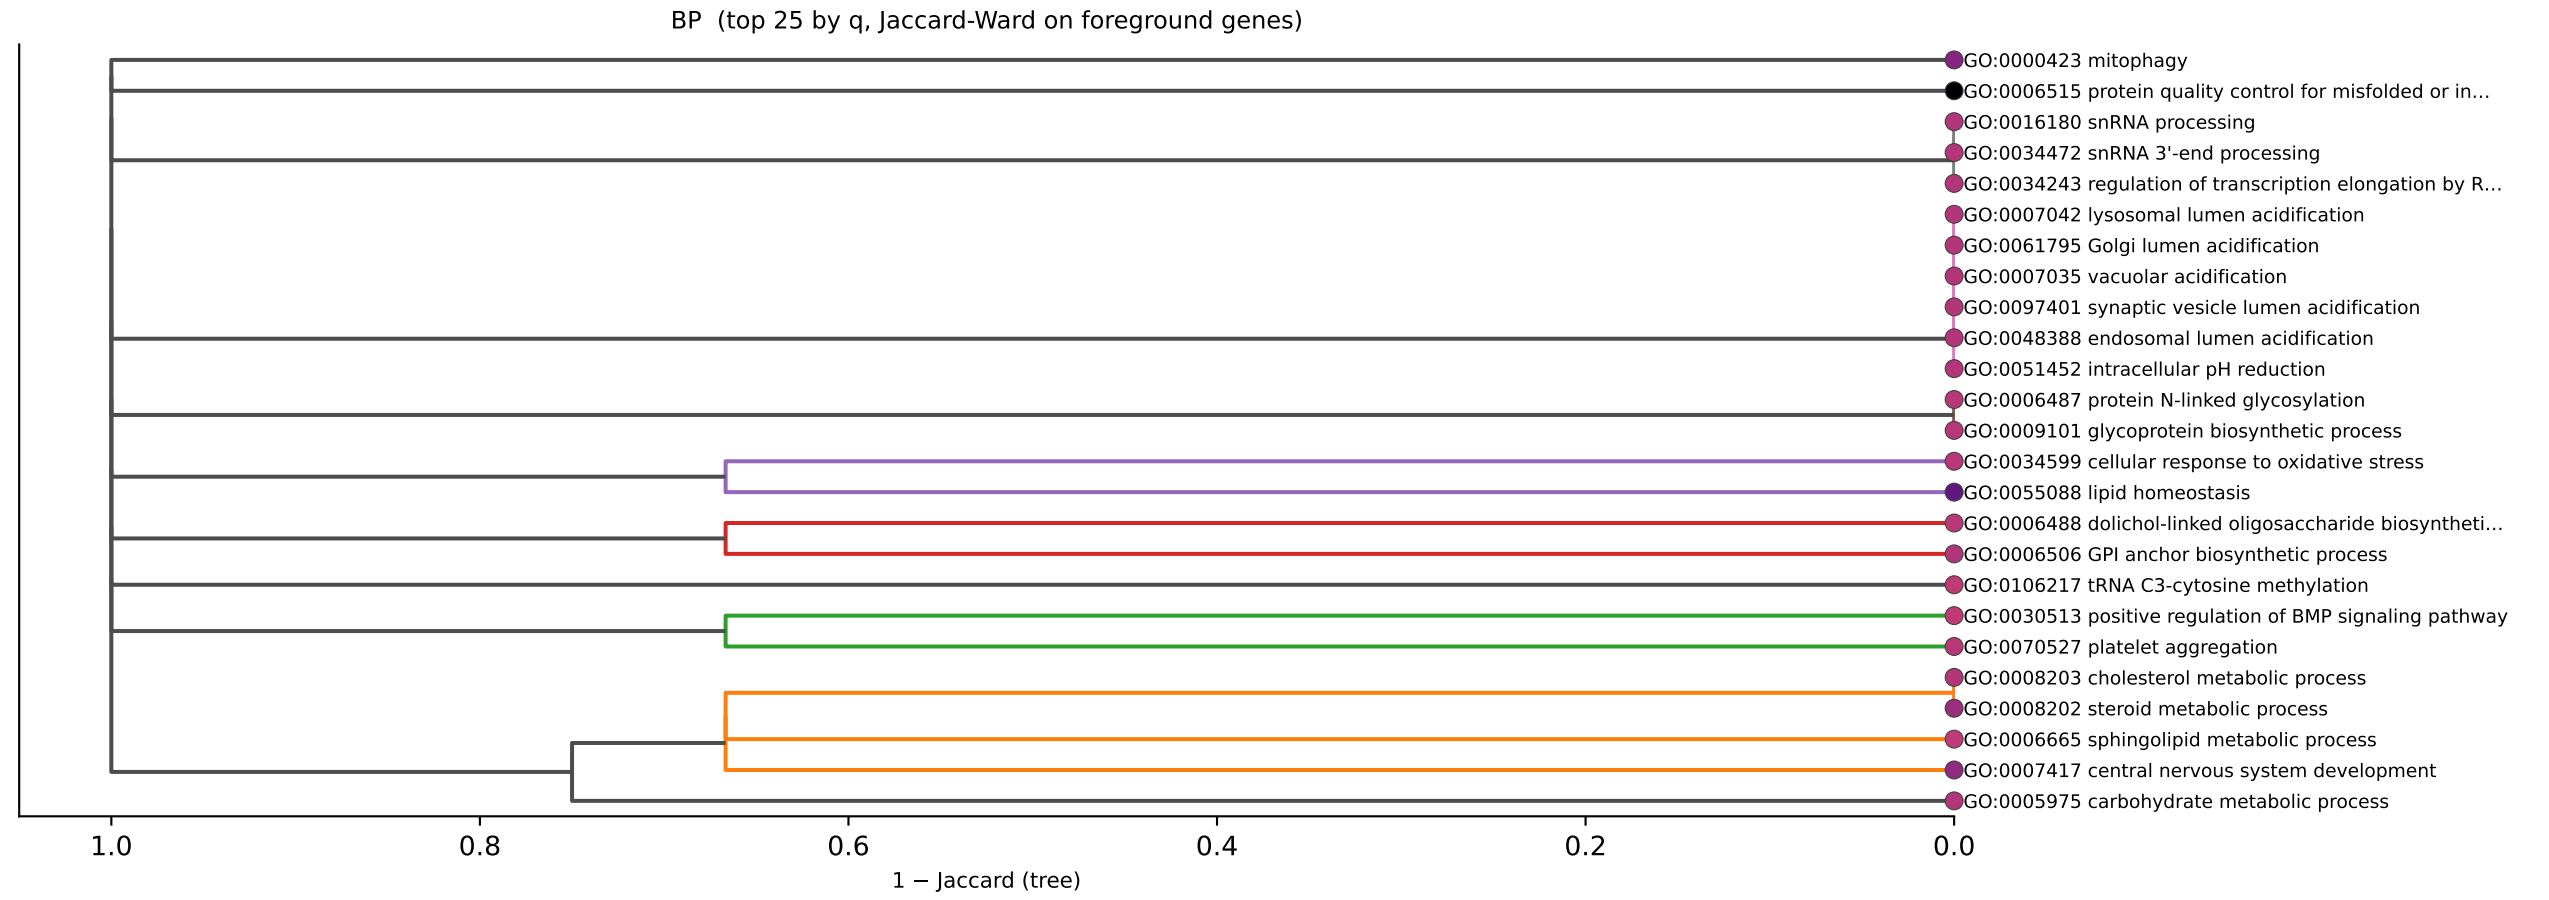
CC (top 25 by q, Jaccard-Ward on foreground genes)

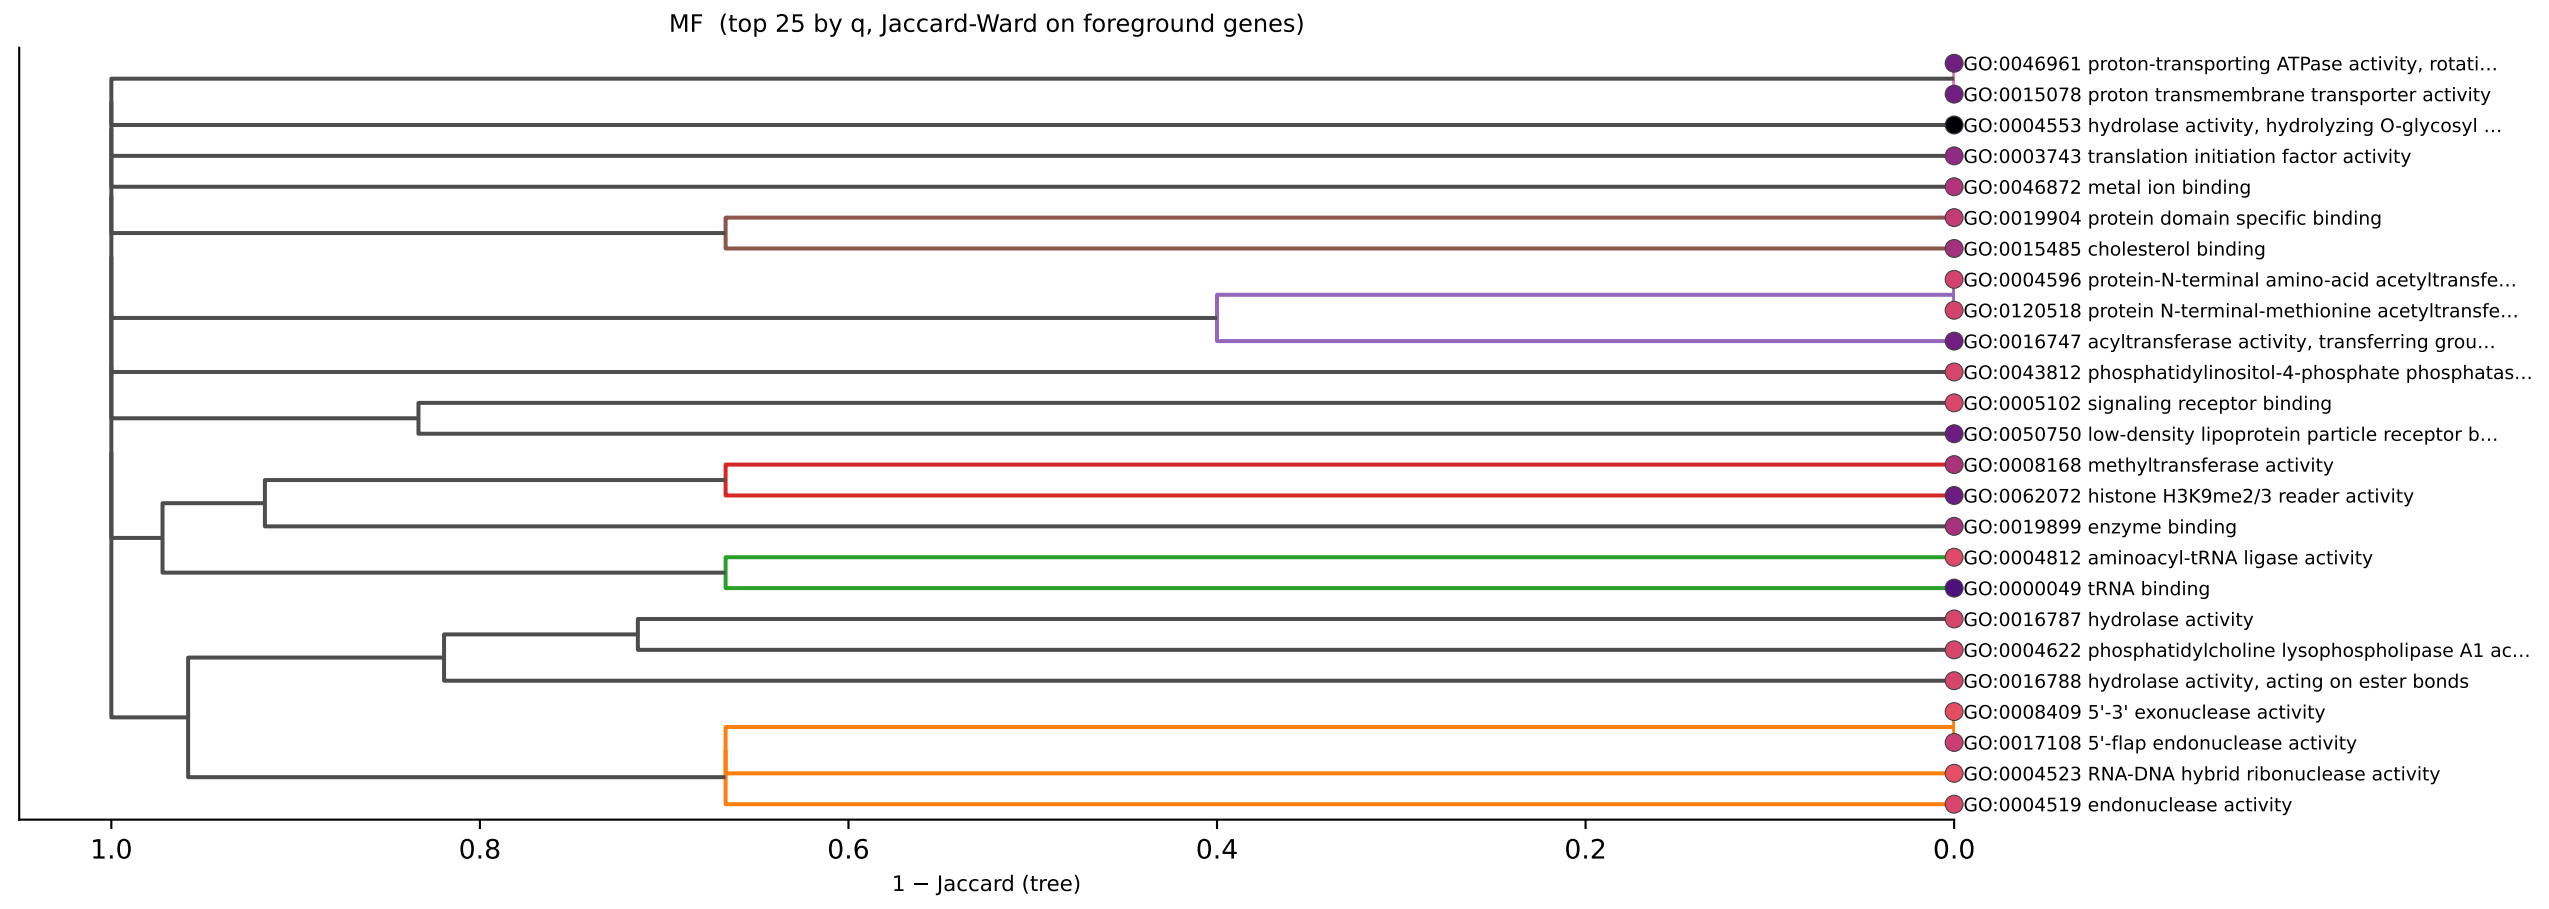
Insecta — GO term clustering by shared foreground genes

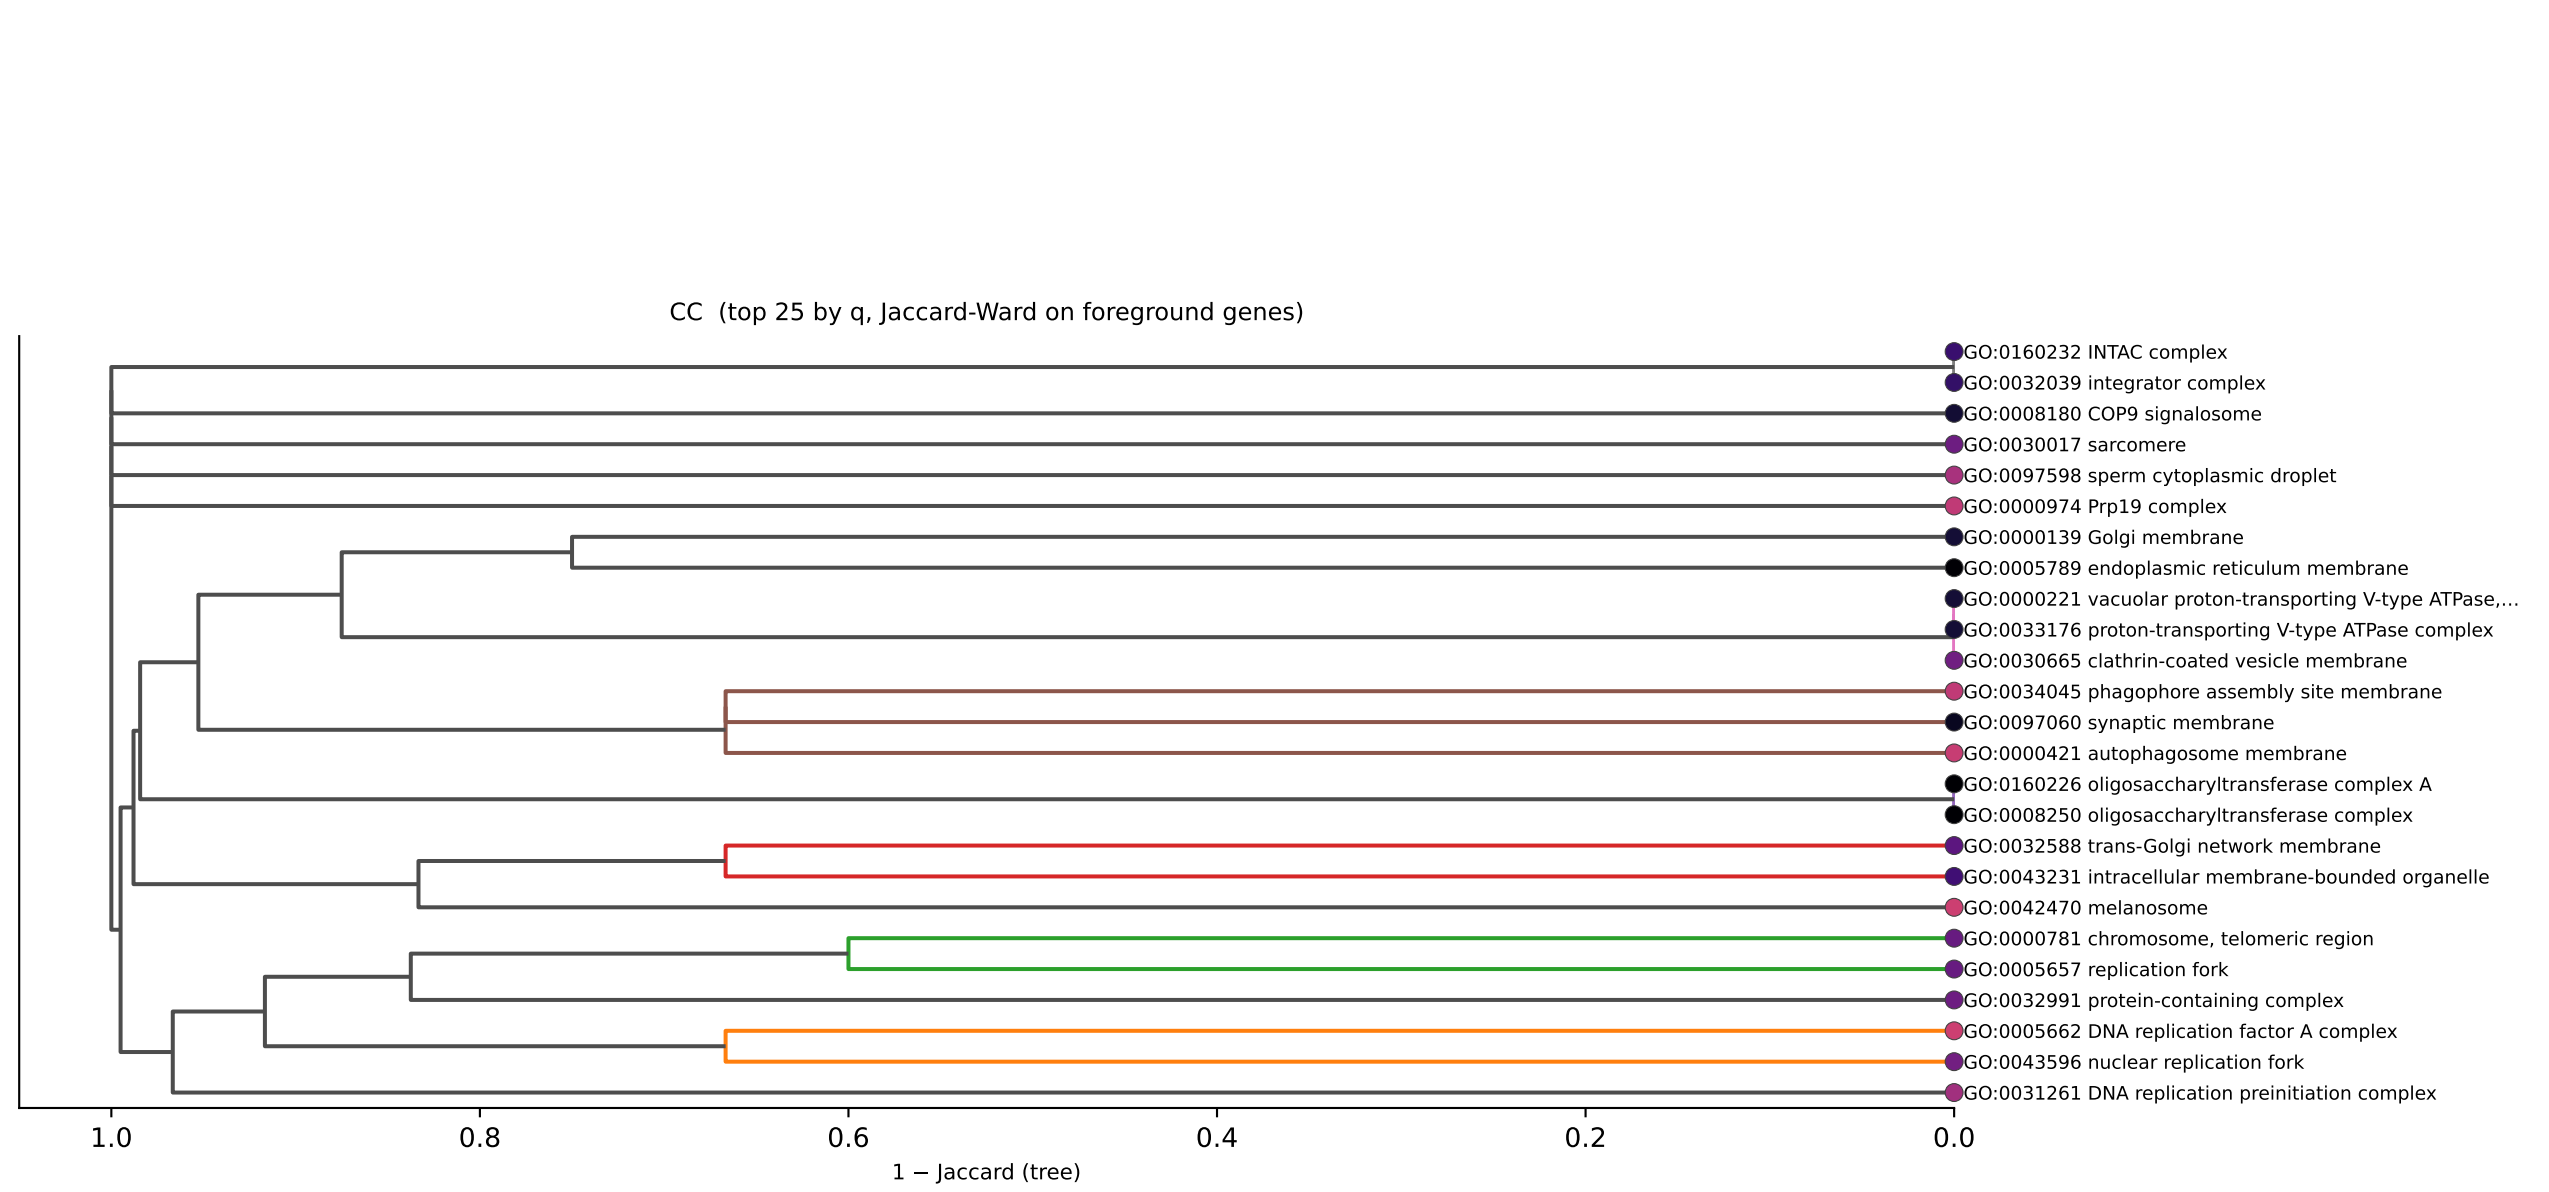




Mammalia — GO term clustering by shared foreground genes

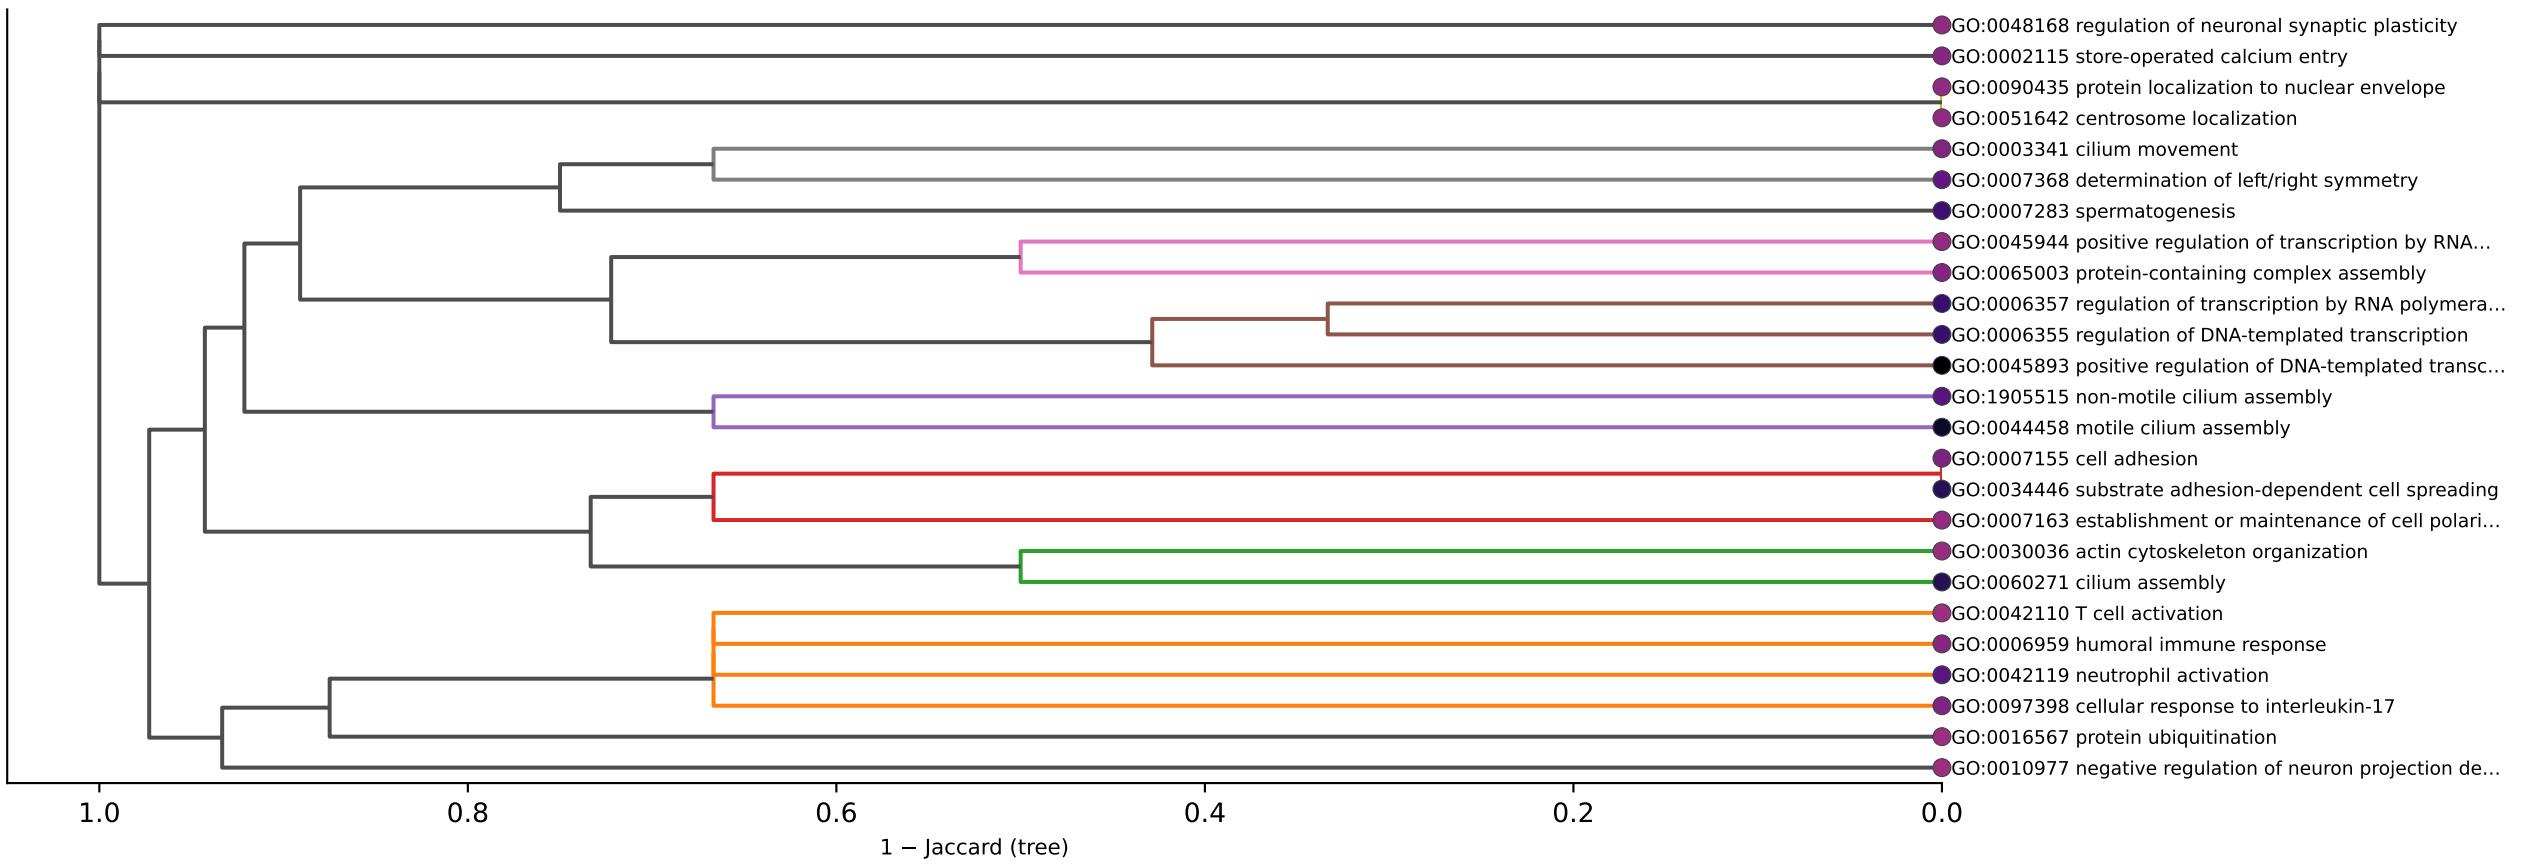




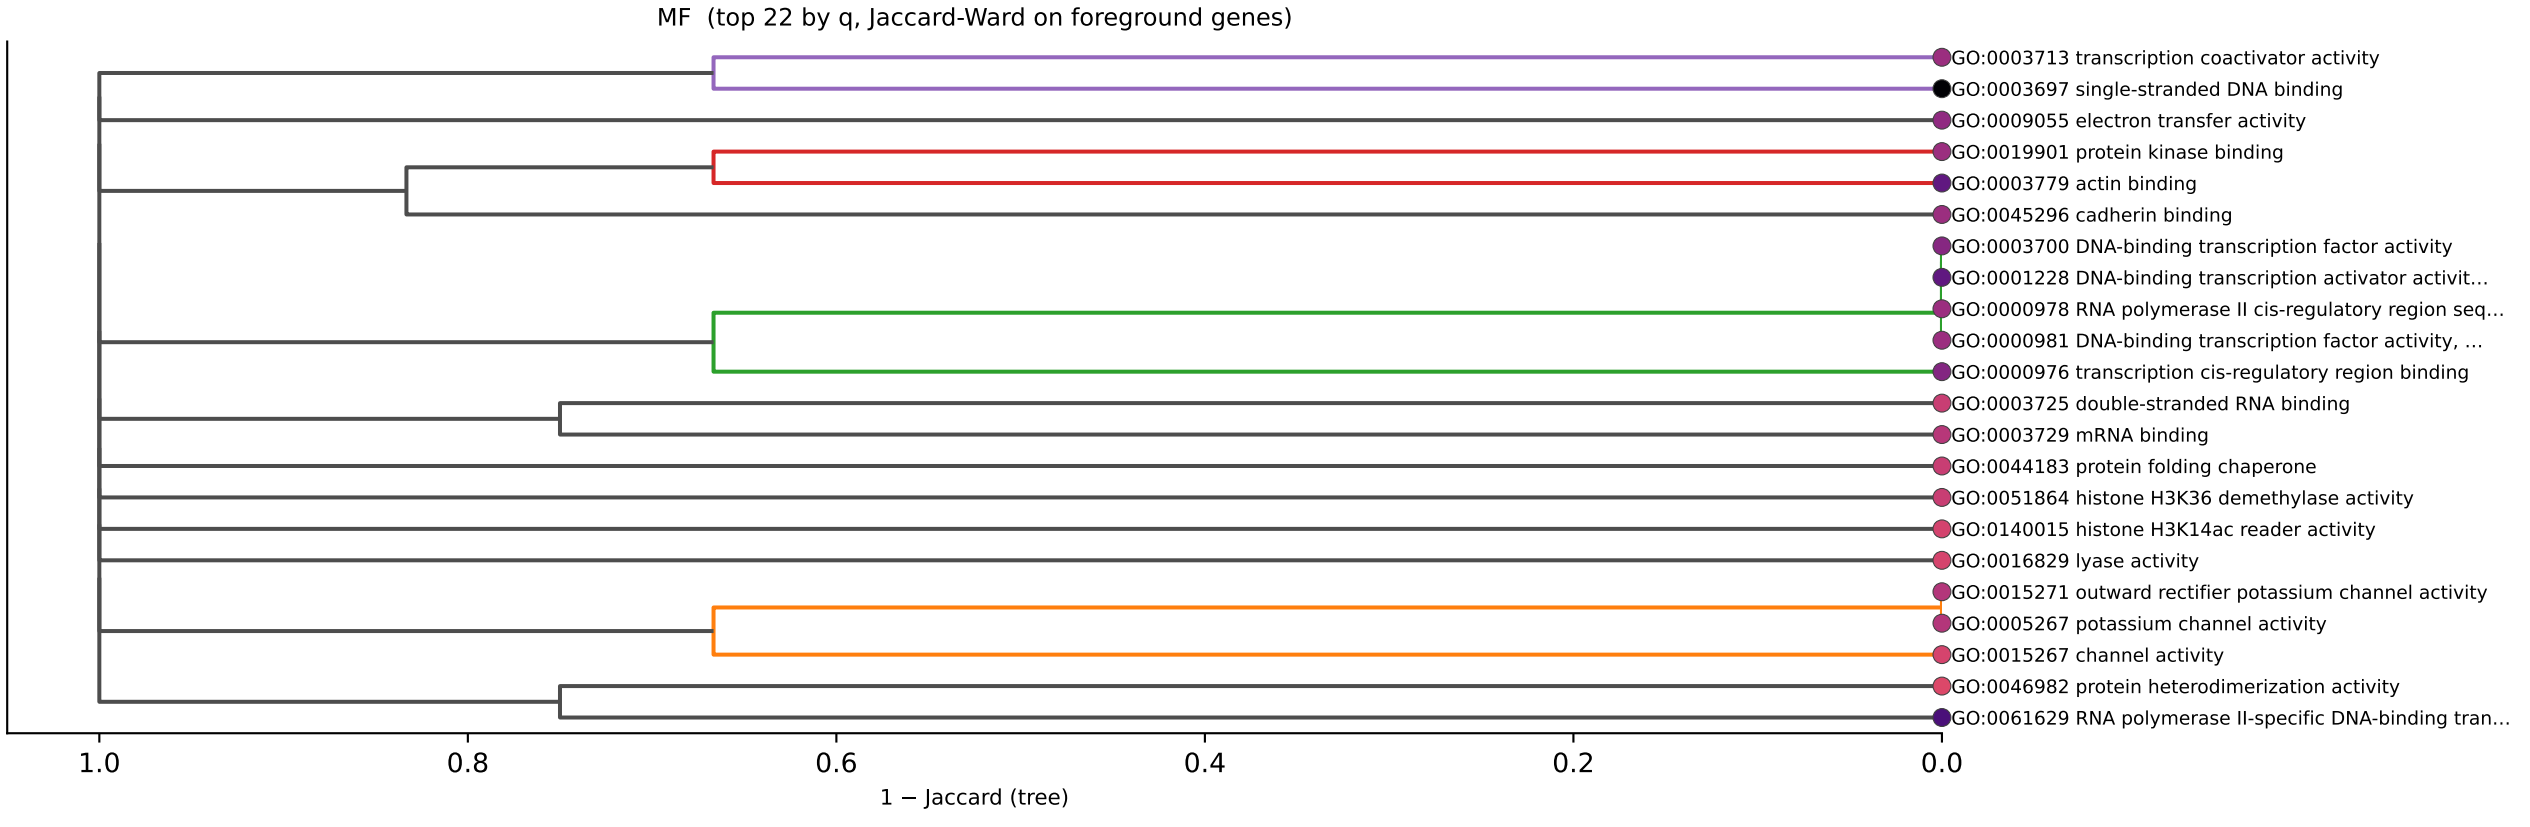


Mollusca — GO term clustering by shared foreground genes

BP (top 25 by q, Jaccard-Ward on foreground genes)

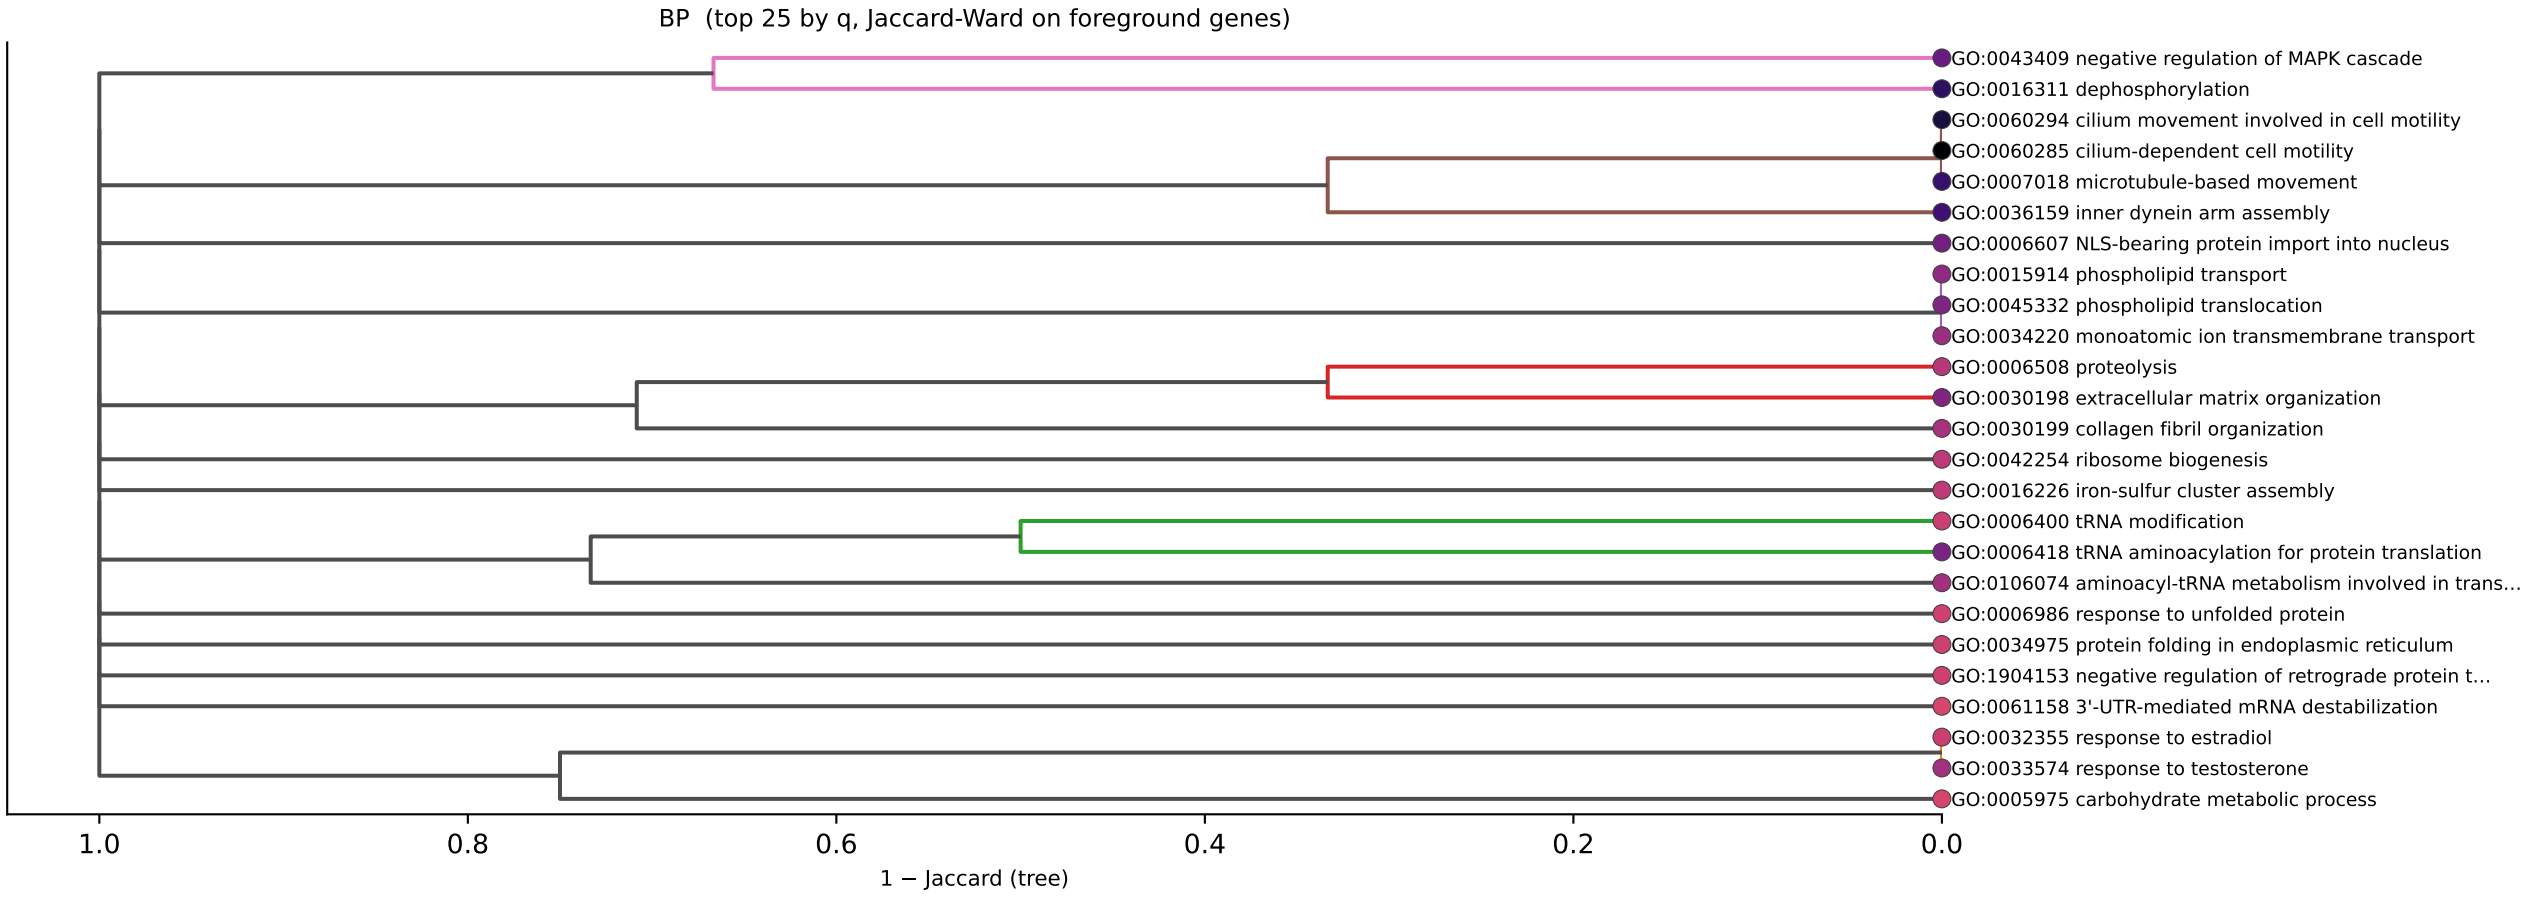


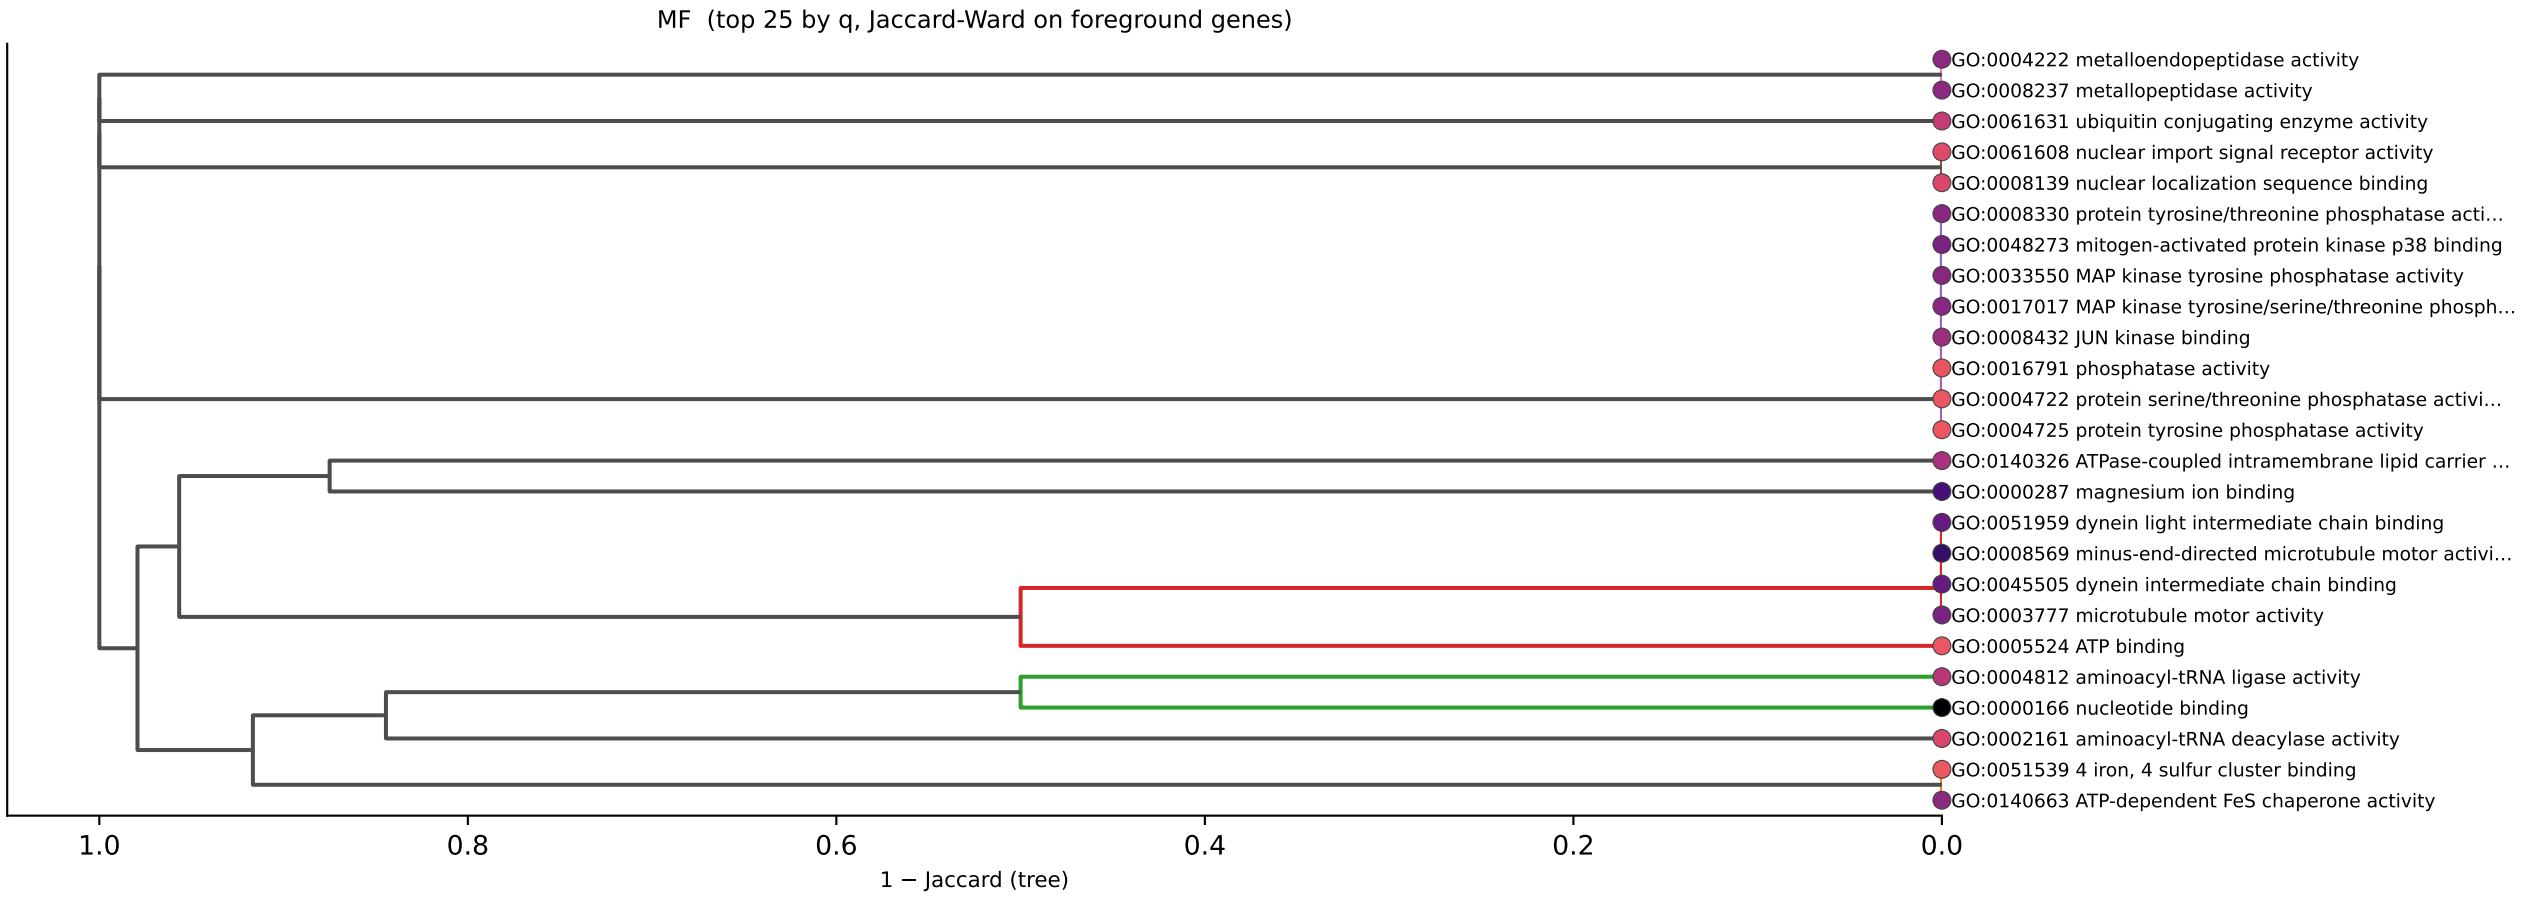
MF (top 22 by q, Jaccard-Ward on foreground genes)

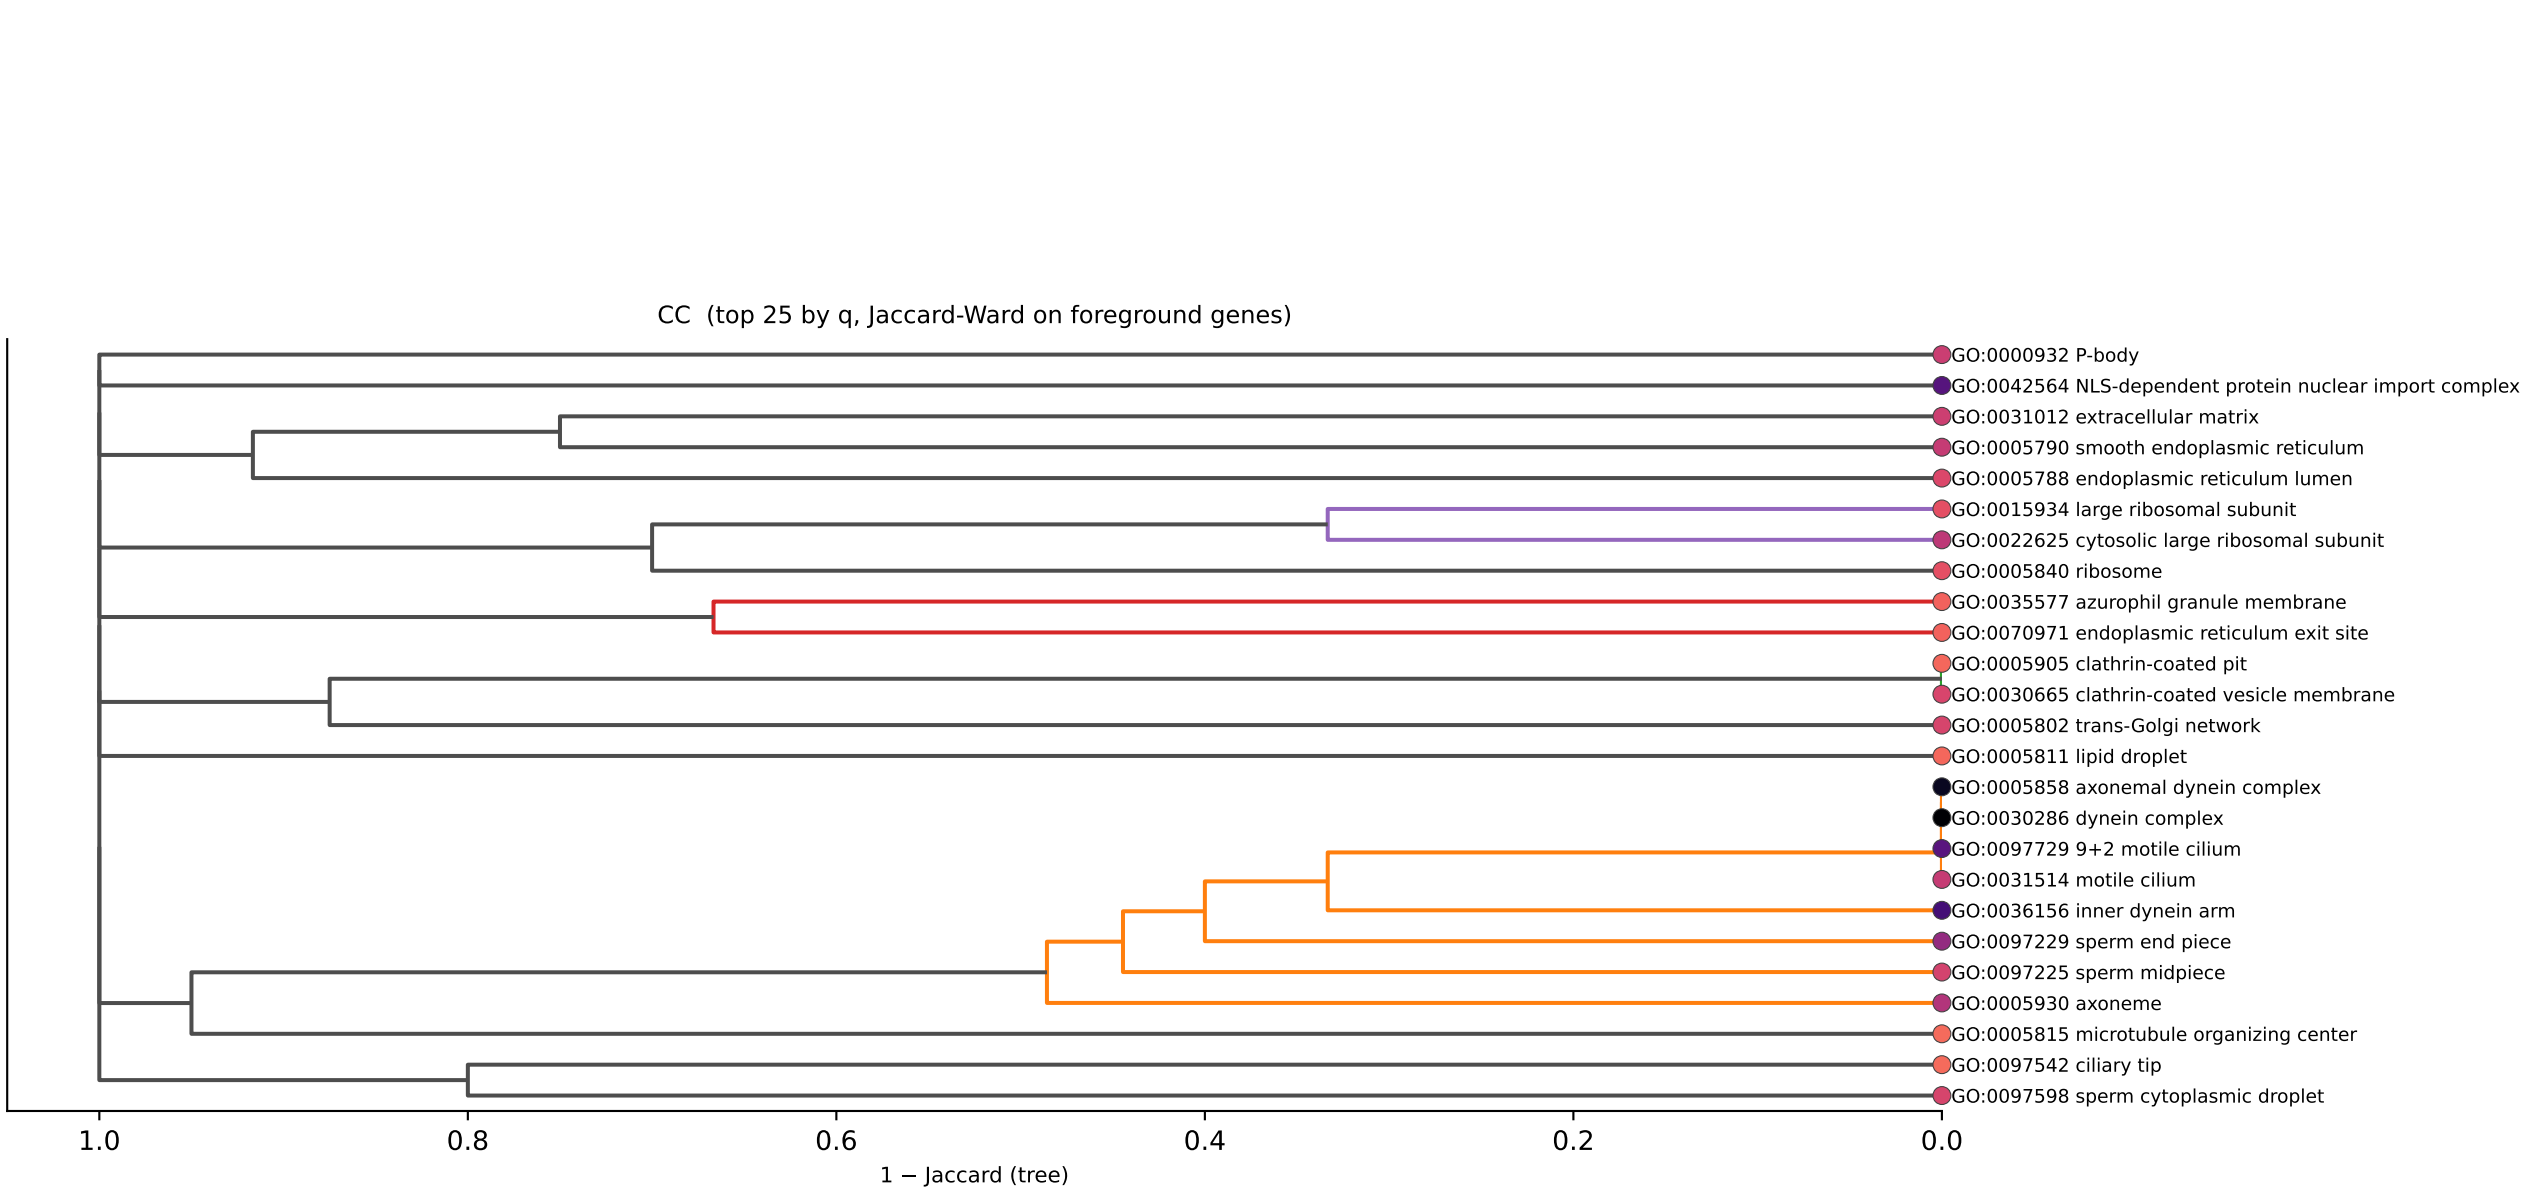


CC (top 24 by q, Jaccard-Ward on foreground genes)

Nematoda — GO term clustering by shared foreground genes

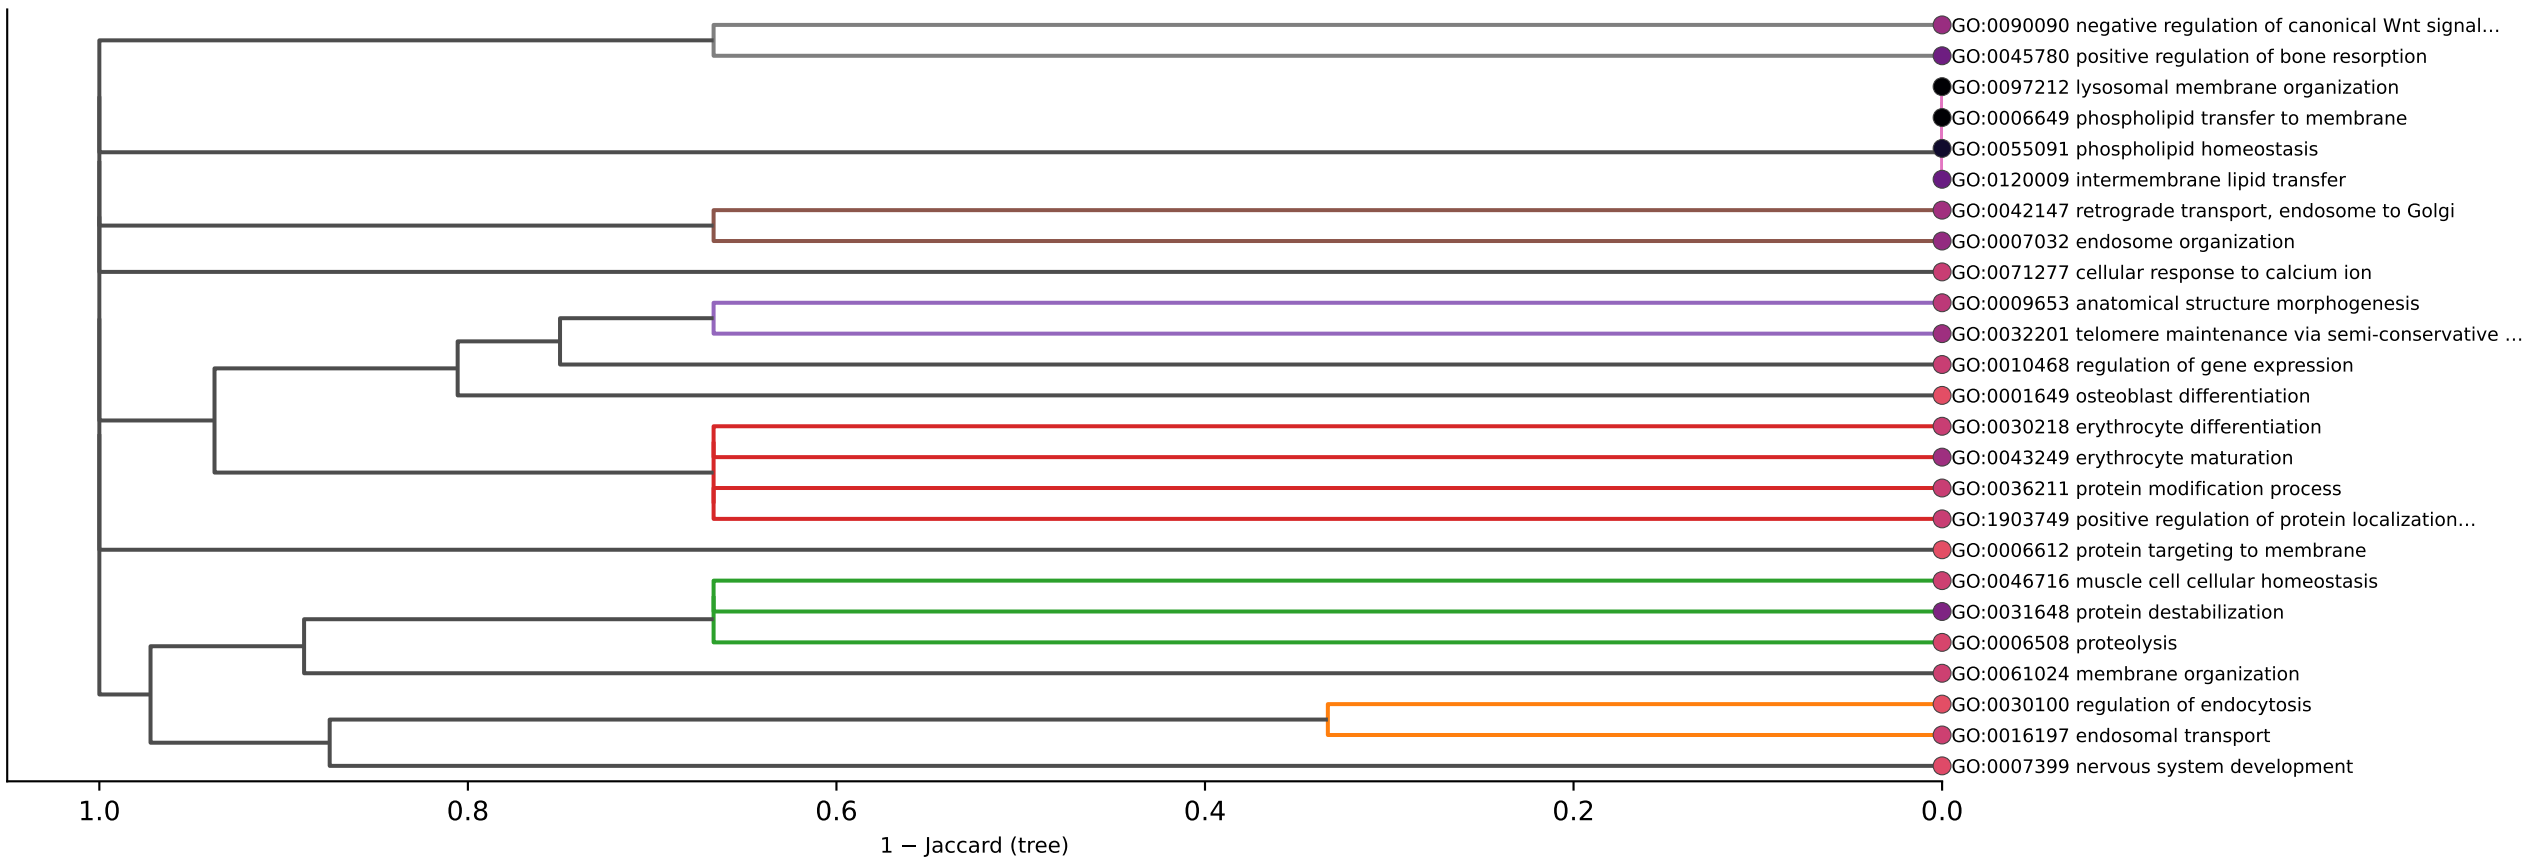




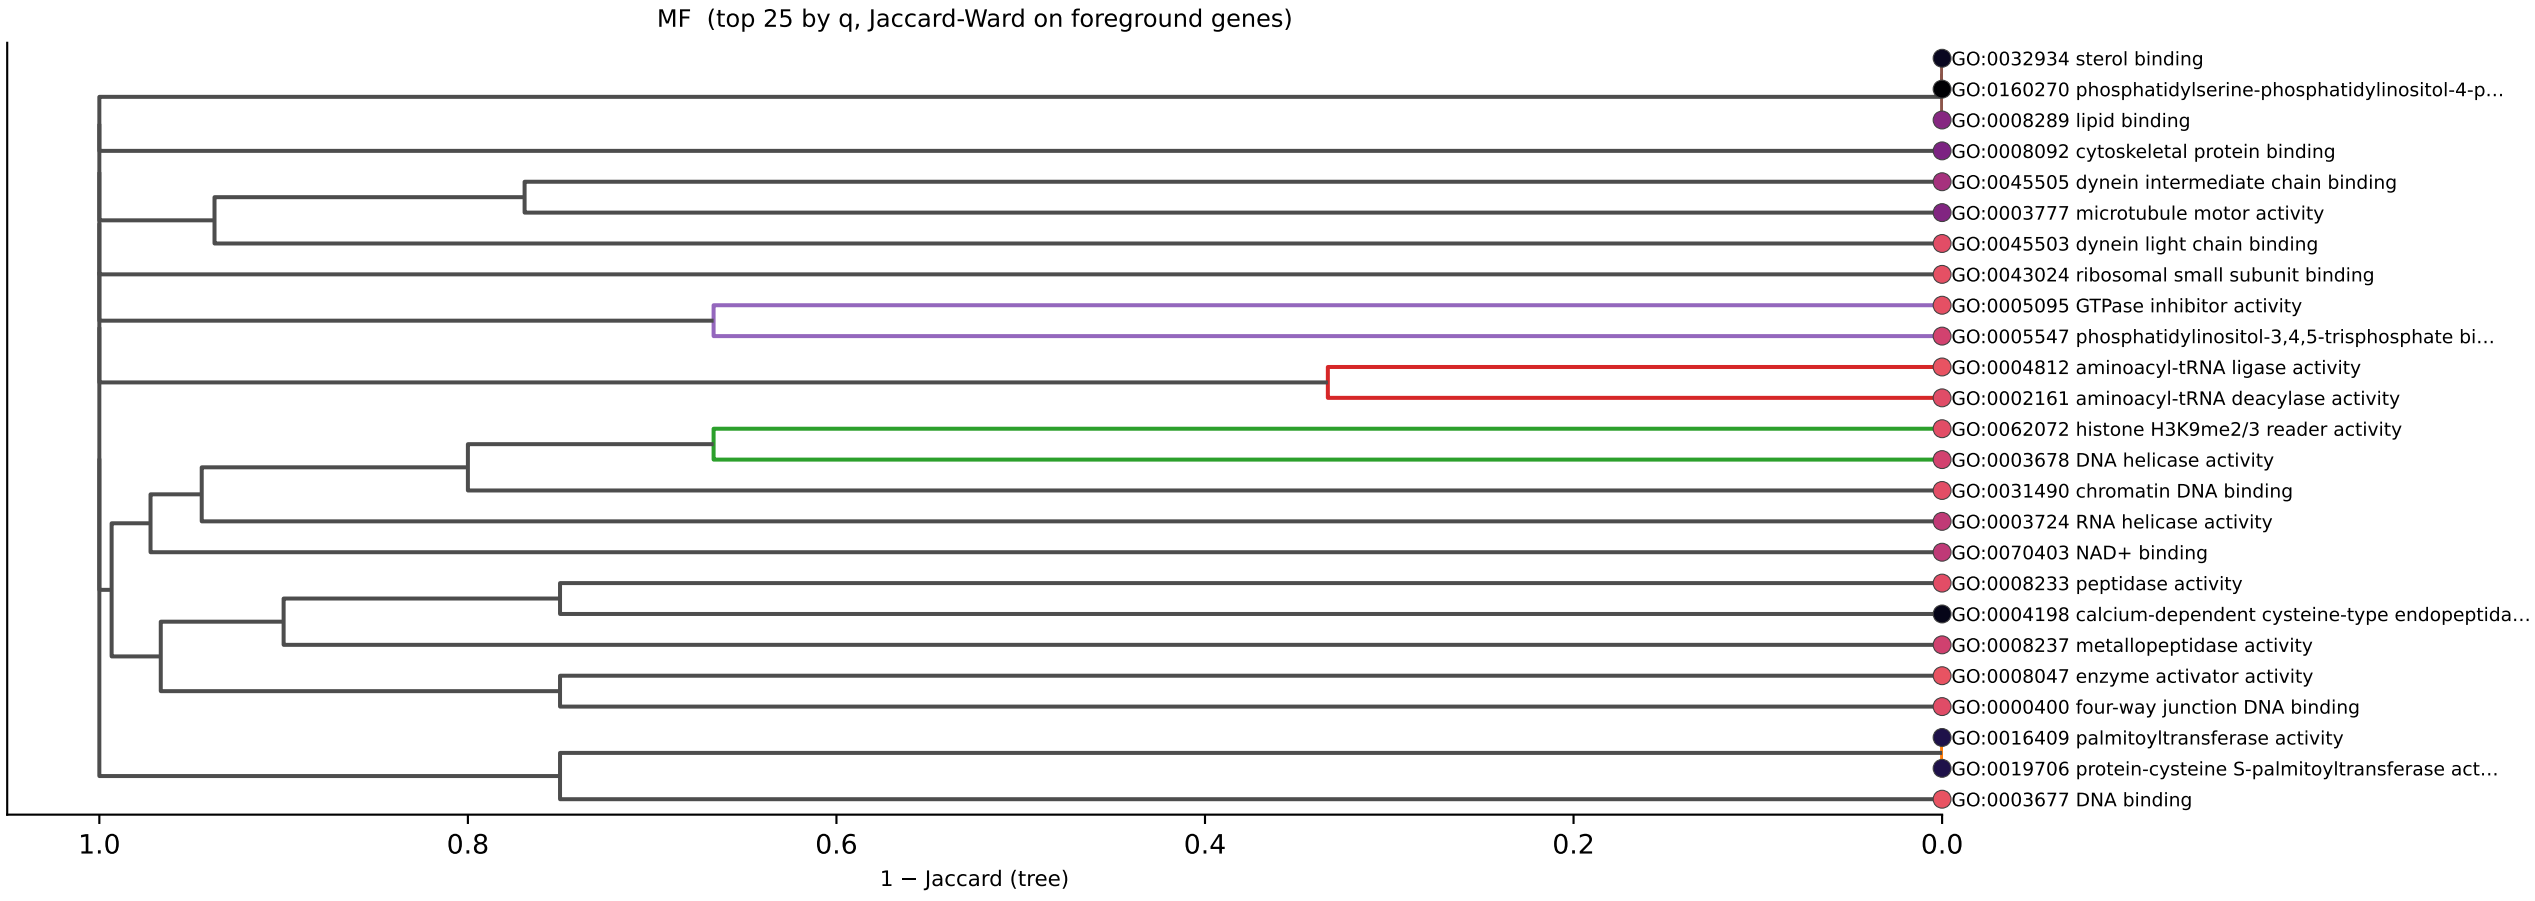


Neoptera — GO term clustering by shared foreground genes

BP (top 25 by q, Jaccard-Ward on foreground genes)



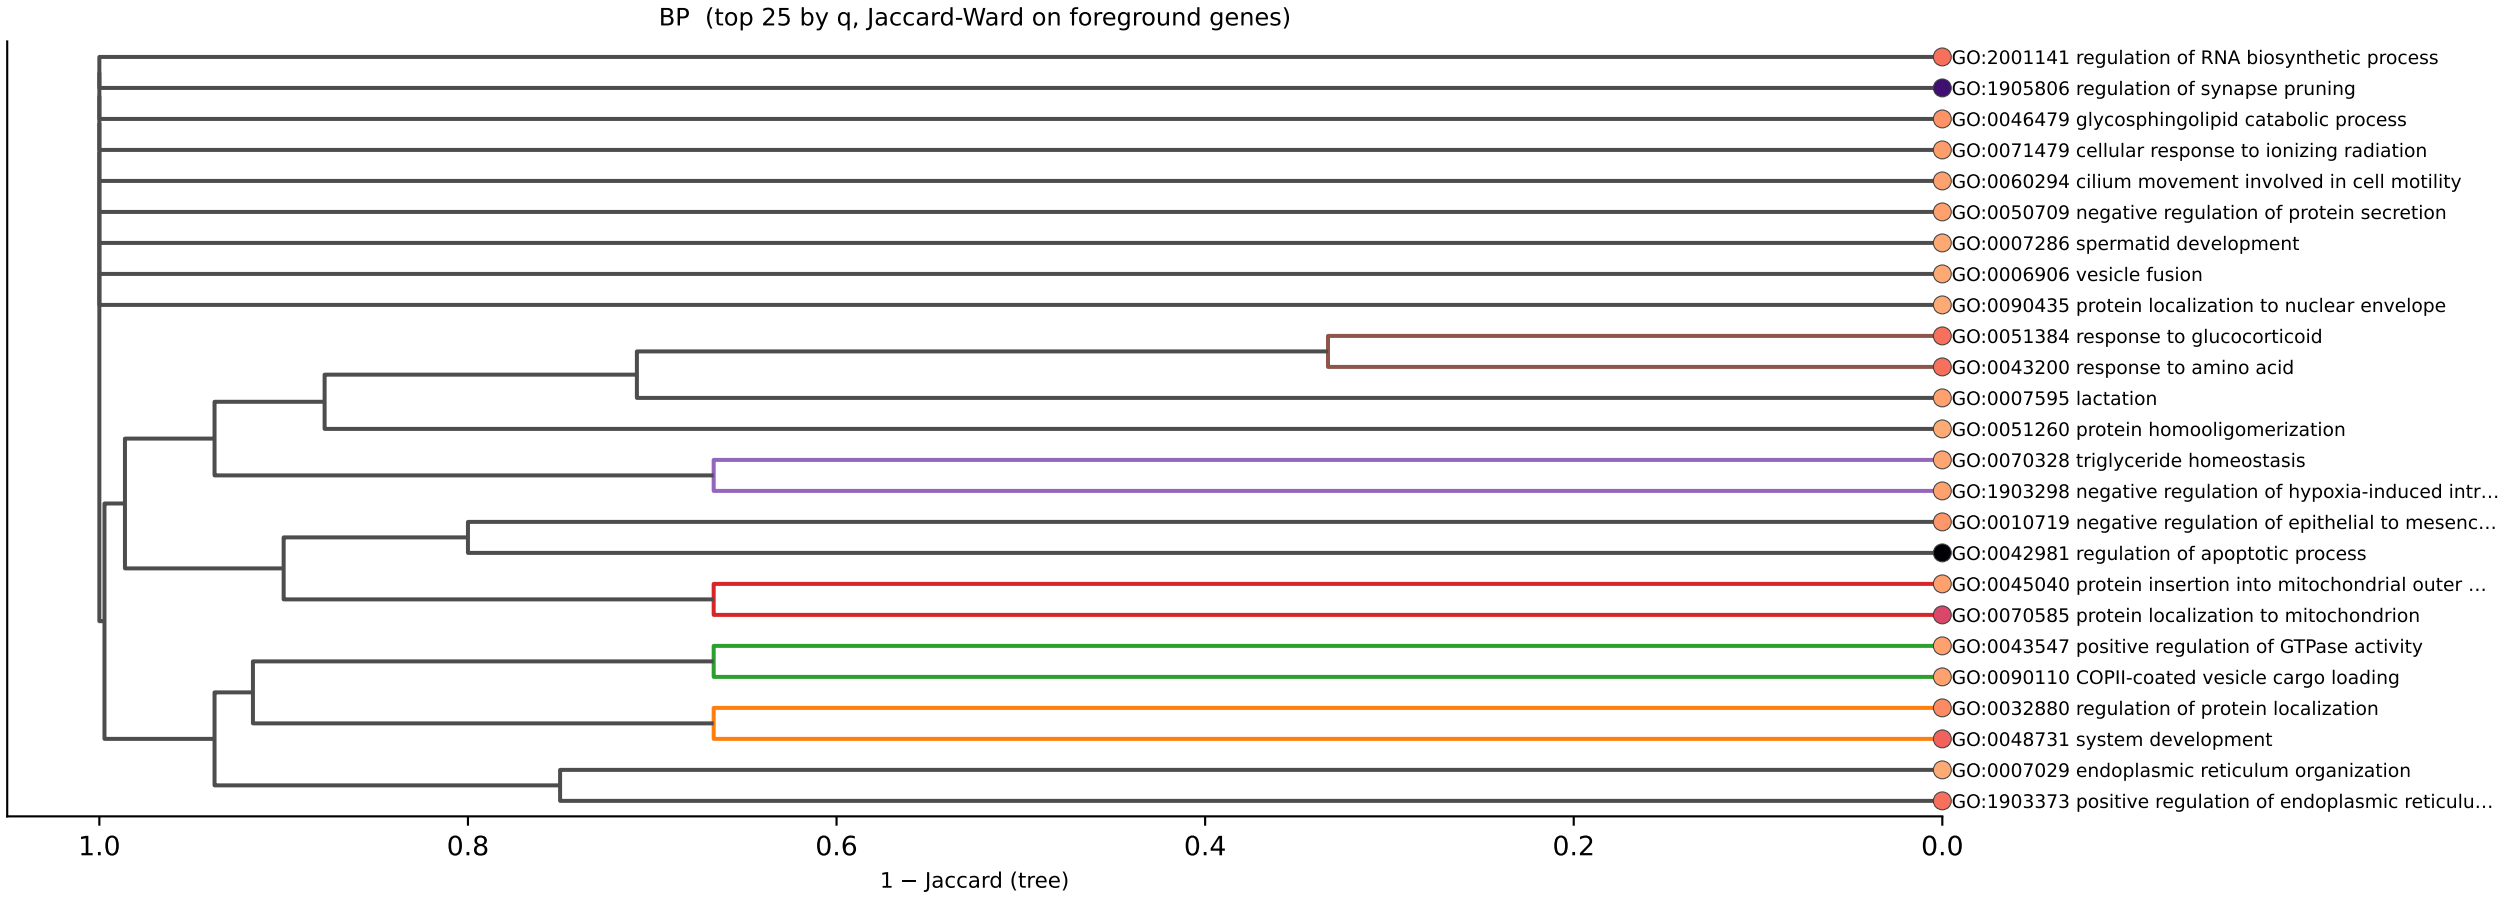
MF (top 25 by q, Jaccard-Ward on foreground genes)



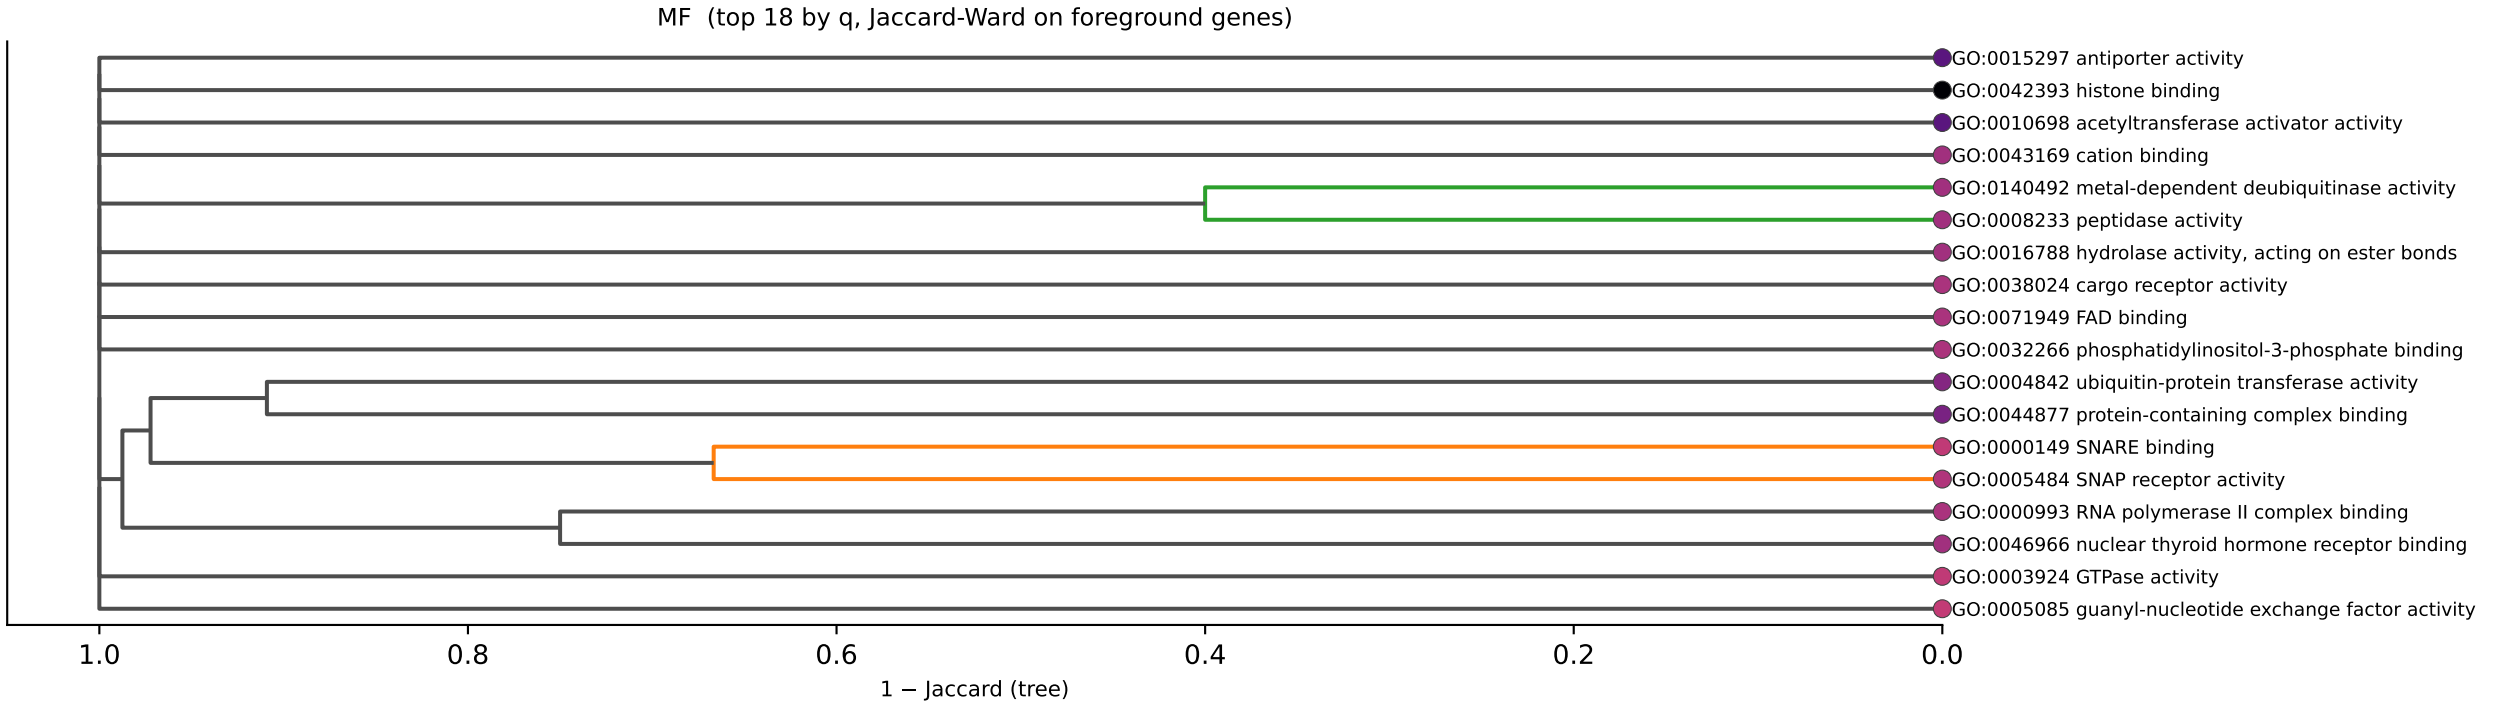
CC (top 25 by q, Jaccard-Ward on foreground genes)

Platyhelminthes — GO term clustering by shared foreground genes

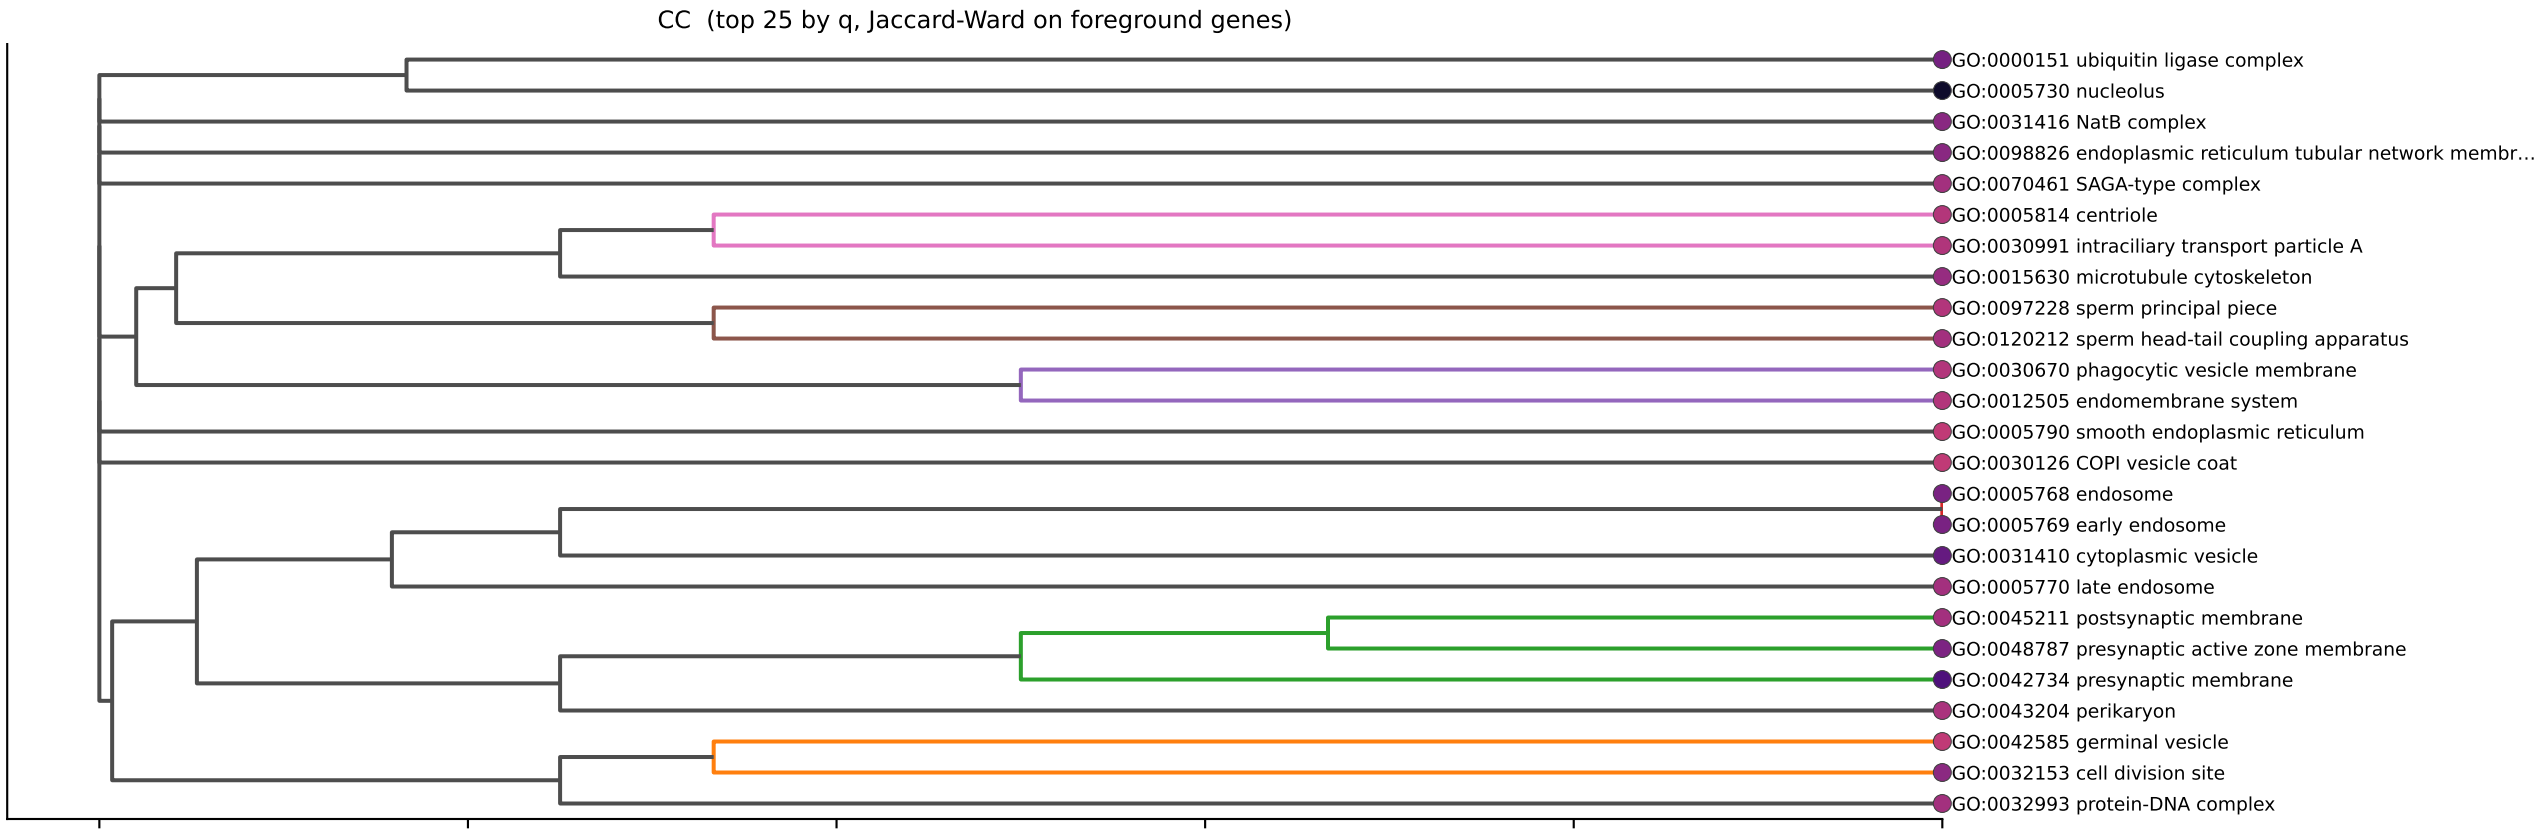
BP (top 25 by q, Jaccard-Ward on foreground genes)



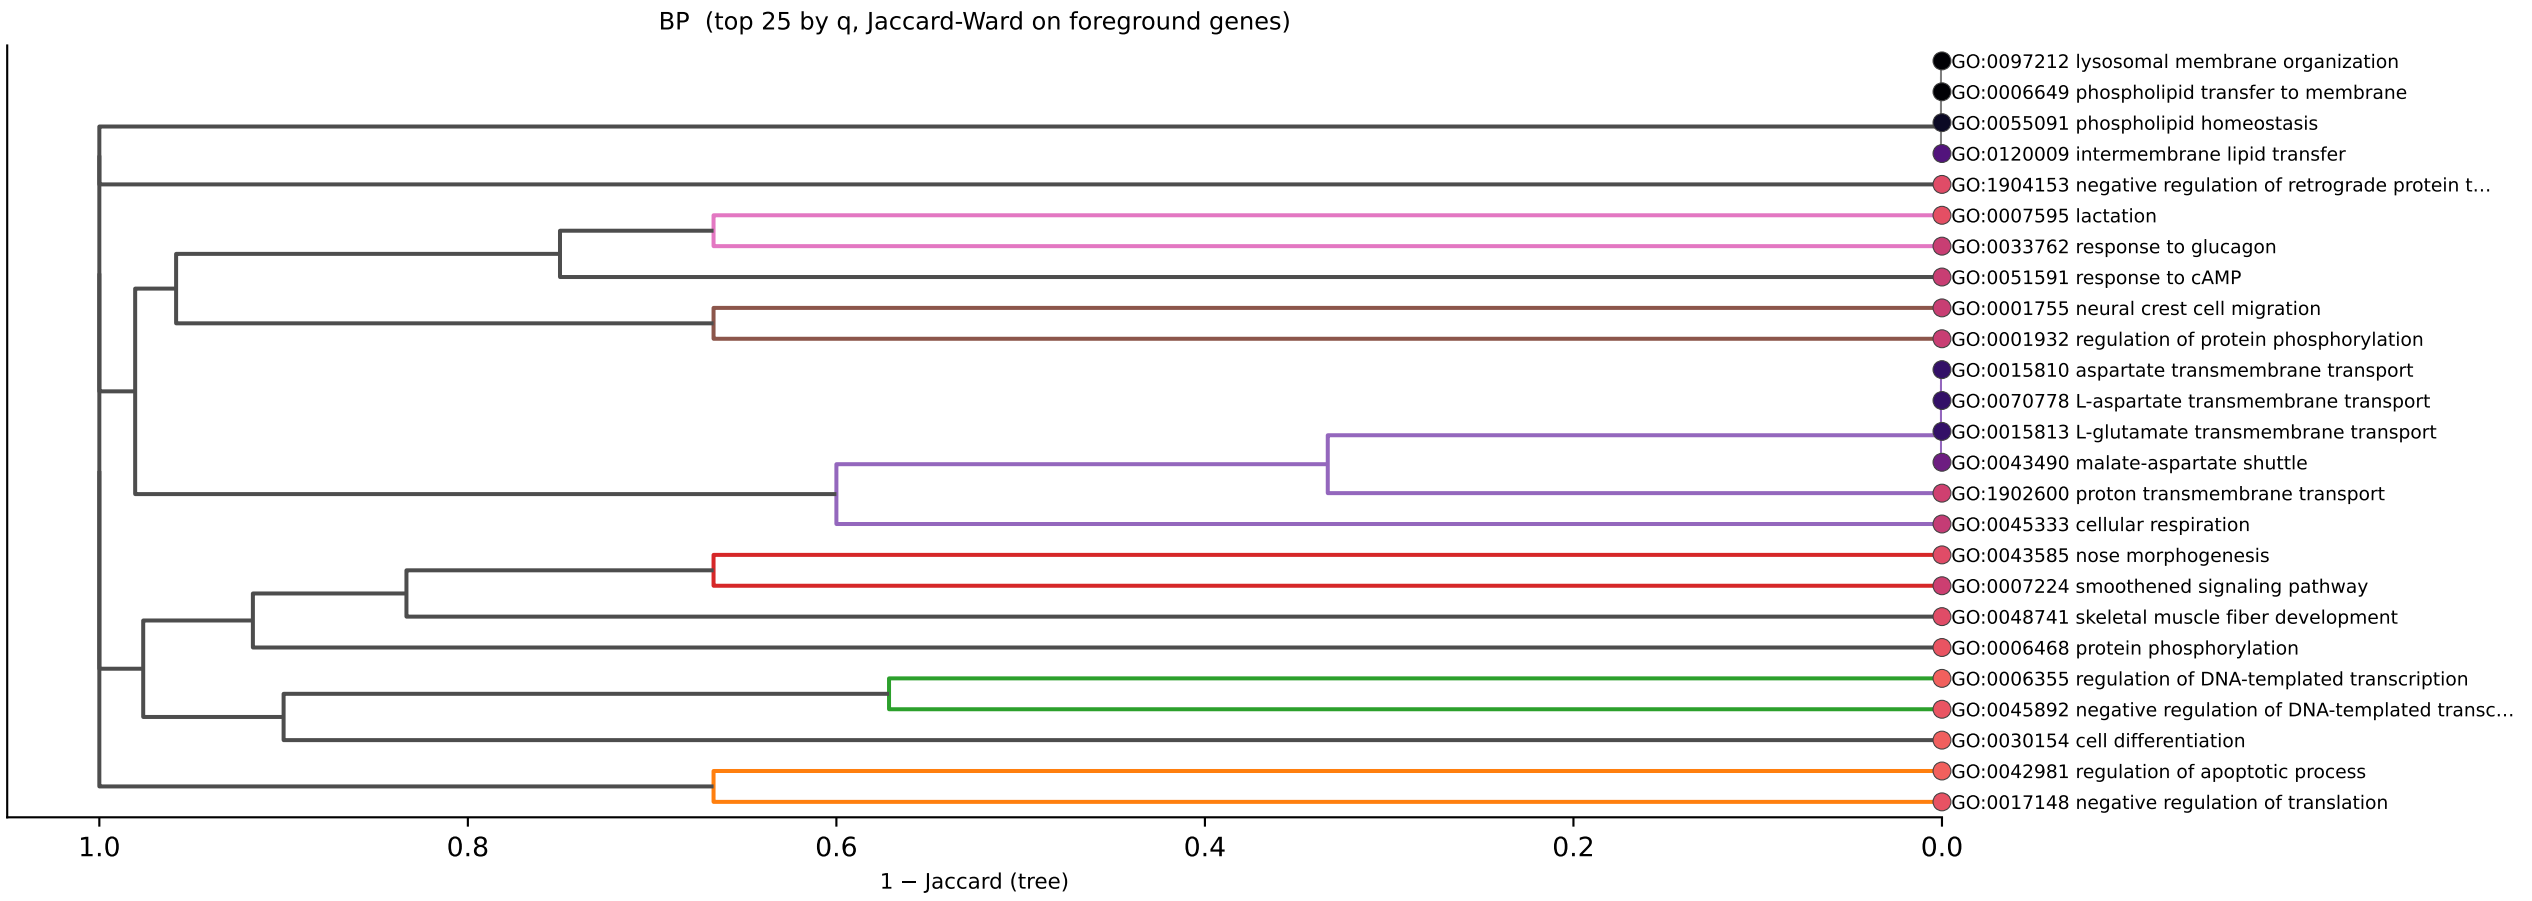
MF (top 18 by q, Jaccard-Ward on foreground genes)

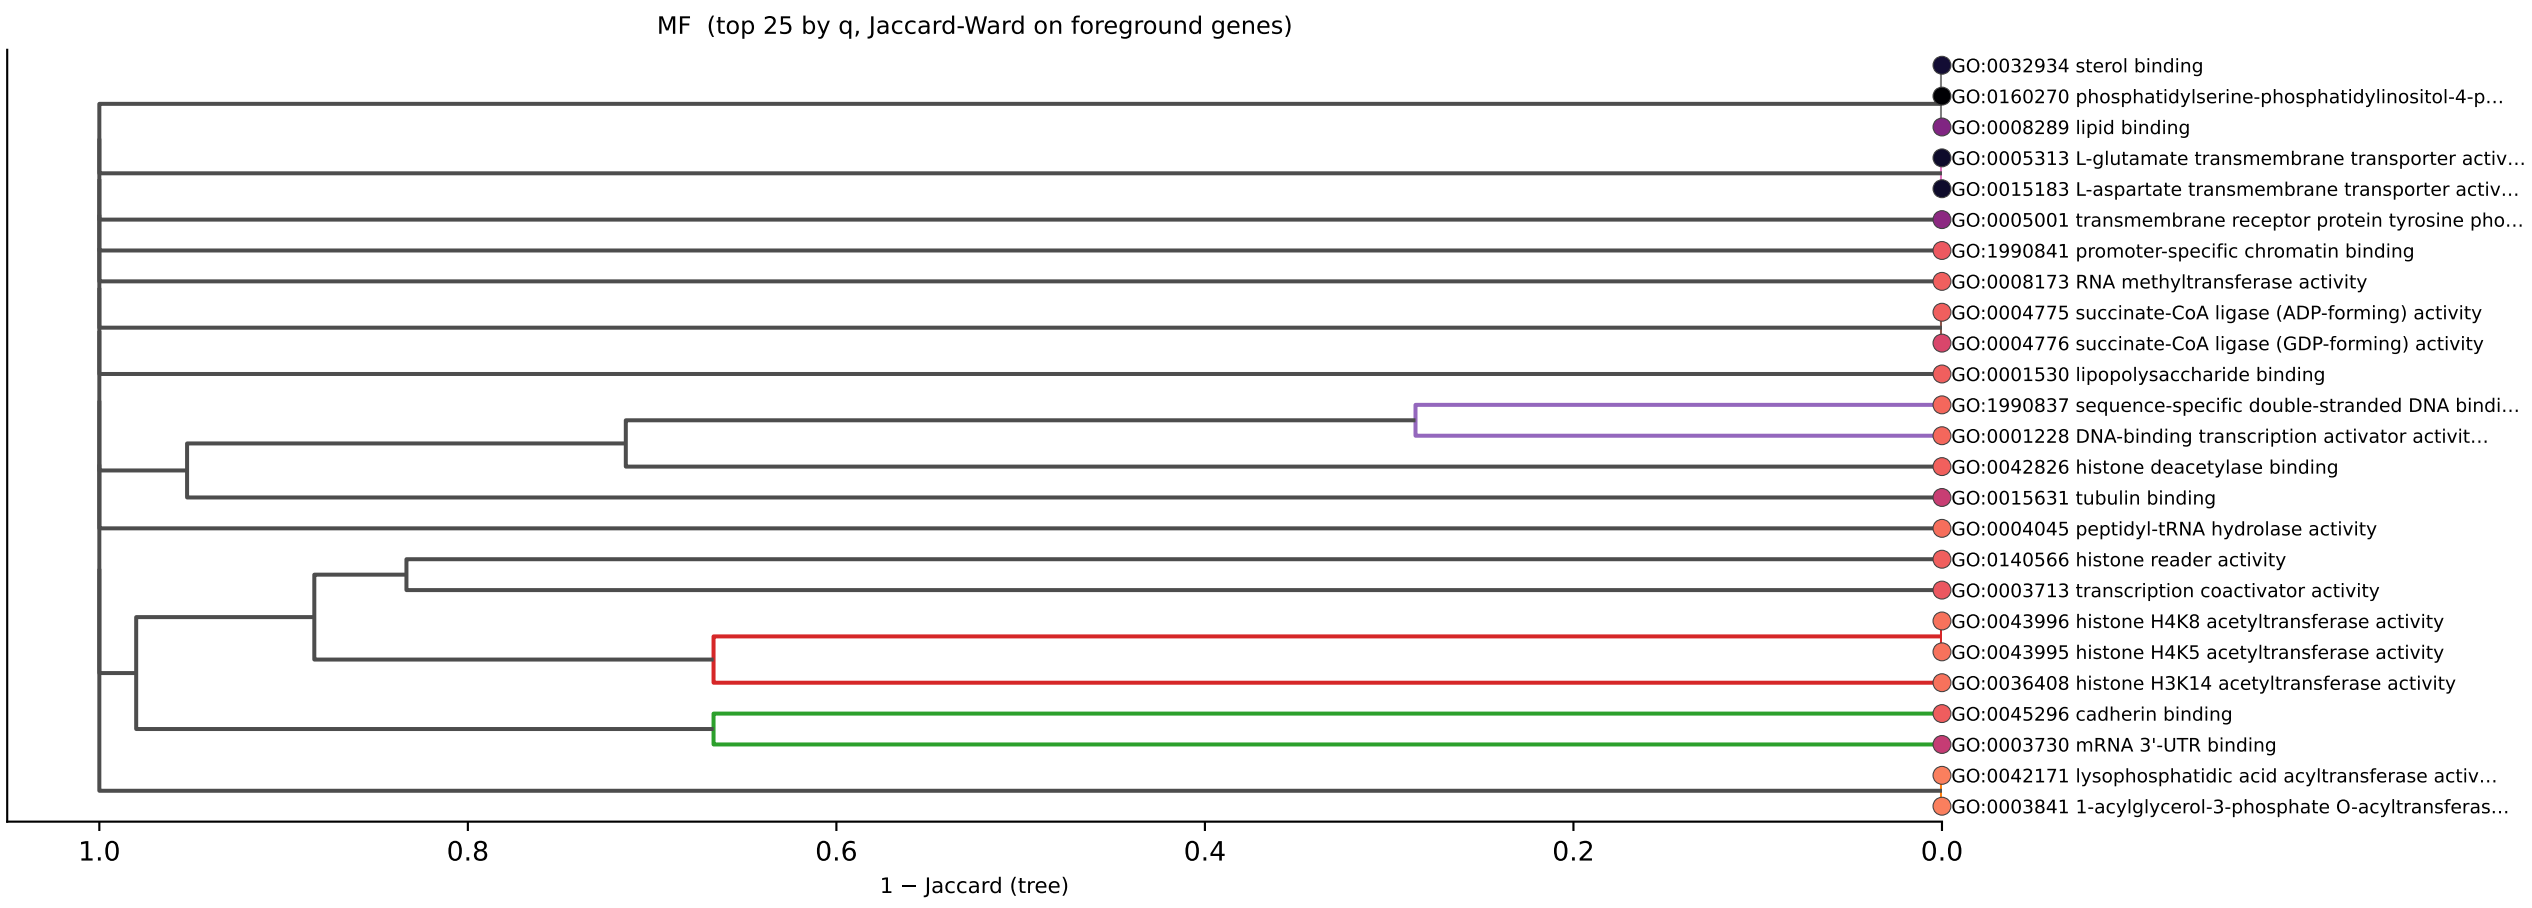


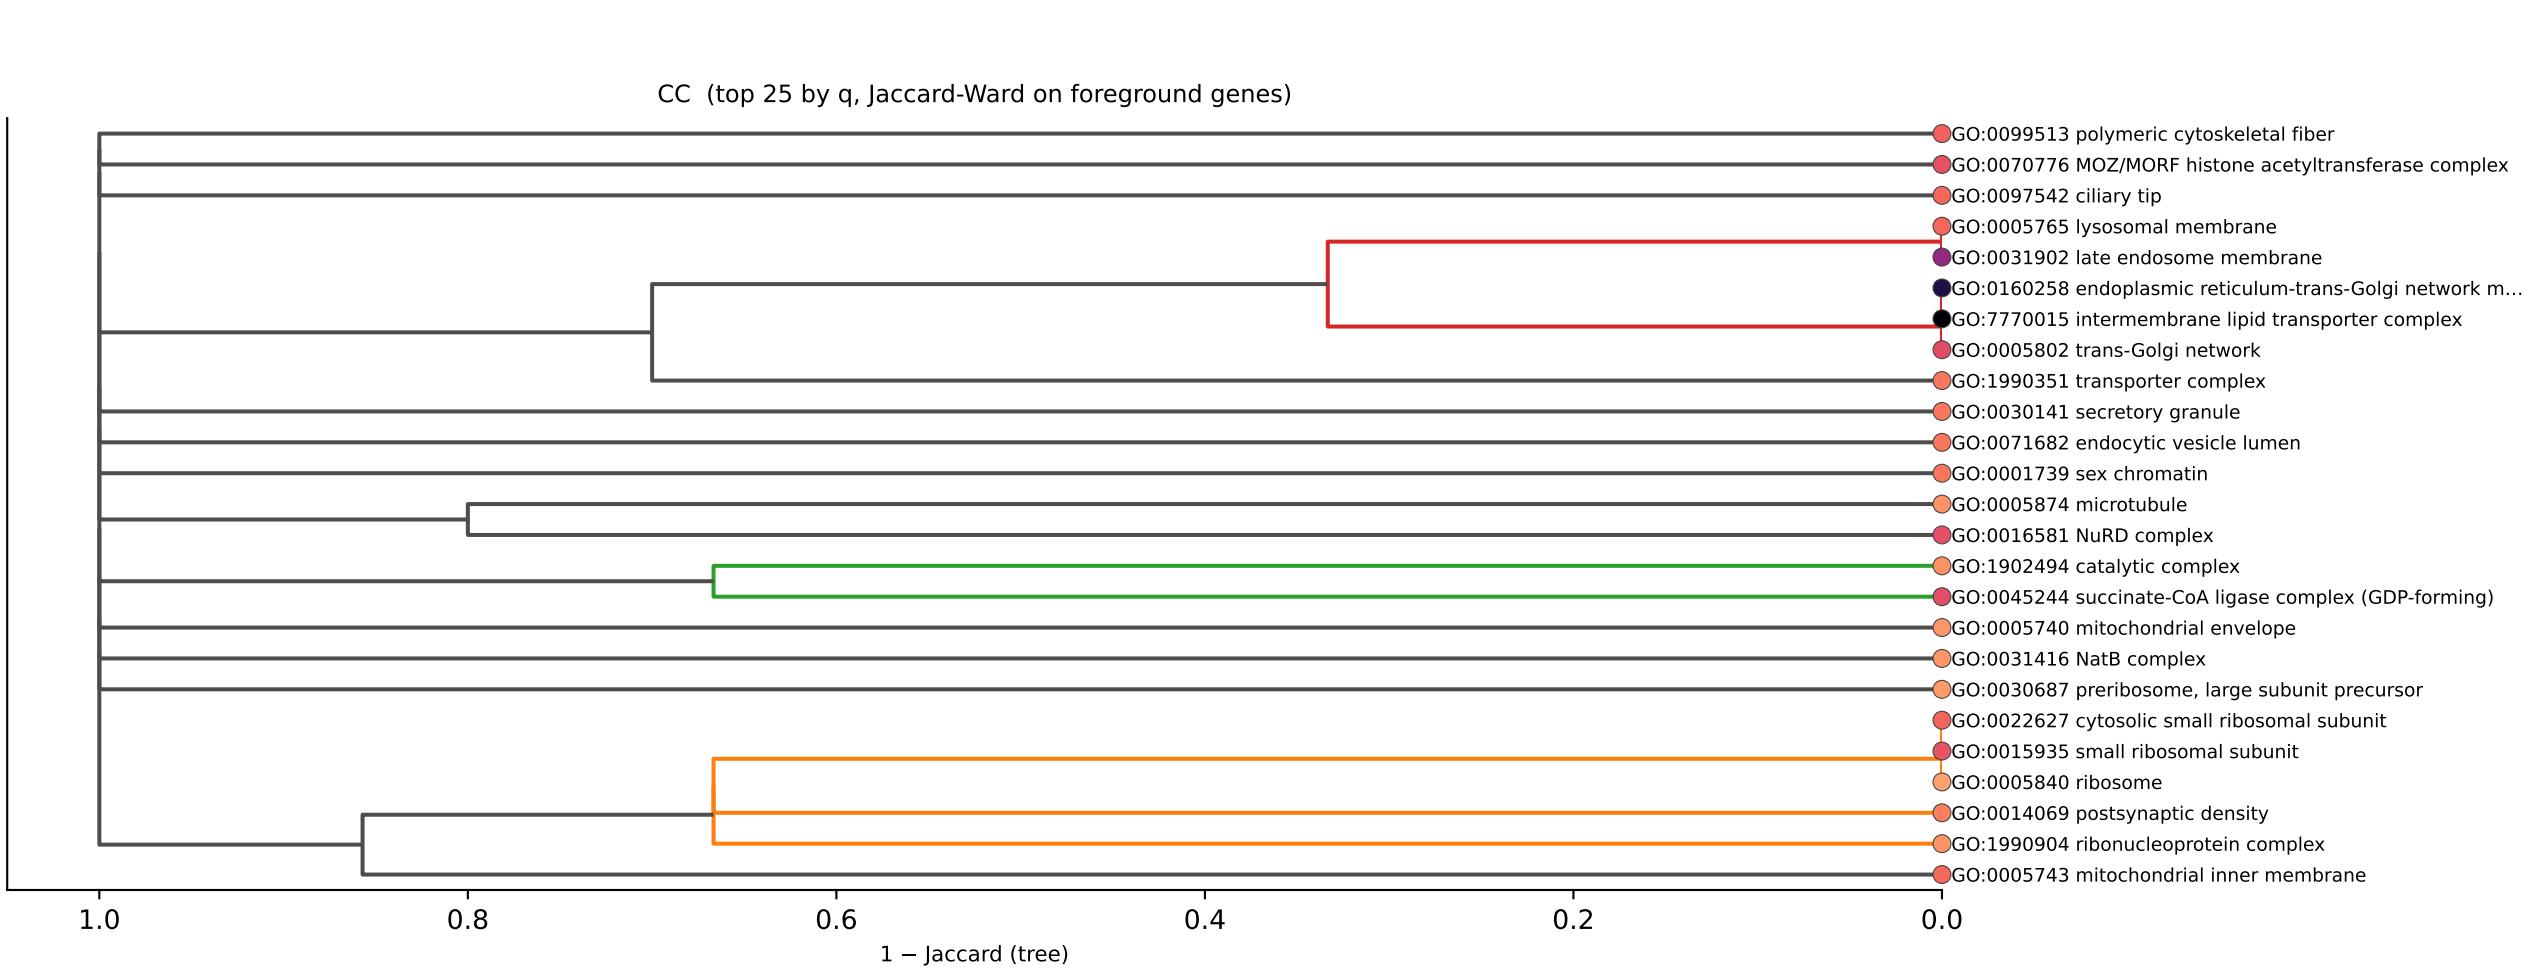
CC (top 25 by q, Jaccard-Ward on foreground genes)



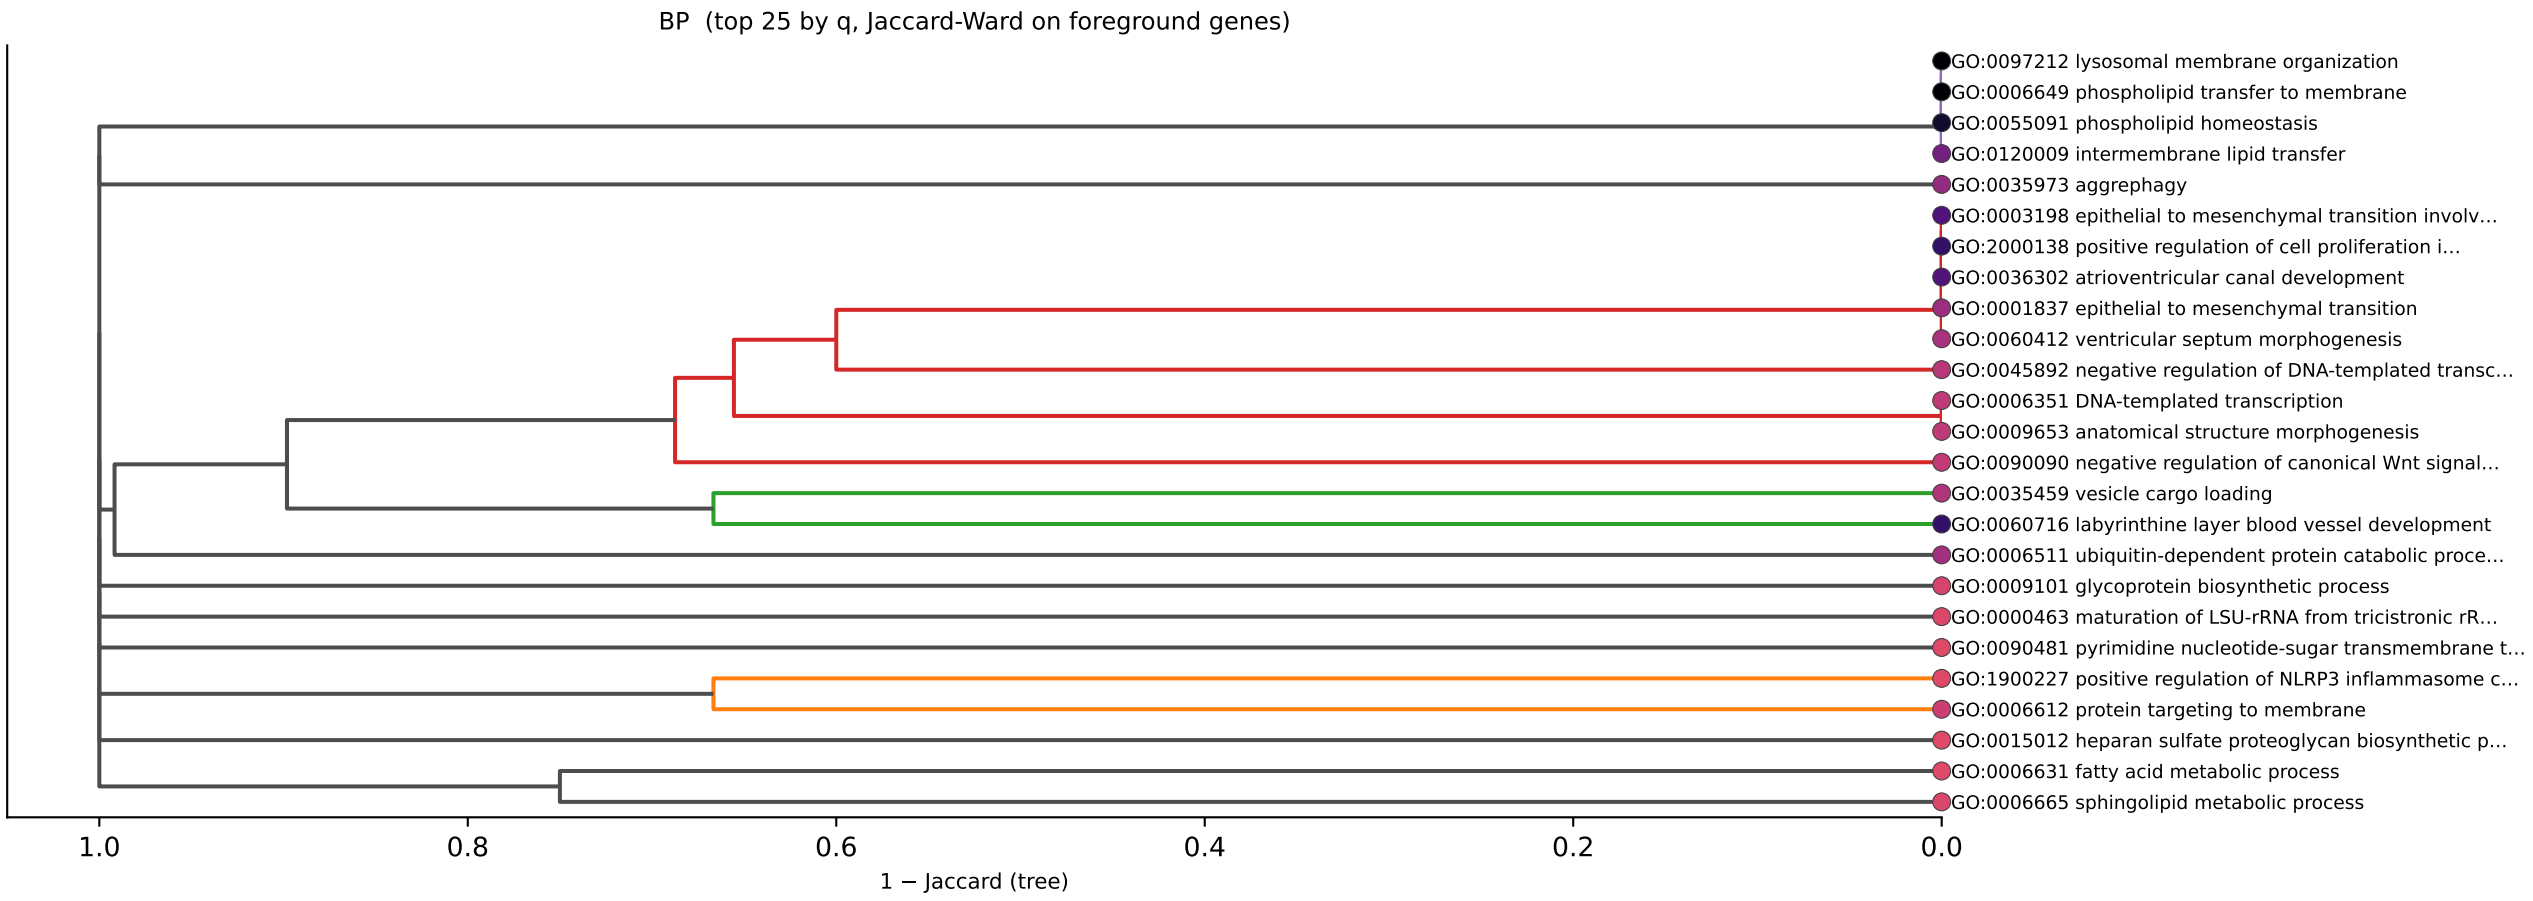
Porifera — GO term clustering by shared foreground genes

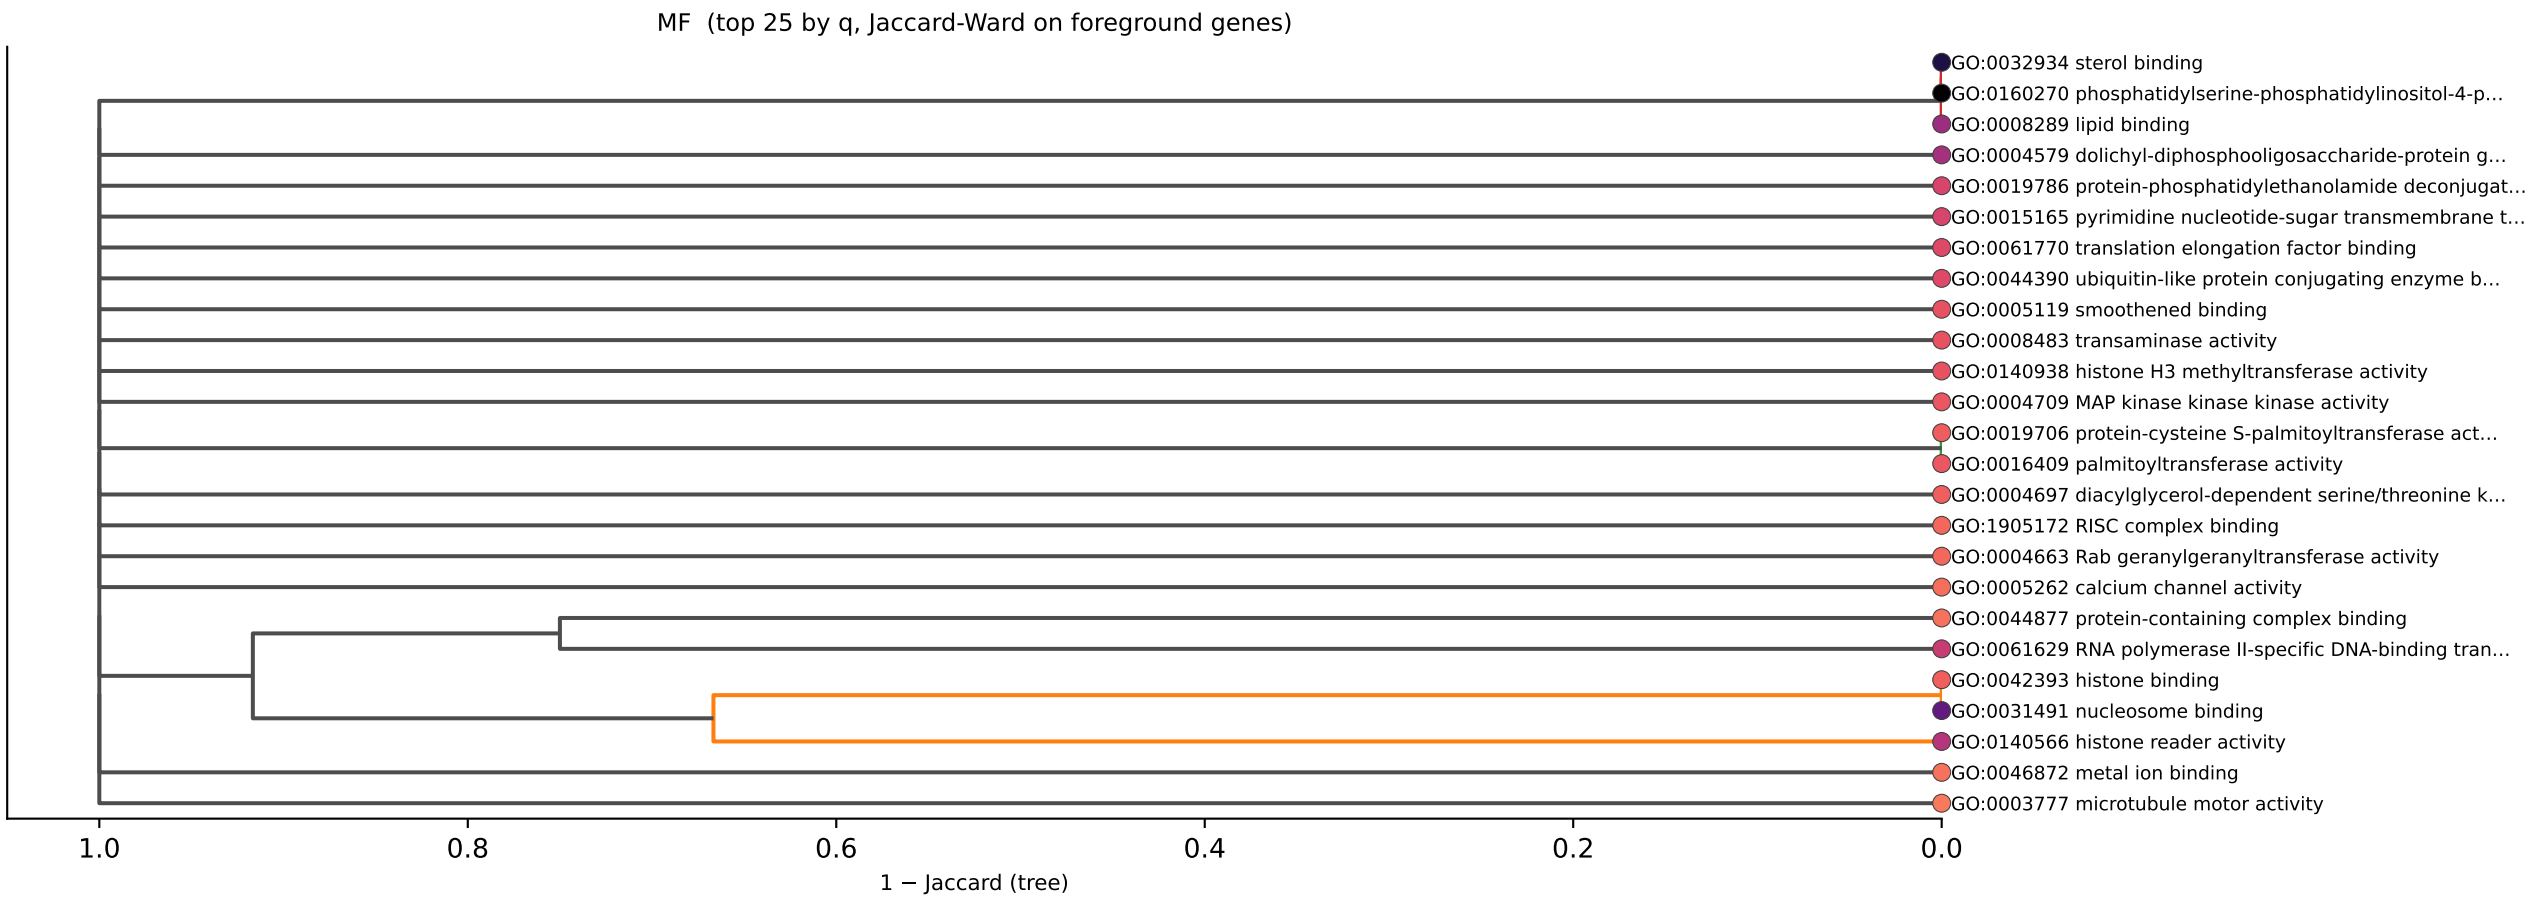


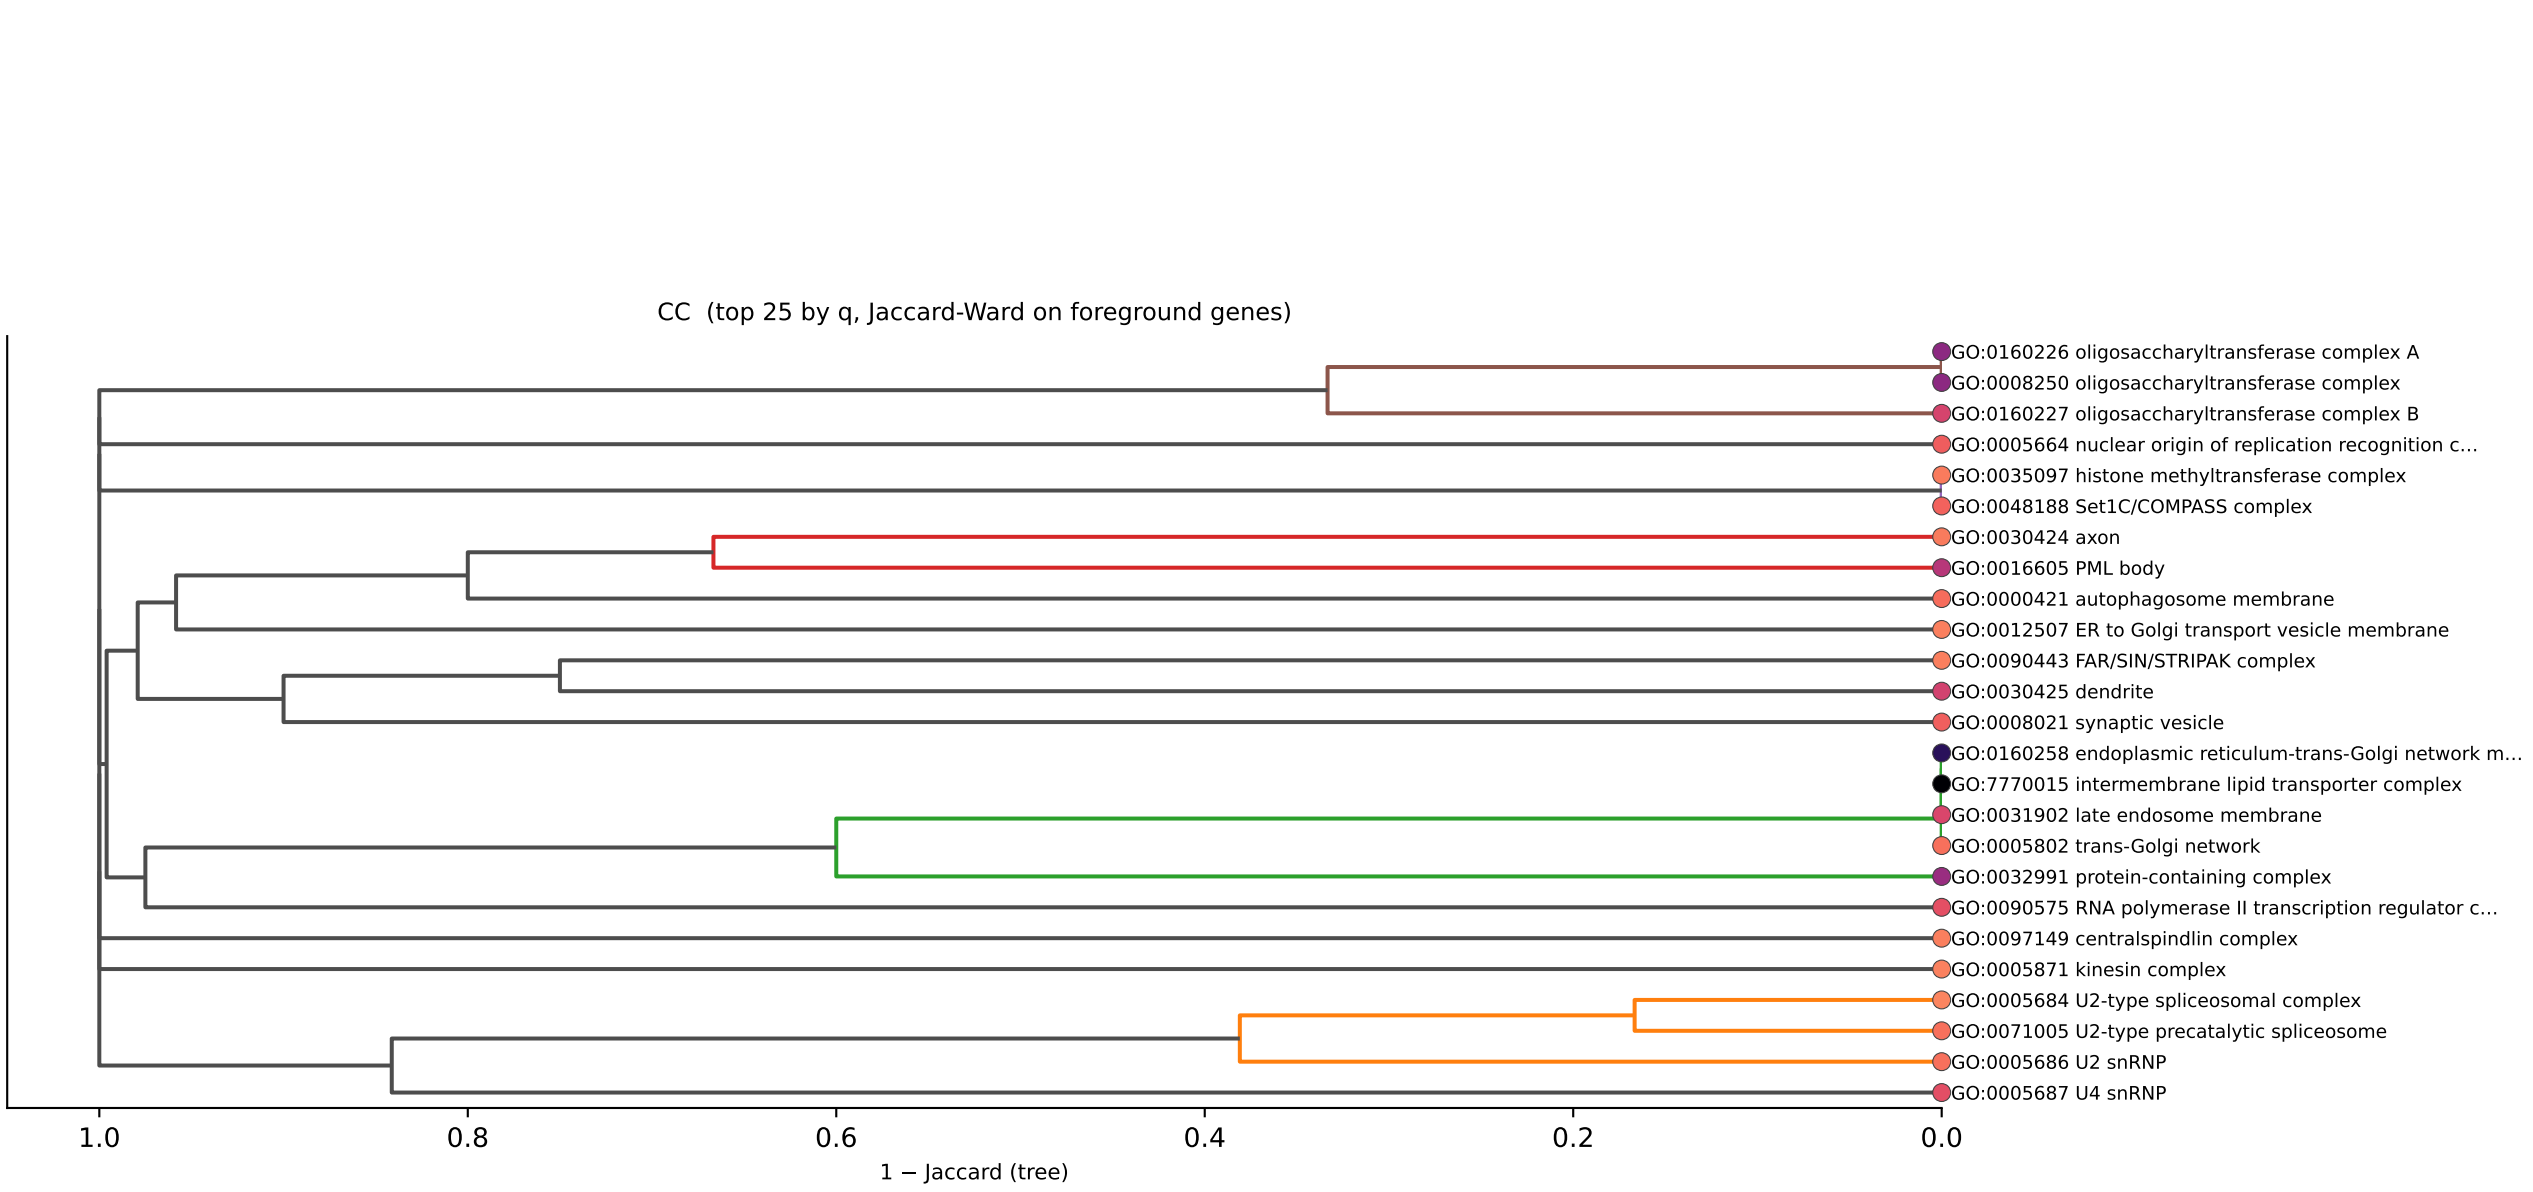




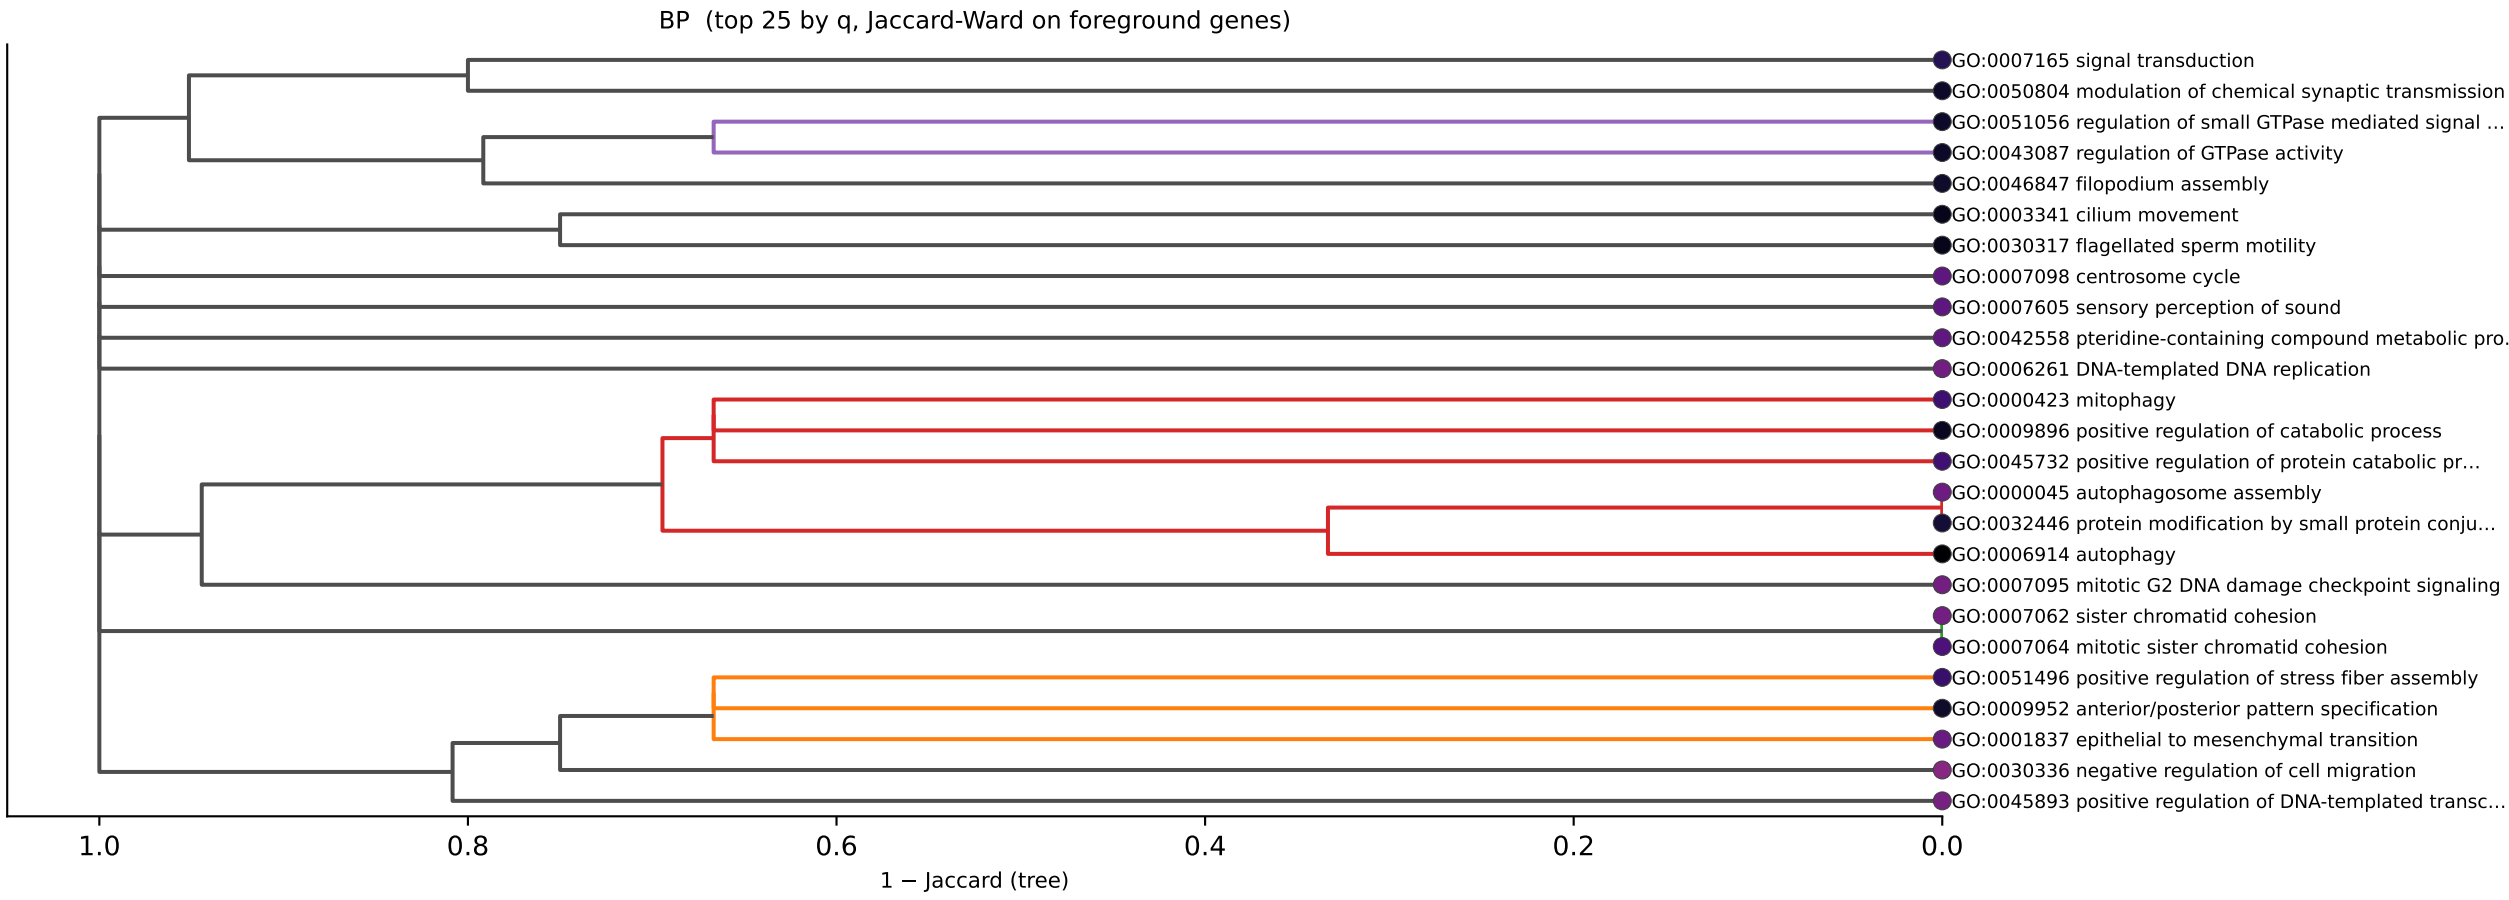
Protostomia — GO term clustering by shared foreground genes

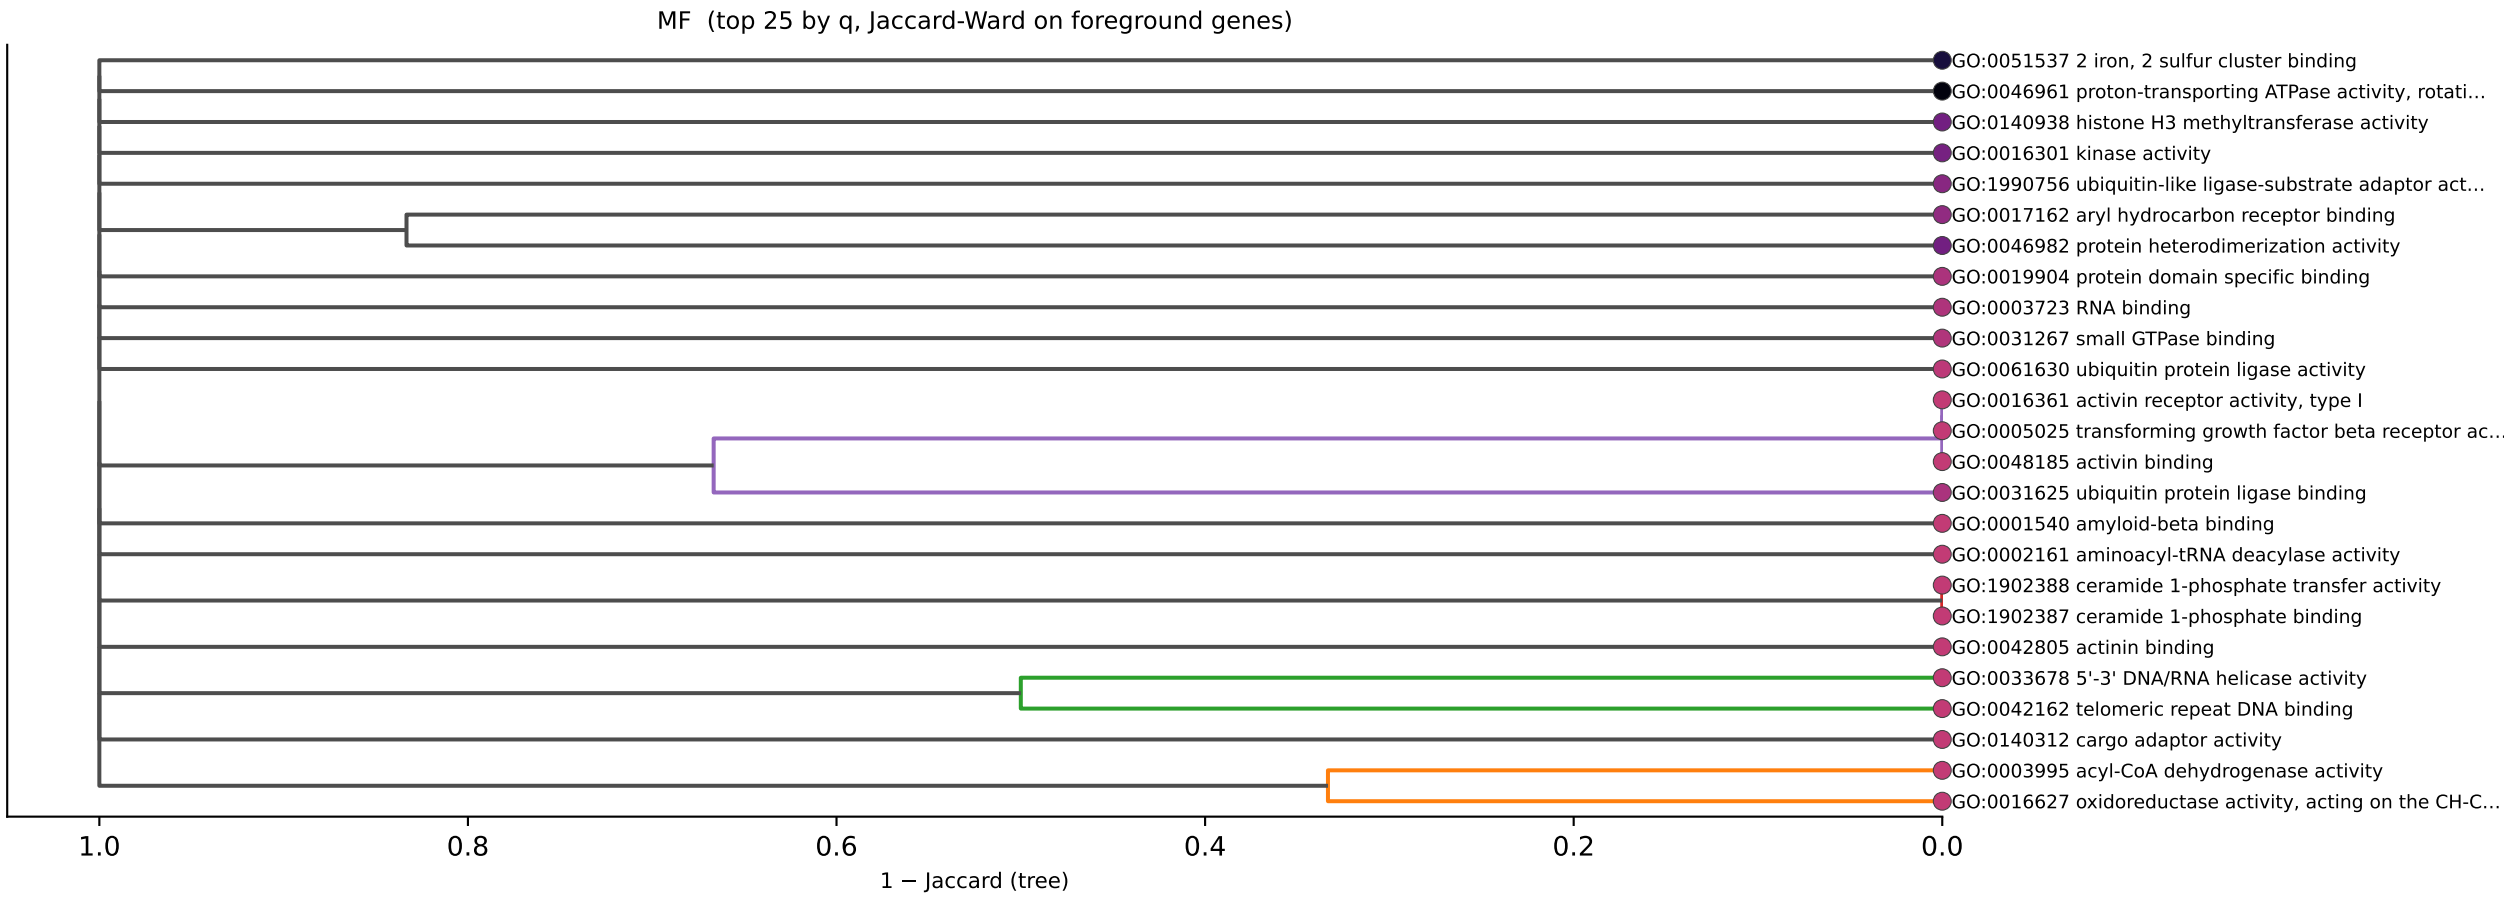


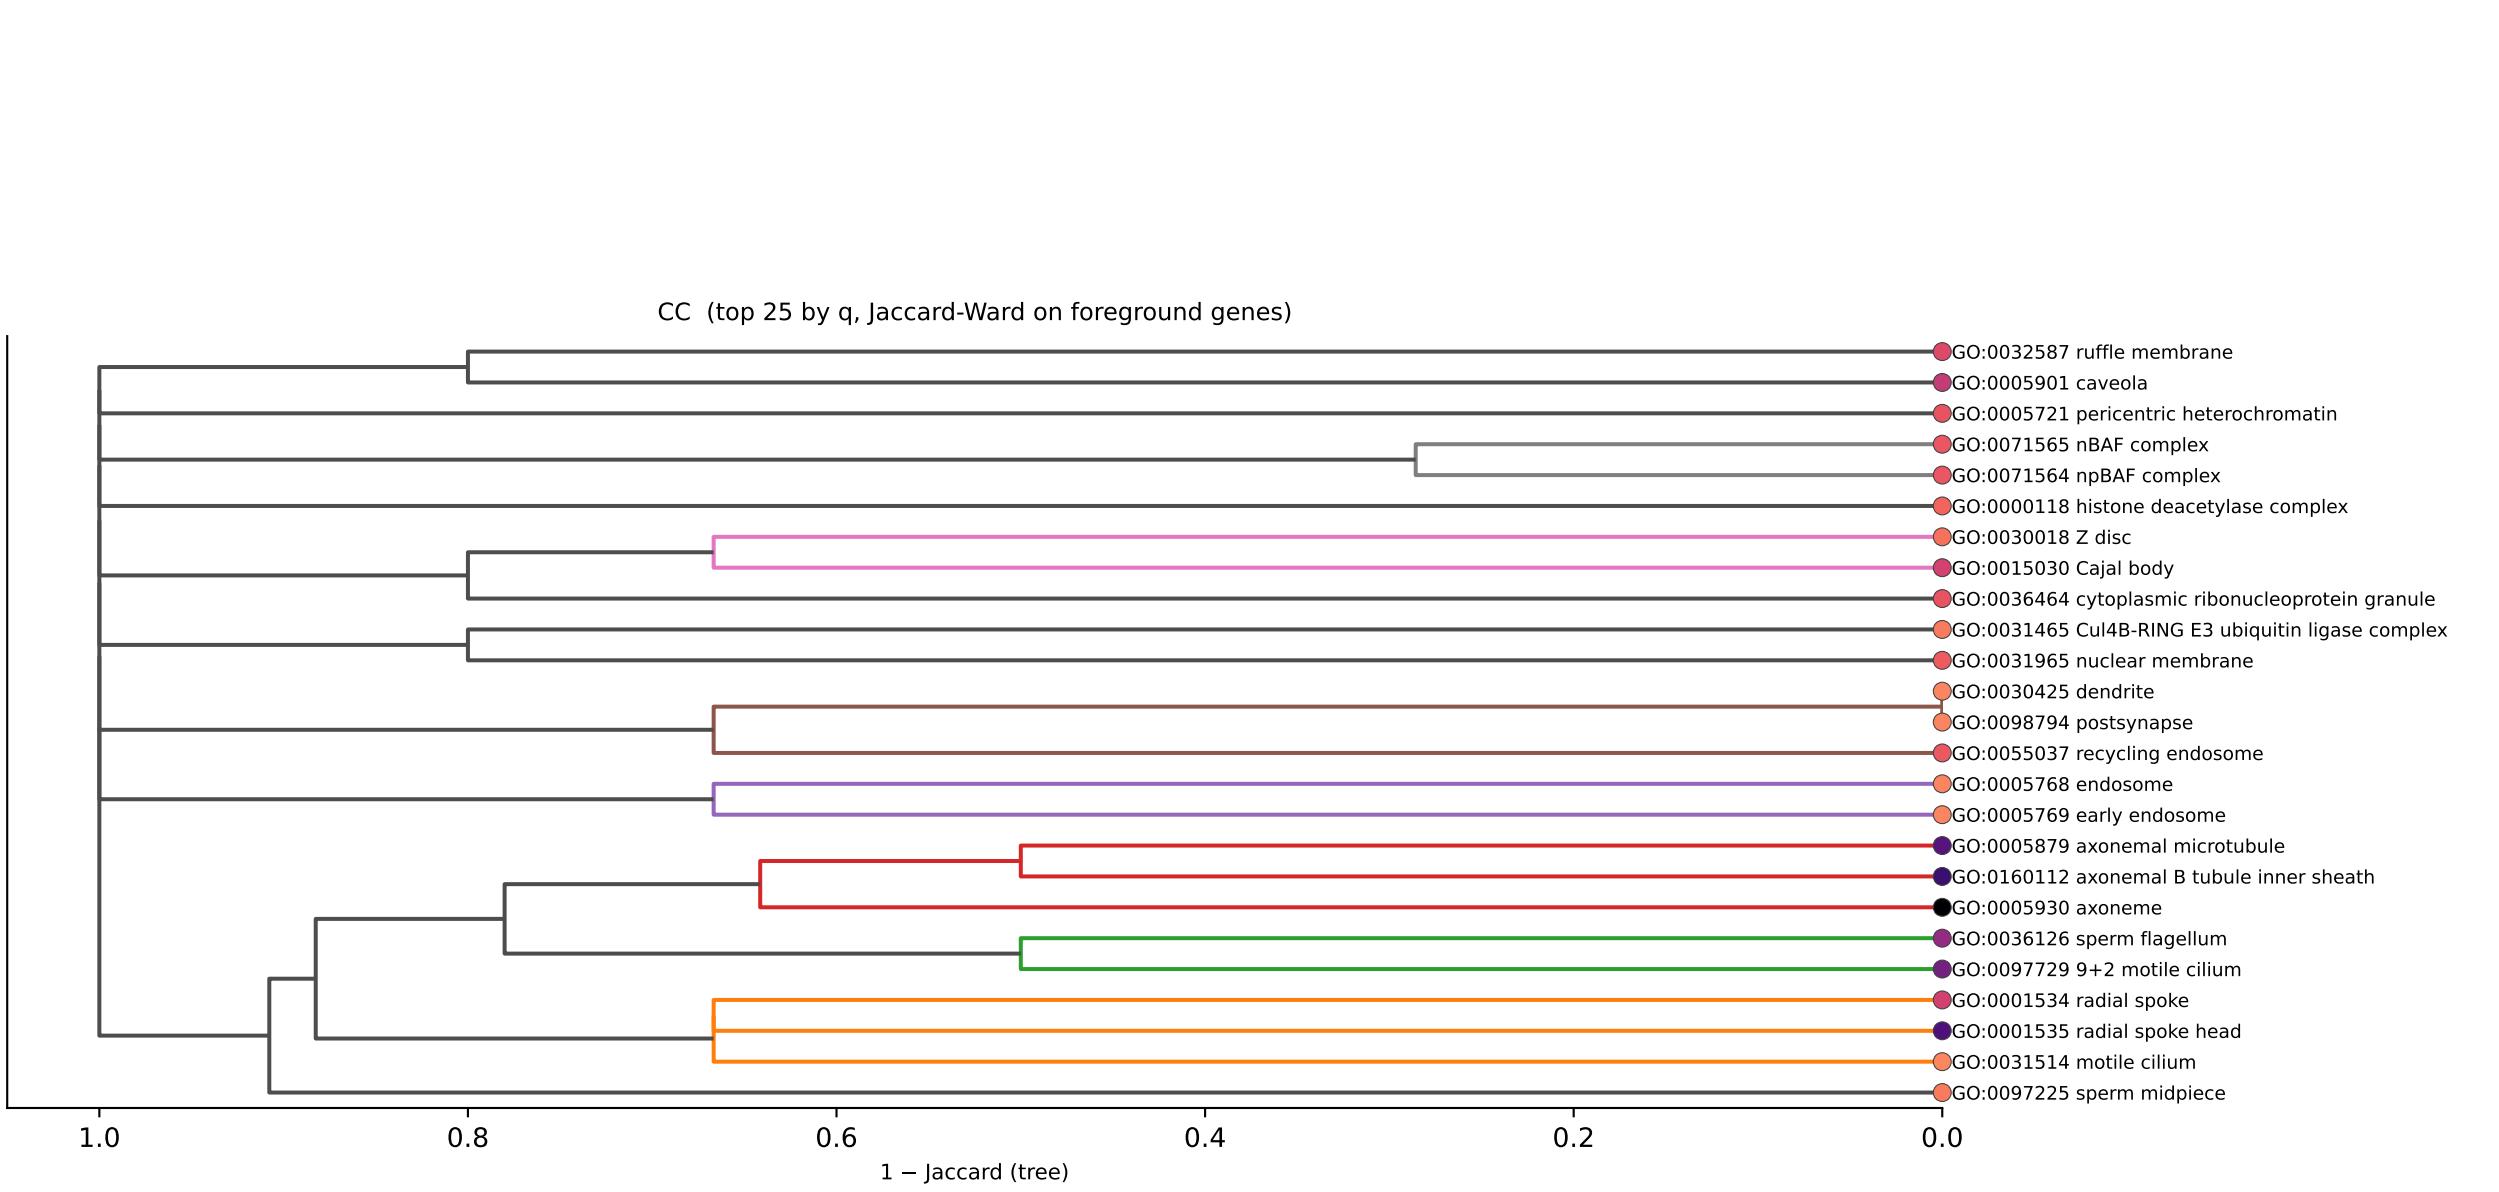




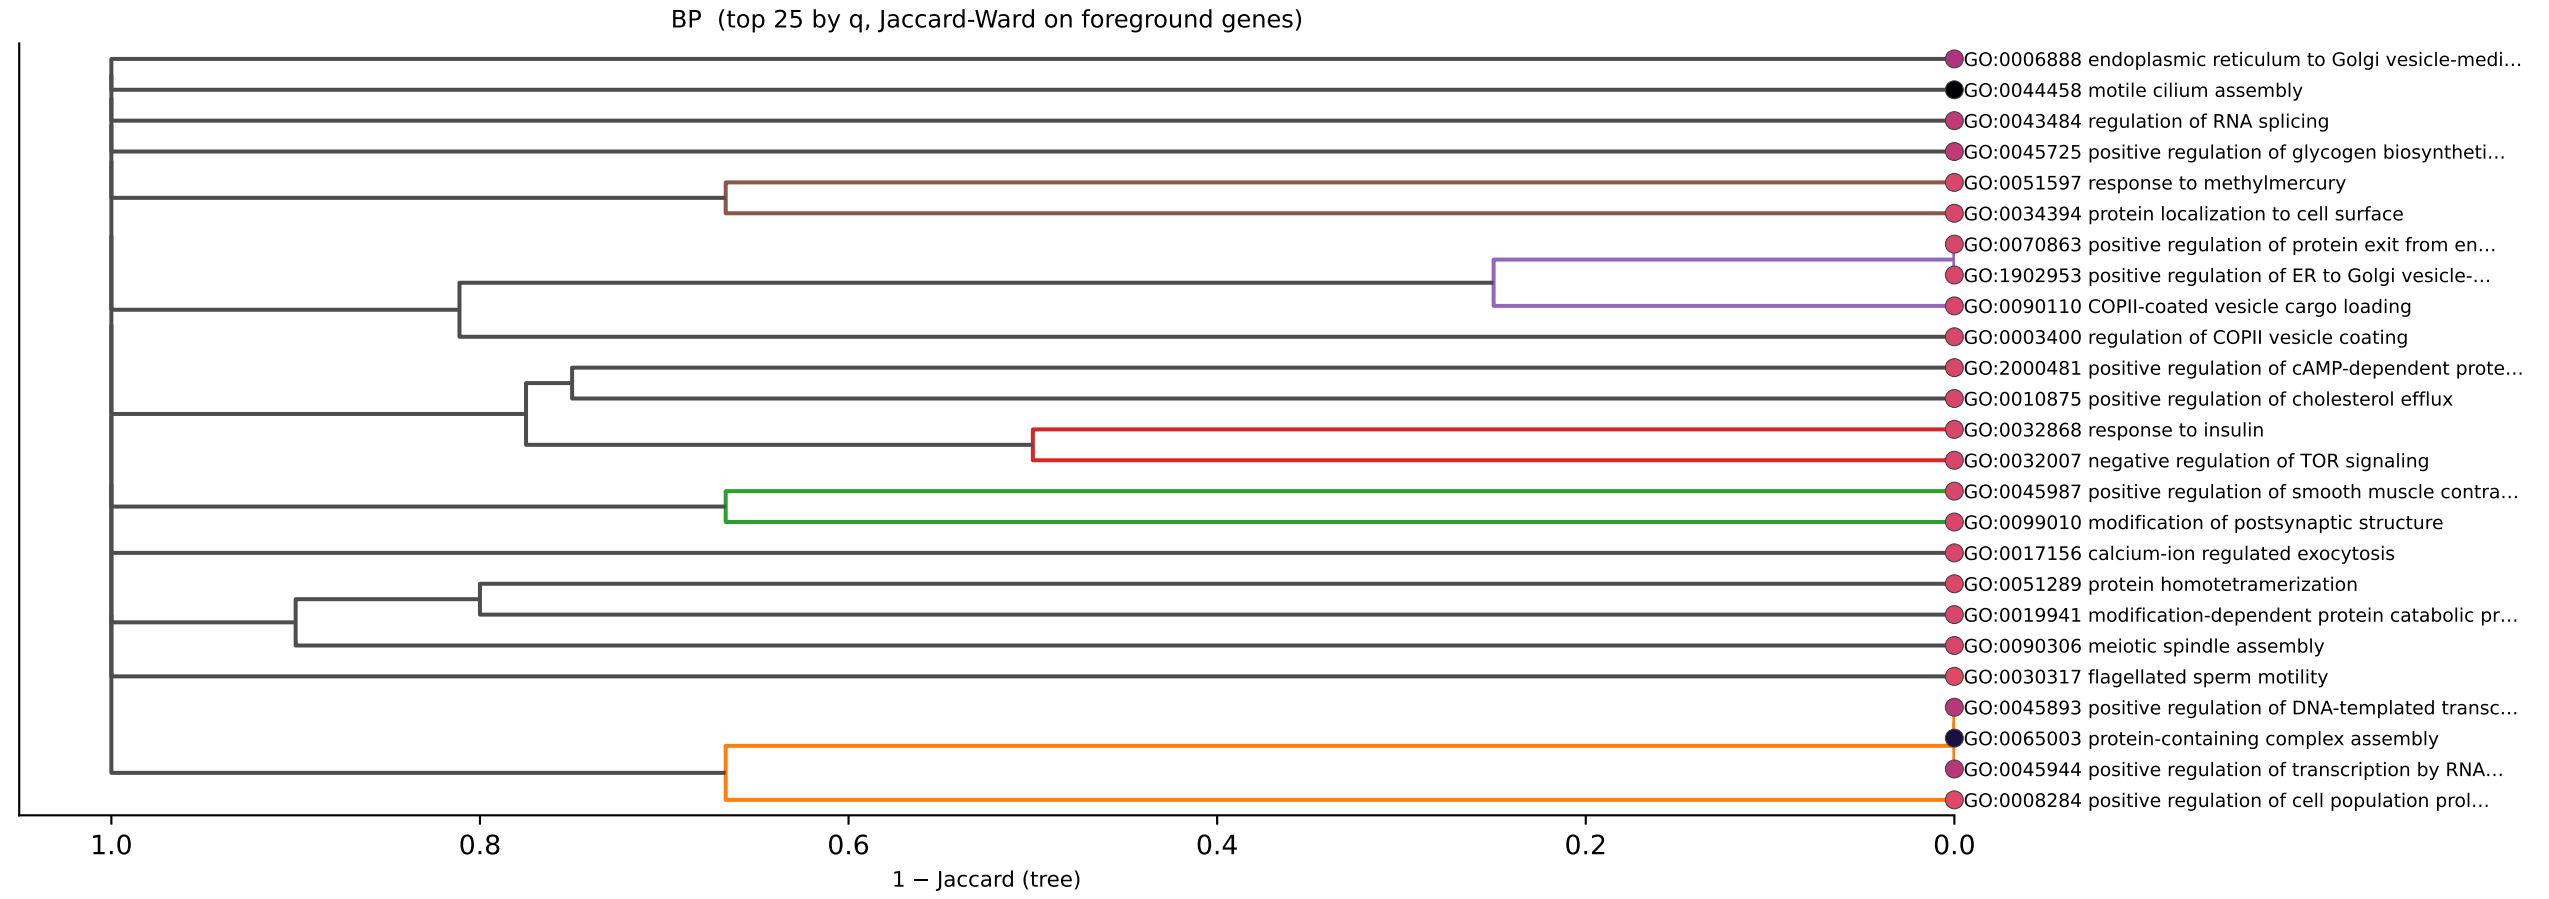
Scaphopoda — GO term clustering by shared foreground genes

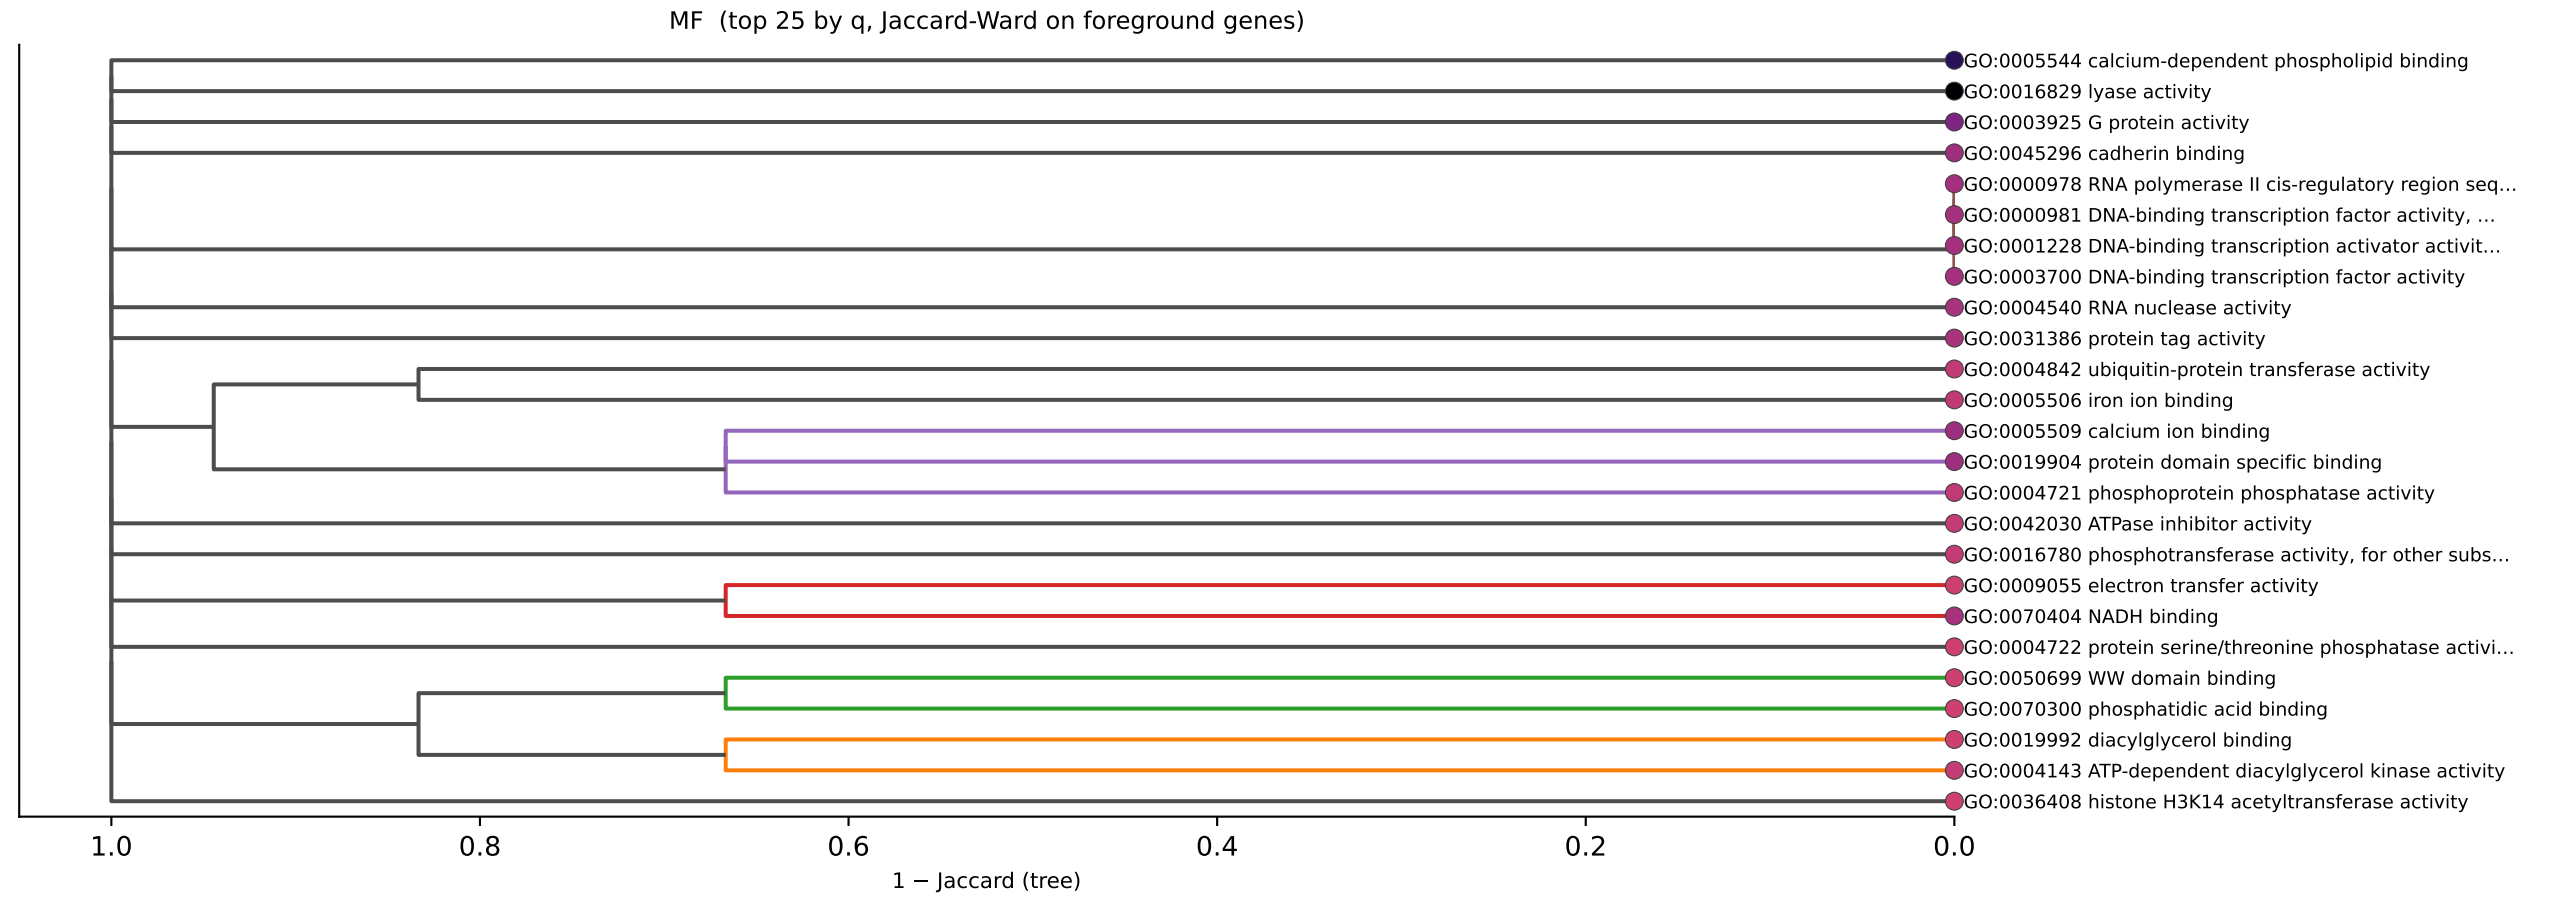






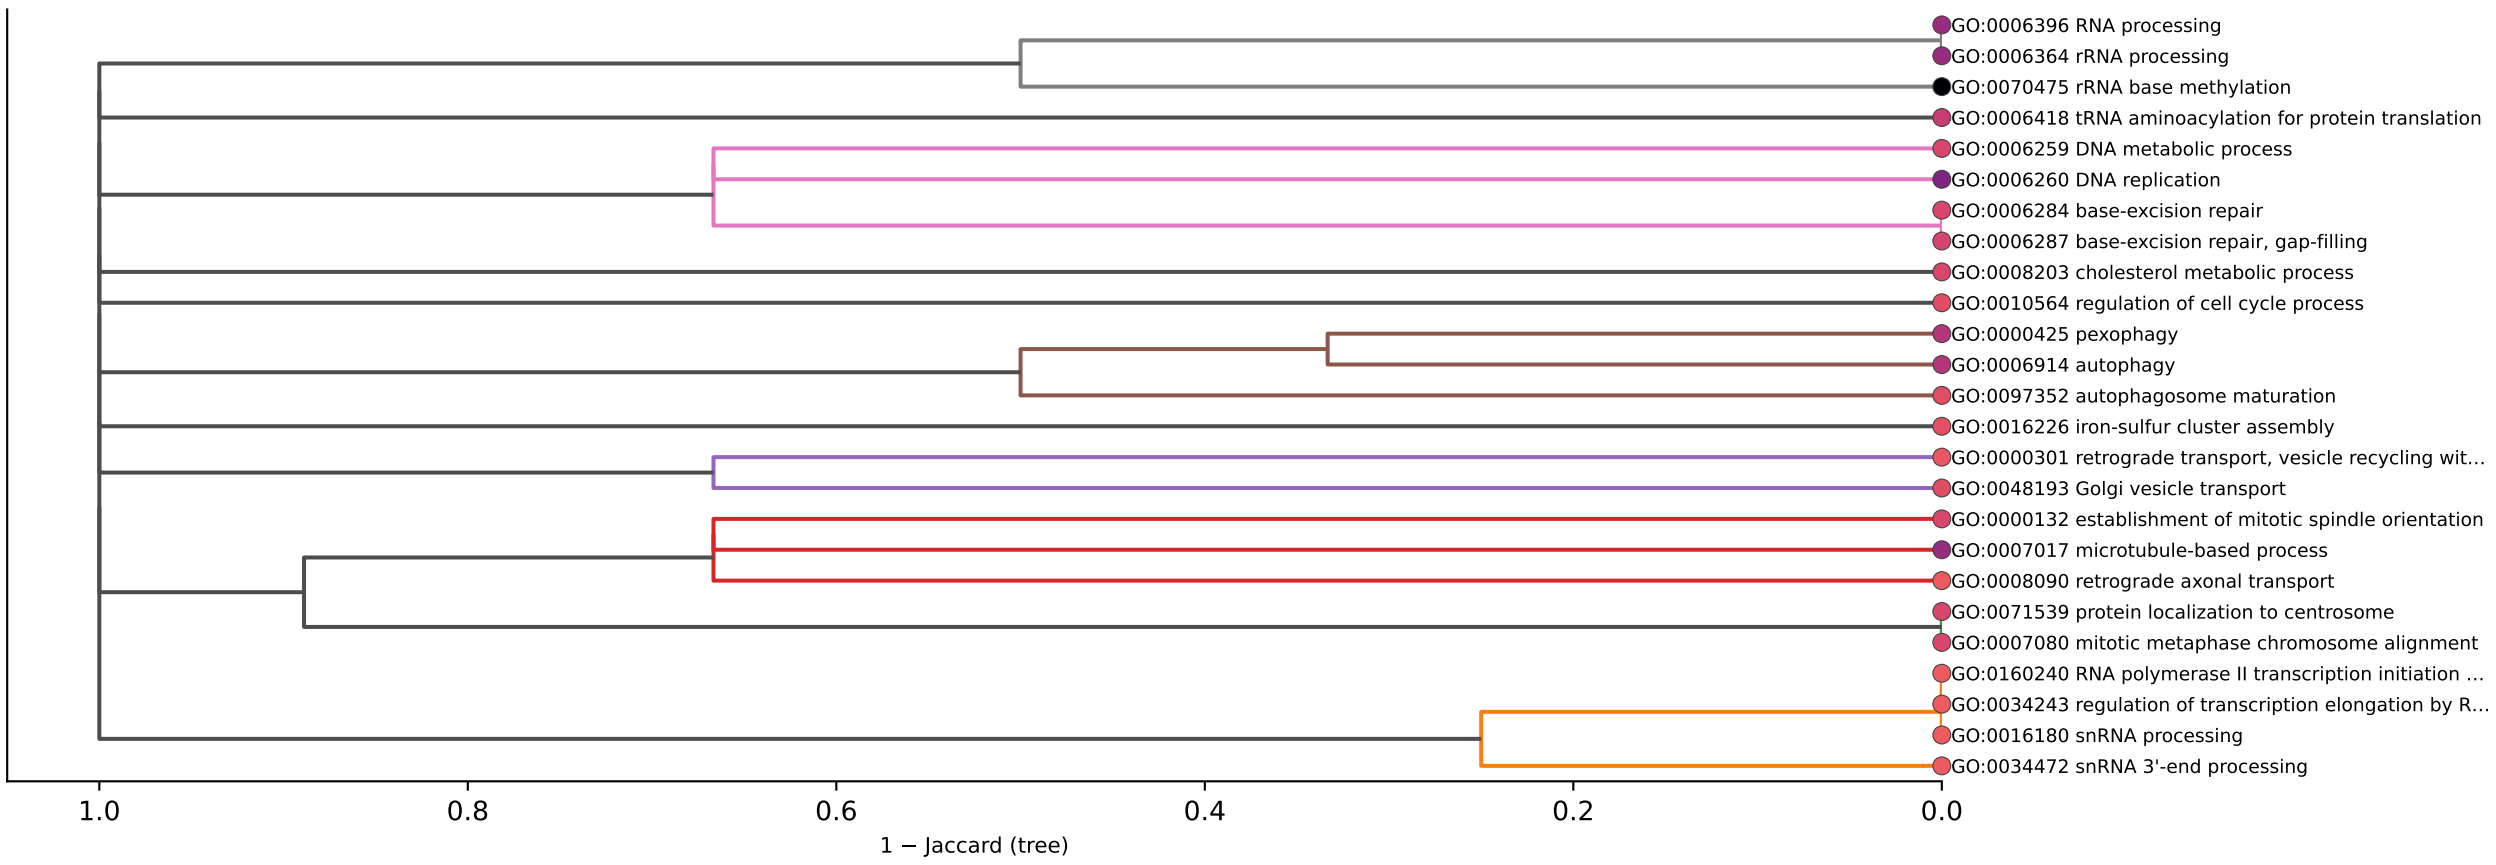
Spiralia — GO term clustering by shared foreground genes



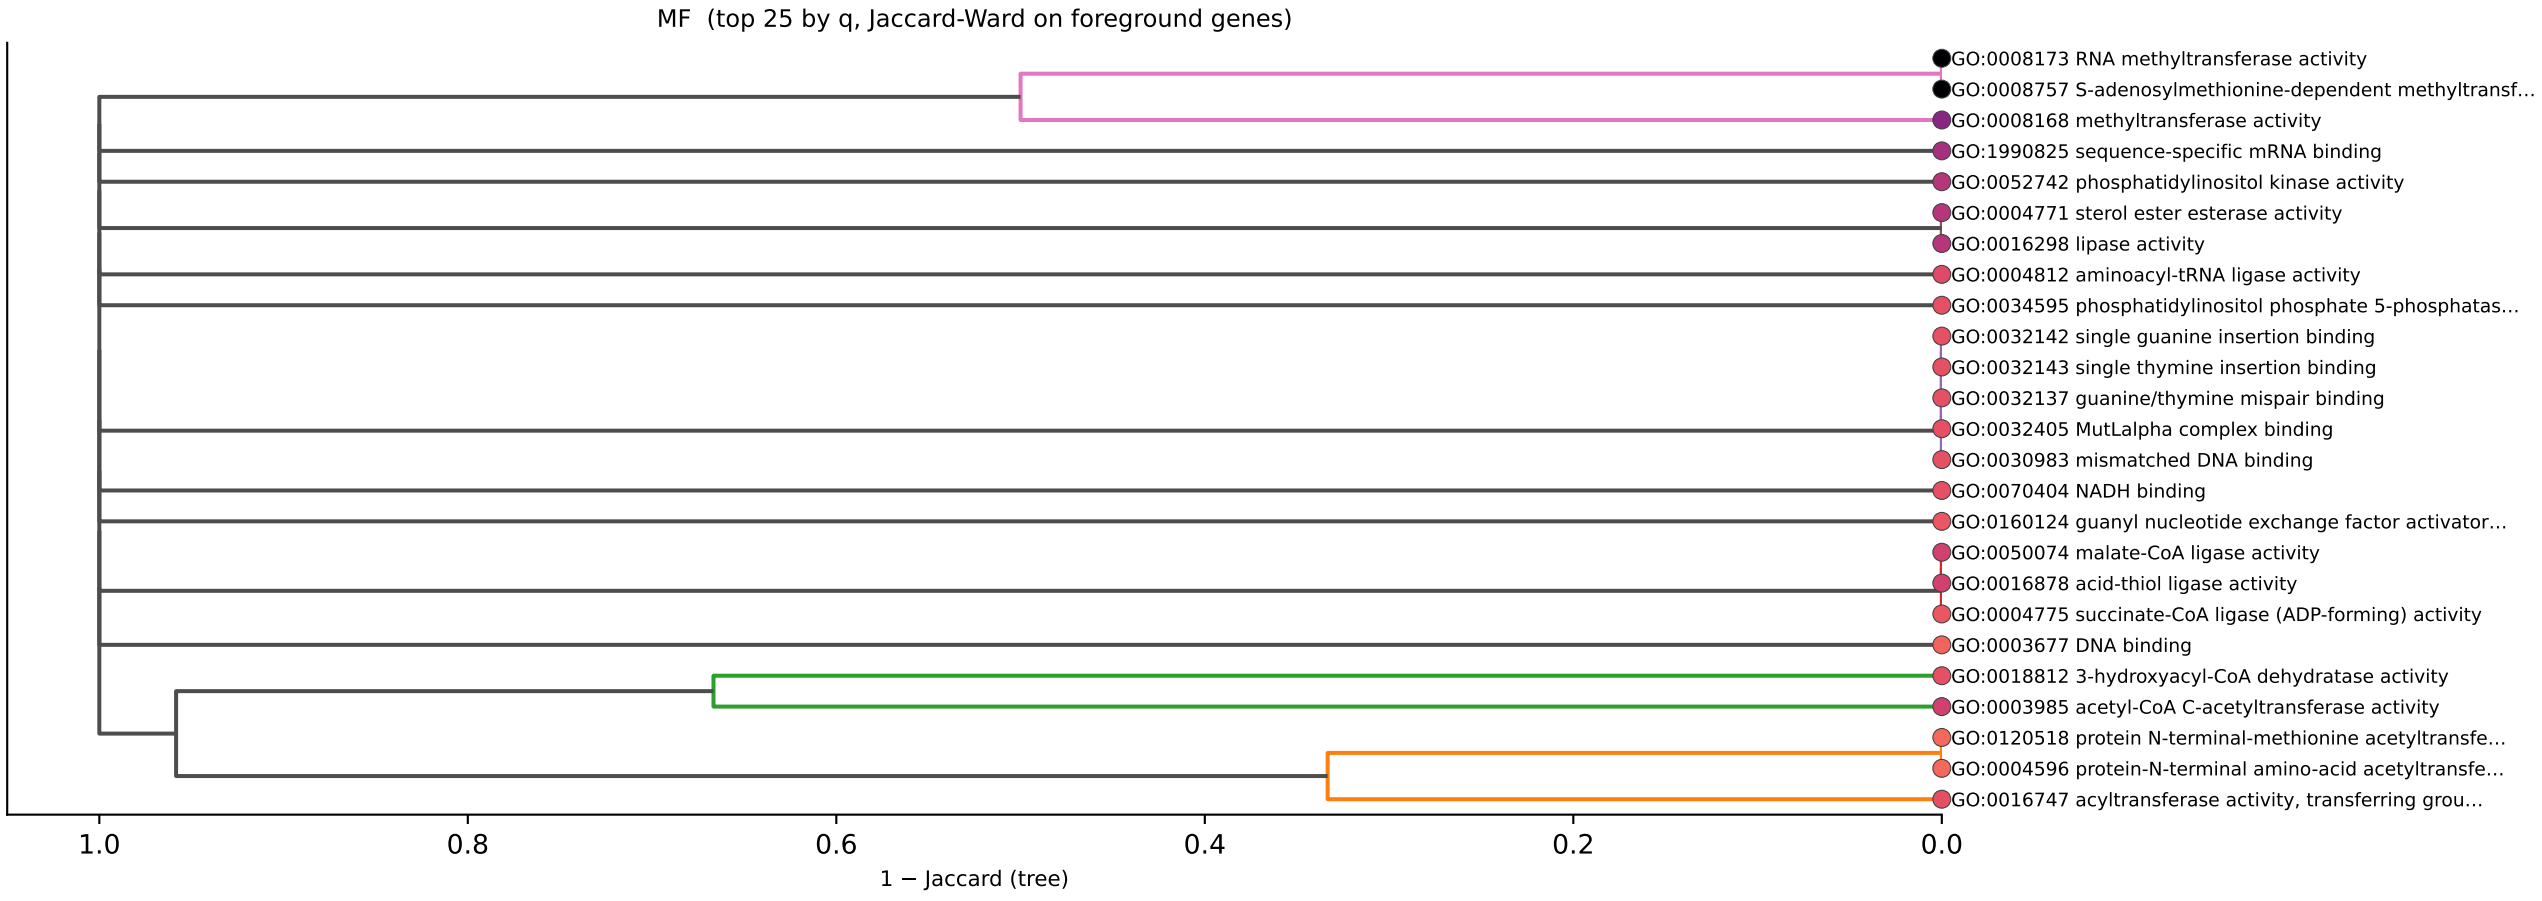


Teleostei — GO term clustering by shared foreground genes

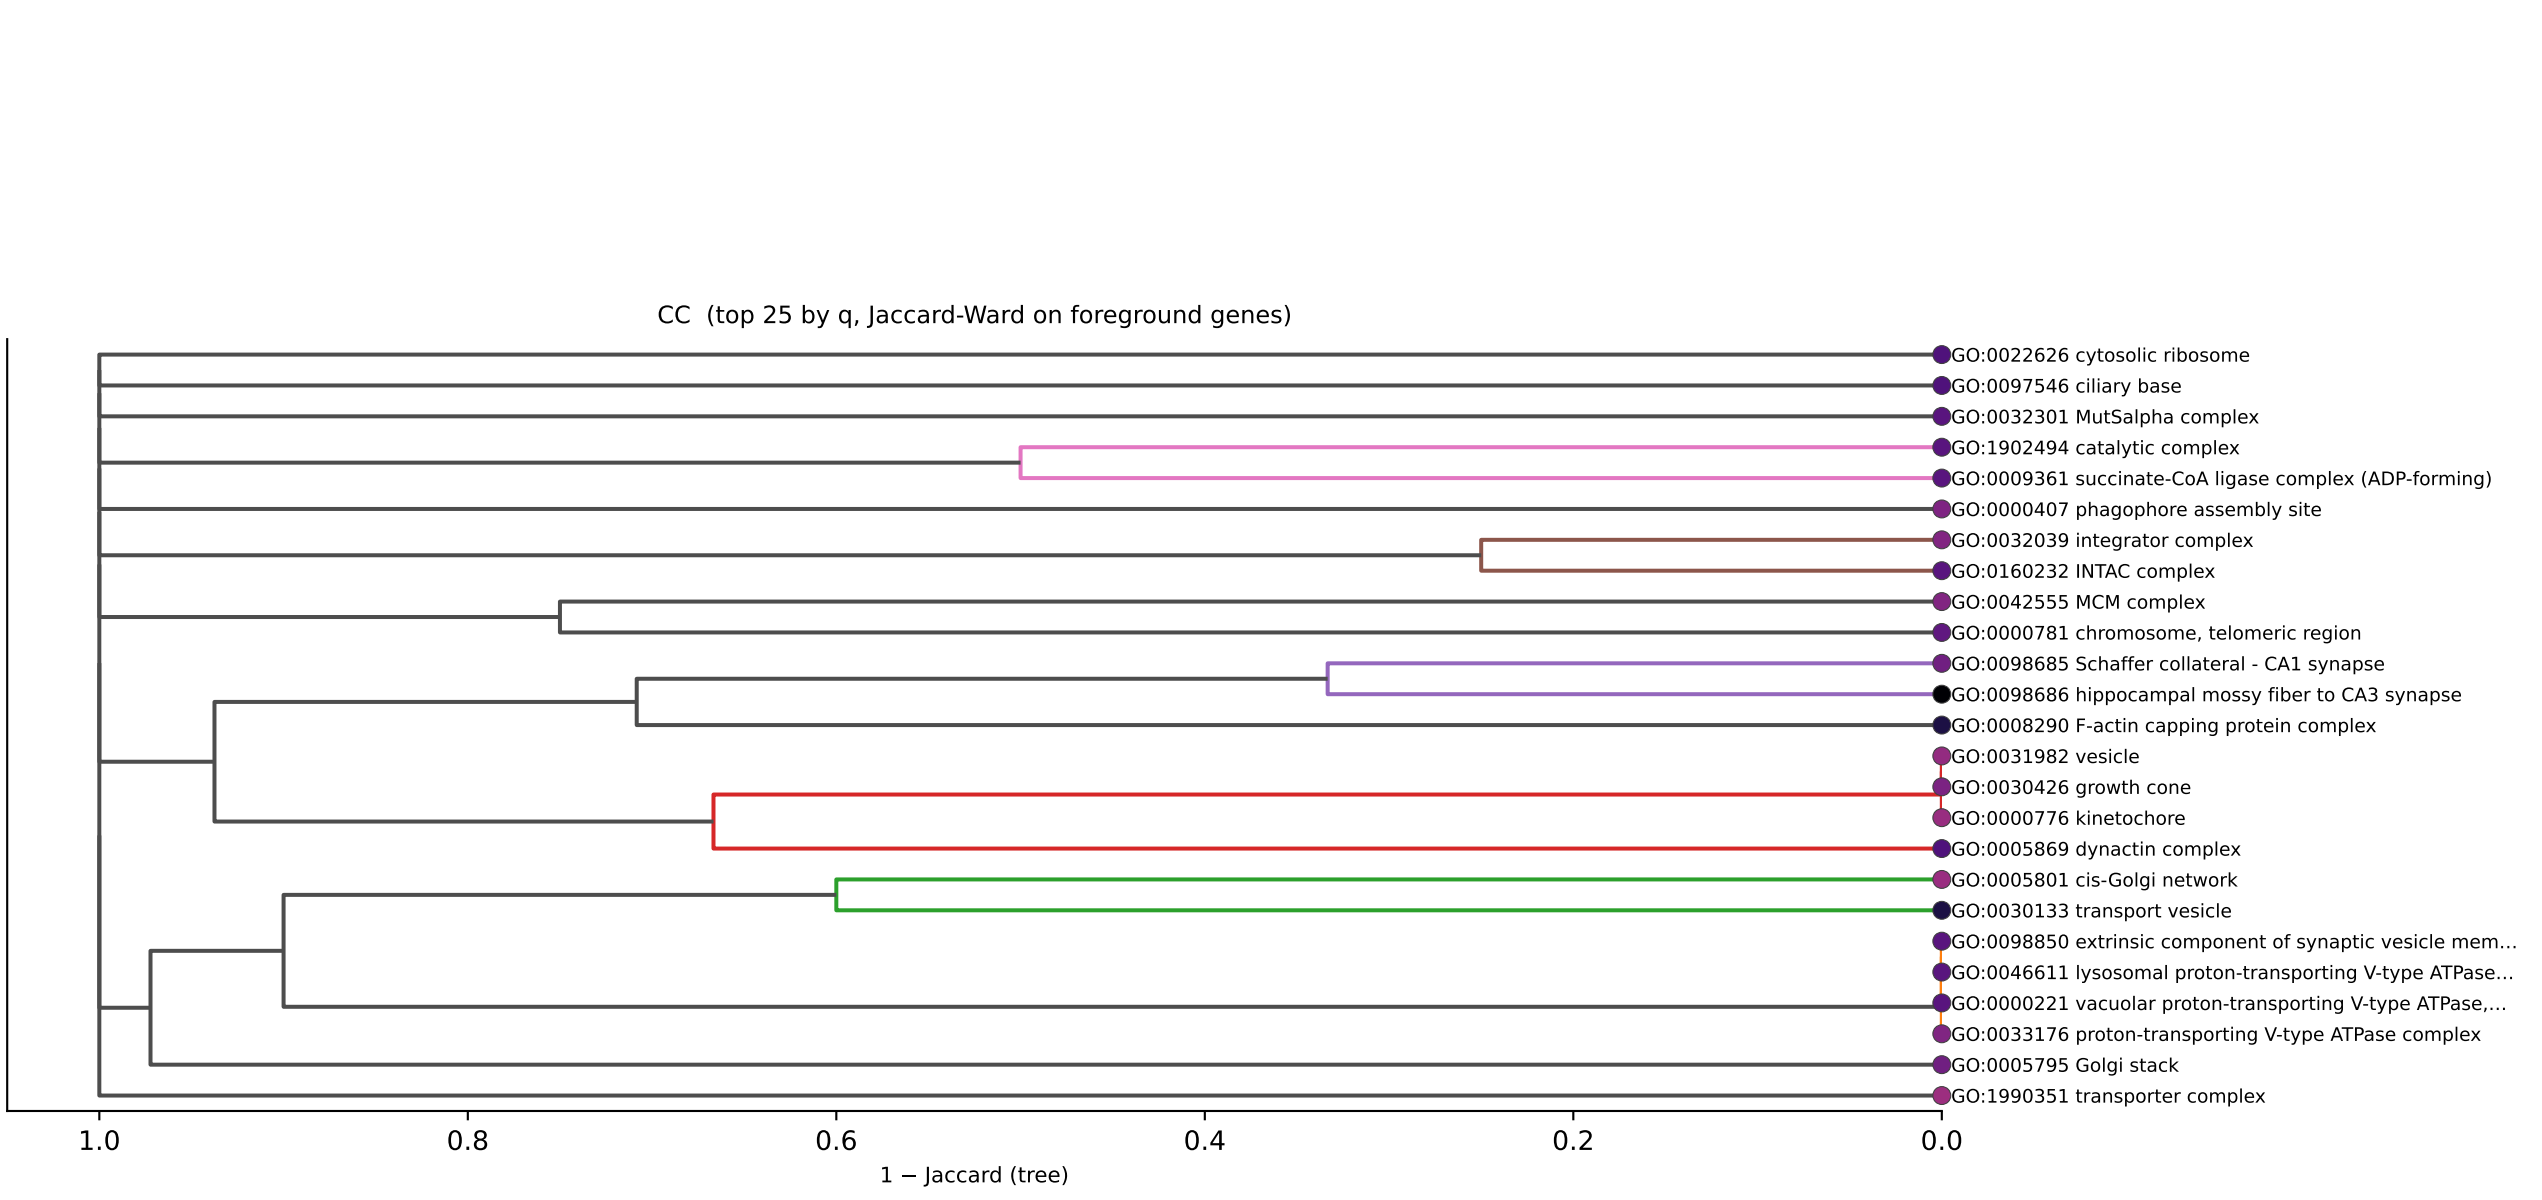
BP (top 25 by q, Jaccard-Ward on foreground genes)



MF (top 25 by q, Jaccard-Ward on foreground genes)

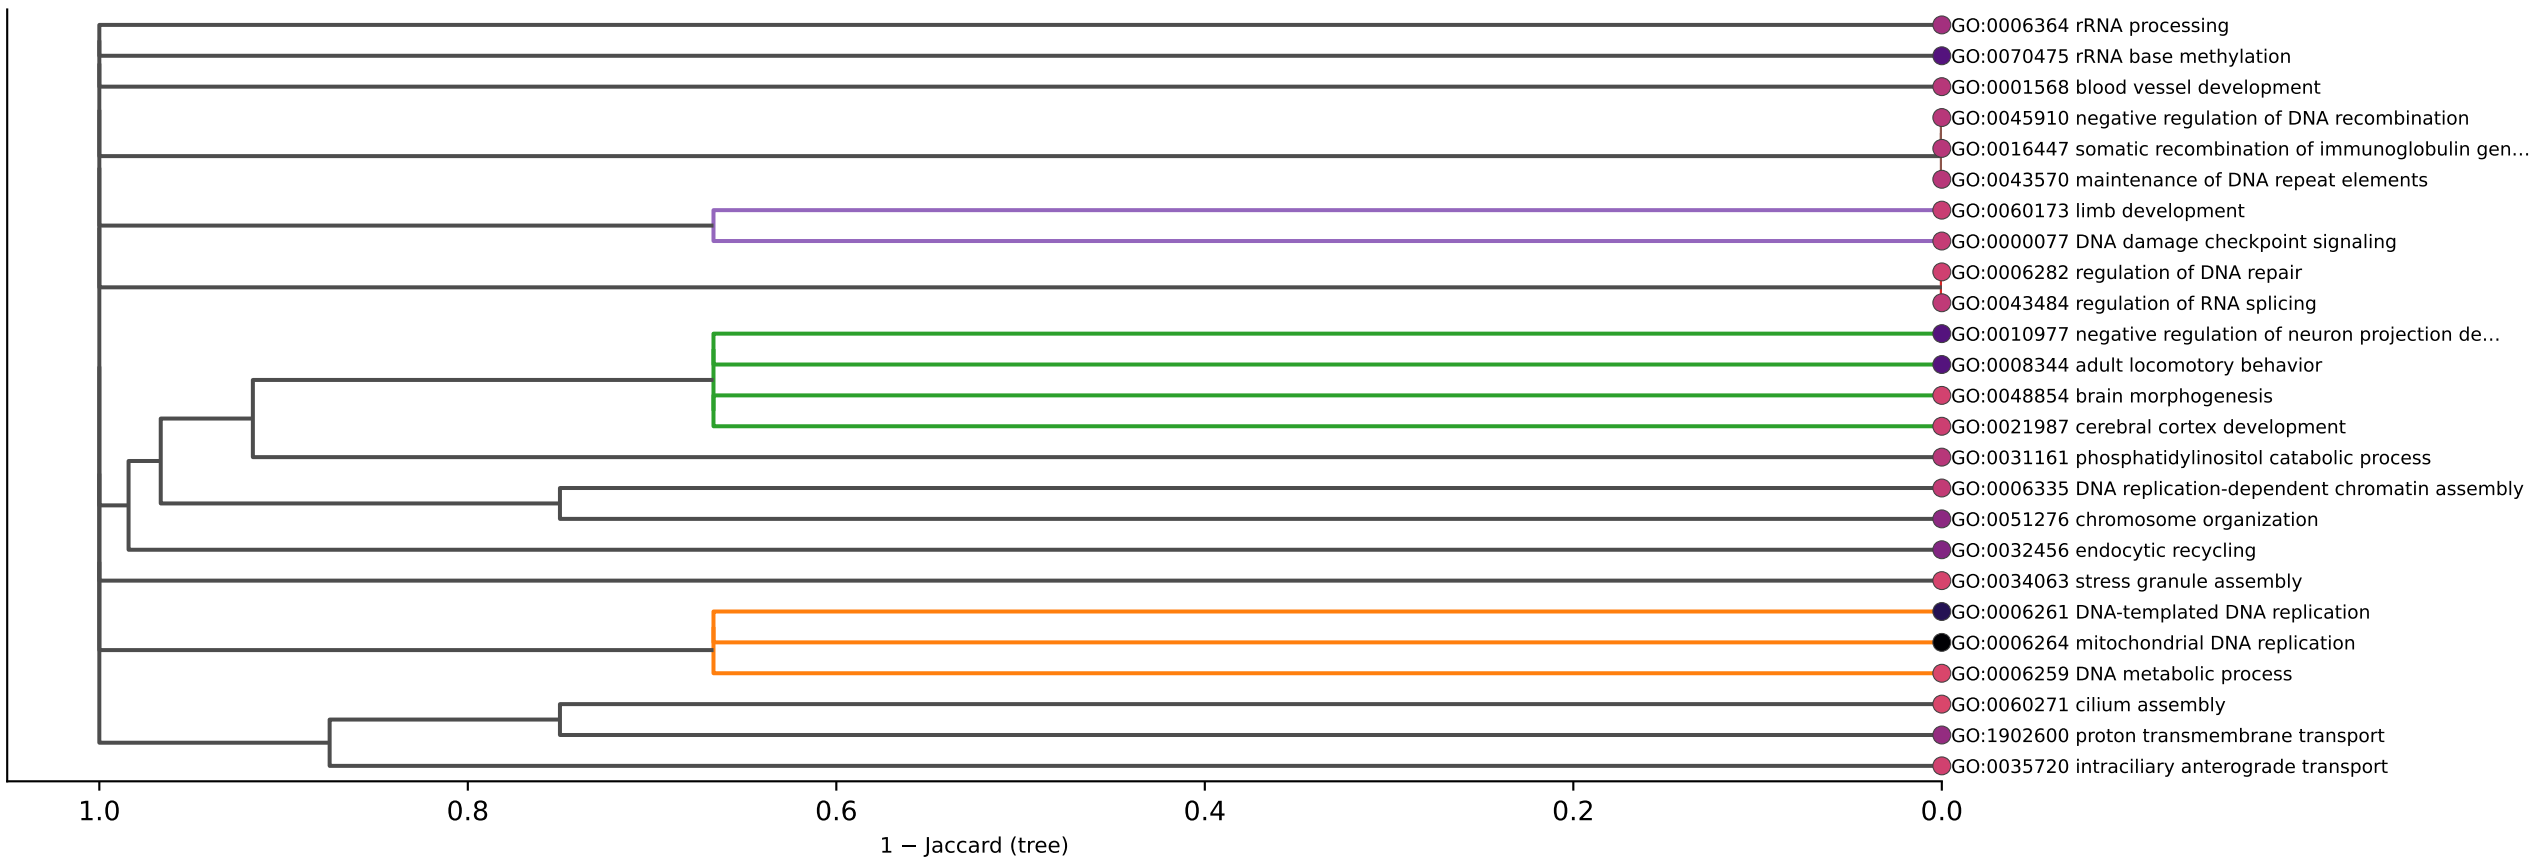


CC (top 25 by q, Jaccard-Ward on foreground genes)

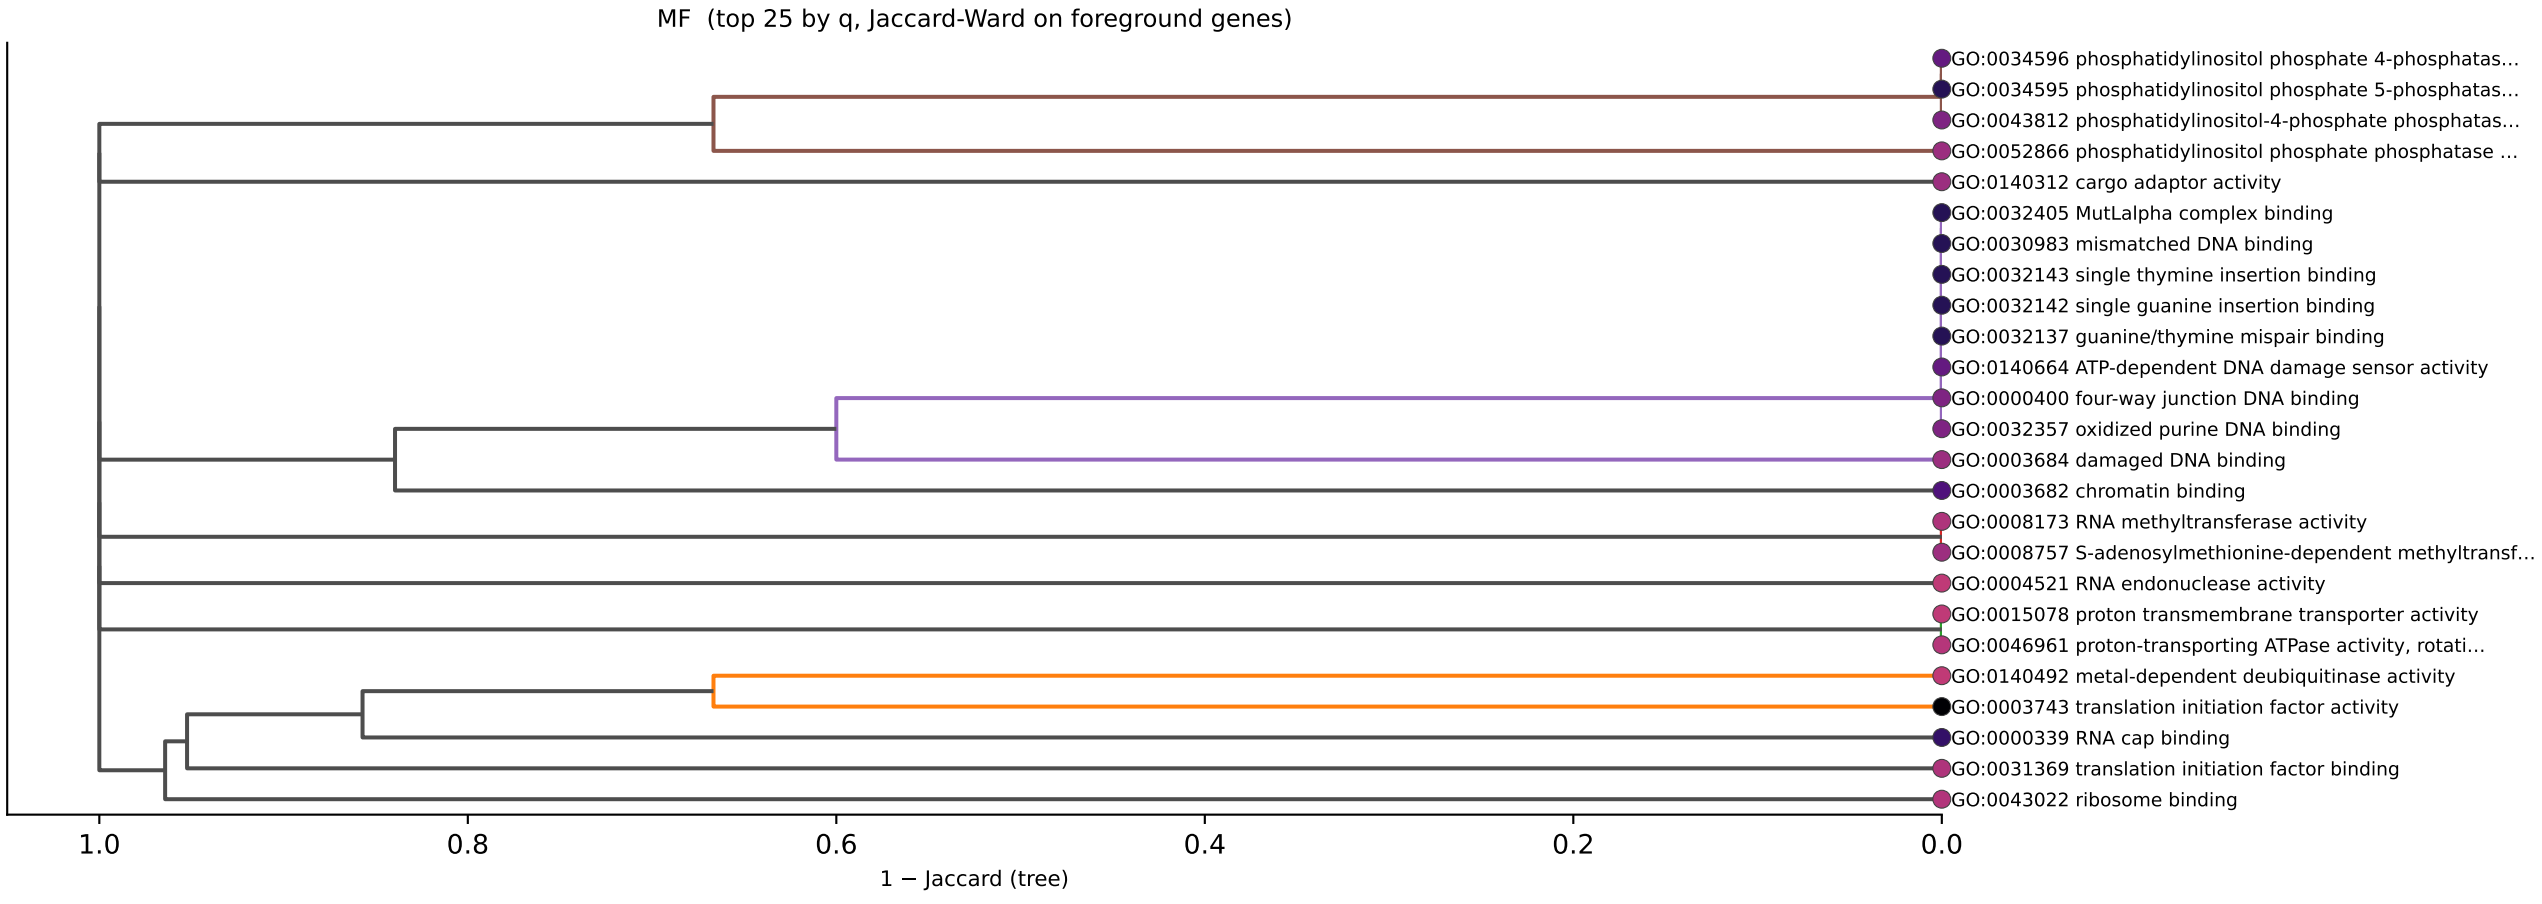


Vertebrata — GO term clustering by shared foreground genes

BP (top 25 by q, Jaccard-Ward on foreground genes)



MF (top 25 by q, Jaccard-Ward on foreground genes)



CC (top 25 by q, Jaccard-Ward on foreground genes)
